

F. C. SHEPARD WILL ADDRESS SENIORS AT COMMENCEMENT

Director of United States Mint at Denver Is Honored By Committee

QUESTIONAIRES ANSWERED

President Stratton and Dean Talbot Will Also Speak At Exercises

F. C. Shepard '87, director of the United States Mint at Denver and father of D. A. Shepard '26, former president of the Sophomore Class, will address the Seniors at the commencement exercises to be held June 10. This announcement was made Friday by Professor E. F. Miller '86, chairman of the faculty committee in charge of graduation.

Mr. Shepard was prominent in undergraduate activities during his course at the Institute having been president of his Class during his Senior year. During his Junior year he was a major in the cadet battalion.

Dean and President to Speak
He is a graduate of Course II and has been interested in engineering enterprises since his graduation in 1887, having been a member of the Denver Engineering Works Company for a number of years before he became director of the Denver Mint.

President Stratton and Dean H. P. Talbot '85 will also speak at the exercises and efforts are being made by the committee to secure an additional speaker who is not directly connected with the Institute. Major General C. C. Williams, Chief of Ordnance in the first Corps Area, will be present to administer their oath to the R. O. T. C. men and to award them their commissions.

Questionnaires Returned

Sale of blanket tickets for the functions during Senior Week has been progressing rapidly and the Seniors who have not yet purchased them will be given the opportunity to do so all this week in the main lobby.

The questionnaires which were distributed to the members of the Senior Class a few weeks ago have been returned and the committee is now compiling the answers to these questions and will have them ready for publication within a few days.

DEBATING TEAM HOLDS PRELIMINARIES TODAY

Is Preparing to Meet Boston University Next Week

This afternoon the debating team will hold tryouts to determine which of its men will represent the Institute in a debate to be held with Boston University on May 27.

Resolved: That the United States should give the Philippines independence on the same basis that independence was given to Cuba" will be the subject of the debate and this subject will also be debated in the tryouts. Four men will take the affirmative and four the negative side of the question. These tryouts will be held in room 2-190 at 4 o'clock today. Everyone will be welcome.

Last Thursday the team held a debate on the subject of the Metric system of units in New York. The debate was not judged but the team made a very good showing.

Under the auspices of the debating team and the Speakers Club, of which the debating team is now a part, a petition is being circulated asking that a General Study on debating be given the first term next year. If the number of men who sign the petition indicates that a class could be filled the General Study will probably be given.

AERO SOCIETY ELECTS NEXT YEARS OFFICERS

At the elections held by the Aeronautical Engineering Society G. G. Davidson '25 was elected president, V. F. Halburton '25, Vice-President, Roger Ward '25, Secretary, and V. J. Weatherly '25, Treasurer. To be the representative on the Executive Committee of the Combined Professional Societies H. E. Wehmiller '25 was chosen.

Smoke Screen Fills Basement Of Walker

A cloud of gray smoke and the pungent odor of burning oil filled the basement of Walker Memorial about 3 o'clock Saturday afternoon. A drive belt in the power room had become caught on a temporary wooden frame used as a guard around an electric motor which continued to run after the belt had stopped. The heat of friction caused the pulley to smolder and send out generous clouds of smoke. Upon the shutting off of the power supply the fire became discouraged and went out.

PRESIDENT GIVES SENIOR RECEPTION

Result of Desire to Meet Men Personally Is Well Attended

President Stratton's wish to become better acquainted individually with the members of the Class of 1924 was fulfilled last Friday afternoon at a reception given to that class at his residence. Upon W. H. Robinson Jr., '24, president of the class, devolved the duty of presenting his classmates to Dr. Stratton.

The class responded quite well to the manifestation of Dr. Stratton's deep interest in the student body, and their affairs since quite a large number attended. The men in being presented, lined up and were introduced individually to Dr. Stratton, since this procedure better served the purpose of the occasion than if the men had been presented as a group. The introductions over, the president made use of the opportunity for mingling with the men and conversing with them individually or in small groups.

Tea was served to those present by Mrs. Ford, Mrs. Passano, and Mrs. Bigelow. Several of the Seniors attended in groups. Among these was the Senior Baseball Team, which arrived en masse for a short visit before going out to their victory over the Sophomores.

RADIO SOCIETY IS HOST OF AMATEURS

Speeches and Stunts Enliven Evening at Banquet In Walker

About 120 radio amateurs gathered in Walker Saturday evening for their annual radio banquet, conducted this year by the M. I. T. Radio Society and the Commonwealth Radio Association. Previous to the banquet, a code contest was held in the Faculty and Alumni room.

This contest was conducted by Ted McElroy, world's champion code receiver. There were 12 entrants, and the prize, consisting of a silver loving cup, was won by W. J. Halligan, a member of the staff of the Boston Traveler.

Warner First Speaker
After the dinner in north hall, the proceedings of the evening were opened by H. B. Cuthbertson '25, treasurer of the Radio Society, who introduced the toastmaster, Joe Toye, of the Boston Traveler, and presented to him the famous "wouff-hong," a peculiar weapon of torture well known to radio amateurs. It was, he said to be used on speakers who talked too long.

The first speaker, K. B. Warner, secretary of the American Radio Relay League, told what progress has been made in forming an "International Amateur Radio Union," and pointed out what he considered was necessary for American amateurs to do to maintain their leadership in the formation of this organization.

The technical talk of the evening was given by H. W. Lamson '15, of the General Radio Company. He discussed the properties of quartz crystals known as "piezo-electric effects," and described how this property has been made use of in conjunction with vacuum tubes to make an oscillator whose frequency is absolutely constant.

Professor A. E. Kennelly, of the Department of Electrical Engineering, said he believed that amateurs were

KEARNEY PRESENTS SIDE OF LABOR IN INDUSTRIAL WORK

Gives Second Talk of "Problems of Labor" Series in 10-250 Friday

SERIES ENDS NEXT FRIDAY

"I am going to give you my ideas on the labor movement, not as representing any Union, but as I see them personally," stated J. J. Kearney at the second lecture on the "Problem of Labor Relations" which was held Friday in room 10-250. Mr. Kearney, the Business Agent of the Hotel and Restaurant Employee's International Alliance and former State Senator, was introduced by President S. W. Stratton.

"The labor movement is a natural and human institution," said the speaker in tracing its development in the United States, and antagonism against organized labor is wrong." Although Mr. Kearney believes that there is no man who is an expert on labor troubles, he advocates their settlement by the American Federation of Labor's policy of conciliation and arbitration. Prejudice against the movement prevents the successful termination of peaceful settlement according to Mr. Kearney, who is of opinion that strikes are in the long run more costly to the employer than to the striker because the striker "can't lose something he hasn't got" and the man who takes his place is usually an inferior workman, so that it is to the employer's advantage to use conciliation.

Warns Against Hasty Judgment

Mr. Kearney says that the chief source of opposition to the Union is from men who resent its preventing them from exploiting their workers. He named the bonus system, the efficiency system, and social welfare as attempts to evade the labor movement on the part of the employer, and believes that employment should be spread out among as many men as possible instead of being lessened by labor saving devices and by "efficiency experts."

Admitting that frequently that Union agents call strikes for their own political advancement within the organization, Mr. Kearney warned his audience against judging the movement from the actions of the unrepresentative few. He closed his address with a brief summary of the benefits the nation has derived from the labor movement.

Friday's lecture conflicts with the views put forth by Howell Cheney in the first lecture of the series especially in relation of the bonus system. Both speakers agree however that the money spent for social service should be given to the workers in the pay envelope and not in welfare work. M. W. Alexander of the National Industrial Conference Board will summarize the arguments of both sides at the final lecture on Friday.

MUSICAL CLUBS OPEN CONTEST FOR POSTER

In order to avoid delay in starting the publicity work of the Combined Musical Clubs next fall, the Publicity Department of the clubs' managing board is starting a prize poster contest to obtain a new poster for their next season's advertising. The contest begins today, continuing until October 15.

The conditions or requirements governing the contest are four in number and are as follows: first, all competitors must be registered as students at Technology; second, the color scheme of the posters submitted must be confined to three colors; third, the size of all posters must conform to the size of the spaces on the Institute bulletin boards; and fourth, the design of the placards must necessarily contain something suggestive of music.

The winner of the competition will be entitled to free tickets to the Fall, Winter, and Spring Concerts. As a second prize, complimentary tickets to the Fall and Spring Concerts will be given.

The winning poster will be used by the clubs for advertising all local concerts, all undergraduate concerts, and as a means of publicity in the cities in which the clubs will play on their winter trip and on any other trips that may be made. All men deciding to enter the contest are requested to turn their names over to E. B. Haskell '26, Publicity Manager of the clubs. Any further particulars or information desired may be obtained from Haskell by consulting him in room 310, Walker, where he will be from 3 until 5 o'clock each day excepting Friday.

Institute Engineers Prove Superstitious

A remarkable insight into the superstitions of Institute men was given Saturday morning. In replacing an electric light bulb in the lobby of the entrance to the Walker side of building 2 a large ladder was placed so that anyone using the entrance could escape walking under the ladder only with considerable inconvenience.

Few of the engineers, matter-of-fact though they were, walked under the ladder without hesitation. Some went to the inconvenience of climbing around it but most of them threw back their shoulders as if to say, "I'm an engineer. I must not bow to this" and with a toss of the head plunged under.

ENGINEER GOLFERS ROUT WEST POINT

First Time That Beavers Win From Army—Head and Massey Star

Contrary to all advance dope and in by far the best played match of the season the Technology golfers showed a clean pair of heels to the West Pointers and ran away from them with a +2 score. Considering the bad beginning made by the Beavers and the fact that they have never before beaten the Army the future looks bright for the team.

Ralph Head and Denton Massey did by far the best work of the afternoon as each won his twosome and in combination they cleaned up the foursome. Head did some fine playing and walked away from the Army man by 3 and 1 while Massey put on a spurt at the very end and won by 1 up at the eighteenth hole.

Fitch was not so successful and lost 5 and 4 but Van Deusen carried on the good work and put the Engineers two to the good by winning 4 and 3. This speaks well for Van Deusen as this was the first meet he has been in and consequently has not had the experience

(Continued on Page 4)

FROSH ARE VICTORS OVER GROTON BOAT

Lead All the Way—Have Three Quarters Length at the Finish

Leading the entire course of the race, the freshman first crew decisively defeated the Groton School boat over a mile course at Groton Saturday afternoon. The Engineers were never in danger although the school boys pressed the Cambridge eight during the latter part of the contest.

The race which was scheduled to be run off at three o'clock did not get under way till about four as both boats had hard luck at the start. Two false starts were necessary and much time was lost replacing the equipment which was out of order or broken. At the first start no sooner had the boats got under way, than the Groton cox signalled for a new start as the No. 3 man in the shell broke his oar.

After that was fixed up, and the boats lined up, the referee sent the eights off to a new start, but this time it was a Technology oarsman who held up the game. Derby got his rigging jammed and another start was necessary. On the final start the boats got off on even terms.

The Engineer frosh jumped out into the lead and held a slight advantage for the first quarter of a mile, at the end of this distance they were leading by about a quarter of a length. At the half mile mark the Beavers were rowing along at about the same pace, but on the last quarter of the course the Groton boat increased its stroke but could not pull up on Capt. Tappan's eight. When the shell crossed the finish line Technology had a full three-quarters of a length lead over the Groton boat.

The time of the Engineers was 4 minutes 49 2-5 seconds while the school boys did the course in 4 minutes 54 seconds. A strong current accounts somewhat for the times made. The line-up of the freshman shell is as follows: Bow: Copeland; 2. Emery; 3. Harvey; 4. Derby; 5. Blandford; 6. Collins; 7. Kales; stroke, Captain Tappan; cox, Cohen.

TWO RECORDS ARE BROKEN SATURDAY BY BEAVER TEAM

Sanford Makes New Mark in Pole Vault—Jeppe in 440 Yard Run

JEPPE TIES 220 RECORD

Technology Trails Georgetown and Army in Triangular Meet Saturday

MEN MAKE GOOD SHOWING

Breaking the Technology record for the 440 yard run and tying the 220 yard dash mark Doug Jeppe carried off two first places in the triangular meet at West Point Saturday in which Georgetown nosed out the Army with 59 points to the cadet's 53 and Technology's 23. The meet was one of the fastest and closest struggles seen on the West Point track for many a day, the times of each of the track events were better than most of the college performances during the season.

Major Sanford again broke the Institute pole vault record, clearing the bar at 12 feet 1 1/2 inches which is a half an inch better than he did at Princeton. Emmons Blodgett took second in the high hurdles which was won in 15 seconds by Barks of the Army. Captain Russ Ambach just missed by a stride getting a second in the 220 low hurdles which was won by the invincible Barks in the time of 24 3-5 seconds.

Two West Point records were smashed in the course of the meet when Tiny Hewitt, former star full back for the University of Pittsburgh, tossed the hammer 147 feet 3 inches and Newman ran the mile in 4 minutes 23 2-5 seconds. Shannon of Georgetown turned the tables on everyone, in general, in the pole when he carried off this event with a winning vault of 12 feet 4 1/2 inches. The District of Columbia jumper had never gone over 12 feet previous to the meet Saturday, but he did it with a vengeance at West Point and although Sanford broke the record and added another half inch to the Technology mark, it was not enough to stop the Georgetown vaulter.

In winning the 440 and the 220 Jeppe showed himself to be by far the best man in the field. In both events he won with ease, having a good six yard advantage in the 220 and at least eight yards in the longer distance. The Engineers took second and third places in the hammer. This finished up the list of Beaver scorers as the other events were solely struggles between West Point and Georgetown.

Jack Hoxie was barely nosed out

TECH SHOW SCENARISTS MEET FOR DISCUSSION

Music and Lyric Writers Join in General Conference

At a meeting of music, lyric and scenario writers of Tech Show held last Thursday evening it was decided that all scenarios should be submitted on or before Thursday, May 29. They need not be in the finished form, however.

These outlines will be read over by a committee consisting of Coach R. L. Harlow, Professor R. E. Rogers, E. F. Hodgins, and the management and will be returned with criticisms, comments and suggestions. The writer will be given an opportunity to complete his scenario during the summer months and to have it finished by next Fall when the best scenario will be chosen.

Mr. Harlow who has coached the show during the past few years and Mr. Hodgins, author of Tech Show 1922 gave short talks at the meeting Thursday. Charles Young, director of the show orchestra also spoke and told what might be expected of the men who wrote music for Tech Show.

The music and lyric writers will hold a meeting next Thursday at 5 o'clock and the management requests all men who have ever written either music or lyric to attend. Finished or partly finished music should be brought along at this time.

CALENDAR

Tuesday, May 20
8:00—Menorah Society meeting and smoker, west lounge.
Saturday, June 7
3:00—Senior Class tea dance, main hall.

A NEW ELECTORIAL SYSTEM

THERE has been much discussion of the present system of elections, in which the man receiving the highest number of votes is chosen. It has been criticised severely and justly. The most serious fault to be found is that a candidate may be elected without obtaining a majority of the votes cast. Men have been elected to high offices through this system on a quarter or a fifth of the total vote. This is obviously unjust. It is entirely within reason that the winner would receive second consideration if running against but one of his opponents.

At a recent meeting of the Institute Committee one proposed new system was voted down by a narrow margin. This was the system of primary elections. It was proposed to retain the names of the two men receiving the highest number of votes at the primary election, these to be voted on again at a second election. This would assure the man elected obtaining a majority of the votes cast, and do away with a great deal of the unfairness attendant on the present elections.

Still another system that has come up for much discussion recently is that of the preferential ballot. Briefly it operates as follows: In marking the ballot preferences are noted for each position, first, second, third and so on. In counting the ballots they are first listed according to first choices. The candidate with the least number of first choices is eliminated and his ballots are redistributed according to second choices, these then having an equal rating with the first choices of the other ballots. This process is continued until one candidate has a majority over the others.

Either of these two systems, the primary ballot or preferential ballot, would accomplish the main objective of requiring a majority of votes cast to elect. Neither is perfect. One has the objection of requiring two elections, and the other might prove to be too complicated to obtain popular confidence. The fact remains, however, that a new system is needed. The present one fails in its accomplishment of the purpose of the election. It does not always obtain the man that is most acceptable to the majority.

The primary system has been vetoed by the Institute Committee, the preferential has not yet been brought up by it. If the Committee can devise a system that gives promise of working with greater smoothness and efficiency than either of those we have mentioned let them do so. A new system is needed to replace the out-of-date present one. It is not for us to dictate the actions of the Institute Committee, but we would point out that action is in order.

LABOR LECTURES

WHILE we do not see that anything particularly new has been brought out in the first two of the recently inaugurated industrial relations lectures, we feel that they may have served to emphasize the fundamental elements of each side of the question. Similar debates are quite common: in fact, Professor Doten in Industrial Relations Ec46 for Course XV has held similar talks annually by individuals situated quite as the men who are taking part in this series which President Stratton has been sponsoring.

Labor organizations are insistent on the theory that all workers are created of equal ability; that same idea the plant manager knows to be the sheerest nonsense, as, under different stimulations and conditions, one man can certainly produce more, and often with less effort, than a neighboring workman.

Mr. Howell Cheney, who gave the opening lecture of the series referred to, knows how men can work and be perfectly satisfied under a system that pays the operator remuneration commensurate with his effort.

Mr. J. J. Kierney, a labor union business agent, while probably realizing the practical fallaciousness of the democratic conception of labor as a class of equal talented individuals, feels that to pay one of two men working side by side more than the other is unfair, because it breeds an aristocracy of superior workmen. The idea of aristocracy in a democratic organization is out of place.

There is no reason, however, why such divergent viewpoints should cause serious controversy; we are living under a government that has the same tenets as the labor union: the equality of all men. We know all men are not equal, but we can get along together better when the superior persons do not attempt to take a superior attitude. This in labor: the union can continue to be a source of much good to the working community; the better men can receive more pay, and get away with it to the extent that they do not try to do so at the expense of the rest.

THE TECH takes pleasure in announcing the following elections: G. F. Brousseau '26, Sports Writer; Whitney Ashbridge '26, Features; A. D. Green '26, Reporter; A. B. Guise '27 and J. H. Harding '26, Circulation; W. M. Smith '26, J. B. Wilbur '26, Advertising.

The Lounger always knew he would make a good detective. He just never had a good chance to try before. Now he has solved, well we won't say his first case for he has brought many things to light, but he has solved the first case which he went at with the fervor of an inspired detective. This term the Lounger signed up for one of those heartless General Studies that come at 9 A. M. on Saturday. Not that that worried the Lounger much. He is merciless with such things. At one period in his career he even went so far as to cut freshman Chemistry lecture and once he wrote an essay "On Cutting Classes" which caused the English Prof to refrain from giving him a D in the subject.

The Lounger realized, though, that all Institute men were not as dashing and courageous as he and so he decided to investigate for his more unfortunate brethren. He did, and here is the result of it.

Once many years ago Saturday classes were given in the daylight rather than at dawn. When a man had some of his women folk visit him, what more natural than that he should show them how Tech men can be cultured, too? And what medium could be better than the General Study? It became the custom to take your mother, your sister, your girl, or your aunt in to listen to the history of the drama or the construction of the short story.

The habit and custom grew to enormous proportions. It was suggested that all General Studies be held in room 10-250 or 5-330. But the profs didn't approve. The ladies 'cramped their style,' if the Lounger may be permitted to lapse to the commonplace. And yet they couldn't be barred in any gentlemanly way. Only by devious and technical ways could they be kept out. And if the way led to undergraduate misery, what of that?

The hour was changed to 9. The ladies are absent. The profs can be gentlemen and yet men of forceful language. The student trips lightly over the bridge in the murky light of the day to be, and instead of lectures we have personal conferences on Saturday with the only two men who have torn themselves from Morpheus.

Thus endeth the investigation. The Institute Committee shakes in an age of jealousy. The Lounger's chest swells with pride. "I'll fool 'em" he says every Saturday morning and turns over on the other side.

ENTERTAINING COMEDY AT PLYMOUTH THEATRE

"Helena's Boys," a very amusing comedy portraying the attitude of the average school boy upon being expelled from college, written by Ida Lublenski Ehrlich, is now being played at the Plymouth Theatre. The comedy is very amusing throughout and well worth seeing.

It is the story of two brothers away at school, the younger one being suspended for insulting one of his instructors. They both come home fully determined that under no condition will they apologize for the younger one's misdemeanor. Much to their surprise however, they find their mother of a different opinion. By using a great deal of discretion and diplomacy she finally manages to convince them that they are both in the wrong, also breaking the amazing news that she is to marry again. The methods that she uses in gaining the confidence of her two sons are extremely amusing.

Playing the part of the mother, Mrs. Fiske is very good and her actions always natural. Perhaps the role played by Reginald Sheffield, as the older brother, is the next best. With nose turned up he stalks about the house with somewhat of a "know it all" air. Gav Pendleton, as "Beansy" is the typical college youngster. Credit is certainly due to the two girls, Irene Purcell and Elaine Temple, who play the part of the flippant girl friends of the boys. As a man of high ideals, John Maroney plays exceedingly well, while William Courtleigh, playing the step-father's part, gives the audience many a laugh.

ESTABLISHES CHAPTER OF KAPPA ETA KAPPA

First Chapter of National E. E. Fraternity In The East

Installation of the Epsilon Chapter of Kappa Eta Kappa, a national Greek letter fraternity, took place at the Engineers Club Saturday evening last. Dr. Claude J. Lapp of the University of Iowa and Prof. J. H. Kuhlman of the University of Minnesota were present as representatives of the national organization.

The Honorary members of the chapter are Dugald C. Jackson, head of the department of Electrical Engineering at the Institute, Dr. Vannevar Bush, and Prof. Frank A. Laws.

Kappa Eta Kappa is a social fraternity whose membership is limited to students majoring in Electrical Engineering. Its purpose is to develop a better relationship between the students and the Electrical Engineering Faculty, in addition to the usual functions of a fraternity. The Epsilon chapter at M. I. T. is the first one to be established in an Eastern college. In the fall, the fraternity will be located in its Chapter House.

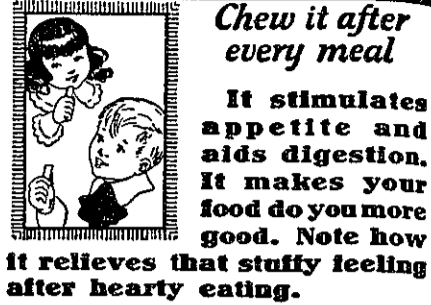

CONFERENCE MEETS AT WELLESLEY YESTERDAY

Purpose Was to Discuss Racial And Economic War Causes

An all day mass meeting by the students of men's and women's colleges of Greater Boston was held at Wellesley Hills Grove last Sunday to discuss the economic and racial causes of war, and the most effective way to end war. The meeting was sponsored by the American Youth Movement, a social movement which is spreading rapidly colleges, and which claims to "embody the really constructive thought and effort of the young men and women of today."

The meeting was principally a means of spreading knowledge of the Youth Movement and combined educational discussion with social. It lasted from early morning to about 8:30 o'clock at night. No luncheon was served, but light refreshments were provided.

FAST TIMES FEATURE TRACK MEET

Tennis Team, Golfers, And Frosh Crew Victors

VARSITY TENNIS TEAM IS WINNER IN CLOSE GAMES

Defeat Wesleyan 5-1—Tressel and Russell Play Fine Brand of Tennis

Technology's tennis team defeated Wesleyan 5 to 1 Saturday afternoon on the Brae-Burn Country Club Courts. All the men were in fine form. Captain Tressel and Russell playing a strong consistent game throughout against the powerful Wesleyan team.

In the first singles Captain Tressel was matched against Chweiker of the Wesleyan players; the first set went to Chweiker by the count of 4-6, but Tressel came back strong in the next two, winning by scores of 6-1 and 6-2. Russell came second in the singles defeating Hatfield by scores of 6-4 and 6-3. Hiedel of the Wesleyan netmen defeated Broadhurst 6-4, 6-4 in the third singles, making the only match their opponents won. In the last singles match Peck defeated Hillyar of Wesleyan in a three set match.

Beavers Win All Doubles

In the first double match Captain Tressel and Russell were paired against Chweiker and Hatfield of Wesleyan, easily defeating them by scores of 6-4, 6-4. Peck and Broadhurst also won their doubles match from Hiedel and Hillyar of Wesleyan by the count of 6-1 and 6-2.

Wesleyan ranks among the first class tennis teams of the East, having defeated Amherst and tied the Army. Thus the Engineers' victory is all the more creditable.

The summary:
Singles
 Tressel, Tech, defeated Chweiker, Wesleyan, 4-6, 6-1, 6-2.
 Russell, Tech, defeated Hatfield, Wesleyan, 6-4, 6-3.
 Hiedel, Wesleyan, defeated Broadhurst, Tech, 6-4, 6-4.
 Peck, Tech, defeated Hillyar, Wesleyan, 6-4, 2-6, 6-3.

Doubles
 Tressel and Russell, Tech, defeated Chweiker and Hatfield, Wesleyan, 6-4, 6-4.
 Broadhurst and Peck, Tech, defeated Hiedel and Hillyar, Wesleyan, 6-1, 6-2.

Intercollegiate Tennis Matches Held This Week

Captain Tressel and Russell Will Represent Beavers in the Matches

Beginning today and lasting through Wednesday the eliminations for the New England tennis championship will be held on the Longwood Country Club Courts. Eight or ten colleges from all over New England will be represented, each college entering two men who will play in two singles and one double. The best collegiate players in the East are entered in these matches: Williams has the best chance of winning, while Dartmouth may come in second, with Technology a close third.

Tressel and Russell will represent the Engineers in these matches. Tressel, Captain of the Beaver team, has been playing a consistent brand of tennis throughout the season; losing only one single match to Captain Osgood of Dartmouth; and in a doubles match, paired with Russell, was defeated by Brown. Russell also lost only one singles match, and that to Boyd of Dartmouth. Last year in the New England Williams has undoubtedly the best pair entered; Marsh a freshman ought to take highest honors as he has won from every college team they have played this season, and is considered a very remarkable player; Baker is the other strong member of the Williams team which beat Dartmouth 4-2 last Saturday afternoon. Dartmouth will probably rank second as they have entered Osgood and Boyd, two extremely fast players, in the match. Technology is about even with Dartmouth, now that the Engineers have beaten Wesleyan, and ought to rank a close third at any rate.

FROSH TENNIS TEAM WINS

Last Friday afternoon on the Huntington School courts the freshmen tennis team whitewashed Huntington by a score of 5-0, all the men displaying a good brand of tennis throughout the match. Hinck has a remarkable fast serve which makes it almost impossible to follow the ball. In his second set he came up from love-five to a 10-8 win by a most interesting series of fast playing.

Bancroft played number two and won by scores of 6-0 and 6-4. Ferguson as number three won by scores of 6-2, 6-2. In the doubles Hinck and Bancroft won by default; while Gifford and Davies took their sets by the count of 6-4 and 8-6.

Frosh Win-Sophs Lose In Weekend Baseball Games

Seniors Trim Sophomores 3-2 in Close Game Friday Afternoon

Last week end saw the playing of two more games of the Intramural series for the Baseball Cup. On Friday a double header was played on the two diamonds, the frosh winning their contest from the Juniors by a 8 to 7 score and the Seniors defeating the Sophs by the close score of 3 to 2. Both contests were well played and showed a decided improvement in fielding and batting. In another of their last inning rallies Luke Bannon's frosh came up from behind to trounce Cook for some well placed, timely hits and scored 5 runs. In the Senior-Sophomore contest Ran Giles covered himself with glory when he knocked out a four-bagger with one man on base in the third inning. This gave the graduating class a tie as the Sophs had piled up two tallies in the previous innings which came over the hit and error route. In the next inning a single by Ferguson, after which he pilfered second and third and then a wild pitch by the Soph hurler, accounted for the winning Senior run.

The Juniors started off with a bang against the frosh and in the first inning piled up a 2 run lead which Cook held to advantage over the frosh batters. His fast straight ball coupled with a desire on the part of the frosh to swing at anything soon put him in a masterful position.

Class Crews Out For Title Cup

Will Race Wednesday—Results Uncertain but Sophs Are Favored

With the Richards' Cup race scheduled for Wednesday, the work of whipping the four class crews into shape is progressing at fever heat. For divers reasons class crew practice has not been getting much in the limelight during the past few weeks, but now with the competitive season over the class crews have the center of the stage. Just who the winner will be is difficult to predict, but the Sophomore boat under Captain Dave Suter has been together longest, and for this reason seems to have the best chances.

The Senior eight is more or less of an unknown quantity. There is considerable heavy material in the line up and also a large percentage of experienced men, but just how they can row in a race is not certain. The chances of the Juniors took a boost this week when Tom Price, Al Prentiss and Dave Campbell, all members of the 1925 freshman crew and of various crews reported for duty.

Captain Bob Hochstetler has given his seat at number 7 to Campbell and has moved to number three. Prentiss, who is an experienced stroke, will probably be the pacemaker while Price is rowing five.

The freshman crew was built up with this year's second freshman boat as a nucleus. Captain Eaton, Johnson, Moineau, and Hammond were the four men from the seconds retained for the class crew. The other four are Frink, Maertins, Piper and Munro, all veterans of Field Day. Frink who is stroke, rowed for two years on the University of Washington crew. Competition for the coxswain's berth is keen between Chase and Dearnle.

150 POUND CREW LOSES TO COLUMBIA OARSMEN

The Technology 150 pound crew were defeated by three lengths Saturday on the Harlem over the Henley distance by the Columbia shell. The New York eight took the lead at the start and increased it in the latter stages of the race. Columbia covered the course in 6 minutes 21 4-5 seconds.

How The Teams Stand Today In The League

| | W | L | R'tg |
|------------|---|---|------|
| Freshman | 3 | 1 | .750 |
| Sophomores | 2 | 2 | .500 |
| Juniors | 2 | 3 | .400 |
| Seniors | 2 | 3 | .400 |

PARK A. A. LOSES TO BEAVER BALL TEAM ON SATURDAY 14-4

Beaver Ineligibles Appear in First Game Since Team Was Organized

Playing their first game together, the Beaver Ineligibles, made up of the enthusiasts of class baseball who are making an attempt to start a varsity baseball team at the Institute, slugged their way to a 14 to 4 victory over the Park A. A. aggregation Saturday afternoon at Tech Field. The showing the Beavers made along with the size of the crowd of spectators which eclipsed those yet watching class games, clearly stated the attitude of the followers towards the national pastime.

Crandall, the first man up for the Beavers hit a single to left. Giles was hit by the pitcher. An error by Gillespie on Walterskirchen's grounder brought in the first score of the game when Crandall crossed the plate. Two more runs came in when Herman singled over second, before Barnard the visiting pitcher stemmed the tide of hits by fanning Ingram and Robinson.

Score Five Runs in Seventh
 In the second inning the Beavers added three more runs to the total. A hit by Ferguson coupled with two errors proved costly to the visitors. The second frame saw the only Park A. A. runs scored when four tallies came in as a result of some bad fielding on the part of the Beaver infield, and two passes by Ingram. Barnard and Linn walked and when Powers beat out a bunt the bases were filled. An error by Dyer brought in two runs when he made a poor throw to the first sack on Roache's bounder. Peniman's hit accounted for the other tallies.

From then on the visitors were never dangerous, the Engineers showing complete mastery of the situation at all times. The fourth inning three more Beaver tallies came home on a few well placed and timely hits. In the fifth inning when the team batted around the scoring machine was working at its best. Four lusty clouts by Crandall, Giles, Walterskirchen and Robinson were enough to bring five runs across the pan. In the seventh a couple more went to the Engineer side of the ledger making the grand total 14. The visiting team went down one, two, three in a row in the last innings before Ingram's curves and the accurate fielding of the Beavers, the Beavers winning 14 to 4.

TRACK TEAM LOSES TO TWO OPPONENTS IN MEET SATURDAY

Jeppe and Sanford Make New Technology Records in 440 and Vault

(Continued from Page 1)

for a place in the 100 yard dash; and he was in mighty fast company. DOWLING of Georgetown ran a 9 4-5 seconds 100 for a win. Heacock who usually is clocked in 10 seconds flat, found that it was not fast enough to win from the Georgetown sprinter.

Doug Jeppe won both his races in the 220 and the 440 with a beautiful exhibition of running. He got off to a good start in the 220 and was never in danger. On the home stretch he put on some more speed and at the tape had a good six yards over Heacock, the Army's star runner. His time of 22 seconds equals that made by Carl Grams in 1909.

The 440 race was even a better contest for Doug; he jumped into the lead at the start and ran a heady race from start to finish. At the 220 yard mark he lost his advantage, but on the last stretch he shot past Kinnally of Georgetown and finished eight yards to the good.

The half mile race was all George Marster's from beginning to end. The veteran Georgetown runner turned in a 1:57 1-5 for the distance. His teammates Holden and Sullivan had things their own way in taking the second and third places.

Sullivan gave Newman of the cadets a run for his money in the mile while his teammate Brooks came in third. The closest race of the meet was in the two mile between Calhoun of the Army and Helme of Georgetown. Calhoun won the event from the Georgetown runner by the scant margin of a yard covering the two miles in 9:38.

In the pole vault Major Sanford went over the bar at 12 feet, then it was

EXETER DEFEATS FROSH IN TRACK

Glantzberg Is First in Both Hammer and Shot Put—Weibe in Javelin

The frosh track team met defeat at the hands of Exeter last Saturday by the score of 881-3 to 372-3. Steinbrenner, taking second in both the hurdles, and Defazio in the mile run put up the best showing for the Engineers. Kauzman carried off first honors in the 220 yard dash, Glantzberg in the shot, Glantzberg in the hammer, and Wiebe in the javelin.

One hundred and twenty-yard high hurdles—Won by Elliott, Exeter; second, Steinbrenner, Tech; third, Fitzpatrick, Tech. Time—16s.

One hundred-yard dash—Won by Wright, Exeter; second, Kauzman, Tech; third, Wiebe, Tech. Time—10 3-5s.

Mile run—Won by Ferguson, Exeter; second, Jacob, Exeter; third, Defazio, Tech. Time—4m. 44 1-0s.

Four hundred and forty-yard dash—Won by O'Neill, Exeter; second, Lane, Exeter; third, Trafford, Exeter. Time—50 1-5s.

Two hundred and twenty-yard low hurdles—Won by O'Connell, Exeter; second, Steinbrenner, Tech. Time—25 2-5s.

Two hundred and twenty-yard dash—Won by Kauzman, Tech; second, Lane, Exeter; third, Smith, Tech. Time—23 3-5s.

Eight hundred and eighty-yard run—Won by Downey, Exeter; second, Carson, Exeter, third, Haven, Exeter. Time—2m. 5s.

Shot put—Won by Glantzberg, Tech, 44ft.; second, Eddy, Exeter, 43ft.; third, Wilcutt, Tech, 41ft. 11in.

Pole vault—Tie between Clark and Hammond, Exeter, 10ft.; second, tie between Swede, Exeter, Whittier, Tech, and Baker, Tech, 9ft. 6in.

Hammer throw—Won by Glantzberg, Tech, 161ft. 3in.; second, Dalenz, Exeter, 142ft. 3in.; third, Benton, Exeter, 123ft. 4in.

Broad jump—Won by Brandenburg, Exeter, 21ft. 8in.; second, Straub, Exeter, 21ft. 1in.; third, Grady, Exeter, 19ft. 11in.

High jump—Won by Davis, Exeter, 5ft. 5in.; second, tie between Jones, Exeter, Grady, Exeter, Finchman, Exeter, and Macomber, Exeter, 5ft. 3in.

Discus throw—Won by Brandenburg, Exeter, 124ft. 11in.; second, Glantzberg, Tech, 107ft. 7in.; third, Dalenz, Exeter, 104ft. 3in.

Javelin throw—Won by Wiebe, Tech, 158ft. 4in.; second, Grady, Exeter, 136ft. 2in.; third, Elliott, Exeter, 136ft.

FAMOUS MARINE ARTIST VISITS CLARK PICTURES

Mr. Paul Farnham, a celebrated painter of marine subjects, visited the Institute Friday morning. Mr. Farnham is, of course, particularly interested in the Clark Collection of Marine Prints but he expressed much interest in the Institute from an educational point of view.

Mr. Farnham's latest work is a series of 12 paintings on the Ancient Merchant Marine which did so much to open the world's commerce. These pictures are now on exhibition at Vose Hall where they may be seen any day from 9 to 5:30 o'clock.

While at the Institute Mr. Farnham was the guest of Captain Eliot Snow of the department of Naval Architecture.

Notices and Announcements

All notices for this column should be in by morning of the day preceding the issue.

UNDERGRADUATE

N. E. I. C. A. A. MEET

There will be a Technology section at the N. E. I. C. A. A. meet on Tech Field next Saturday. A block of seats in the first four rows will be on sale in the main lobby Thursday.

TECH SHOW

Pullman deposits will be returned all this week from 4 to 5:30. Bring receipts.

SPEAKERS' CLUB

A full attendance is desired at the last meeting of the Speakers' Club to be held in 10-200 tomorrow at 5.

UNDERGRADUATE EMPLOYMENT

The following positions for summer employment will be available for the next few days at the T. C. A. Employment Bureau: companion, elevator man, caddy master, camp and hotel jobs, tutors.

BREAKS TWO RECORDS IN SATURDAY'S MEET

(Continued from Page 3)

raised to 12 feet 1 1/2 inch and the Engineer vaulter went over again for a new Technology record. He missed at 12 feet 4 1/2 inches. Shannon cleared the bar at this distance.

Coach Connor's men were shut out of the discus, shot put, javelin and the high jump. Plansky took both the javelin and the shot put and Mulligan of the Army won the discus. Dowling of Georgetown carried away the honors in the broad jump with a leap of 23 feet 1 1/2 inches.

The hammer throwers were up against difficulties in their event as they had to throw over the tree tops. The West Point hammer thrower had more experience than the other weight man in tossing the hammer over the trees and Hewitt of the Army won with a record breaking toss of 147 ft. 3 in.

Summary:
One hundred-yard dash—Won by Dowling, Georgetown; second, Heacock, Army; third, Dean, Army. Time—9-4.5s.

Shot put—Won by Plansky, Georgetown; second, Thompson, Army; third, Dabezis, Army. Distance—42ft. 9 1/2in.

Mile run—Won by Newman, Army; second, Sullivan, Georgetown; third, Brooks, Georgetown. Time—4m. 23 2-5s. (New academy record.)

Two hundred and twenty-yard dash—Won by Jeppe, M.I.T.; second, Heacock, Army; third, Burgess, Georgetown. Time—22s.

Two-mile run—Won by Calhoun, Army; second, Holme, Georgetown; third, Holton, Army. Time—9m. 38 1-5s.

Broad jump—Won by Dowling, Georgetown; second, Mass, Georgetown; third, Sexton, Army. Distance—23ft. 1 1/4in.

Javelin—Won by Plansky, Georgetown; second, Murphy, Army; third, Dalism, Army. Distance—125ft. 3in.

Two hundred-yard low hurdles—Won by Barkes, Army; second, Kearney, Georgetown; third, Ambach, M.I.T. Time—24 3-5s.

Half-mile run—Won by Marsters, Georgetown; second, Holden, Georgetown; third, Sullivan, Georgetown. Time—1m. 57 1-5s.

Hammer throw—Won by Hewitt, Army. Distance—147ft. 3in. (New academy record.) Second and third places not to count.

Discus—Won by Mulligan, Army; second, Plansky, Georgetown; third, Turner, Army. Distance—132ft. 4in.

One hundred and twenty-yard high hurdles—Won by Barkes, Army; second, Bledgett, M. I. T.; third, Desislets, Army. Time—15s.

High jump—Won by Roegick, Army; Fisher, Army and Meade, Georgetown, tied for second. Height—5ft. 9in.

Four hundred and forty-yard dash—Won by Jeppe, M.I.T.; second, Kimply, Georgetown; third, Helly, Georgetown. Time—50s.

Pole Vault—Won by Shannon, Georgetown; Sanford, M. I. T.; second, Roberts, Army; third, Height, 12ft. 4 1/2in.

RADIO AMATEURS HOLD THEIR ANNUAL BANQUET

(Continued from Page 1)

going to make greater and greater discoveries, and pointed out that radio will make it possible to investigate the now little-known conditions existing 40 kilometers above the earth.

Award Prizes

F. H. Schnell, traffic manager of the A. R. R. L., Major W. C. Borrett, of Canadian I.D.D., Lieutenant Commander S. M. Mathes, U. S. N., Ted McElroy, code champion, and A. A. Hebert Treasurer of the A. R. R. L. were the other speakers of the evening.

Two stunts were put on, and the prize of an Acme 200 watt transformer, was won by H. B. Cuthbertson '25, and W. R. Weeks '24. Several "hat prizes" were awarded by drawing tickets. They were: A General Radio wavemeter, won by J. J. Mechem; a loudspeaker, won by G. F. Montgomery; a National condenser, won by John Giegler; two Amrad variometers, won by Miss G. B. Hamish, and a pair of Brandes phones, won by Albert Whitman.

RADIO NOMINATIONS

Nominations for the officers of the M.I.T. Radio Society for the year 1924-25 are now open. Petitions bearing the signatures of ten members and of the nominee, should be put in M.I.T. Box 160, before 12 Saturday.

MENORAH SOCIETY

The final meeting and smoker of the Menorah Society for the year will be held in the west lounge at 8. Installation of new officers and discussion of the plans for the coming year will take place.

BASEBALL

Sophomores play the Juniors this afternoon at 4:30.

ENGINEER GOLFERS ROUTE WEST POINT

(Continued from Page 1)

of the others. He was put in Thursday at the last moment after a competition match with Larkin which he won, thus automatically transferring him to fourth place on the team. In their foursome they were defeated in a close match by 2 and 1. Up to this match the men had been under a great handicap in the matter of practice and this lack certainly showed in their first games. The faculty meet seemed to start things going for not only was the whole team given a chance to show what it could do, but during the same week several more courses gave privileges to the team which provided them with sufficient variety to prevent them being put into difficulties by playing on a type of course which they were not acquainted with.

SELECT ADVISORS FOR NEXT YEAR'S FRESHMEN

Letters will be sent out this week to 120 of next year's Juniors and Seniors who have been selected by the T. C. A. as freshman advisors for the fall and whose names have been approved for this service by the Dean. About 100 are expected to accept and will be assigned to about 300 men. J. S. Moon '25, has been chosen manager of the Freshman Advisor Division of the T. C. A., by T. H. Joyce '25, Director of Freshman Service.

In the selection of advisors notice is taken of the locality, religion, and preparatory school of both advisors and freshman so that the assignments may be made accordingly. Relations between freshman and advisor start the latter part of August and continue till after the first days of the term.

EUROPE

and RETURN

\$160 and up

STUDENTS / TEACHERS / ARTISTS

This low rate offered to travelers in our improved third class, New York to Southampton and return, places an enjoyable and profitable trip to Europe within the reach of all. Comfortable and attractive accommodations. Tasty and wholesome food. Rooms reserved for two, four and six passengers. Arrange your own party and be assured of congenial traveling companions.

The following sailings are of especial interest:

| From NEW YORK | | From SOUTHAMPTON | |
|---------------|--------------------|------------------|---------------------|
| ALBERT BALLIN | June 21... \$87.50 | CLEVELAND | August 1... \$75.00 |
| RELIANCE | June 24... 87.50 | RELIANCE | August 6... 77.50 |
| DEUTSCHLAND | July 5... 87.50 | RESOLUTE | August 20... 77.50 |
| RESOLUTE | July 8... 87.50 | RELIANCE | Sept. 3... 77.50 |
| CLEVELAND | July 10... 85.00 | CLEVELAND | Sept. 5... 75.00 |

A few dollars additional enable passengers to proceed via Cherbourg or Hamburg instead of Southampton.

To procure the best reservations, early application should be made.
