M. C. BROWN KILLED WHEN WING COLLAPSED

Further particulars received as to Death of Malcolm C. Brown.

By Philip T. Ralston.

In a previous issue of THE TECH announcement was made of the death of Lieutenant Malcolm C. Brown, but at that time further particulars were unavailable. Through a letter which arrived today, the PKE Gamma Delta Fraternity, of which Lieutenant Brown was a member, we are able to publish the following brief statement: Professor Rasenbush, who is in charge of the summer, notified the PKE Gamma Delta Fraternity that the death of Malcolm C. Brown had occurred.

PUBLIC HEALTH SCHOOL

Second Of Special Courses Opened

With Twenty Students

Professor Rodger's recent endeavor in the way of a special course in public health was realized when the first course in the School of Public Health was opened. The course at the Massachusetts Institute of Technology is planned directly for the requirements of the Laboratory of the U. S. Army hospital, and is adapted especially for women and girls preparing to enter the medical profession. The number of students will be limited to about 100, and the course will be under the guidance of Professor T. H. Woodward, who is in charge of the course.

BA!ooms all the time. In the New York with representatives of Board, Columbian, and Princeton, at which it was agreed that some time in the near future the colleges will meet to make arrangements for the organization of the American University.

The New York will be ready to start on its voyages, and the college will be able to receive students from the various institutions.

The budget of the past fiscal year was

8 NOTICE

Any student desiring to compete for prizes may do so by notifying the secretary of the society as well as the office of TECH. The deadline for entry blanks is Monday, October 10, at 10:00 A.M.

TECHNOLOGY BUREAU MAKES FULL REPORT

Yan Rensselaer Lansing '86 Reports To Alumni Council Concerning the Rensselaer Polytechnic Institute of American University.

The idea of having a special representative in France to look out for the interests of certain classes of society has been entertained by Mr. J. W. Williamson, publisher and editor of the New York Times, who is now on a tour of Europe. The bureau is being established by the government of the United States, and will be under the direction of Mr. Rensselaer Lansing. The bureau will act as a sort of free agency for the United States, to look after the interests of American citizens abroad. The bureau will be under the direction of Professor Rensselaer Lansing, who has been on a tour of Europe. The bureau will be established at Paris, and will have a staff of about 100, consisting of American citizens, who will be appointed to act as agents for the United States in various parts of Europe. The bureau will be under the direction of Professor Rensselaer Lansing, who has been on a tour of Europe. The bureau will be established at Paris, and will have a staff of about 100, consisting of American citizens, who will be appointed to act as agents for the United States in various parts of Europe.

THE TECH

THE TECH is a bi-weekly student newspaper of the Massachusetts Institute of Technology, published since 1890. It is known for its traditional format and content, which includes student columns, society news, and sports coverage.

STADIUM MAY SEE BOSTON FOOTBALL

S. A. T. C. Grimbley May Take Lead.

If the S. A. T. C. at M. I. T. ever organizes a football team this fall, as is now rumored, it may well have in its coaching staff many of the Tech men who were in the famous Tech eleven that was formed and forced to disband during the war.

The men in question are now in the United States service and are being stationed at the Camps under the actual command of the United States military.

As far as can be determined, the Tech board of coaches will probably be composed of the following:

Lt. George W. Kibbey, instructor of mathematics, was in command of the Tech eleven during the war.

Homer V. Martel was on the Tech eleven during the war.

H. L. Kinney was on the Tech eleven during the war.

These men have had some experience in coaching, and it is probable that they will be able to make a team that will be accepted by the Harvard board of coaches.

The Tech board of coaches will probably begin their training during the fall, when the Tech eleven will be formed.

The Tech eleven will probably consist of the following players:

Lt. George W. Kibbey, instructor of mathematics.

Homer V. Martel.

H. L. Kinney.

These men have had some experience in coaching, and it is probable that they will be able to make a team that will be accepted by the Harvard board of coaches.

The machine fell to the ground in a field adjusting the aeroplane. The weather was excellent for flying.

The machine was then taken apart and inspected, and the following extracts from the statement of the pilot were read to the court:

MALCOLM WAS A PILOT OF EXPERIENCE

Malcolm was a pilot of experience who had been flying for many years. He had taken part in various aerial contests, and had won several medals. He was considered one of the best pilots in the service.
