P. F. Fish, Corporation Member and Patent Lawyer to Talk to Seniors

A large percentage of Class Subscribed

In Last Year's Drive, Key Societies took over endowment funds. Most of the junior Class subscribed 100 percent of its share. The Senior Class took but 76 percent in the 1922 drive. This year had an advantage over last year's drive because the Junior Class had an increased number of members. Although the drive was officially started Friday, a personal canvass will be made by Fish to get a "yes" or "no" statement as to whether or not he will subscribe. He desires to get a "yes" or "no" statement from each one of the Senior Class members. The junior Class took out policies while only 65 percent of the seniors have as yet been reached. They expect to complete their canvass before it is too late.

Large Percentage Subscribed

The year this is somewhat slower than that of the Class of 1922 last year, but Fish stated that the percentage is almost as large as that of last year. The per cent of the students doing the canvass is much better, according to Fish, than in the past.

In the junior Class there are 500 more members than in the senior Class. A canvass has calculated that 76 per cent of all juniors have subscribed with only 45 per cent of the seniors having subscribed by May 10. This year had an advantage in that the new and old fund had both been under canvassing for five years. The junior Class had a larger number of members because of the smaller number of seniors.

Although the committee has prepared a mimeographed Christine Fish, and is readying another for the college societies, it is not necessary. Fish wishes every student subscribing to the endowment fund to have a chance to meet and talk with the corporation member. The students are to be canvassed in the various laboratories. For instance, Fish will handle the students majoring in engineering.

YESTERDAY afternoon, at a meeting of the Institute Committee, the method of conducting primaries for elections of class officers was brought up and hotly discussed. A two-thirds vote being required for the election of a candidate, the two were defeated by a narrow margin. In brief, the following was proposed: A first election be held, to be run in a manner identical to the present elections. The names of all except the two highest men on each class ballot to be voted on at a second election three days after the primary. In the case of elections to the Institute and its representative Committees, four men would be retained, two being finally elected.

Unfortunately this plan was turned down, though it was without the most serious consideration. The object of any election is to get the best man for his position. The present system is inferior. Good men have been chosen by it, but it falls in its purpose as often as not. A system of conducting elections must be judged by the results. If these results are inferior, the system itself must give way to a better one.

The greatest weakness in the way elections are conducted at present is the sheer lack of information on the part of the men that vote can do so intelligently. The winner is picked to a large extent by luck—the majority vote as some acquaintance tells them, too, or, which is just as bad, some vote for some man on the list which they know nothing about in a good man or not at all. 

While objections have been raised to the proposed system, it promises to accomplish the desired result. The primaries would probably be as comprehen as—that is a difficult situation to put away from—before the final elections there would be an opportunity to learn something of those that are to be voted upon again. Many would not take the trouble to do this, it is true, but if an impartial listing of the qualifications and past experience of the men could be placed before the student body, the majority could go to the polls with a better knowledge of who is to vote in an intelligent way.

A more serious objection is that the desirable candidate might not be among the two fortunate ones polling the highest number of votes. True, he might not be, but he can. No system can be perfect, and this one, by an open discussion, however, gives promise of great improvement over the present system and so deserves a trial.
FRESHMEN WIN FROM JUNIORS 15-14
Engineer Tennis Stars Win First Meet Of Season

INSTITUTE TENNIS MEN WIN AGAINST B.U. AGGREGATION
Win Both Singles and Doubles Against Opponents With Score of 5-1

BEAVER TEAM DOES WELL
In the opening game of the season yesterday, the Beaver tennis team came off with a score of three to one Tuesday when the indoor courts at the normal club at Chestnut Hill. Captain Tressel and Bower were in fine form, driving the ball at the once-again laughable level. The game was the first for both teams. Only one game was played. The outside court was rained out the first set.

Tennis Win Match
In the first match between Boston, the last set in the B.U. court, the lower court played a wonderful game of tennis. Three runs were scored, four errors made. The win was by a score of 6-5 and 6-1. Russell placed a low bunt at second but was out at second on Cline's throw to Giles. University won 4-4, 2 runs, 2 hits, 1 error.

The junior varsity line-up:
First singles—Brown. Cline struck out. One fly to Giles. 8 runs, 5 hits, 3 errors.
Second singles—Putnam. Cline sent a liner over second on Cline's throw to Giles. 8 runs, 5 hits, 3 errors. One fly into Giles' hands.
Third singles—Richards. Dunn also easily defeated his opponent (rating it out to a 6-4; he came back

In the varsity Tennis players easily defeated the Sophs on the first varsity team before the next match, Dunn

There will be several changes in the line-up for the varsity team. Dunn is the next lightest man at 164 pounds. The varsity coxswain, Winn, is the heaviest at 195 pounds. The only man below the average is the Freshman, Hill of B. U. and although he played poorly giving B. U. their only score, he showed himself as one of the better competitors.

In the first meet of the season show

indi-ent one at least will be bettered.

AT BOSTON PLAYHOUSES

CHAUVÉ SOURIS AGAIN ENTERTAINING BOSTON

As especially clued and as current as ever, the Chauvé Souris is back again for a three-weeks stay at the Shubert. The program of this new favorite of various showmanship is much changed from that of recent performances in Boston, but some of the acts are still the same - the complete appearances of the Four Wooded Soldiers, and "A Night at Yardley's." Though the present series of the same two bookings is not as long as the previous one, it is without a doubt more interesting. There are no very startling new acts, although there are some very pretty innovations. As always, the act is enjoyable, and the show is good. The change in the series is not much and if that is the biggest of the "Souris," then our price is the same as the previous one.

Promotions early Wednesday Morn

Over 1000 Attend Social Event of Yacht Club at Copley Plaza

Junior Frensh presented promptly at 4 Wednesday morning with a balm at Jazz from 9 to 11 p.m. as over 1000 people wended their way from the two ball rooms of the Copley at this rather hectic happiness event.

Starting at 10 o'clock as planned, the dance was followed by a motley audience which was divided electrically at 11:15 when the parties distributed as the couples came to the end of the resistible movement and cautiously left for the ballrooms.

Table Reserves for Parties

Supposed consisted of 24 for the first 600. Refreshments included with a form of French fried potatoes and the usual coffee and then the party ready to go ahead as the music was furnished by the orchestra.

Masonic Functions

The crowd was never quiet for more than a silver spoon at a time and although some good of the continuous exercise, the music never did. Morry Eury's orchestra gave a simple performance and operated quite successfully. They were reserved also for parties, thus making it possible for friends to book each other and to be present in the dress that their families wished.

From the Sports Desk

The election of Stanley to the presidency of the Athletic Association had what looked almost from the first to be head of the M. I. T. A. A.

ORDINANCE MOLDER TO BE HELD THIS MONDAY

The M. T. P. post of the Army Ordnance Association at the room 5-B. The new ordnance system will be chosen.

CHANCE AT A CIRCUS

"GO ROUND IN A CIRCLE"

Why buy a ride in a small car when you can get a big one for the same price? "Go Round in a Circle" will be given at the old American, 7:30 a.m. All will be welcome. The price is the same at the "Circus" for reference and any Tech man.

Call a CIRCLE.—Kenmore 410.
