WASHINGTO~, Sept.-Reorganization of the American anti- air force in Europe was announced yesterday when it was revealed that the infantry regiments to be sent into F}ew and Design are in hand. The infantry divisions of the United States, which have been heavily engaged in the war, will be reorganized for the coming campaign. The reorganization will be accompanied by a larger output of anti-aircraft guns and other equipment for the infantry regiments.

Numbers and Shipments

The tables published today for the United States show that the output of the various anti-aircraft guns and other equipment for the infantry regiments will be greatly increased. The total output of the infantry regiments for the past year has been approximately 40,000,000, while the output for the past month has been approximately 6,000,000.

The increase in the output of the infantry regiments is due to the depletion of the upper levels of manufacturing capacity. The increase in the output of the infantry regiments will be accompanied by an increase in the number of anti-aircraft guns and other equipment.

Boothill will have 440,000 guns in use within two years. The American anti-aircraft forces in Europe will have 440,000 guns in use within two years.

The anti-aircraft forces in Europe will be reorganized into infantry regiments. The infantry regiments will be equipped with 440,000 guns in use within two years.

The infantry regiments will be equipped with 440,000 guns in use within two years.

Field Day November 3

Candidates for Freshman Relay Team Meet Today

Final announcement has been made by the track management that "Field Day" will be held this year in name only for the 1920-21 season. The announcement has been issued at the close of the freshman relay team investigation. It has been stated that the investigation will be held in the fall and that the results will be announced in the spring.

Several additions have been made to the freshman relay team. These additions include several veterans of last year's team. The team will be composed of 58 men and 18 women.

Today marks the beginning of a new organization, the Class of 1921. From now on, there will be an organization of its own, and its results and characteristics particularly identified with that organization. Every new man should therefore feel that he has a new responsibility beginning today. It is essential that the Class of 1921 be a particular designation of the students who pay tuition and who are, therefore, interested in the welfare of the Institute. As the Class of 1921, you will be a particular designation of the students who pay tuition and who are, therefore, interested in the welfare of the Institute. The Class of 1921 will be a particular designation of the students who pay tuition and who are, therefore, interested in the welfare of the Institute. M. J. COLE PLANS "VOLUNTEER ADVANCE BATTALION" FOR JUNIORS AND SENIORS

The plan proposed by the War Department for a Reserve Officers' Training Corps has not yet been made a law, and the immediate limit was not in workable shape for several weeks. The corps were trained for the work at the instance of the War Department. However, the work at the instance of the War Department for the purpose of training young men for the service. Among the subjects contained in the proposed course will be the following:

Field Engineer Drill.

Industrial Drill. This will be conducted on the principle of combined squads in rotation of men in the various positions so that every enlistee and instructor can train any unit it is possible to do so by the company.

The Volunteer Advance Battalion will be open to Seniors and Juniors. It was not possible for the B. O. T. C. to do anything for the time being, but when the schools are in session there will be an opening in the service. The successful candidate will be trained for the service.

The Volunteer Advance Battalion will then be sent to the B. O. T. C. for B. O. T. C. for training. The B. O. T. C. will be an educational institution for the training of young men for the service. It will be opened to all schools in the United States.

The Volunteer Advance Battalion will then be organized at the B. O. T. C. for training.

Field Engineer Drill. 3-10.62. Total 962.

Artillery and machine gun work as prearranged.

Staff and drill training for the following:

- Infantry Drill. This will be conducted on a plan of combined squads in rotation of men in the various positions so that every enlistee and instructor can train any unit it is possible to do so by the company.
