

FIFTEEN MEN NOW HAVE DECIDED TO GO TO SILVER BAY

Juniors Represented by Seven
Men—Sophomores Last
With Only One

T.C.A. HELPS ON EXPENSES

Technology's delegation to the Silver Bay Conference is rapidly assuming form. Fifteen men have now definitely decided to go, while a number of others have the matter under consideration.

The men who are going are as follows: W. D. Birch '27, Winston Campbell '27, Austin Cole, Jr. '25, H. G. Douvan '24, L. K. Gentry '27, E. N. Gougeon '25, Robert Hodson '25, S. R. Howe '26, E. S. Johnston '25, W. M. Jarman '25, D. H. Keck '25, L. P. Marsh '24, C. L. Petze, Jr. '25, W. M. Ross, and Professor Hale Sutherland '11. The distribution by classes is Graduate, 2; 1924, 2; 1925, 7; 1926, 1; 1927, 3.

Letters have been sent out by the T. C. A. to men who have been members of delegations in the past two years asking them to assist in making Technology's representation this year a large one. There are two more men on the delegation now than there were at this time last year, and the final enrollment is expected to number between 20 and 25. The delegation last year consisted of 19.

Many Problems Discussed

The conference will last eight days, from June 12 to June 20, and will be attended by representatives from colleges and universities in New England and the Middle Atlantic States. International, national, and college problems will be discussed, and well-known speakers will give talks on religious, social, and political subjects. The afternoons will be devoted to athletic events comprising tennis, track, swimming, and baseball. The evenings will be taken up with entertainments. On "Stunt Night" delegations of 15 or more will put on comic acts, and the different delegations will sing their college songs. Since the Technology group now numbers 15, the Institute men will be qualified to put on an act of their own.

A number of the delegates intend to go to Silver Bay by auto, a distance of 275 miles. Some are even thinking of hiking it (assisted by passing autos). The remainder will start on the morning of June 12 and go by train, taking the route of Bellows Falls, Rutland, and Ticonderoga. The rest of the trip, about 16 miles, will be made by auto.

The T. C. A. wishes to reiterate its offer of paying up to one half the expenses of those who would like to go to Silver Bay but feel they cannot afford it.

TECHNOLOGY STUDENT DIES FROM PNEUMONIA

J. D. Conway '25 died Monday morning at the Riverbank Hospital from pneumonia after a week's illness. He was a member of Course XIII and of the Naval Architecture Society. The funeral took place at his home in Greenfield yesterday morning.

FRESHMEN TO RECEIVE CABOT MEDAL AWARDS

Awarded to Men for Pronounced
Physical Development

Five men were awarded the Cabot Medal and five more were given honorable mention by the Committee on Cabot Medals of which Dean H. P. Talbot '85 is the chairman. These men are M. V. Brillhart, J. I. Davidson, J. B. Drisko, D. A. Young, and W. A. Zisman, all of the class of 1927, who received the medals and S. S. Barker, R. B. Miller, J. B. Nichols, Edward Sanel, and G. R. Taminosian, also of 1927, who received honorable mention.

These awards are made at the end of every school year to freshmen who have shown the most pronounced physical development since their examination in the fall. This does not necessarily mean that those men chosen are the best examples of physical development in the physical class. In most cases they are not, but are usually the men who have worked the most industriously in the gymnasium classes.

The next issue of THE TECH will be on Monday, June 2; followed by issues on Thursday, June 5 and the Graduation Issue on Tuesday, June 10.

TECHNIQUE ANNOUNCES FRESHMAN ELECTIONS

Twelve freshmen have been elected to next year's Technique Sophomore Board, which will put out next year's Gray Book. According to Martin Walter '26 of the Technique Staff, the Gray Book will positively be out by Field Day.

The freshmen elected are F. S. Badger, C. H. Flohr, R. L. Cheney, H. N. Halberg, J. I. Davidson, Maurice Davier, R. P. Westerhoff, J. W. Hepburn, H. G. Steinbrenner, H. W. Fisher, M. W. Jennison, and E. A. Chase.

NEW VERSES ADDED TO RENOWNED SONG

Alumnus Writes Lines Intended
To Interest Prep School
Men in Technology

"Take Me Back to Tech" has been augmented by an addition of two more verses to its already lengthy collection. M. H. Place '06, the secretary-treasurer of the Technology Club of Milwaukee is the author of the recent additions and received his inspiration from addresses made by O. B. Denison '11, executive secretary of the Alumni Association to groups of High School students.

During Mr. Denison's visit to Milwaukee two weeks ago he spoke to several groups of prospective students on the value of a technical education, particularly emphasizing what Technology has to offer in this line. As a fitting conclusion of each meeting he sang "Take Me Back to Tech," the original of which was written by I. W. Litchfield '85.

However the original song deals entirely with strictly Institute matters and Mr. Place believed that Mr. Denison should have a song which would be more applicable to the high and preparatory school men. Accordingly inspired by this idea he wrote the new verses. The first is intended as a reply of the prep school men to the talk given by Mr. Denison and the last verse is his advice to them.

MANY SENIORS STILL LACK CAPS AND GOWNS

While about 600 men expect to graduate this year from the Institute only 436 have signed up for caps and gowns to date.

Of these 436 fully 90 per cent have rented the garments while only ten percent have purchased theirs. The gowns are made to order for the men who purchase them and two weeks are needed to make them up. No more can be purchased, therefore, in time for the commencement exercises, but a few may still be rented.

DORMITORY MEN WILL HOLD PRIVATE DANCE

A Dorm dance for dormitory men only will be held in north hall, Walker, from 8 to 12 o'clock tonight. The Hemenway five piece orchestra will furnish the music for the occasion, the last social event of the year for the men in the Dorms. The matrons will be Mrs. H. S. Ford and Mrs. L. M. Passano.

SMOKE FROM BURNING RUBBISH FOOLS MANY

Several men missed 9 o'clock classes yesterday morning as the result of their overwhelming curiosity. On coming across Harvard Bridge clouds of dense, murky smoke were seen rising beyond Albany Street and discerning minds at once reached the conclusion that a great conflagration was taking place, and hurried to the scene to be witnesses of the momentous occasion. On reaching the scene, however, no brave display of firemen and apparatus met their eyes. Rubbish, rubber, and other worthless material was being burned in a vacant lot, and the disappointed sensation hunters returned to the Institute.

MEDALS AWARDED FOR COMPETITIVE FRESHMAN DRILL

Two Out of Three Prizes Go to
Course VI Men From
Company C

PARADE AND REVIEW HELD

Two Course VI men from Company C, the Artillery Company, collected the first two prizes in the Individual Drill Competitions Tuesday. The third prize went to a Course X man from Company A, the Engineer Company.

First prize went to L. R. McAdam of Taunton, who was major of his battalion of High School cadets. Second prize went to J. L. McCarthy, of Newton, Connecticut. G. D. Buckner, of Boston, received the bronze third prize medal.

The men who were to compete were practicing in the morning, and at four o'clock 31 men assembled for the competition. After saluting the board of judges, consisting of Colonel G. S. Goodale of the First Corps Area Staff, Lieutenant-Colonel W. S. Browning of Harvard University, and Major Z. L. Drollinger of Boston University, the drill began, the commands being given by Sergeant Crowley of the Military Science Department.

At first the squad was rapidly cut down, but the process of elimination gradually slowed up, and finally, at 5 o'clock five men were left. The battalion was then assembled and marched in review for the judges.

The parade was accompanied by a band from the Coast Defence of Boston; the same band which played at the battalion ceremonies previous to and during the tour of inspection by Lieutenant-Colonel Short and Major Goetz for the "Distinguished College" rating. After the review, the band ate dinner in Walker, and then returned to the Army Base.

After marching in review, the parade was again formed, and the winners of the competition were awarded their medals. Then the battalion paraded past them and on back to the rifle racks, where the men were dismissed.

BUSY RETURNING MONEY AT CASHIER'S OFFICE

Feverish activity has characterized the Cashier's Office for the last few days with men busy receiving refunds of deposits. Keys to drawing room lockers, laboratory lockers, Gym and Track House lockers, and clothes lockers have been turned in by the hundred, and deposits are being returned. Chemistry laboratory deposits have been checked up and are being returned. Men in the dormitories who are checking out are receiving their share of the money which Bursar Ford is distributing.

Illinois Man Leaps From Harvard Bridge

Not content with risking his life by merely riding over Harvard Bridge, an Illinois man attempted Tuesday evening to end his life by jumping into the Charles from the bridge. He was riding over the bridge in the car of his former employer, who had just discharged him. He requested the new chauffeur to stop, and before any one could interfere, he had vaulted the railing.

A crowd speedily gathered, but no one offered help, until a Roxbury man who was crossing the bridge in his car realized the situation, stopped his car, and only waiting to throw off his coat and vest dove in after the would-be suicide. With the help of timbers and a life preserver thrown down by the crowd, he effected the rescue. The rescued man was unconscious, and his rescuer was nearly overcome by his heroic efforts.

YEAR BOOK COMES OUT AT BANQUET

Undergraduates of Course VI-A
Give Dinner to Fifth
Year Students

"Sparks," the year book put out by VI-A, made its first appearance at the banquet given by the undergraduates of Course VI-A to the graduate students, in the dining room of the General Electric Company, in Lynn Monday night. This dinner was the second of its kind to be held.

The banquet began at 6:30 o'clock. Favors, including balloons and paper caps, were distributed. Then the toastmaster, A. B. Rudd '24, introduced the first speaker.

Hold Mock Trial

Among the speakers of the evening were Professors D. C. Jackson, W. H. Timbie, Vannevar Bush '16, and C. W. Ricker '14; and W. Bursch and Messrs. Darling and Cox of the General Electric Company. In addition, one Sophomore, one Junior, one Senior, and one Graduate were called on to say a few words each.

During the evening a "policeman" rushed in with a bottle in his hand and wanted to know the owner of a certain Jewett car. On being told that it was the property of Professor Timbie, he "accused" that gentleman of illegal transportation of liquor, and a mock trial was organized. After a great deal of wrangling, Professor Timbie was exonerated, and freed by the court.

NORTHEASTERN IS VICTIM IN 5 TO 2 BASEBALL VICTORY

Closely Played Game Yesterday
on Tech Field Ends With
Beavers on Top

INGRAM HURLS FINE GAME

Making their string of victories three straight the Beaver ball team turned back the Northeastern sluggers 5 to 2 in a game played on Tech Field yesterday afternoon, thus adding to their former successes another strong bid for a varsity baseball team next season. Ed Ingram, former Junior hurler and captain pitched a cracker-jack game for the Engineers and backed by the hitting and fielding of his mates turned back the team from Huntington Avenue in impressive style. Although Northeastern led up to the fifth frame with a one run advantage, the aspirants to an official team sent two across in the fifth and clinched the game in the seventh frame, with three more tallies.

Northeastern Scores First

Crandall turned his old trick of getting a hit on his first trip to the plate when he hit a sizzling single to left. However, Richards proved to be too good for the next three men and retired the side. Ingram showed himself to be a regular running-mate for Tommy Fitzgerald and allowed only two scratchy bingles in the first two innings that proved harmless.

With one out in the third Coyles of the Huntington camp knocked a pretty single over short. In an attempt to catch him at second on a steal Michelena made a poor throw to Robinson, allowing the runner to advance to the third sack. Ingram tightened up on the next man and fanned him, but Denison got another single which brought in Coyles for the premier score of the nine-inning route.

Beavers Win in Seventh

With the prospect of a defeat staring them in the face the Beavers set to and played an air tight game for the next few frames, that cut down the Northeastern batsmen one, two, three in a row. In the fifth they started out on their own hook to gather in the markers. After Ingram had been thrown out at first on his roller to pitcher, Crandall laid down a snappy single that started a rally. On the next pitch he stole second, to come galloping across the plate a few minutes later on Sleepy Dyer's hard infield hit which sailed waist high over the second sack. Dyer further increased the total by coming home on a passed ball.

In the sixth the Northeasterners tied the score on two timely hits. This tie did not stay for long, however, for in the next chapter the Beavers by dint

(Continued from Page 3)

SEVERAL NEW COURSES PLANNED FOR XV MEN

Beginning next year, there will be an opportunity for students to take a graduate course leading toward a degree of Master of Science in Engineering Administration. Many new courses have been added for such students and in addition several "A" subjects have been announced which are open to all Graduate Students, and which are principally along business lines. Among these are courses in Personnel Management, Tax Returns and Accounts, Manufacturers' Accounts, Marketing of Manufactured Products, Business Cycles, Financial Administration of Industry, and Economic History of the United States since 1890.

A booklet on these new subjects is now being prepared, and will be available at the Information Office the beginning of the week.

CALENDAR

- Thursday, June 5
6:30—Senior Class banquet, main hall, Walker.
- Friday, June 6
9:00—Senior class picnic, Pemberton.
- Saturday, June 7
3:00—Senior Class tea dance, main hall, Walker.
- Sunday, June 8
4:00—Baccalaureate service, Trinity Church.
- Monday, June 9
2:00—Senior Class Day, Walker.
8:00—Pops concert, Symphony Hall.
- Tuesday, June 10
10:00—Commencement exercises, Walker.
12:00—Course reception.
7:30—Senior Prom, main hall, Walker.

The Two New Verses and Choruses For Song "Take Me Back to Tech"

I want to go down to the M. I. T.
To the Tech in Cambridge, Mass.
I've heard it is hard to stay the four
years

Unless mathematics you pass
So I'll study my math, my English
too

Chemistry, physics, and history
So I can take the admission exams
For Technology

Oh give me some 'ology, 'ology, tra
la la la

Any old kind of 'ology
Tra la la la la la—la la la la la la

Chorus

Take me down on a special train
To the glorious Institute

I yearn for the inspiration
Of a technological toot.

So let me take the admission exams
And when I've passed them, Oh, gee!

I'll wire back home how I can start
out

On a scientific spree.

You should go down to the M. I. T.
To the Tech in Cambridge, Mass.
Where the prof's are wise and the
lab's complete

And the courses all have class.
There's civil, mechanical, mining and
chem,

Electrical, Naval, XV
The six science courses and don't
forget

The student's activity,
We'll give you some 'ology, tra la la
la

The best kind of 'ology,
Tra la la la la la—la la la la la la

Chorus

We'll take you down on a special
train

To the glorious Institute
We'll furnish the inspiration
For a technological toot.

So shun conditions, flunks and all
that

And when you've received your de-
gree

You can tell the world that you have
been down

On a scientific spree.

STUDENTS IN POLITICS

UNFORTUNATELY for us, those interested in the ins and outs of government are comparatively few. Only by great effort can a number of people be made to turn out at the polls, and then their voting is not of the most intelligent.

Most of us are inclined to wonder just what the place of the student in politics is. He hears the hissing of much hot air about this candidate and that. Most of it goes over his head, he being by nature a lazy individual and not prone to waste his time investigating.

That is why Democratic Clubs and Republican Clubs galore have been thrown into college. They attempt to bring politics into the life of the student, to make him realize and think on present day issues and problems of the country.

A WORD TO THE WISE

GRADUATION from Technology means a great deal, to those who have done it, to those who are doing it this June, and to outsiders who are not connected with the Institute.

Every graduate owes a debt of gratitude to the place which has given him the best technical education it is possible to obtain anywhere, and he should continue to manifest an interest in Technology affairs even after he has obtained his coveted degree.

The world is a big place, and the question naturally arises, how can a man keep in touch with the Institute and his former classmates after graduation? For many years there has been a practical means to this end, the Alumni Association.

THE TECH regrets to announce the resignation of R. W. Learoyd '25 as Advertising Manager and Leo Teplow '26 as Circulation Manager.

THE TECH takes pleasure in announcing the election of W. J. Mearls '26 to Circulation Manager; Charles Rich '26 to Editorial Board; L. C. Currier '26, C. E. McCulloch '26 and R. A. Rothschild '26 to Night Editors; D. A. Dearle '27, H. F. Howard '26, J. H. Melhado '27 and G. C. Houston '27 to News Writers

AUTHOR OF "PLASTIC AGE" LEAVES BROWN

Sincere regret was manifested by the undergraduates of Brown University when the recent action of the administration in not reappointing Percy Marks to an instructorship in English was made known to them.

his three years at Brown, Marks made a host of friends and admirers among the undergraduates.

In all of his classes Marks has required a large amount of good hard work, and in spite of the fact that he has said "I got too much out of school to make Phi Beta Kappa, and I am proud that I didn't," his assignments have always met with response.

"SPARKS"

By Winward Prescott

Of the Department of English and History

It is down in the records that the first Year Book was published on the Ark and was due to the ingenious mind of Noah's son Shem who was a drinking man. This custom once started has persisted, so that it is impossible for any group of men to be cooped up together for any length of time without some moron suggesting "let's publish a Year Book."

Since the Stute has "Technique," the freshmen have the "Gray Book," and since Noah edited the first Year Book and was thereby led to invent profanity, it is only reasonable that those followers in his footsteps, the members of the Convict Camp at Lynn, should want to do something with their-time besides sitting on a bench and watching a pretty girl inspect 3847 dynamos in three hours under the Bedaux system.

As a first attempt "SPARKS" is a creditable performance. The pictures are interesting, well chosen and well arranged; the text is brief enough to be pleasant; and the "hives" (especially to one who has recently ploughed through the "Technique" sawdust) are vastly amusing.

This last seems like a meaningless generalization, and all generalizations (including the one I am now making) are false, therefore I will specifically illustrate the value of "SPARKS" by saying that if at the end of this term

(Continued on Page 4)

The Lounge has been much interested by the increased activity of the carpenter platoon on Harvard bridge. Whether or not the whole 600,000 bucks is to be used on carpenter's wages, tennypenny nails and green pine lumber is a question that has been bothering the Lounge not a little.

At least the loose boards on the bridge serve some purpose. Most of the time they just hang around, full of nails, to try and impale the tire of some unwary motorist. The other day, however, they really came in right handy. When a would-be suicide dove into the dirty drink and a rash but brave rescuer did likewise, there was plenty of wandering lumber on deck to throw down to support the couple.

At last the fraternity baseball season is over and the frat boys can slumber all they want to in the early hours. There has been a grand rush and hub-dub to get the diamonds this spring. The Greeks got there last, and so did most of their playing in the morning, before or without breakfast.

If you knew what ageing in wood does for pipe tobacco

Even the finest Kentucky Burley Tobacco (and that's the kind we use) is green and raw when it's pulled. You could hardly smoke one pipe load of it.

And here's where Velvet is different: Our ageing takes out that rawness and harshness, and makes the tobacco mild and mellow and gives it fine flavor.

Remember—Velvet Tobacco aged in wood.

Business Leadership

LEARN the fundamental principles of business and their application to daily business problems. To help you minimize the time, usually spent in gaining experience, the intensive, one-year training course of the Babson Institute is offered.

From actual experience the fundamental principles of business are made clear. By positive examples, the student is shown how to apply these principles in the conduct of every day commercial affairs.

Write for Booklet

Send for booklet "Training for Business Leadership." Describes the courses in detail and gives complete information about the facilities of Babson Institute and shows how men are trained for executive roles. Write today. No obligation.

DEKES TAKE THE BASEBALL TITLE FOR THE SEASON

Big League Catches and Close Plays Feature Phi Mu Delta—Deke Game

FINAL SCORE IS 7 TO 4

After trailing the Phi Mu Delta's for the first four innings, the Deke baseball nine tied the score in the fifth, and came through with three more runs in the sixth which put the game on ice, by the score of 7 to 4 and won the fraternity baseball championship for this season. The contest was one of the best baseball games seen on the diamonds this season as both teams gave exhibitions of big league performances judging from some of the catches made by the fielders of both teams. From the crack of the bat in the first inning when Phi Mu Delta got to Bianchi for their only runs of the game, till the last man was put out by one of Hammonds three running catches of the game, there was plenty of action to cheer up the faithful spectators who braved the rain.

The first inning nearly proved disastrous to the Deke's hopes for a championship when the whole Phi Mu team came up to bat and got to Bianchi before he had really warmed up. Through a collection of hits, bases on balls and errors on the part of the Deke outfielders, four Phi Mu runs trickled across the plate, and the Deke cheering section appeared to be quite depressed as well as surprised.

Slottman Makes Great Catch

Bianchi soon recovered and ended the innings by three strike outs. The Dekes managed to put across one run in the latter half of this inning, while the second inning went scoreless for both teams. In the latter half of the second inning occurred one of the sweetest catches ever seen on Tech Field or on any field, in fact. Slottman was the player for the Phi Mu's who made the catch, and he did it at the expense of Gentry, the Deke outfielder. The Dekes, three runs behind were fighting to even the score, and Hammond was on base with two out. Gentry of the heavy hitters found a ball to his liking and knocked it as Babe Ruth is wont to do. It was labeled homer.

Coming from nowhere, Slottman the Phi Mu centerfielder made a leaping grasp for the ball, and with his back up against the fence to the extreme rear of Walker, he made the catch. As he did it he turned a rear somersault over the fence, but gamely held on to the ball. That turned back the first Deke rally.

Dekes Tie in Fifth

In the third inning the Dekes got to Canfield for two runs, and in their half of the inning the Phi Mu's threatened to break up the ball game then and there when they connected with two hits, but here again the Deke defensive strength showed itself. Giles of the Phi Mu's connected for a long hit to right center. It would have been good for two bases, but Putnam, the Deke centerfielder unravelled a throw that would make Tris Speaker green with envy and the runner was out at second for the last out.

The score was tied in the fifth. Ferrer making his first appearance on the diamond singled and Booth sent him to second. A sacrifice fly by Walch brought Ferrer in for the tying run. The sixth inning was another bad one for Bianchi when he filled the bases with no outs. He struck the next man out and forced the next man to make a short fly to Hammond who kept the men to their bases.

Kelly Stops Rally

Now was the crucial moment of the game, with two out and the winning run on base, but a pretty one hand stop by Kelly, the Deke third baseman cut the rally short. The Dekes won the game in the sixth when they connected for three runs. Gentry got a base on balls, Ferrer came through with his second hit of the season, and when the catcher dropped the ball on the third strike, Booth got to first and Ferrer came in with the winning run. Gentry and Bianchi swelling the total for comforts sake.

The score by innings:
Phi Mu Delta . 4 0 0 0 0 0 0—4
Delta Kappa Epsilon 1 0 2 0 1 3 —7

Cross Country Men Hold Meeting Today

Meeting called for all cross-country men for discussion of plans for next year at Track House at five o'clock this afternoon. Those who cannot attend will please send in their names and addresses to track house sometime today. Coach Connors will speak to men. Schedule as far as has been made out will be announced at this time.

CONNOR ENTERS TWENTY MEN IN I.C.A.A.A. MEET

Intercollegiates at Harvard Stadium Draws Stars Of Country

Coach Connor will enter about 20 men in the I.C.A.A.A. Track and Field Championship Meet which is scheduled for tomorrow and Saturday at Harvard Stadium. With the star athletes of the leading colleges of the country competing, every event will have numerous champions on the starters line fighting for the title.

The list of Technology entries is rather uncertain as exams, etc. will make it impossible for some of the men to compete. The following is a list of the probable starters in the meet for Technology. In the 100 yard dash Roy Copley, Gordon Joyce and Jack Hoxie will try their luck. Each of these men is credited with 10 4-5 seconds as his best time.

Doug Jeppe will run in the 220 trials as will probably Copley, Hoxie, and Joyce. Doug's best time for the 220 is 22 seconds which was made in the Princeton meet. He will also be in the 440. Giff Symonds will be the only entry in the mile run. Bill Rooney, Gubby Holt and Hooper will enter the two mile grind. Gubby's best time is 10 minutes and 30 seconds, while Bill has done the two mile in 10 minutes and 1 second. Garvin Drew and Green will be in the hammer. Drew's best throw in the hammer is marked as 152 feet.

Blodgett will likely try the high hurdles, although his back has been bothering him lately, while Russ Ambach will be the Engineers representative in the low hurdles. Blodgett has been clocked at 154-5 seconds, Ambach's best time for the lows being 26 seconds.

McArdle may try the high jump and the discus while Major Sanford will do his best in the pole vault. Sanford's best vault is 12 feet 11-2 in. Tom Garrard is entered in the javelin throw. He holds the Technology record with a throw of 173 feet.

Track Managers Are Elected At Meeting

W. C. Sessions '26 was elected to be next year's track manager at the meeting of the M.I.T.A.A. Tuesday afternoon. A. B. Bassett '26 was picked to be the next cross-country manager and C. E. Poore the next hockey manager. K. S. Lord '26 was selected to fill the position of swimming manager which was necessarily left vacant when Ralph Head was elected president of the class of 1926.

Sessions, Bassett, and Poore have been out in the competition for track manager since their freshman year, while Lord was assistant manager of crew.

Prospects for a varsity baseball team look bright as a motion was passed by the athletic association recommending that baseball be put on a varsity basis next year. M. A. MacDuffie was chosen to be the first boat house manager. The administration of the boat house has been taken from the Institute Committee and has been placed in the hands of the A.A.

ENGINEER CREW PRACTICING FOR OLYMPIC TRIALS

Sutter Shifted From Sophomore Shell to No. 3 Position On Varsity

CREW USING NEW SHELL

With the Olympic trials looming up in three weeks time at Philadelphia, the varsity eight has been practicing at a steady clip on the Charles every afternoon in preparation for the supreme test with the foremost crews of the country. Although no one expects the oarsmen to carry off top honors, it is more than a guess that they will be among the leaders at the finish line when the flag drops to pick the representative of the United States for the international races. With the defeat of the Crimson by a Cornell crew by three lengths over the Henley distance last Saturday, the win of Technology by the same distance over the Ithacan oarsmen is recalled to mind.

This, itself, doesn't mean so much as the above crews are not up to the standard of former years. This does not belittle the Engineers' chances to come through strongly at the trials as the record in the races with Syracuse and the Navy is creditable considering the eight rowed in a strange shell. The crew will take their own boat to Philadelphia and Bill Haines says "I believe we can take the measure of the Navy when we meet them." The Navy is not the only strong crew entered. The University of Washington is noted for record-breaking eights and will be there with Syracuse and several other of the leaders of rowing to put their best foot forward. Yale also has an exceptional crew this year.

Sutter is Shifted to Varsity

In the new shell, the Amphitrite, which was loaned the crew for the Olympic tryouts, the varsity have been going fine. The old shell could not stand up under the strains put upon it when the men laid on the oars in the racing starts. The shell gave under the stress put upon it and instead of giving all the power to driving the shell forward, a lot of it went into inside twists. Because of the rigidity of the new boat the crew has already learned to space their oars as well as they did in the old boat, and it will not be long before the eight will be getting greater speed.

At the beginning of the week Coach Haines shifted Dave Sutter '26 who was rowing at No. 7 and captaining the Sophomore Richard's Cup crew to the varsity boat to replace Horle at No. 3. This marks the third shift for the season. Perra, who pulled

of three hits in a row, one of them a corking triple to right field by Ran Giles brought in three tallies. Following this the Huntington men were harmless, under the curb of the tight ball of the Beavers, the future varsity winning their third straight 5 to 2.

FAMOUS DRAMA AT THE SHUBERT IS IMPRESSIVE

A revival of C. M. S. McLellan's famous drama of crook life, "Leah Kleschna" is playing with a distinguished cast at the Shubert this week. The plot is laid in Paris and centers around a young woman, Leah Kleschna, whose father is a professional thief and who has been brought up in an atmosphere of crime. Her father sends her one night to rob the residence of Paul Sylvaime, a young member of the Chamber of Deputies. She is surprised by Sylvaime in the act of robbing the safe, but instead of having her arrested, he talks with her and finally strengthens her previously-conceived resolution of leaving old Kleschna and the old ways. She returns to her father and attempts to dissuade him from following his course of crime but he refuses and she leaves him, to start life anew without her former evil influences.

Helen Gahagan, as Leah, offers a very impressive performance; she exhibits rare talent. Arnold Daly, as old Kleschna, is the best of the male actors and gives a well-nigh faultless performance. William Faversham, as the righteous-minded Paul Sylvaime is somewhat disappointing in the mechanical delivery of his speeches. The rest of the cast gives wonderful support to the main actors, and the whole cast succeeds in producing a most impressive play.

A. D. G.

DELIGHTFUL COMEDY AT THE COPLEY THIS WEEK

Mr. E. E. Clive, playing the part of "Sir Guy De Vere," the happy and care-free heir to the De Vere estates, is the factor in making the presentation of the charming little farce "When Knights Were Bold" at the Copley Theater this week, one of the most delightful comedies seen in Boston stock productions for quite a while. The play is in three acts and is written by Charles Marlowe.

Sir Guy has heard so much about the accomplishments of his ancestors during the middle ages that while slightly "under the weather" he dreams that he is master of his estates back in the year 1197. The result is that his friends think him crazy, but incidentally he defeats the intentions of Sir Bryan Ballymote to marry the charming Rowena whom he loves. Mr. Clive is a very versatile actor and provides excellent comedy throughout the play. He is equally pleasing in and out of armor, drunk or sober and carefree or serious.

Katherine Standing as "Lady Rowena" is a beautiful and charming heroine. The remainder of the cast play their parts well but are necessarily subordinated to Mr. Clive and Miss Standing. This is the last appearance

of Henry Jewett's Repertory Company at the Copley Theater. They will be seen next season at more commodious quarters in the Arlington Theater in Arlington Square.

C. E. M.

VERY AMUSING COMEDY AT ST. JAMES THEATRE

Due to popular demand "The Alarm Clock" is once more playing at the St. James Theatre. It is a farcical comedy written by Avery Hopwood, and played by the Boston Stock Company.

The plot centers around a rich New Yorker and an innocent young country girl. The latter comes to the city to visit some of her relatives. She is accompanied by her mother, fiancé, and another prominent man from the rural village of Kamm Corners. Fully aware of the dangers to be found in a large city, the small group come prepared to stay away from all temptations. The most amusing part comes when the mother, instead of retaining her old ideas, takes a new attitude of life. Although middle aged she attempts to learn all the tricks of a city habitant. Her daughter gradually becomes acquainted with city life and soon learns how to "paint the town red." It all ends with the young visitor finally falling in love with her would-be uncle, and her rural fiancé running away to marry a chorus girl.

Anna Layng, playing the part of the mother, portrays her part the best. As the ardent college professor, Houston Richards is very amusing. With the task of having to express joy, worry, anger, and anxiety, Walter Gilbert proves his versatility as an actor.

CREW PRACTICING FOR OLYMPIC TRIALS TODAY

(Continued from Page 3)

No. 3 oar during the first of the season, was switched to the second shell the day before the race with the Navy and Horle advanced to the varsity eight. Sutter, who was ineligible for inter-collegiate competition, as he transferred from the University of Michigan to Technology this year, is the latest holder of the second star board berth. The eligibility rules require that a man go one year to school before entering athletics. On June 13, Sutter will have completed the required term, although it is not necessary for the Olympic trials.

The rest of the lineup remains the same as before. The seatings are as follows: Stroke, Cedric Valentine; No. 7, Capt. Dick Eaton; No. 6, Bill Latham; No. 5, Al Herckmans; No. 4, Bill Coleman; No. 3, Dave Sutter; No. 2, Dan Sayre; Bow, George Hamblet and cox, Bobby Reid.

Notices and Announcements

All notices for this column should be in by morning of the day preceding the issue.

OFFICIAL

SENIORS

There is no matriculation fee or diploma fee. Seniors should, however, make sure that their account with the Institute is closed. See that all fines have been paid and laboratory deposits are drawn.

GS4

All answers to questions are due on or before Saturday, May 31, room 1-173.

GREENE'S "WHARVES AND PIERS"

Several copies of Greene's "Wharves and Piers," some new, some slightly used, are available from the Military Science Department for \$1. The book is an excellent reference and text book for wharf and dock work and retails for \$3.

UNDERGRADUATE

UNDERGRADUATE EMPLOYMENT

The following positions for summer employment will be available for the next few days at the T. C. A. Employment Bureau: companion, elevator man, caddy master, camp and hotel jobs, tutors.

FRESHMAN ADVISORS

Men who have been asked to serve as freshman advisors are requested to fill in the cards furnished them and to return the same to the T. C. A. office immediately.

T. C. A.

The T. C. A. will make another shipment of old clothes to professors and students of universities in Central Europe. Technology professors and students having clothes they would like to send will please turn in the same to the T. C. A. office at their earliest convenience.

SENIOR TEA DANCE

The Senior Class will hold a tea dance in the main hall, Walker on Saturday, June 7, at 3.

SENIORS

Blanket tickets and separate tickets for all Senior Week affairs will be on sale in the main lobby until June 3 from 12 to 1:30.

SENIOR PROM

Preliminary dance orders may be obtained at the Information Office, room 10-100.

T. C. A. CABINET

The T. C. A. Cabinet will hold the last meeting of the year in the back office today at 4.

INSTITUTE COMMITTEE

The Institute Committee will meet in the Faculty and Alumni Room, Walker, today at 5.

POSTER COMPETITION

The Musical Clubs Prize Poster Competition is now open to all students and will terminate October 15. Necessary information may be obtained from E. B. Haskell, Publicity Manager, at room 310, Walker.

SENIOR CLASS DAY

Invitations for Class Day will be available at the Information Office any day this week. Each Senior is entitled to three invitations.

SUMMER SCHOOL EMPLOYMENT

Men who desire work during their summer school session are asked to file applications at the T. C. A. office this week.

REVIEW OF "SPARKS" BY WINWARD PRESCOTT

(Continued from Page 2)

I find that I have given any F's or FF's in G.S. 44.4 I shall only have to turn to "SPARKS" page 20, give one look at those sad and wan faces of the Convict Gang '26 will make me change every F to at least a C. At that I must say that the spirit of VI-A is a powerful weapon, for any bunch who can at 4:38 wipe off the dirt and grime (or at least some of it) of honest toil, and then come into a class room and help me disembowel short stories with the same cheerful abandon with which they would smash up a dynamo, deserve all the praise I can give them.

"SPARKS," whatever its value as a Year Book, is after all only another indication of the solidarity and driving force of VI-A. To weld together a picked group of the sparks of genius which flash meteor-like across the Institute heavens, and to make this group a real unit with a personality and power of its own, is no mean achievement. A good deal of this is due to "Sir Boss," but even he could not be so successful if it were not for the spirit of VI-A itself, the spirit of each individual in it. And "SPARKS" is a tribute not only to Timbie and the executives who work with him, but also to every man in Course VI-A.
