STUDENT ACTIVITIES AT INSTITUTE OFFER VARIETY DIVERSIONS DURING HOLIDAYS

Many of the members of the new class are finding their work too easy. They are now taking up various hobbies which are proving very beneficial to their health and general development.

One of these is the Institute Orchestra, which has been in active operation for several weeks. The members are working hard on their parts and are looking forward to the first public performance of the season.

Another activity that is gaining in popularity is the Glee Club, which meets twice a week. The members are working hard on their parts and are looking forward to the first public performance of the season.

The Combined-Musical Clubs, consisting of the Glee, Mandolin, Banjo Chorus, ballet and music, are also working hard on their parts and are looking forward to the first public performance of the season.

The Technology Orchestra, which plays at the Tech, is also working hard on their parts and are looking forward to the first public performance of the season.

The Tech Claim Better Use of Coal Products Is Solution of Present Fuel Crisis

The administration of the institution issues the following statement:

"At the present moment, when the fuel situation is so critical, the inefficiency of all fuel economy and economy of resources that go into the making of any fuel are most significant. If we are to save our resources, we must save also the fuel we have. Especially is this true of those who are interested in fuel conservation."

The statement goes on to emphasize the need for the proper use of coal and coke, and the ways in which this can be achieved.
