MEETING OF CREW CANDIDATES

The conclusion of the year has also brought about several changes in the men's officer line-up. Mayor A. R. Smith, who was formerly a member of the student council, has been released from leave of absence and is now a member of the student council.

FACULTY ANNOUNCES SOME CHANGES

The faculty has announced several changes in the current academic year. A new professor has been appointed, and the university is expanding its programs in various fields of study.

CIVIL SERVICE MEN IN THE SERVICE OF THE STATE

A number of civil service men have been appointed to serve in various capacities within the state government. This includes positions in education, public health, and public safety.

STUDENT WRESTLE TEAM WINS

Tecumseh 1940

This will be an important meeting of the Tecumseh 1940 team at 1:00 p.m. on Thursday. The team will discuss upcoming matches and strategies.

TERMINATION OF THE TECH GYMNASIUM

Due to the end of the academic year, the Tech gymnasium will be terminated. This decision was made after careful consideration of the needs of the students.

NOTICE

All members of the Tech Show are encouraged to attend this important meeting. It will take place at 2:00 p.m. on Friday in the gymnasium.
Published twice a week throughout the year by the students of the MASSACHUSETTS INSTITUTE OF TECHNOLOGY.

SNAP INTO IT!

TEN-TWO-TWO weeks lie ahead of us and almost a year's work to do. Therefore all the more reason to start in with a will. This means both studies and activities. Ten-Technology being an engineering school is a place where hard serious work comes first. Nevertheless activities are of importance and bear an important relation to the name and popularity of a college. The academic work at an engineering college is of necessity for more exacting than that of schools of liberal arts. This applies to the requirements in the academic work, and those who desire to go out for the track team must be prepared for a certain amount of extra work. The man who is capable of doing both and neglects the opportunity through lack of interest or laziness is doing himself an injury, for the Math and Chem. and Applied alone do not make an all around man. There is the personal side of him that plays an important part in engineering as well as in other sorts of business. It is a part of his development that the Musical Club, the Track, the Show or the newspaper help him to bring out the best that is in him.

FIG HEADEDNESS

The dance committee after the military dance held in the Armoury found that they had a sum of money on their hands which they did not know what to do with. They very wisely appointed a committee to look into the matter. The decision of this committee was to turn the money over to the Track team which was sorely in need of funds. Nothing could have been better. The money was from the various company funds, and it had been the general sentiment that that was the best way to dispose of it. In the meantime the sergeant majors without waiting the decision of the committee, handed this money belonging to the students of the S. A. T. C. over to the V. M. C. 2 A. If the V. M. C. 2 A. had not received anything from the Institute this might have been worth considering. The fact is, however, that about thirteen thousand dollars have been contributed. As the money belongs to the students, the natural thing would have been to have it in the interest of the student activities. We do not begrudge the "T" money, but we do protest the action which was taken contrary to the committee's decision.

In order to bridge the confusion attending the opening of a new term and the return of many old men to the Institute, THE TECH announces the appointment of Carl W. Harris '22 to the position of Acting Managing Editor. This position is only temporary.

PERSONALS

James A. Toole '19, 21, who is in fact stationed in the country division of the United States Army has been selected to serve in Camp Sargent at Wilmer Wright Field, Fairlee, Vt., after having pursued the anti-military work at Charlestown. It is believed that plans are afoot to institute the institution of drainage ditches and to convert a material district into a beautiful locality.

ELECTION RUMBLINGS CONTINUE LOUDER

Opening of Nominations Brings Long List of Candidates—Former Class Officers Returning

List of Nominees Released Saturday

Events preparatory to the class elections are swiftly drifting quickly. Nominations are being in and by the fall of the week approximately some rectangle of one which those who are to be candidates will be ready. Former class officers have been trailing equally for the past few weeks, and all have shown a willingness to resign their offices in order that a new and fair slate may be made. Notices will be received until noon on Friday of this week and Registrars of the Tech will be ready.

In the two mailings there will be a list of the names together with the dates on which they are to be candidates.

Men who signed up for track on the athletic fields, and now men who desire to go out for the track team should expect to register at the track office at an early date. Among the new men who made a creditable showing at the track meets for which they are candidates.

Many Old Men Who Now Wear The "T" Return

Technology's place in intercollegiate track activities will be well maintained by the number of athletes returning to the Institute can be considered a criterion. Of the former varsity team. Toole who won third place in the Eastern Regional Athletic Association and championships, Orman and Newton have returned. For the quarter mile. Toole and Toole are both. Toole, who was fourth in the half mile at the Intercollegiate Athletic Association meet in Philadelphia, is the only one back for the half mile. Toole and Toole, letter men, with two other old men, are out for the mile. For the two miles, Toole, who was one of the most successful letter men, and Toole, are competing. Mills, the New England intercollegiate champion, is out for high and broad hurdles. Pierce, captain of the track team will again enter in the high jump with two or three old men. For the broad jump, the team has J. H. Wilson and three other former members. Ray-...

WHY BELONG TO A COOPERATIVE STORE
SUCH AS THE TECHNOLOGY BRANCH?

An extract from an article in Printers Ink in the issue of May 16, 1918:

"These are the advantages which cooperation has had. First of all it is honest. Not that cooperators are normally superior to the common run of humanity, nor that private trade is characterized dishonest. But under cooperative enterprise the incentive to fraud is entirely removed. The store manager, the wholesale director, every official is on a salary basis and were he to increase the income of the business through deception or overcharging, the surplus would only go back whence it came, into the pockets of those who had been defrauded, in the form of the rebate on purchases.

"Thus the cooperative store members' mind is at rest in his own store. He knows that the man behind the counter can gain nothing by misrepresentation.

"The second advantage cooperation had over private business is the cash rebate. Cooperative stores probably find it harder to get on their feet than private stores. But once successful, the cooperative is able to return its whole profit, minus the tax for expansion, to its customers. No retailer can do that."

Last year's dividend or rebate was 10 per cent.
