ECLIPSE OF SUN

First Total Eclipse for 58 Years

Will Be Visible in South America

At 3:55 in the afternoon of June 21, 1918, a huge circle of darkness will be visible in some parts of South America, including Chile and Argentina. This eclipse, known as the "Eclipse of the Sun," is the first total eclipse of the sun to be visible in South America since 1859. The city of Santiago, located in Chile, will experience the eclipse at its peak, with the sun rising in the south and setting in the west. The eclipse will last for approximately 4 minutes and 25 seconds, with the moment of totality occurring at 3:55:12 PM local time. The sun will be partially visible until 3:58:32 PM, with the eclipse ending at 4:02:00 PM. Spectators in other parts of South America will also be able to witness the eclipse, with Chile and Argentina being the most visible locations. The eclipse will be a significant event for astronomers and enthusiasts alike, providing an opportunity to observe this rare natural phenomenon. (Continued on page 8)

Spies and Lies

German agents are everywhere, eager to gather scraps of news about our men, our ships, our munitions. It is still possible to get such information through to Germany, where thousands of these fragments—often individually harmless—are patiently pieced together and sent on to Germany. This is how the German government learns the news of our war. This is how the German government learns what our men, our ships, our munitions do. This is how the German government learns our military secrets. And this is how the German government learns to devise new and more efficient methods of war. The fact that you made the report (or else that you did not make the report) is irrelevant. What is essential is that the German government gets the information. It is still possible to get such information through to Germany.

CHARLES RIVER ROAD, CAMBRIDGE

$1.50 six months $3.00 a year

WE SPECIALIZE IN THE MANUFACTURE OF HIGH GRADE PYROXILIN, TAR AND BENZOL PRODUCTS AND YEARS OF EXPERIENCE IN THE PRODUCTION OF THESE CHEMICALS FOR USE IN THE MANUFACTURE OF EXPLOSIVES HAVE GIVEN US A VALUABLE KNOWLEDGE IN THEIR USE IN THE COMMERCIAL FIELD. WE AIM TO SUPPLY OUR PRODUCTS TO THE CUSTOMER'S NEED AND WITH THIS END IN VIEW, CONDUCT LABORATORY EXPERIMENTS ON ALL SHIPMENTS TO MAKE CERTAIN THAT THE REQUIREMENTS HAVE BEEN SATISFIED IN EVERY RESPECT.

THE ENGINEER WHO SPECIFIES DU PONT WILL BE CERTAIN TO OBTAIN A UNIFORM, HIGH QUALITY PRODUCT GUARANTEED TO DO THE WORK FOR WHICH IT IS INTENDED.

SOME OF OUR PRINCIPAL PRODUCTS ARE:

Aceric Borer
Acrinol Anetha Ether
Aniline Oil
Bromating Liquids
Cobalt
Dinitrophenol

TENNIS TEAM ELECTED

The following men have been elected officers of the Technology Varsity Tennis Team: R. E. Snyder, 29, manager; W. Kimball, 29, captain.
