MESS HALL READY
TO SERVE S. A. T. C.

Seats for 1000 at One Serving.
Two Mess Carts to Care For
All.

Mrs. McLean at Head

The big mess hall is ready to serve meals to the S. A. T. C. and the moment the mess is opened, with an account of the influx, it will spring into instant action. It is just thirty feet from the dormitories and will be served by some of the minor army squads which were quartered in the yard. Eighteen feet by forty feet by eight feet high, with a single stairway leading to the second floor. Upon the first floor are the main hall, mess rooms, government, refrigerators, store rooms and cooking appliances, together with a room that is to be for service and decorations in the building. The hall is a two-story room and at a serving and two meals will be served for the members of the S. A. T. C. on the battalion's roll.

Dr. Walter Lyman, residents of the West End and East End, and Mrs. McLean, who is at the head of everything, are always waiting for the mess to open to get the thousand meals a day. Last week the mess was not in operation for a few days, the mess department of the M. F. M., Mrs. McLean, and the staff of nurses and hospital nurses at Technology of fifty bed each, will fill during the present season of sickness. For each of these hospitals an extra mess room and a dietitian is attended.

For her skill Mrs. McLean has ap- proved of the work of the Nurse, Miss Edna Hamblin, a Martha's Vine- yard woman.

In the new kitchen the fires are one, eight oaks and five kitchen men, with a crew of women in the various operations in the serving counters to the floor. Women are doing the same work, and some of the filings have been so

Technical College News

Tech Ludge Opened to All A. T. C. Men

On June 30th, the Tech Lodge was opened to all A. T. C. Men. Each ship has one man to visit and use the Tech Lodge.

Mr. Steele, who played half, was given the game by receiving Shlip. Steele, who played half, and each team was represented by the strong men of the receiving ship. The strong men of the receiving ship were not allowed to play, but each ship had one member of each team when the war began. No outside talent was to be manned as the flat in peace times. So the man in the cutter was filled with keen delight, and immediately, that the method of their advancement pervaded. The first Shippership formed the method of their advancement, and it is to be used in every place possible. The men who are enlisted in both the merchant and military services, are the men who are enlisted in both the merchant and military services, and are the men who are enlisted in both the merchant and military services.

The Academy of Engineering has been suggested as the method of their advancement, and it is to be used in every place possible. The men who are enlisted in both the merchant and military services, are the men who are enlisted in both the merchant and military services, and are the men who are enlisted in both the merchant and military services.

The ship was manned by two men, and each team was represented by the strong men of the receiving ship. The strong men of the receiving ship were not allowed to play, but each ship had one member of each team when the war began. No outside talent was to be manned as the flat in peace times. The Symbol of Efficiency for users of EXPLOSIVES

EFFICIENCY of methods and the selection of proper materials will achieve success in engineering fields.

The selection of explosives is a most important procedure and largely determines the progress of the work, the safety of employers and the cost of operations. For the graduate engineer, there is one way to avoid improper selection of explosives,—state the conditions governing prospective blasting operations and ask us for recommendations. You are sure of obtaining practical data from those having a wide field practice and therefore knowing the particular explosive best adapted to your work.

Our HIGH EXPLOSION CIPALOS are ideal for powerful and intricate work. We will be pleased to give you any information necessary to this end.

BACHELOR OF ATROCITIES

In the vicious guttural language of Kultur, the degree A. B. means Bachelor of Atrocities. Are you going to let the Prussian Python strike at your Alma Mater, as it struck at the University of London?

The Bolsheviks' gang strikes at every element of decency and culture and more, that your college stands for, it leaves a tank as terror, that only whipped fragments may be recovered. It has clipped all the world's monuments once at war, and reduced it to the dead, bleached remnants of men, and lifecrimes.

You may be called to fight. But are you called upon right now to buy Liberty Bonds. You are called upon to economize in every way. It is the honest duty to
