GERMANS MAKE BIG AIR ATTACK ON PARIS

Lansingdigh '98 and Smith '98 See
Repulse of Enemy Fliers from
Baloney of the Technology
Club of Paris

FRENCH PLANS LIKE METEOR

The following letter has been
received by the Secretary of the
Technology Club of Paris:

To the Editor of The Tech.

We had an air raid on Paris the other night, and it was a most
interesting experience, for we were just in the middle of it.

I was in the front line of the attack, and saw the whole thing
from above. The raiders were flying in a very straight line,
and they were very high.

I had a chance to take a picture of one of the German planes,
and I think it was a very interesting experience.

I'm sending the picture to you, and I hope you will publish it in
The Tech.

Yours truly,

[Signature]

A FORD ABBREVIATION OF THE USAGE IN FRANCE

A MELIAHCE NO. 784, Boston to the American Field Service
in France has just been received, which replaces number 791,
which was recently shipped out by a German ship. This number will
be published in The Tech in the near future.

A RESIDENTIAL SERVICE TO BE SERVED TECHNOLOGY

Paris Club ready to execute Commissions in Paris

For Men in the Trenches Will Develop

Photos and Send Them to Firing Line

OTHER MEN AT HOME IN 7 EUE DE LA FORGE

BULLETIN NUMBER TWO of the Technology Club of Paris has just been received from

Francois Van Rensselaer, '98 directo-

r of the club, which contains several

interesting items of news and

information.

EVERT J. WRENDELL DEAD

IN AMERICAN HOSPITAL ABDOR

PARIS, Aug. 25.—Evert J. Wrenndell,

famed aviation expert, who was killed

in Yolo's Olympic Games Committee

at the age of 35, died in the American

Hospital abroad.

THE TECH WILL BE THE TWO STORY

The first issue of The Tech will be published in Paris on

August 25, and will contain

a complete edition of the newspaper,

as published in New York.

THE TELEPHONE WILL BE

The telephone will be installed in the

club, and will be available to all

members.

(Continued on Page 3)

What They Think of The War Time Tech

Paris, Aug. 15.—My dear Miss Adas,

I am pleased to hear that you are

interested in the progress of the war,

and I hope that you will continue to

support The Tech.

Yours truly,

[Signature]

General Francis Walker, second pres- ident of The Tech.

(Continued on Page 2)

THE UNIVERSITY OF THE LUCKY

naval aviators will be in new

Union Tuesday morning

General Frank C. Walker, second pres- ident of The Tech,

will address the naval aviators who

will be assembled for the

inauguration of the new building.

NAVY POINT CLASS, 1893, IS GRADUATED EARLY

Roper Man is Rejected for Diploma Pending

Graduation

West Point, N. Y., August 15.—

As far as the responsibilities and duties

toward the conscripted men they are

considered, was given to the newly

made officers of the university academy

graduating class ready today by

Colonel of War.

The men are of the class of 1893, but have

toon off their diplomas 18 months ahead of time.

Cyril C. Cuskey, of New York City, who

was the same class of the class, was

not given his diploma pending the out-

come of a recent court-martial for breach

of the regulations made against him.

In the same plait was John T. Nelson, of New York.

They will both be held out until their cases

are settled.

The first ten men in standing in the class in order were:

Cyril C. Costley, Harry A. Walker, F. A. Barnum, A. C. Dunsby, W. O. Bly, Rafter, L. N. Monrie,

The class lost 106 names.

FOREIGN CAMERAS ABROAD

The Foreign Camera Abroad

This week the Foreign Camera Abroad

published an article on the

advantages of using foreign

cameras in France.

(Continued on Page 2)
WAR IS TERIBLE!

The passing of the chicken-wire offices in the basement of building one which housed Technology's student activities for many a summer year marks the end of an interesting epoch in student life.

To the activities the intimate contact and lack of privacy which resulted from the use of temporary structures ceased to be an inconvenience and helped to breed a feeling of good-fellowship and cooperation among the students and the year 1916-1917 ended on a successful note.

For the coming year the life of the undergraduates will be a difficult one as a result of the army and navy demand on the services of the students and all the available room in the Institute buildings.

The Walker building will be filled to capacity with naval activities, and the space used last year must now be used for machinery of war.

The activities which will continue during the war must be housed somewhere; so the little wooden building on Massachusetts Avenue, formerly used by Stone and Webster, has been pressed into service.

The Tech will have its new home on the first floor. Room for two or three offices and help to breed a feeling of good-fellowship and co-operation.

The Managing Editor is always responsible for the opinion expressed in the editorial columns, but it has not been customary to allow the Managing Editor to sign any of the articles written for publication.

The Managing Editor will have charge of the club as Assistant Manager.

Due to the holiday next Monday and The Tech's move to its new home, there will be no issue of this paper next Tuesday. The next copy of The Tech will appear Friday, September 7.

Friday, August 31, 1917

CENSUS COMMISSIONS

Military commissions the very week have been given direction of thirty schools for handling the entrants. The commissions will be efficient one.

The Editor-in-Chief

The News circulated by THE TECH is the official news organ of the Massachusetts Institute of Technology. It is printed weekly, is distributed free to all members of the Institute, and is sold to the general public at a nominal price. It is entered at Cambridge, Mass., and at New York, N.Y., as second-class matter, and is published weekly at the Institute. Copyright, 1917, by THE TECH.

The TECH
The War-Time Tech

TECHNOLOGY itself is giving remarkably effective war service in the construction of our rearmament equipment. The ALUMNI in large and rapidly increasing numbers are in government or industrial work essential to war success. THE FRIENDS OF TECHNOLOGY have been most effective in supporting and publicizing this work in the past. The underlying work of the FRIENDS has been to educate the public regarding the very real need for engineers in the war effort. The efforts of the FRIENDS, especially during the first two years of the war, have been most successful.

The FRIENDS OF TECHNOLOGY have been active in recruiting for the armed forces, and in producing many valuable reports and articles. They have also been active in supporting the Institute, and have contributed large sums to the Institute's war fund.

Mr. Advertiser:
Do you know that the TECH, which is the official news organ of the Massachusetts Institute of Technology, has a guaranteed circulation of nearly TEN THOUSAND?

And, do you know that the number of men who receive the TECH includes a great many more of men of intelligence, men of culture, men of honor, men of principle, than any similar body in the country.

Mr. Advertiser, do you realize what this means to you as an opportunity to add to your clientele men unequalled in their buying power and in their ability to appreciate your wares?
The news circulated by the TECH is largely news of National Service being rendered in the present crisis by Technologists. It is vitally interesting and vitally important to readers.
