SOMERVILLE — the Official News Organ

The recent performance, although brought an end to it, and this song, Vésay's, and intensive rehearsals — when the time had just finished several weeks of bard of Tedhnology

Mr. Newell was made director by Presi-
fected the Irrigation Service of which has been closely identified with Boston

We consider, therefore, that the hits of the show had their just applause, the orchestra

...that stirred up excitement was the of Portland was elected president, Mr.

Alas, of the local color in the

Two officers of this camp have been mentioned by the War Department, to be held between May 15 and August 15, 1926. Applications may be filed by enlisted men of the regular army, National Guard, and Reserve. Applications of regular army graduates and undergraduates of 1926 and 1927 are accepted by the army and military schools, Massachusetts Institute of Technology included.

The show is to train men for appointments as officers to all branches of the United States forces. The graduates of these training camps may then be recommended for appointment as lieutenants in the army during the three years following the close of camp work.

Major Cole has not yet received all applications for these camps. As applications are in, they are being considered, and will be kept at the disposal of the army. The army is now ready to separate the best applicants from the rest. It appears that the show would be hindered if the director would have to make any changes in the schedule.

The song hit of the show was "Drifting," the song hit of the

Mr. Newall '85 Honored for

Professor Fredrick H. Newall of the American Geographic Society is on leave from his post as chief of the Geological Survey, to visit Europe, especially the British Isles and northern Europe. A second extended visit will be made to all the southeastern states. Also he will arrange for the publication of a map of Wisconsin and a map of a part of the United States.

He carried water into his oil-well

He made a girl's journey possible

In 1921, he took 15 students to Paris on a scholarship to study in the Sorbonne. One of these students was Charles Parsons, who was later to become a prominent figure in the aviation world. In 1922, he was invited to France to lecture on the subject of aviation. He spent two months in Paris and gave a number of lectures on the subject of aviation. His lectures were very successful and he was invited to write a book on the subject, which he did.

In his book, he discussed the history of aviation and the various methods of propulsion. He also discussed the various types of aircraft and the various materials that could be used in their construction. He also discussed the various methods of control and the various methods of propulsion.

The book was very successful and it was translated into several languages. It was also used as a textbook in many schools and universities. It is still used as a textbook today.
