

OSCAR HEDLUND WILL COACH TRACK SQUAD

VOTE TODAY FOR YOUR CLASS OFFICERS-ROOM 4-131

STUDENTS ELECT OFFICERS TODAY AND VOTE UPON THE UNDERGRADUATE AMENDMENT

18 OFFICES TO BE FILLED FROM 104 MEN NOMINATED

Will Be Approved by Institute
Committee at Meeting
on Thursday

AUSTRALIAN BALLOT USED

A president, vice-president, secretary, treasurer, two members of the Executive Committee and two representatives in the Institute Committee of each Class will be chosen at the elections to be held in room 4-131 today. Besides electing officers for the coming year, the students will vote upon a proposed amendment to the constitution of the Undergraduate Association.

The amendment reads as follows: "The officers of the Institute Committee shall consist of a president, vice-president, secretary-treasurer, who, with the chairman of the Walker Memorial Committee and the Naval Hanger Gym and one more member elected at large shall constitute an Executive Committee."

Electioneering Prohibited

The polls will be open from 8:30 to 5:30 o'clock. According to the usual custom the ballots of each class will be of different colors so as to readily distinguish those of one class from those of another.

In order to conform with the provisions of the constitution of the Undergraduate Association the ballots will be of the Australian type. The voter will receive upon entrance to the voting room, his ballot, which he fills out at a booth or screened table provided for the purpose.

All forms of electioneering at the polls are prohibited. The counting of the votes is done by the chairman of the elections committee and two of the Senior members after the polls have been closed. Each man is pledged to keep the results of the election a secret until they are announced at the meeting of the Institute Committee, Thursday.

DRIVE FOR DELEGATES INITIATED BY MEETING

T.C.A. Will Help on Expenses of a Limited Number

A dinner and meeting of former members of the Technology delegations to the annual Silver Bay Conference took place in the grill room Walker, last night at 6 o'clock. There were 14 men present. A talk illustrated by slides of last year's conference was given by W. W. Quarles '24, D. H. Keck '25, new president of the T. C. A. president.

The Executive Committee of the T. C. A. has elected Keck as leader of this year's delegation. In addition to Keck, the following men have definitely decided to go: Austin Cole Jr. '25, C. L. Petze Jr. '25, W. M. Ross, General Secretary of the T. C. A., E. F. Stevens '27, and Professor Hale Sutherland '11, as faculty delegate.

The T. C. A. desires to announce that it will pay up to one half the expenses of a limited number of men desiring to join the delegation but feel they cannot afford to pay the entire \$40 estimated as the amount that the trip will cost each man. The General Committee of the Conference would like to know by the fifteenth of May the approximate number who are going to the conference and all men who are interested are asked to call at the T. C. A. office as soon as possible.

Activity Records of Presidential Nominees

G. L. Bateman:
Captain of Field Day relay team two years, freshman cross country, freshman mile relay team, varsity mile relay team, Sophomore year, captain of the varsity mile relay team Junior year, Institute Committee during freshman and Sophomore years, President of the Junior Class, Executive-Secretary of the committee for the revision of Tech Night, Executive Committee of Institute Committee during Junior year.

A. G. Hall:
Freshman soccer team, activities committee during Sophomore year, dormitory committee during Sophomore year, dormitory dance committee, Junior Prom committee.

E. E. McDowell:
Manager of summer camp baseball team in 1923, member of the summer camp student council, co-author and actor in the camp show "Oh Hector," President of the Federal Students Club, member of banquet committee during freshman year.

CORPORATION XV BANQUET TONIGHT

Professor J. G. Cullan and Frank Cox Will Be Speakers at Annual Affair

Stockholders of Corporation XV will meet at the Hotel Westminster for their annual banquet tonight. The gathering will be the final convalesce of the course in which Seniors will take part. The present administrative organization of the corporation will be in charge of the selection of next year's organization. R. S. Needham '25 and D. R. Taber '25 are candidates for the presidency of the society, and the stockholders will choose one of them.

The retiring president, J. M. Naughton '24, will preside, and his committee has arranged for short talks by leading engineers and industrial authorities. Frank Cox, general manager of the Lynn Works of the General Electric Company, has agreed to answer any specific questions relating to management which the men present care to put to him, although he has stated that he prefers not to deliver a formal address. To facilitate Mr. Cox's discourse, the dinner committee has provided an incentive in the form of an offer to refund the ticket price to the man attending who submits the best question for Mr. Cox to answer.

Professor J. C. Callan of the Harvard Graduate School of Business Administration will be the second speaker, and W. L. Fletcher, head of W. L. Fletcher, Incorporated, an organization

VI-A MAN FROM INDIA DIES OF CONSUMPTION

M. V. Kirloskar, a Senior in Course VI-A, died at Rutland, Mass., last Sunday morning. He had suffered from consumption for some time, and since Christmas had been in a sanatorium in Rutland.

Kirloskar's home is in Kirloskarvadi, India. He had received a B.Sc. degree from Ferguson College, India, in 1920. At the Institute he was a member of the Cosmopolitan Club, and once reached the semi-finals in a tennis tournament here. He was a member of the Massachusetts Union of Hindustans.

Kirloskar is survived by his father and two brothers, who are in India. In addition, a cousin of his is a Sophomore at the Institute.

COMBINED CLUBS ELECT OFFICERS FOR COMING YEAR

H. C. Hoar '25 Is New General Manager Rising From Treasurer

NEW DIVISION PROPOSED

Banquet Held at Young's Hotel —Report Given and Trust Fund Proposed

At the banquet held last night the announcement of the election of H. C. Hoar '25 as General Manager of the Combined Musical Clubs for next year was made. A report was tendered by G. F. Parker '24, this year's manager, and other elections were announced.

Transferring from the University of California at the beginning of this school year, where he had been treasurer of the Cosmopolitan Club, Hoar entered the competition for Treasurer and was elected to that position after the resignation of J. A. Hoxie '25.

He has brought the treasury department to a high standard, initiating a new form of bookkeeping and building up the personnel by inducing the men most fitted to come out for the department. He hails from San Diego, California.

New Department Recommended

In disposing of the surplus that has accrued from the season's work, the management has established a trust fund similar to those already founded by THE TECH and Tech Show. This fund is under the supervision of the Advisory Council in charge of the Combined Musical Clubs. Among the recommendations was that suggesting the abolition of the position of Senior Business Manager and the creation in its stead of a Business Department similar to the Publicity and Treasury Department with a Junior manager in charge.

This new arrangement, if put into effect will see the new managing board with four departments: Business, Publicity, Treasury, and Stage, and will remove a great deal of the work from the shoulders of the General Manager.

(Continued on Page 4)

FOUR MEN ARE PICKED FOR NEW YORK DEBATE

Three members of the Debating Society have been chosen to form the team which will debate tomorrow in New York. These men will argue in favor of the Britten-Ladd Bill which the University of New York opposes.

The men who make up the team are A. M. Kallet '24, W. C. Asbury '25, Henry Shore '24 and for alternate N. Gada '26. The subject which they will debate is of particular interest to engineers. The Britten-Ladd bill proposes a substitution of the metric system for the English system of measurements. It overcomes the usual objections to such schemes by retaining the English system for some specifically exempted uses.

While in New York the team will be the guests at dinner of the Metric Club, which has for its purpose popular education in the use of the system. The debate of the team will be broadcasted from WJZ of the Westinghouse Electric Company.

WORLD STRUGGLE FOR OIL SHOWN IN MOVIES

"The World's Struggle for Oil" will be presented on the motion picture screen at 4 o'clock Friday in room 5-330. The picture will show the history of the use of oil from the time of the fall of Babylon to the present time. President Straton will preside.

FORMER WORLD'S CHAMPION IN THE MILE RUN TO COME TO TECHNOLOGY THIS FALL

Fire Breaks Out In Chemical Laboratory

A spectacular fire took place in the Industrial Chemistry Laboratory, room 2-110, Monday noon. During the process of distilling petroleum the materials became ignited and flames shot up to the ceiling. Major Smith saw the conflagration and rushed to get the Institute chemical tank out, but before the apparatus could be taken from its quarters the men in the laboratory had the fire extinguished. Owing to the fact that the only inflammable substance in the room at the time was the oil being distilled no damage was done, although the intensity of the flames made it appear that the fire might spread.

LECTURE ON LABOR PROBLEM THIS WEEK

Employers' Viewpoint Given As First of Series on the Labor Question

Howell Cheney, of Cheney Brothers, silk manufacturers of South Manchester, Conn., will deliver the first of a series of three lectures on the "Problem of Labor Relations" in room 10-250 at 3 o'clock Friday. These lectures will be held weekly and will endeavor to show all the different phases of the labor question.

The employers' viewpoint will be presented by Mr. Cheney at Friday's lecture, while next week J. J. Kearney of the Hotel and Restaurant Employees' Alliance and former State Senator, will present organized labor's side of the problem. At the final lecture on May 23, M. W. Alexander, Managing Director of the National Industrial Conference Board will sum up both sides of the question impartially.

Questionnaire Submitted

Although the lectures are open to all members of the student body, it is expected that all except Seniors, graduate students, and members of the instructing staff will wait until 3 o'clock so that the others may have the opportunity to obtain the best seats. Three o'clock classes will be arranged

(Continued on Page 4)

FINAL TEA DANCE OF SEASON ON SATURDAY

Walker Committee Is Looking For Poorest Activity

This year's last tea dance will take place in the main hall Walker, Saturday from 3 until 6 o'clock under the auspices of the Walker Memorial Committee. The tickets will be sold at the price of \$1.50 and are obtainable at the Technology Branch of the Harvard Cooperative Society, in Walker Memorial Dining Room, and in the Walker Memorial Committee Room. Tickets will also be on sale at the door at the increased rate of \$2.00 per ticket.

Music will be furnished by Hackett's Orchestra assisted by several of Bert Lowe's first string men. So far, the committee has not decided to which of the activities the proceeds of the affair will be donated and at present they are in search of some poverty-stricken organization to be the object of their benevolence.

WILL WORK WITH COACH CONNOR DEVELOPING TEAM

Announcement Made at Advisory Council Meeting Held Last Night

CREW MAY RACE HARVARD

Oscar Hedlund, former world's champion in the mile, a member of the 1912 American Olympic team and at present track coach at Boston University has been secured to coach the Technology track team in conjunction with Dr. Connor. Mr. Hedlund will have charge of the track events while Coach Connor will give his time to developing men in the weights. Dr. A. W. Rowe '01 announced the fact that Mr. Hedlund had accepted the offer to come to Technology last night at the meeting of the Advisory Council on Athletics held at the Engineers' Club. The Advisory Council feels that Coach Connor has had his hands more than full because of the large number of men who are now reporting for track. It was with the idea of taking some of the burden from Coach Connor's shoulders that the Advisory Council secured the services of Mr. Hedlund.

Famous Runner

Coach Hedlund started on his career as a championship runner in 1911 when running for the B. A. A., he won the mile run in the New England A. A. U. championships, covering the distance in 4 minutes and 21 seconds. He also came through with a New England record in the 880 yard, turning in the time of 1 minute 57 and 4-5 seconds.

During the winter of 1912 Hedlund rapidly developed into one of the best runners in the eastern part of the country, and it was during this year that he secured his first world's record which was the indoor championship for the mile. From then on Hedlund's rise to fame was swift and steady. Running against the best runners in the country at Madison Square Garden in February 1913, he won the mile in 4 minutes 18 4-5 seconds.

Held Record in Mile Run

Nothing seemed to be able to stop Hedlund's steady march to another world's championship, as on the next Saturday after he had won the mile at Madison Square Garden, he lowered the world's record in the mile to 4 minutes 18 3-5 seconds.

In 1912 Hedlund won the Hunter mile in 4:23-4. This mark stood until 1919 when Joie Ray clipped a second from the record time. As a member of the B. A. A. championship four mile relay team, he helped to hang up two new world's records. In 1919 he ran on the B. A. A. relay which turned in the time of 6 minutes 59 seconds, each man running 780 yards. Running as anchor man on the B. A. A. 4 mile relay at Easton, Pa., in 1913, Hedlund did his part in lowering the record to 7 minutes 51 1-5 seconds. He turned in

COMMUNICATIONS: To the members of the Class of 1926: According to the budget system in force at this institution, each class is allotted a certain amount from the Student Tax of each member, to be expended as determined by the Executive Committee of the class.

The per capita amount allotted to the class fund is not sufficient to form a fund large enough to finance any desirable function in which the whole class may participate without charge unless the finances are allowed to accumulate over a period of time.

Acting in accordance with this policy, the Executive Committee just going out of office has been very cautious with its expenditures, so that a large fund may be available for desirable functions either next year or the following year, and those functions may be handled in a far more elaborate way than would have been possible during the past year.

There are several advantages which will result from the proposed plan. Since the Chairman of the Walker Memorial Committee must keep in intimate touch with all the activities, he becomes thereby a very valuable man to have on the Executive Committee.

In the administration of its affairs the Walker Memorial Committee serves all the activities, and consequently deserves all the cooperation it can have in facilitating the discharge of its duties.

THE WALKER MEMORIAL COMMITTEE REFERENDUM: IN the referendum of the elections today it will be decided whether or not the Chairman of the Walker Memorial Committee is to be an ex-officio member of the Executive Committee of the Institute Committee.

THE MERITORIOUS WORK OF THE R. O. T. C.: EXTENSIVE has been the debate and great the verbosity concerning the advisability of the R.O.T.C. Units in American colleges.

The unit at Technology has proven to be most successful and it is continually attaining higher standards. The quality of the work it is accomplishing is prompting the government to issue more and better equipment for use here.

be floating around the 'Stute. A logical process, as the most of us are in the air. 'Tis a bright laddie indeed that can separate the wheat from the chaff of political argument.

Dear Lounger: It gives me great pleasure to join the ranks of the many who are telling you how much they think of your opinions.

Today is the day! By the polls ambitious youths will stand or fall. 104 members of the coming generation would be the leaders of their fellows.

The main difficulty with your viewpoint is, that if the path were to be closed how would the instructors of the English and History department be able to reach their nine o'clock classes on time?

Not even we, the Lounger, can predict the results to be read at tomorrow's Institute Committee meeting. But the stench of hot air is still in the breeze.

Mr. Lounger, you may be able to move

the baseball diamond, but you'll never move the freshmen. Yours, Formore Sense.

Correct, Formore. You are right, but this does not follow that the Lounger is wrong. Oh, no! You accuse both freshmen and the spreaders of knowledge in the EH Department for the demolition of our lawns.

And a little child shall lead them—but do you blame the child? Our poor instructors may err, but is it their fault? Anybody who would torture his victims with "The Voice of Science" could hardly be held responsible for anything.

But who can get anything but wise cracks out of a dumbbell?

Young Men's Suits At \$45 Fresh From Our Workrooms AND the charm of those new soft clinging fabrics doesn't flourish in extremes. Their smart lines are worth more than a mental notation to the student or young business man. It's a full interpretation of present authentic styles at Eaton and Harrow and the great English universities. Distinctive in type and altogether irreproachable. Trousers width to suit your taste. Our own substantial quality of tailoring. Priced \$45 and \$50—Ready-to-wear (Young Men's Dept. 2nd Floor) Scott's Company 336 to 340 Washington Street, Boston

Princeton Instructor Makes 48 Day Trip to Europe for \$7.13 A Day Including Round Trip Steamship Fare and 34 Days in Europe SEND the coupon below for the 16 page booklet telling how he made a 48 day trip to Europe at an average cost of \$7.13 a day including 34 days in Europe and round trip steamship fare. With it you will receive illustrated literature showing third cabin accommodations, sailings and passage rates on United States Lines' ships, also the folder "What's Going on in Europe in 1924."

To make a European trip possible for students and teachers at a minimum cost these United States Lines' ships will have exclusive third cabin accommodations reserved:

- S. S. President Harding - June 24
S. S. Republic - July 3
S. S. Leviathan - July 5

For your return similar exclusive reservations have been made on westbound ships.

College women are invited particularly to make reservations on the S. S. Republic sailing July 3rd as special third cabin accommodations are available under proper chaperonage. Women will also be especially chaperoned on the other ships listed above and on the return trips.

Third Class Cabin on United States Lines' Ships Is Not Steerage

Third class cabins on these ships accommodate 2, 4 or 6 persons. They are clean, airy and comfortable. The berths have soft, sanitary mattresses and clean linen;—water and other conveniences in each stateroom. The food is wholesome, appetizing and plentiful and service of the best. Public rooms are large and inviting. Ample deck space is provided for games and dances. Daily concerts are a feature of the voyage.

This is your chance to enjoy the cultural and educational advantages of Europe at the lowest cost possible in years. Dozens of international events are taking place in Europe this summer including the Olympic games and the British Empire Exhibition.

THE LOUNGER Today is the day! By the polls ambitious youths will stand or fall. 104 members of the coming generation would be the leaders of their fellows. 80 of these are doomed to disappointment. Elections are at best an uncertain quality—the quantity "X" personified. Hay fever, spring fever and baseball have combined to make the undergrad a capricious youth, brim full of day dreams and uncertainty. Not even we, the Lounger, can predict the results to be read at tomorrow's Institute Committee meeting. But the stench of hot air is still in the breeze. It flows in a torrid undercurrent to drag down whatever stray votes that may still

CREW GOES TO ITHACA TOMORROW

VARSITY TO RACE CORNELL ON LAKE CAYUGA SATURDAY

Oarsmen Meet Strong Opponent
In Third Contest of
Racing Season

CREW LINEUP UNCHANGED

To Be First Race of Season
For Red and White
Varsity Crew

For the last few days Coach Bill Haines has put the varsity oarsmen through some stiff practice sessions in preparation for the big race with Cornell on Lake Cayuga this Saturday. The crew will leave Boston tomorrow night for Ithaca on the 8:35 Boston and Albany train to arrive in town about 10 o'clock Friday in time to get in a morning practice on the lake with an afternoon workout. For the last few days the crew has been going fine showing a wonderfully powerful stroke which will undoubtedly give the Red and White combination the closest and hardest race of the season.

To Race at Henley Distance

With the prospects of a race with the Harvard varsity eight looking very bright for the Saturday following the Cornell race the men are all in fine spirits for the coming contest. They have been laying to their work with a will under Bill Haines' tutelage and have developed a machine-like stroke that sends the shell jumping through the water. On Monday afternoon the varsity along with the first frosh and Junior varsity rowed up to the Watertown Arsenal. On the way back, giving the second varsity a two lengths' lead over the frosh and a three lengths' lead over the varsity the coach had the crews race to Wendell Boathouse. Through the steering of Bob Reid and the powerful work of the men the first crew soon caught up on the others to finish strongly.

At Ithaca the race will be over the Henley distance of 1 and 5-16 miles, an increase of 220 yards over the length of the contest with Syracuse last Friday. The Henley distance is an easier race to row as the pace is ordinarily not quite as fast and wearing as the time set for the shorter distance.

This will be Cornell's first appearance in a race this season but as strong crews are one of the traditions of the northern college they will row a fast race. Our own oarsmen have come along in great shape and although as yet they have not gained a decision over other crews still they have great spirit and a great reserve of strength.

SOPHOMORES BEAT JUNIOR BALL TEAM

Freshmen to Meet Sophomores
In Second Round Game
Tomorrow

On Monday afternoon the Sophomores turned the tables on the Juniors when they batted in 11 runs off the Junior pitchers while Bates pitched fine ball for the Sophs when he held the Juniors to 2 runs. This win places the Sophs on a par with the frosh each having two wins and one loss. Tomorrow the crucial game for the series comes when the Sophs meet the frosh in the first game of the second and last round.

In their former meeting two weeks ago the Sophs jumped on Richards, the frosh hurler for two or three runs in each inning while Bates kept Luke Bannons' proteges to a few scattered hits in the first innings of the game. Both teams played raggedly and errors accounted for quite a few of the tallies. At the fifth inning the score stood 9 to 6 in favor of the Sophs. At the beginning of the sixth, the frosh started a hitting rally and quickly ran up the score to nine all, but as it was getting quite dark Denton Massey who was refereeing called the game. The score reverted back to that of the previous inning thus giving the Sophs the game.

As this win was not very decisive, the frosh are primed to give a great battle tomorrow for the first position of the league. The frosh have a greatly improved pitching staff with Rhinehart and Wiebe as hurlers. The other day Luke Bannan was practicing on his southpaw style of hurling. Bates has proved himself to be a great pitcher already and will give the first-years a lot of trouble if they do not find their bating eyes early in the game.

How the Ball Teams Stand in the Series

	W	L	R
Freshman	2	1	.666
Sophomores	2	1	.666
Juniors	1	2	.333
Seniors	1	2	.333

GOLFERS TO PLAY AGAINST FACULTY IN UNIQUE MATCH

Results Much in Doubt Due to
Inequalities in Staff
Handicaps

MASSEY ELECTED CAPTAIN

Tomorrow in what promises to be a very unique and interesting match the golf team will go up against the faculty golf players at the Winchester Country Club. This is the first time that an Institute team has ever had a meet with the faculty, so far as records go, the first time that any team has challenged the faculty of its college.

As the contest is not an extremely serious one the team is putting in as many players as possible and the staff certainly seems to be able to supply them with as many opponents as they wish. A large proportion of the professors have not played for several years so that the meet will hardly be in the professional class but a good time will certainly be one of the prime factors which after all is the thing that really matters.

Matches Arranged for Equality

Two matches that will be sure to present more than an ordinary aspect are those between Professor Hudson and De Foe and Professor Doten and Massey, as these gentlemen are connected in other ways than golf. The five best men on the faculty team are Major Pendleton, Professor Dillon, Professor Prescott, Professor Bailey and Professor Sherrill. Professor Sherrill is manager elect of the faculty team and from all indications seems to be enjoying his responsibility to the utmost.

The matches were arranged to make all of them as equal as possible but in a large number of cases this was somewhat difficult as most of the faculty were rather uncertain as to their handicap and in general requested the limit. Under the circumstances it will of course be largely a matter of luck as to which side wins.

The following will be the line up with only foursome playing: Timbie-Elkins, Pendleton-Head, Wareham-Nelson, Prescott-Larkin, Dillon-Mansfield, Shugrue-Marsh, Bailey-Fitch, Hudson-DeFoe, George-Edmonds, Blanchard-Van Deusen, Doten-Massey, Sherrill-Whitehead. The matches will be played on bestball and Nassau score.

Massey Elected Captain of Team
At the last club meeting Massey was elected captain of the team but as the meeting came on the same day as the A. A. election has not been officially ratified. In regard to practice there are a fairly large number of courses now which have given course privileges to members of the team.

OSCAR HEDLUND WILL DEVELOP TRACK SQUAD

(Continued from Page 1)

a 4-22 for the mile. He was a runner who performed in championship style up to and including his last race. The future Technology coach lowered the New England record for the mile in the A. A. U. championships in 1915 and retired from competition after this contest.

Crew Race Promised
He soon took up coaching and in 1921 went to Boston University as field and track coach, which position he now holds. Two years under the supervision of Coach Hedlund worked wonders with the Boston University team and in 1923 the B. U. track team won the first points they had ever secured in the New England meet.

Coach Haines speaking on crew before the Advisory Council said that in all probability the Varsity crew would race the Harvard first boat on May 17. He had been talking with the Harvard authorities who seemed to be anxious to see that the race would come off.

Speaking of the showing which the crews have made so far, Coach Haines said, "the crews are in the constructive stage now, and have done all that I expected of them; however we won't be satisfied until we win a race this year. The Navy race made the men realize that victory is really a matter of condition."

H. P. McCarthy who is in charge of the physical training at the Institute

CREW REGATTA ON RIVER SCHEDULED TO RUN OFF TODAY

Races Postponed From Saturday
Will Take Place Late
This Afternoon

FIRST 150 CREW CHANGED

This afternoon the races postponed from last Saturday when the river was too rough to permit any crew competition will be run off. The first race will be a triangular affair between the first 150, the first freshman and the Stone School eight. Shortly after this race the second 150 and second freshman will take to the water to row Lynn Classical High School. At 6:30 in what bids to be a snappy affair the Junior varsity will meet the Union Boat Club. Yesterday Coach Haines made quite a few shifts in the first 150 and the second varsity in order to bolster up the former eight for the coming race with Harvard this Saturday and the race with Columbia on the following Saturday. The Lynn Classical race will be over one mile distance while others are at Henley length.

First 150 Crew Shows Improvement

By far the best of the crews at the boathouse outside of the varsity is the first freshman eight. Yesterday in practice they rowed a strong race over the Henley distance against the varsity and the reorganized 150 pounders. The frosh trailed the other eights to a distance a little past Harvard Bridge after which they slowly pulled ahead to beat out the lighter crew by about a length. The lineup of the first frosh has been unchanged except for the substitution of Harvey for Lammert at No. 3 when the latter was forced to give up crew on account of his studies.

M. M. Greer is back at his old position of stroke on the 150 with Peterson at No. 7, both of whom were on the second varsity eight. This return of two of the strongest members of the crew to their old boat has greatly changed the aspect of the eight. With the exception of Goble who retired because of scholastic difficulties and Lane who has been advised to drop crew by the doctor when his tonsils became infected, the former 150 which was the pride of the Charles is back again to regain its lost prestige. Yesterday they trailed the frosh by only a length while last week the 150's were seven lengths in the rear of the first year men. With the same amount of improvement every day the crew will be a world beater after they work together awhile into their old form. With the expected improvement the Crimson oarsmen will have to row a desperate pace in order for their stroke to look on the backs of the Beavers.

These races are especially important for the freshman and 150 pound crews as they will give a direct line on what to expect in the races with Harvard Saturday which both crews are looking forward to. Stone School is fairly strong as in the race with the second frosh about a week ago they beat them by 4 lengths. This will give the crews a good workout and will undoubtedly show the weak and strong points of the eights.

Greek Letter Men Play Seven Games

Fraternity Baseball Progresses
Rapidly With Kindly Aid of
Fair Weather

Interfraternity baseball has been progressing very rapidly. Thus far seven games have been played. Several of the fraternities have turned out first string aggregations, and it is impossible to forecast as to who will finish first in the league. The results of the last four games are as follows:

- Phi Sigma Kappa (13)—Sigma Alpha Epsilon (1).
 - Lambda Chi Alpha (5)—Phi Kappa (3).
 - Delta Tau Delta (16)—Phi Beta Epsilon (2).
 - Delta Upsilon (6)—Sigma Chi (2).
- The schedule for next week is as follows:
- May 12, Phi Kappa vs. Kappa Sigma; Theta XI vs. Phi Mu Delta.
 - May 13, Beta Theta Pi vs. Theta Chi; Phi Kappa Sigma vs. Delta Epsilon.
 - May 14, Phi Beta Epsilon vs. Theta Delta Chi; Sigma Chi vs. Sigma Alpha Epsilon.
 - May 15, Phi Sigma Kappa vs. Phi Kappa Sigma; Delta Tau Delta vs. Tau Delta Chi.
 - May 16, Kappa Sigma vs. Lambda Chi Alpha; Theta XI vs. Phi Kappa.

BEAVERS TO FACE HARVARD PLAYERS IN TENNIS TODAY

Daives and Nedherngon Among
Champions to Oppose
Engineers

EXPECT HARD FAST GAME

Today the varsity tennis team will be matched against the Harvard Business College, which has one of the strongest teams in the East. Captain Tressel will run a four man team, and they will consider themselves lucky if they are able to capture any of the six games. Jim Davies and Nedherngon will be among the players the Beavers are up against this afternoon.

It is still uncertain as to who will make up the Engineer's team, except for Tressel and Russell who will play the first two singles and the first doubles. Peck will play number three, and either Harris or Broadhurst will play number four, to be determined by the outcome of eliminations. Peck and Broadhurst, however, will play together in number 2 doubles.

Harvard Team Strong

After the experience gained from playing the strong Dartmouth team last Saturday the varsity racket wielders will be in the best of condition to meet the Harvard Grad team. In the first game of the season the Beavers easily cleaned up on Boston University; the second game with Boston College came off with the same results. The third game with Dartmouth did not turn out so well, the Green team taking all games in both singles and doubles only after a hard fast fight.

Harvard Grad is always in a position to put out a strong tennis team as graduates from some of the best college teams in the country attend there, and this year has proved no exception. Davies, former University of California champion, and holder of the intercollegiate doubles championship in 1920, will play against the Engineers today.

Nedherngon, captain of Princeton's tennis team of two years ago, and also intercollegiate doubles champion, will go to make up the strong Harvard combination; also Macy Wheeler of last year's Yale team is to oppose the Beavers this afternoon.

After College What?

STEADY progress to a responsible position in the business world—or a long period of training at minor work before you are fitted for an executive role? To help you succeed more quickly the Babson Institute offers an intensive one-year training course in practical business. From actual experience the fundamental principles of business are made clear. By positive examples, the student is shown how to apply these principles in the conduct of every day commercial affairs.

Write for Booklet

Send for booklet "Training for Business Leadership." Describes the courses in detail and gives complete information about the facilities of Babson Institute and shows how men are trained for executive roles. Write today. No obligation.

The way to get the finest shave

The Hinge-Cap is a sure way of identifying Williams Shaving Cream. And Williams, besides giving you the convenient Hinge-Cap, will improve your shave in three ways:

First, the lather is heavier and holds the moisture in against the beard. Quicker and more thorough softening of the beard results. Second, the razor glides more easily through the Williams-softened beard because Williams lather lubricates the skin. Lastly, an ingredient in Williams keeps the skin in good condition no matter how heavy your beard nor how frequently you shave. In addition, you'll enjoy Williams because it is a pure, natural white cream without coloring matter of any kind. Ask for it.

**COMBINED CLUBS ELECT
OFFICERS FOR NEXT YEAR**
(Continued from Page 1)

In his financial statement Parker announced the close of one of the most successful seasons experienced by the clubs. As final results the clubs have emerged with about \$300 to the good, all expenses paid, and all returns not yet complete. In connection with this statement, the retiring manager advised the clubs against over enthusiasm along the lines of extended trips.

In behalf of the Advisory Council, Professor W. T. Hall spoke in commendation of the work of the clubs and emphasized the fact that on no account would there be any intention on the part of the Choral Society as an organization to supplant or in any way hinder the operation of the Glee Club, thus allaying any fear that had been aroused along these lines.

Club Leaders Chosen
The leaders and assistant-leaders for next year have been chosen and are as follows: L. M. Littlefield '24 was chosen as leader of the Glee Club. He has been with this organization for five years and during that time has been absent only two times. M. A. MacDuffie '25 was chosen Assistant-Leader. He has been with the club for two years. He was on the Technique staff before coming out for the clubs.

D. A. Shepard '26, who is President of the Sophomore Class, and has filled the vacancy left by Sawyer since his leaving the Institute, is now Leader of the Mandolin Club. D. S. Cunningham '26 has been chosen as his assistant and comes from Springfield also. This is his first year with the Clubs.

The Banjo Club leader, Raymond Mancha '26, has been reelected for another year. He is credited with bringing the club up to its present high standard. H. B. Hibbard '25 has been chosen as his assistant and has been with the club for a year.

F. R. Tandler '26 has been chosen Leader of the Dance Orchestra for the second time. His good work at this position secured him the reelection. There has been no assistant selected as yet.

W. P. Lowell Jr. '26 has been elected to the position of Stage Manager, J. E. Walker '26 is the Treasurer for the coming year, and E. B. Haskell '26 holds the position of Publicity Manager.

Due to the enforced absence of Hoar, who is in the Hyannis Hospital with a broken leg, J. E. Walker '26, next year's Treasurer, will act as General Manager until Hoar is able to assume his new duties.

that has made a specialty of placing high grade men in engineering and business positions, will also talk. He is expected to give a picture, especially for the benefit of the men who are to graduate in June, of conditions in job hunting such as the young engineer may expect to find.

**CHEMISTS TO ELECT
LEADERS TOMORROW**

**Results of Voting Announced
At Smoker To Be Held
In the Evening**

The election of officers of the Technology Chemical Society for the coming school year will be held tomorrow. The ballot box will be located in front of Dr. F. G. Keye's office in building 4 and will be open for voting from 9 until 4 o'clock. A president, vice-president, secretary and several lesser officers will be elected at this time.

The results of the voting will be announced at the smoker of the society which will be held in north hall, Walker, on the evening of election day. Captain A. H. Waitt of the U. S. Army will speak on "Chemical Warfare in the United States Army" and Professor J. W. M. Bunker will talk on the subject of "Experiments in Nutrition." In addition a demonstration of glass blowing will be given by G. A. Bautze.

The society is planning a trip to the Dorchester plant of the Walter Baker Chocolate Company for next Tuesday afternoon. This is the last trip of the term. Complete processes will be shown to the visitors by competent guides and all those who are interested in the trip should see the bulletin board opposite Dr. Keye's offices for details and sign-up.

**OSCAR HEDLUND WILL
DEVELOP TRACK SQUAD**
(Continued from Page 3)

at present, will coach the basketball team next season. The awards in boxing, rifle, fencing and track were approved. E. H. Moll '24, last year's boxing captain and manager this year, was awarded a straight "T" as was T. E. Garrard '25, who broke the javelin record in the Interclass meet.

A. H. Stanton, R. J. Hockstetter '25 and R. A. Mitchell '25 were elected as the three new undergraduate members of the Council. The Advisory Council approved the plans of the baseball management for securing outside games for the freshmen.

The greater part of the Advisory Council meeting was taken up with the discussion over the allotment of the baseball diamonds to the class, dormitory, and fraternity teams. It appears that the baseball management of the dormitories was not satisfied with the time which Denton Massey, supervising manager of baseball, allotted to the dormitory nines.

After much discussion as to whether the dormitory men should have Thursday afternoon for practice the matter was brought up before the executive committee of the Institute Committee and decided favorably for the dormitories. The Advisory Council put itself on record as expressing disapproval of the manner in which this matter which pertains to athletics was put through over the heads of the Athletic Association.

**LECTURE ABOUT LABOR
SITUATION THIS WEEK**
(Continued from Page 1)

for Seniors and graduates as they were at the Aldred lectures.

In order that information may be obtained on the subject the following questionnaire is submitted to the student body.

You are requested to number, in the order of their future relative importance to you, the causes listed below as affecting continuity or permanence of employment. The order in which they are listed below has no significance whatever. If you feel, for instance, that "Working conditions better than the average in similar conditions" will have the greatest influence on you in continuing in employment, rate it as No. 1, and if you feel that "Pensions, etc." will have the influence of next importance, rate it No. 2, and so on.

	Rating
Pensions, Saving Funds, Loans, etc.	
Character of Management, including that of all persons in authority, i.e., The Square Deal	
Sickness Insurance and Hospital; Surgical; Medical; Ooptical; Dental; X-Ray; and Laboratory Service	
Working Conditions Better than the Average in similar conditions	
Wages Higher than the Average in similar employment	
Living Conditions Better than the Average—	
(a) As to Housing Conditions	
(b) As to Community Standards of Order, Government, Health, and Sanitation	
(c) As to Churches, Schools, Recreations and Playground Facilities	
Opportunities for Promotion—	
(a) By training on the job	
(b) By the possibility of Increased Earnings	
(c) By Advances to Higher Classes of Work	
Steadiness of Employment	

It is requested that every student tear this questionnaire out, fill it in and drop it in any Institute mail box.

Notices and Announcements

All notices for this column should be in by the morning of the day preceding the issue.

OFFICIAL
LECTURES ON COURSES

Wed., May 7th, X, Chem. Engineering, Room 4-270, Prof. Lewis.
Thurs., May 8th, XIII, Naval Archi., Room 3-270, Prof. Jack.
Fri., May 9th, XIV, Electrochemistry, Room 4-231, Prof. Goodwin.
Wed., May 14th, IX, General Science, Room 4-270, Prof. C. L. E. Moore.
All talks are given at 5 P.M. and are open to all freshmen.

THESIS INSTRUCTIONS
All material to be blue printed for use in theses, when typewriter is used, should be written with carbon paper at back of sheet in order to have letters stand out clearly.

"THE WORLD'S STRUGGLE FOR OIL"
Correction of Previous Notice
The date of exhibition of this moving picture has been changed to Friday, May 9, 4-5:30 P. M. in room 5-330.

UNDERGRADUATE

CHEMICAL SOCIETY
Smoker in north hall tomorrow at 7:45. Captain Waitt and Professor Bunker will speak and there will be an exhibition of glass blowing. Everyone welcome.

A. S. M. E. MEETING
All members of the A. S. M. E. are invited to attend a lecture to be given by Mr. Moulthrop on "New Edison Station at Weymouth" in the chemical laboratory of Tufts College on May 15 at 8.

AERO SOCIETY
Nominations for president, vice-president, secretary and treasurer of the Aeronautical Society are now open and should be left in room 3-312, addressed to the A. E. S. before 5 o'clock today. Each nomination must be signed by ten members of the society.

RIFLE CLUB
The annual election of officers of the Rifle Club will be held next Thursday in Atkinson 202 at 5.

CHEMICAL SOCIETY
The Chemical Society will conduct the last trip of the term to the plant of the Walter Baker Chocolate Company in Dorchester next Tuesday. See Dr. Keye's bulletin board for details and sign-up.

TEA DANCE
The Walker Memorial Committee Tea Dance will be held May 10. Music will be by Hackett's orchestra. Tickets are \$1.50—at door \$2.

CIVIL ENGINEERING SOCIETY
Nominations for officers of the Civil Engineering Society are due at 5 today. They can be handed to any officer from 2 to 5 or left at Professor Spofford's office.

SPORTS

FRESHMAN BASEBALL
There will be practice today at 3:30. Be sure to be on time as there will be a photographer from the Herald to take pictures for next Sunday's papers.
