GEORGES GUYNEMER FUND

TECHNOLOGY men have been given the opportunity and the honor of contributing to the Georges Guynemer Fund. This fund is authorized by the City of Compiegne, France, for the purpose of erecting a statue to the memory of Georges Guynemer, one of France's most daring aviators, a captain of the Legion of Honor, and one of the greatest heroes without any doubt at this time but what that same tide would have spread over the whole of France.

In addition to the $30,000 left by Major W. W. W. Walker, coming out of a skirmish alive are slight but the fact stands that other colleges of the country were very anxious to expect a share of the fund.

As we noticed recently that men of the Third Officers Training Camp have in fact been ordered to France, we might find it fair to ask each class to contribute to the Guynemer Fund. This would enable the society to have a share of the money left by the late Captain Guynemer, who was a student at the Polytechnique, and was interested in the work of the Institute.

The Editor-in-Chief is always responsible for the opinions expressed in the editorial column, and the Managing Editor for the matter which appears in the news column.

INTERPERSONAL BASEBALL

The leagues of the intramural and intercollegiate baseball competition have in all but one case finished their games, Phi Sigma Kappa and Alpha Tau Omega finishing with the scores.

Although some of the teams did not complete the series, the interest shown in the games has been so great that the leagues will be continued until the end of the year.

FOURTH OFFICERS TRAINING CAMP

We would like to announce the promotion of H. D. Moore 21 to Assistant Circulation Manager.

The Tech takes pleasure in announcing the promotion of H. D. Moore 21 to Assistant Circulation Manager.

R. E. Howe 20, Night Editor; H. K. Spradlin 21, Assistant Night Editor.
The annual Student Conference for men of the colleges of Vermont, Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, and New York will be held at Northfield, Mass., during the week of June 15-19. This conference is to be held for the purpose of bringing together the leaders and members of the Christian Associations of the various colleges, in order to consider the work carried on in each university. This year the conference is of especial significance, because of the extra part which such organizations as the Christian Associations play in the development of clear thinking men equipped for helping their country at this time.

In previous years there has always been a Technology delegation at these conferences and this year there has already been a significant time interval of summer school, and although it is out of the question, we shall be able to follow the opportunities that Northfield offers and will on Mr. Churchill at the T. C. U. come as soon as possible.

John F. Hest, in charge of the Y. M. C. A. at Northfield, will represent this country just before the end of June, and will be the first to report, together with one or two others, who will bring to the men of the United States the message that he has gathered from his contact with the leaders of the Christian Associations in Europe, in England, in France, in the Philippines, who have been actively engaged in their own work, and present, and other men of ability and experience. The presence of these men in itself should make the conference one fully worthy attending, but is not all.

This attractive feature is the list of the leaders themselves from the various colleges who will be present and the daily influences that are to be had apéar.

The program for the day includes a series of study in the forenoon devoted to questions, such as the foreign war mission program of the church, the task of diplomatic and social and industrial relations to this country, and subjects vitally related to the war and our mission and identity as a Christian nation. The afternoon is devoted to discussion, and between the various organizations represented at the conference, and subjects vitally related to the war and our mission and identity as a Christian nation.

day will be spent in the campus of the institute, while the in the afternoon will be spent in the field, which will give the conference and itself the mission of cooperation. In all the opportunities of getting first-hand knowledge of the entire life and work of the colleges, will present the different phases of the Christian life work of the whole world, which is present to the men of the conference as the whole world.

The expenses are incident to the conference proper, which are to be met out of the Federation's supply fund, are already covered.

CITY ELECTED.

The elections were held in the school yesterday, with the result that the candidates for the offices of President, Vice-President, Secretary, Treasurer, and Editor of the student newspaper were chosen.

M. L. (ed) for President, A. N. (ed) for Vice-President, E. B. (ed) for Secretary, and E. B. (ed) for Treasurer.

The Federation will hold its next meeting on Monday evening, at which time the results of the election will be announced.

TECHNOLOGY TENNIS TEAM DOWNS YOUR COUNTRY FOR NEW ENGLAND INTERCOLLEGATE TO START ON SUNDAY

The tennis team of the College of Technology has sound several other college teams and won all games. The Saturday afternoon was spent practicing and preparing for the big match which is to be played against the Brooklyn 30. The Brooklyn team has been defeated by the College of Technology in every game so far.

The match will be held at the Brooklyn Polo Club on Sunday afternoon. The College of Technology team is expected to win easily.

DOUIL means

Daylight Saving Time

For institutions, colleges, laboratories, dining-halls, auditoriums, class rooms and everywhere, where good light and plenty of it is required, Harrison's Do-It is making its way.

It will cut down maintenance cost, fuel bills and cleaning-time, and increase the speed and efficiency of the students.

Can be applied to brick, concrete, steel, plaster, composition wall-board or wood, with equal effectiveness.

If desired, Harrison's Do-It may be tinted to suit the shade which gives the maximum light reflection and at the same time rest the eyes, thus still further increasing efficiency.

**Announcement of Marriage of Costello a Surprise**

The announcement of the marriage of William R. Costello ’18 to Miss E. E. Voss of Cambridge comes as a complete surprise, for the pair were wed about a month ago by Rev. Bayne at St. Mary’s Parish Church, with J. S. Lane ’28 attending as best man.

Costello is taking the radio course at the Institute at present and the production he expects to be sent to the government radio school at Washington. D. C. Upon the completion of his course there he will have to take a special examination, after which he is to be sent into active service in France.

While at Technology Costello played on his class football team during the football season. He is president of the Electrical Engineering Students’ Association, a member of the Institute Committee, and the present class is also acting as a voluntary assistant.
