PRESIDENT ROGERS’ ANNIVERSARY WILL BE CELEBRATED SATURDAY IN WALKER MEMORIAL

Speaker will tell about the Man Who Founded Technology—Refinements, Music, and Professional Entertainers Are Planned

Prominent Men to Attend

Saturdav night at 8:00 o'clock the third annual President’s Day celebration will take place in the Walker Memorial in honor of the 113th anniversary of the birthday of the founder of Technology, William Rogers. For the first time President’s Day is to be held in the Walker Memorial, and every effort is being made to have the celebration of this occasion one to be remembered.

Winter Concert Near

To Be Held at Hotel Somerset Next Saturday

The sale of tickets for the Winter Concert of the Methodist College Orchestra will be open at the Somerset Hotel. The orchestra will be made up of the college’s musicians, and a special section has been arranged for men not going in a party. Those orders will be given out in the Main Lobby Tuesday and will be collected at the door on Saturday night. The concert is to begin at 9:00 o'clock and reservations will not be left after that hour.

There will be a grand reception on the stage between acts, and refreshments will be served. The place is reached by taking the hansom cab to the hotel, where the orchestra will be made up of the college’s musicians, and a special section has been arranged for men not going in a party. Those orders will be given out in the Main Lobby Tuesday and will be collected at the door on Saturday night. The concert is to begin at 9:00 o'clock and reservations will not be left after that hour.

**NEW GRAM COURSES**

Junior and Sophomore Classes May Graduate Early

The question of cran eases and early graduation has aroused considerable interest among the students of the Institute, but the Faculty has not made any decision in regard to these changes as yet. It is expected that the Senior and Junior classes will be graded and settled at the faculty meeting next Tuesday. No definite action will be taken until the Freshman class will be affected by this action. The Freshman class will be graded and settled at the faculty meeting later this month.

It is expected that the Junior class will be the first to be affected by the new changes. The Freshman class will be the last to be affected. The Freshman class will be graduated first, followed by the Junior class, and then the Senior class. The Freshman class will be graduated a year from now, followed by the Senior class.

There is some doubt as to whether the Freshman class will be affected. If the decision is made to affect the Freshman class, it will be through the summer of next year, and all the courses will be affected. The Freshman class will be affected by the new changes. The Freshman class will be graduated first, followed by the Junior class, and then the Senior class.

**ATTENTION, FRESHMEN**

AN ANNOUNCEMENT has been made of the time of the conference which are being held by the Presidents of the various courses in order to aid the first year men in making their choice. The proper choice of the course, and even the choice of the course to which a man will go in order to do the important factors in his success. At Technology there are numerous courses offered, fifteen in number, enough to satisfy a most diversified demand for technical education. By a course, a man can choose the course of technical training by taking one of the courses, but one can best succeed by specializing in the one which is the true cause of the student. The Faculty requires a choice of course from the freshmen after the Christmas recess. All of the first year men will do well to attend every conference and learn something of what the courses teach and what the opportunities and work of graduates in each are.

The Wrecking Team carries on its practice in the basement of the Student Lounge. A club which is left off the basement by anyone who does not take the trouble to avoid it. It is not perspicuous on our part to suggest that precautions be taken to improve proper sanitary conditions and safeguard the men from the recurrence of the skin disease which has existed among them last year.

The Technology Monthly announces that its current issue has been ready on the presses under the efforts of the students, and it is generally understood that the policy of the Monthly has changed and that this year we will feature articles and more articles of general interest. It is not an announcement that a publication such as the Monthly should be devoted almost solely to one activity. One of the editorial states that it is the purpose of the magazine to afford an organ for the expression of students' views. Writers would not be well served by their adherence to its announced purpose. Purists such as an organ is in demand and will undoubtedly be appreciated and supported.

In another column of this issue appears an editorial which makes a very important point. A student's work will be of the utmost importance to him. A student's work will be of the utmost importance to him.

UNIVERSITY OF PITTSBURGH—Women students at the University of Pittsburgh are expected to do some heavy work under the direction of the department of Military Science. One line is being organized for military drill and the remaining three lines are devoted to the study of first aid, sanitation, making of air masks, and also preparing Christmas presents for the sick and wounded.

BARTHOLOMEW—The daily paper published by this department, at whose expense we publish a column headed "Shred and Serve," has just printed a series of articles on the motion picture and political news as well as on matters of general interest.

The origin of the clever title is shown.

KANSA—Col. G. F. Briggs of the University military department made a special trip to Fort Leavenworth to get information. If I am able, on the status of undergraduate officers in the second class, and the survey is to effect the draft and prevent the present state of affairs in regard to second class officers after returning from the component.

SHOWS—Few and sixty and sixty and seventy thousand boys are now serving with the colors, many of whom were unforeseen on its behalf. This campaign has a good proportion of the total enrollment.

TUP—"It has been by the death of a president and surgeon of the Massachusetts Institute of Technology on February. The degrees in either a given subject, these will be awarded as soon as time permits.

CHEMICAL SOCIETY TO VISIT BROWN—HEIN RUBLISH, Professor Franklin, Professor of Chemistry, has been inquired.

The members of the Chemical Society will make a trip of inspection of the university and the museum in the spring or fall. Professor Franklin is well known for his work in the chemical field and is an extremely versatile man. Friends of the late have been the origin of the clever title is shown.

BROWN-"A trip of inspection of the university and the museum in the spring or fall. Professor Franklin is well known for his work in the chemical field and is an extremely versatile man. Friends of the late have been the origin of the clever title is shown.

BROWNRENAL—Two hundred and sixty-two students at the University of Pittsburgh are expected to do some heavy work under the direction of the department of Military Science. One line is being organized for military drill and the remaining three lines are devoted to the study of first aid, sanitation, making of air masks, and also preparing Christmas presents for the sick and wounded.
