SMITHING TEAM MEETS AMHERST TOMORROW

Last Home Contest of Season to be Held at Boston Y. M. C. A.

—Meets With Wesleyan and Yale Will Complete Schedule

INTEREST EXPECTED TO STAR

Tomorrow evening the Tech men will undertake the final contest of their season, meeting Amherst in the Boston Y. M. C. A. at eight o'clock. This is the last home game of the year, and the team will appear on the field in full regalia. The Tech men have been working hard at their practice, and it is expected that they will put on a good show.

The contest is of great importance, as it will decide the fate of the Tech football team in the Eastern Conference. The Tech team is currently in second place, and a victory over Amherst will be necessary to secure a place in the conference finals.

The Tech team has been preparing for this contest for several weeks, and the coaches have been working hard to improve the team's performance. The Tech men are confident that they can defeat Amherst, and they are looking forward to a successful outcome.

FRESHMEN IN MEET WITH LOWELL TOMORROW

Coach Kansy Expresses Success in Running Events — Lynn Meet Cancelled Because of Fuel Shortage

KANSY MAKES VARIETY CAPTAIN

The annual track meet between the freshmen and the junior varsity team is scheduled to be held tomorrow at the Tech track. Coach Kansy has expressed his confidence in the freshmen, and he expects them to perform well.

The meet will be held at the Tech track, and it will include a variety of events, including the 100-yard dash, the 220-yard dash, the 880-yard run, the high jump, the long jump, the broad jump, the shot put, the hammer throw, and the discus throw.

The meet will be followed by a variety of social events, including a dance and a banquet. The Tech men are looking forward to a successful outcome.

TECH WRESTLING BOOTS WILL BE HELD TOMORROW

First Year Teams Will Be Formed From Winners and Runners-up

The wrestling boots for the championship of the freshman class will be held in the Tech field at 7:30 o'clock. The winner of the class will receive the Tech wrestling boots, which will be presented to the winner by a committee of the Tech wrestling team.

The meet will be held at the Tech track, and it will include a variety of events, including the 100-yard dash, the 220-yard dash, the 880-yard run, the high jump, the long jump, the broad jump, the shot put, the hammer throw, and the discus throw.

The meet will be followed by a variety of social events, including a dance and a banquet. The Tech men are looking forward to a successful outcome.

FEDERAL BOARD TO MOBILIZE COLLEGES

War Department Creates Committee to Direct Training of Army Technicians—J. P. Munroe '92 and Dr. Mann Appointed to Train 100,000 Men

In order to provide for the technical training of the 100,000 men who have been selected for the Selective Draft, a new committee has been appointed by the War Department. This committee will be responsible for the training of the 100,000 men who have been selected for the Selective Draft, and it will be charged with the responsibility of providing for the technical training of these men.

The committee consists of J. P. Munroe '92 and Dr. Mann, who are both well known in the field of education. They have been chosen for their knowledge of the subject, and they are well qualified to carry out the work of the committee.

The committee will be responsible for the training of the 100,000 men who have been selected for the Selective Draft, and it will be charged with the responsibility of providing for the technical training of these men.

The tech service of the Boston Elevated has always been the object of much criticism among students of Technology, especially the service between the hours of 8.45 and 9 a.m. The Elevated has taken some steps to remedy these existing conditions, and has recently started to run a Riverbank City car with much success. This car is still in the experimental stage, however, and many students have been late to their classes owing either to the lack of cars or to the overcrowded conditions of those that did run. If shuttle cars could be run between Boylston Street and Central Square during the quarter-four preceding 9 o'clock it would accommodate a large number of students and would better the running time of the through cars from Harvard Square and Dudley Street.

That is our car at the Institute buildings at 10:05 daily and convey all the students on the river the large number who lunch in Boston. After the heatless Mondays are over, they could board a car. We are sure, if the Boston Elevated will accommodate the crowds of students who close their day at 10 o'clock. Many students, who lunch in Boston, will not have time to get back to their classes owing either to the lack of cars or to the overcrowded conditions of those that did run. If shuttle cars could be run between Boylston Street and Central Square during the quarter-four preceding 9 o'clock it would accommodate a large number of students and would better the running time of the through cars from Harvard Square and Dudley Street.

The ALL-COLLEGE RALLY

Are you going to the big event at which you can show your patriotism both to your college and your country? Everyone else is, and you surely cannot afford to miss the opportunity. At this rally will be represented colleges from all parts of the country, and it is to you that we show by your attendance that Technology is the liveliest college in the bunch. Furthermore, you will be helping the war effort, so letters from across seas are continually setting forth the service which the American University is rendering to college men. You will have the pleasure of hearing great speakers, and inspiring music, and the privilege of registering your support of the great work the colleges are doing in the war. Don't forget: tomorrow night, 7-45, Boston Opera House!

YOUR BIT IN CONSERVING

The first ten months of the war have cost the United States about $29,000,000,000, according to the figures issued by the Treasury Department on February 6. This money has all of it been paid out. In order to carry on the war successfully it should be raised from funds ordinarily spent by the government, that is, by taxes. Money spent on unnecessary things must be taken from other avenues. As there are 110,000,000 people in the United States, the share of every person for the first ten months is $65.00. Have you denied yourself to that extent since last April?
The extent to which the War Service Auxiliary is responding to the needs of the men in service and the good wishes of those at home is illustrated by the following letter, which has just been published and which is typical of the many articles which were made and distributed for the Auxiliary:

"So great," it says, "has been the demand for the workroom supplies that our men are receiving in the various camps, that it has been necessary to have a room set apart in my house for the handling of all the correspondence from the various camps and cities. The workroom sisters are devoting themselves untiringly to the work, and are receiving letters almost daily from many officers and others desiring to supply us with what they consider the necessities of their men. They are by no means satisfied with the amount we are sending, and feel that more is needed. Many of them say that the packages they receive are only an empty shell, and that the men are forced to beg every little thing they need. The letters arrive so fast that it is impossible to buy anything with the money we receive. The funds we have now are not sufficient for the workroom. We have had a few small donations, but these are not large enough to keep the workroom going. We need a great deal more, and we hope to receive it soon. The men are very much interested in the work we are doing, and they appreciate the work we are doing for them. We are doing our best to fill their needs, and we hope to do more in the future."

Thus the Auxiliary is meeting the needs of the men in service, and the men are appreciating the work we are doing for them. The Auxiliary is doing an important and useful work, and we hope to do more in the future.
REGISTRATION SHOWS A SLIGHT DECREASE

Registration for the second term at the Institute stands at 18,426, a marked decrease from the 19,135 who registered for the first term. This reduction is attributed to the fact that the second term is longer than the first, and also to the fact that many students who enrolled for the first term have completed their work.

In addition, there have been a number of transfers from other institutions, and a number of students who registered for the first term have not continued their studies. The number of students who have registered for the second term is approximately 69% of the number who registered for the first term.

The decrease in registration is not limited to the Institute, but is also evident in other educational institutions. The overall trend is a decrease in the number of students enrolling in higher education institutions, which is attributed to various factors such as economic conditions, student debt, and the availability of online education options.

The decrease in registration is also reflected in the number of students enrolling in other educational programs, such as vocational and technical schools. The overall trend is a decrease in the number of students enrolling in these programs, which is attributed to the decrease in the number of people seeking to improve their job prospects.

However, the decrease in registration is not universal, as some institutions have reported an increase in the number of students enrolling. This is attributed to various factors such as the availability of financial aid, the reputation of the institution, and the quality of the programs offered.

In conclusion, the decrease in registration is a cause for concern for educational institutions. It is important to continue efforts to attract and retain students, and to improve the quality of the programs offered to ensure that students continue to enroll in higher education institutions.

T. C. A. MEETING

Executive Committee Plan

Last Monday evening the Executive Committee of the Student Body, with the President, Mr. A. R. Cashmore, in the chair, met in the auditorium of the Engineering Building, where a general meeting was held. The President was introduced by Mr. W. H. Stone, the Secretary of the Student Body, and the meeting was opened by the singing of the national anthem.

The President then announced the objects of the meeting, which were to consider the financial status of the Institute, the condition of the buildings, and the progress of the work. The meeting adjourned after a brief discussion of these matters.

The meeting was well attended, and the President was pleased with the interest shown by the students. The President expressed the hope that the students would continue to support the Institute, and that they would work together to improve the condition of the buildings and the work of the Institute.
