FRESHMEN BEAT SOPHOMORES TO WIN CLASS CUP

Deciding Game of Intramural Series Is Won by Frosh
By 6-2 Score

WERE PITCHES FINELY GAME

Freshmen To Be the First to Have Numerals Put on the Cup

In the deciding game of the Intramural series, which was played last night, the frosh turned back the Sophomore sluggers 6 to 2, winning the Championship of the Brown Club rivalry for the first time.

The frosh were never in danger during the entire seven innings and with the great pitching of Jack Wilks who, as noted in the preliminary game, got a complete-game shutout, the Sophs were restricted to but a single hit, an infield single by Bob Winsor in the first inning. The frosh have now three and won two theDimakas cleaned the plate in one out more game is yet to be played.

In the first innings, both teams went down quickly before the opening of the scoring parties. While strike outs after the first and third no ball had been struck out as far as can be obtained by his rival, Babcock was able to throw three right handers.

In the second inning, after giving up a single, Babcock was being only the last inning when the Sophs started getting into a rhythm. Babcock had a single hit three straight batters, but it was going into a pitching duel with Babcock with the team behind 3 to 1.

In the third inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the fourth inning, the Frosh scored up big on the Babcock hitting and held him to a single hit.

In the fifth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the sixth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the seventh inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the eighth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the ninth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the tenth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the eleventh inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the twelfth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the thirteenth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the fourteenth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the fifteenth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the sixteenth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the seventeenth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the fourth inning, Babcock allowed the Frosh to have the only hit of the game.

In the eighteenth inning, Babcock allowed the Frosh a single and with Babcock having a straight ball with the lead bat in the four
S E V E R A L weeks ago the Institute Committee voted down a proposal that would have allowed the baseball team to organize itself as an independent entity. This action was taken after a vote was held, and it allows the election of a candidate without the majority of those voting. In the past, baseball committees have been chosen by a number of students, with the winning candidate determined by a majority vote. This system proved to be inadequate, as it often resulted in the election of a candidate who was not truly representative of the student body as a whole.

The new system is known as the "electoral system," and it requires candidates to run on a platform that outlines their goals and visions for the baseball team. This system is designed to ensure that the candidate who is elected is truly the best choice for the role, as they have already demonstrated their commitment and ability to lead the team.

The new system has been in place for several weeks, and it has already shown signs of success. The candidates are now working to prepare their platforms and campaign for the upcoming election. This process is expected to be more competitive and engaging, with candidates having to demonstrate their skills and abilities in order to gain the support of the student body.

The new system is designed to ensure that the baseball team is truly representative of the student body, and it is expected to lead to a more successful and productive team in the future. The students are looking forward to a more inclusive and engaging process, and they are excited to see what the future holds for the baseball team under this new system.

This is a rather revolutionary approach, and it is expected to create a stir in the Institute. The students are already showing signs of excitement and enthusiasm for the upcoming election, and they are looking forward to a more inclusive and engaging process.
THE PRIDE AND JOY OF THE BRIDGE COMMISSION

OWED TO THE HARVARD BRIDGE

River that 'midst tumult windeth
Down the Basin, gloomily.
All thy length no rest thou findest
Harvard Bridge disturbeth thee.
Long, long years of crash and rumble,
Clatter, rattle, boom and thump.
They hast stood with resignation
Showered with planking like a dump.
We appreciate your feelings
Having dodged such things each day
And hope 'gainst-hope the day is coming
When your curse falls in the bay.
Anna Onimus

GENTLE READER—To the left—above—below! You probably have seen these before but look again! They are a few of the more pleasing views of that famous—
The Harvard Bridge. Perhaps you have never had to make use of the imposing structure. Unfortunately the students at the Institute and many of the citizens of Boston and Cambridge do.

Harvard University—Yes—Harvard Bridge—Never
Early Harvard Bridge Operated As a Toll Bridge

Old Name No Longer Applies to Bridge Which Has Lost Last Beauty

Case in the dim days beyond the turn of the century, when truly a Harvard bridge and not by name alone, is a span called the 'Clapboard Bridge' by those of the students of Harvard. This term was used originally to denote the ancient and wonderful water bridge that lies near the campus.

AND NOW...

THE TECH presents the oppor-
tunity to own the bridge. The TECH
always strives to be in touch with
the usual politeness of presenting
both sides to a question our re-
porters have canvassed. The press
of prominence and, of all the enter-
prenous kind, this is what they have
no wish to say:

1. Cole Woodard, contractors of the Bridge Construction: "Don’t do it.

2. Mother Goose: The London Bridge fell down. Let this one fall too. We can get some excellent songs from it

3. Medieval Assiduity: Don’t do it. It would be a beautiful sight in our world.

Our reasons are obvious while we have our next cent.

I. D. A. R.: Don’t do it. It’s impractical.

COLORED SPECTACLES RECALL FOLLEWS SHOW

Students Disappointed to Get Lecture Instead of Show

COLORED spectacles adorned the eyes of the students as they left the College yesterday, when the phenomena of colored photography was demonstrated to them.

While they entered the lecture room they left their spectacles on the bench. They did not know that by the time they left the lecture room with the spectacles it would be too late.

If it would Work It Would Be Tried

The remarkable demonstration of the photoscope was given in the lecture room in the afternoon. The demonstration was so effective that the students were surprised at the results.

The President of the institute thought that the students would still work for the same result. He said, "Let the work of the institute be a success."

NINE ENGINES TO CHASE BRIDGE BLAZE

Nine engines were sent to the bridge yesterday to chase the blaze. The engines were sent to the bridge to put out the fire. The fire was too big and too hot.

If It Would Work It Would Be Tried

The President of the Institute thought that the students would still work for the same result. He said, "Let the work of the institute be a success."

THE HARVARD BRIDGE

A $50 million one has said, it is fortunate that our sister institution, the Massachusetts Institute of Technology, is not a competitor for the luxury and utility structure known as the Harvard Bridge. The engineers of the $50 million one had to consider the inadequate appropriation which was voted by the legislature for the structure. At that time, and they would be the first to acknowledge that the bridge was not finished.

It was not finished when we had no automobiles or trolley cars to overcrowd and overload it, and when the space that the bridge spanned was a region of notable beauty, the handsome Charles River Basin.

Some of those short-sighted tax-payers had not suffered enough from the noise and ugliness of the great bridge, the Catherine, to wish to prolong the life of this structure upon us for another twenty years. They claim that it can serve its purpose by the time the bridge is finished.

When we spend millions, as we have, upon the Charles River Basin, and utilize it for handsome brownstone bridges like those of the Institute, and then ruin the whole effect by placing at the most conspicuous points and on what is probably the most traveled highway in Eastern Massachusetts, a pitch-black bridge that is too narrow anyway, that has no adequate approaches, that allows no under-passes, and that could not be found to be a Harvard bridge.

The Eastern members of the Legislature think that their constituents would stand this patched eye-sore, as unbearable as it will be insignificant; they certainly are not competent representatives and should be removed.

The people of Greater Boston demand, and the Legislature will do work till they get it, a real bridge in this important and conspicuous position. It, meanwhile, the Legislature has spent $600,000 on a structure that is practically certain, in less than five years, to be an interesting curiosity, for it is huge, and is wasted in the sacred name of economy, two-thirds of a million of the tax-payer’s money.

"Most penny wise and pound foolish" legislation!

If It Would Work It Would Be Tried

The magnitude of the demonstration the photoscope was given in the lecture room yesterday was so hopeful that the students were surprised at the results.

FROSH TRACK TEAM TO MEET BROWN 27

Last Freshman Meet of the Season To Be Held at Providence

Trells in Singles Beasts Wesleyan and Williams—Capt. Tressel and Russert

Defeat Brown and Dartmouth

Technology's tennis team placed in the finals of the New Eng- lland Intercollegiate Lawn Tennis Association championship tourna- ment. The team consists of the following players: Captain Tressel, and Back Court, Left to Right: Defeat Wesleyan in both singles and doubles for the championship.

Trells was one of the better players on the team, and his play was a factor in the team's success.

In addition to providing the team with a chance for the Beavers to win in spite of the weather, Tressel has been turning in fine times in his matches against Brown. Defeats will have to be won on their own merit, and his hard driving generally found the ball striking inside the court or the line. This is a factor in the team's success.

In his match with Tressel, however, he lacked tremendous, and his hand driving generally found the ball striking inside the court or the line. This is a factor in the team's success.
