S. A. T. C. TO CONTINUE WORK ON WAR BASIS

Official Telegram Commands Carry On. Dishonorable Discharge Await Those Whose Conduct Is Unworthy Or Those Who Neglect Studies

FURTHER DETAILS YET TO COME

Over has been a great deal of conjecture as to whether the S. A. T. C. will break up. Note that peace is not yet in sight, and there will be no further training as an officer. The Army will still continue as usual, and the training is not yet an immediate desire. A special order has been issued from headquarters listing the need for it. The training is now to be increased from the normal amount.

The Army will be continued as usual. The training is not yet an immediate desire. A special order has been issued from headquarters listing the need for it. The training is now to be increased from the normal amount.

There will be a show at the Boston Symphony Orchestra, as a great many of the fellows are returning to civilian life again. These shows were produced by local talent which generally takes the form of a series of songs and short plays, sometimes on audiences, and dance at the Boston Symphony Orchestra. These are characterized by the usual shows and were greatly enjoyed by the fellows who have now become officers.

NO MORE RECEIVING SHIP-COMMENTS SHOWN GIVEN

There will be a show at the Boston Symphony Orchestra, as a great many of the fellows are returning to civilian life again. These shows were produced by local talent which generally takes the form of a series of songs and short plays, sometimes on audiences, and dance at the Boston Symphony Orchestra. These are characterized by the usual shows and were greatly enjoyed by the fellows who have now become officers.

APPLY FOR REFUND

A report says: "The very important decision made today by the committee to apply for refund of the $30,000 in U. S. Navy stores for the two weeks of the Boston Symphony Orchestra. These shows were produced by local talent which generally takes the form of a series of songs and short plays, sometimes on audiences, and dance at the Boston Symphony Orchestra. These are characterized by the usual shows and were greatly enjoyed by the fellows who have now become officers.

The committee was greatly pleased with the shows and plans to apply for the refund of the money spent. The committee was greatly pleased with the shows and plans to apply for the refund of the money spent.

ROBERT B. GRIFIN

Corporal Of Squad. Corp.

Died of Pneumonia

Every number of the S. A. T. C., who in any way knew Corporal Robert B. Griffin, grieves his death. The fond remembrance of his friends and all those who knew him will be a little less emotional when they consider that death was the last word of close relationship. His parents live at 30,5 of the needs of the student body, and was well known to all students.

Theodore Roosevelt was a great man in history. Every member of the B. A. C. is entitled to the highest credit. It is not necessary to tell the student body that he has the broad distinction of being the first to see the future of the United States, even if not to be. The student body has a number of good reasons for feeling the visit of the soldier to the University, and is well aware that the service in the United States Army is an admirable calling. This service is worth while and remains as a high probability for the future of the student body.

Battalions To Give Boxing Lessons in Winter

All who desire to be instructed in boxing, or to keep up with it, will no longer have the opportunity to be instructed. Mr. Frank Boulier will give boxing lessons at the facilities during the coming winter. Mr. Boulier has received universal and twice national amateur championships. He has won the New England master championship three times, and was also formerly leading instructor at Tulane. The lessons will be open to all, either on the court or at home, and only. The cost will be five dollars for the course. Lessons will be given for the other sessions, but there are only a few evenings for them to be given. The sessions will be given by the organized of the student body, and are limited to the amount of interest that will be shown.

At a meeting of the Managing Board Thursday afternoon the following elections were made in the New Department of THE TECH: Night Editors, Carl W. Harris and Edward A. Ash, both of the class of October 1918. Today, November 16, THE TECH completes its thirty-seventh year of continuous news service at the Institute.
CLASS OF "1F" DINNER

Dean Burton Speaks On 11th Day of Month

Monday, the 11th, the Class of 1911 held its class dinner at the Boston City Club. Owing to the color of the sign by the dining room, the dinner was attended by the principal of the three graduating classes. Dean Burton and eight years of the Class of '11, viz., R. B. Story, H. C. Jones, C. O. White, J. F. E. Moody, W. E. Jones, B. J. Smith, T. E. D. Tustin, W. C. O. E. A. T. F. Williams, and H. W. Smith, secretary, formed the party.

Throughout the evening Dean Burton held to the new conditions at the Institute in his characteristic inimitable way. Everyone was given to hear his stories and also to do honor to their college. Dean Burton also gave the secretaries a new official blank or letter. The name as given in any official blank or letter gets away from our headquarters. Explosives to Dyes

The evolution from explosives to dyes is the logical development of the dyestuff industry from both a chemical and commercial standpoint.

This year, the first explosive manufacturer starts with the necessary raw materials. In his munitions plant he produces the haemate for his products, which are required by the secretaries of the Bureau of Military Affairs. The explosives are made from the high-grade acid plants, with which the manufactory is equipped. The production of explosives is the key to the future of the dyestuff industry.

First, the explosive manufacturer starts with the necessary raw materials. In his munition plant he produces the haemate for his products, which are required by the secretaries of the Bureau of Military Affairs. The explosives are made from the high-grade acid plants, with which the manufactory is equipped. The production of explosives is the key to the future of the dyestuff industry.

The chemical and engineering organization has had long training in the closely related explosives industry and is able to use the experience gained over the difficulties which would be insuperable to others less fortunately situated.

As the world’s largest manufacturer of explosives, the Du Pont Company has applied its experience and resources to the production of dyestuffs on a scale that would be insuperable to others less fortunately situated.

As the world’s largest manufacturer of explosives, the Du Pont Company has applied its experience and resources to the production of dyestuffs on a scale that would be insuperable to others less fortunately situated.
