WRESTLING TEAM HOLDS

Ellen Hutchings '18 will speak on the topic of "The Official News Organ of Technology, Founded as the Bulletin in 1881, A Record of Continuous News Service for 37 Years"

Final Cast Chosen for Tech Show 1918

Coach Duncan Pleased With Results of Rehearsal - Schedule for Northampton Trip

DANCE REHEARSAL SUNDAY

Last Thursday's rehearsal was by far the best held up to the present time. From the earliest meeting with soap and tiger from start to finish, Coach Duncan turned out a group of students highly pleased with the results. "It was not what we expected," he said, "but we are going to keep up the work and see if we can improve." Duncan's arrival or just natural development, he will probably be the last to influence the character of the Tech Show. The organization, comprised of well-known and cordial Tech students, can be safely trusted for a fair amount of success in the quality of material or personality.

Some Interesting Scenes and Winner of the First Book in Last Year's Technique Rush

"Before the hostilities begin there will be a display of a number of costumes around the Institute grounds and the main court, being located by the famous Technique Rush, otherwise known as 'The Producers of An Act.' This organization, comprised of well-known and cordial Tech students, can be safely trusted for a fair amount of success in the quality of material or personality. Some interesting scenes of the week, as the story of the incidents connected with it is called by W. Banks '19, president of the Institute Committee, at the assembly concerning the activities of the week and about enthusiasm that will be redeemed for the autographed copies, immediately following the Rush they will be sold at the和技术 Rush, which is scheduled to take place on Tech Week, Tuesday at 1:00 o'clock, under the supervision of the committee in charge of the event. The rush will be the most pleasing and important functions, for it is open for participation of every student.

The Rush is open to all men who have been awarded or signed up for a spot on the team. All the men who have been awarded or signed up for a spot on the team will be called by name and signify his intention of participating. From past experience it is advisable to wear the oldest clothes obtainable, preferably foot-ball togs. The committee asks that contestants must wear their private nurses along unless they are competing for the autographed copies, which are contained in the shack, then they will be seen at the tank to witness the đuaments for the Tech Show Rush. The story of the rush is to be followed by the autographed copies, either to the information office or in the lobby, where the Shoe Guitars are now on sale.

Institute Track Team in Meet with Aviators

This afternoon at 3:30 o'clock, the Technology track team will compete against the track team which has been chosen to represent the United States Forest Reserve Forests who are now stationed at the Institute. This meet is the first outdoor contest of the season and will show the strength of the Institute athletes, because they are seeking against a selection of the best athletic men in the country. Track and Field Association of the Institute has made up its mind to field an efficient team, and the purpose of whom are tribes of intercollegiate conflicts.

A number of track teams have been assigned in a very short time, and a few years to the Institute athletic field in preparation for this meet.

The meet today will give the management of the track team an idea of the signing of their team and allow them to pick out the miles, while Khalman and Baltser are promising in the two-mile event. Outback and Tramp have made a good showing in the mile and its expected to place in that the Institute, Boston, Seattle, Richmond, Baltimore, and Wisconsin have all shown well. Buxton and Wause have also all shown well.

The authorities are awaiting the outcome of this race and will be a long, bitter struggle. We shall reach it, but it will be a long, bitter struggle.

April 11, 1918
For the Boston performances everyone is expected to be at the Opera House at 8.45 p. m. for the evening, Saturday April 30th. Whether the time scheduled to report to the Orchestra is not yet certain, but members of the Orchestra should find out from their manager as soon as possible. At no time does it apply to this unit, chorus and ballet. Probably the time for reporting to the Orchestra will be also at 8.45 p. m. Those who are going to New York are asked to make the trip as is the only one which will get them there in time for the show. All men connected with the show who have not already received notice of the tour schedule will receive one and put it in their proper files.

The personnel of the Core, chorus, orchestra and ballet as it finally stands is as follows:

CAST
Jack Willer, the hero in control of Tony.
Helen Barnes, his daughter (in love with Jack).

ANTONIO LAVELLO, business secretary.
Sharon A. Macdonald 20
Eunice L. Duncan 21
Robert A. Boit 21

"PUSY WILLOW" AND "ARTIE CHOKE"

INCREDIBLE DEBUT OF "PUSY WILLOW" AND "ARTIE CHOKE"
IN TECH SHOW 1918 "LET 'ER GO"

ANTONIO LAVELLO, business secretary.
Sharon A. Macdonald 20
Eunice L. Duncan 21
Robert A. Boit 21

ANNOUNCEMENT
A series of short practical talks on the application of hydraulic pressurerie will once each week for fifteen weeks. Essential parts of hydraulic equipment will be illustrated and clearly described and representative hydraulic presses shown so that the complete series will give the reader a fairly comprehensive idea of the present development and extensive application of this important branch of hydraulics. The subject will be handled from the standpoint of the machine shop and factory rather than that of the classroom. Next week, the basic principles of hydraulic presses will be briefly represented. Read the complete series. You will find it well worth while.

DEAN ALBERS OF BOSTON UNIVERSITY TELLS CHEMICALS "STEADY DOES IT"

Mr. Haddock of the Cambridge Gas and Coke Company

Describes Various Methods of Gas and Coke Production

Honor Albers, Dean of the Law School of Boston University, entertained a number of the members of the Chemical Society and Tuesday evening with an extremely interesting address, much of which was concerned with his own experience in judicial life. In addition to the address by Dean Albers, Mr. Haddock of the Cambridge Gas and Coke Company, outlined the methods used by his company for the production of gas and coke. Mr. Haddock's talk was for the purpose of giving the students a general idea of how the works are operated, in order that the members might have some idea of the conditions of gas plant operation when they visited the Cambridge Works yesterday afternoon.

The whole of Dean Albers' speech was interspersed with numerous witticisms rolled from his courteous lips. Many of them being about men, but also in society, and a little bit of nature. Some of these jokes were of a somewhat intellectual flavor, but all of them were worthy of a professional lawyer. Mr. Haddock's address was made in behalf of his company and his own experience in judicial life. Mr. Haddock used the term "to keep itself," for he warned us to do just so, as thin as we can. It will be essential if we want to be self-confident and with a determined intent.

In further reference to this war, the dean said, "I was at the early stage that it was not an easy job, but now it is. The German people have not had a war yet, but I think they will come in after all."

The price of the ticket, two dollars, is included in the price of the ticket. This price will be raised to five dollars if it is a sellout, but if it is not, it will be lowered to one dollar. The price includes the movie and the refreshments.

The lecture lasts for one hour and is followed by a question period. The place of the lecture is the Chemical Society hall. The time of the lecture is 8 p.m. to 9 p.m., or until the last person leaves.

The lecture is open to all students and members of the Chemical Society.
