E VERY man makes a great many friends in the course of his career at Technology. Seldom, however, does he take the trouble to keep up these friendships after he leaves the Institute. Very little effort is required. A letter once in a while, a call at Christmas—that is all one needs to keep in touch with the men he has met next. How few really take the trouble, though, to do it? Alas, every man promises to write his friends after he leaves. He takes down several addresses, intending to drop a line to each of his college chums. That is usually the end of it. He either forgets all about it, or else decides that it is too much bother, and that his college life is almost a waste of time and effort altogether.

This is the wrong spirit. Keep up the acquaintances. Even if you have only a couple of chums for years, it will always be a source of pleasure to hear what they are doing. One never can tell what can be done on a trip somewhere and be too happy to drop in to see the man with whom he used to write up reports, or do the work on tennis. Let your friendships die a natural death. Do everything in your power to keep them alive. It requires very little effort, and will be amply repaid in the end.

The men that are the Seniors who are about to graduate. It is just as advisable for the underclassmen to remember their friends and classmates during the summer as it is for the Seniors to keep things going. It will make it much easier for them to keep up their friendships in after life if they become firmly rooted now. A bit of good fellowship amongst the Alumni is always to be sought after. So far, the Alumni have kept in touch with each other pretty well. Let us hope that 1924 and the following classes will keep up the good work.

A LIGHT IN THE DARK

W HEN two college graduates, both of wealthy families, commit suicide by jumping into the thongs of a locomotive, and confess without remorse to having done it as an experiment, it makes modern civilization and college life appear in a very unfavorable light. It is possible that such incidents often develop in individuals who have had the influence of a college education, and who later crumble from the spiritual strain in which we sincerely hope that it is true, that this case is an exception. It is true that modern civilization claims that it has a more influence for good in college life, especially when eminent dis- coveries are made at last benefited by passing college students for various units. It is men of this class, realizing as they do the need for improvement, who have made possible the Silver Bay Con- ferences, which, though they cannot do everything, are a great factor in the movement for betterment.

College men, undergraduates, gather at Silver Bay, on Lake George, every Spring, and discuss with one another their personal and college problems. Besides this noted authorities address them on a wide range of problems. This religion is directly applied to the vital problems of today—straightforward, practical. The Silver Bay conference is not a mere glorified Social Picnic, but a real influence for the betterment of college life. Every 'Tech boy who has lived at all should attend such a conference, so he can afford to miss this year’s conference the latter part of this month.

Bannon Coaches Freshmen Baseball Team To Victory

For the first time in many years the baseball team is making a bid to win the New England championship. At the end of the season last year the varsity lost the league title to the Brown team by a score of 1-2.

The varsity will have to beat a number of strong teams in order to win the league. The games will be played against Harvard, Yale, and Pennsylvania, as well as the New England Conference teams.

The varsity has a good chance of winning the league if it can maintain its present form. The team has been working hard in the off-season and is in good shape for the season.

The season opens on April 15 against Harvard. The games will be played at home and away.

The team is coached by Vito Mann, who has been the assistant coach for the past two years. He has been selected to lead the team this season.

The team is expected to do well this season and is looking forward to a successful season.

DIRECTIONS FOR SENIORS TO FOLLOW AT COMMENCEMENT

By Professor G. E. Rasdell, Chief Marshal

This year it is planned to have every graduate bearing his diploma from the hands of President Deutsch. To prevent old-fashioned class numbers over 600, the presentation of diplomas will become confusing. President Deutsch realizes that numbers over 600 will present a difficult problem which must be set and handled with the cooperation of all interested. He will wish to present his diplomas at the commencement exercises. The number of general instructions, the other such presentations, and such arrangements must be signed and agreed by all classes. No diploma will be presented until the proper graduates have finished the entire process and if possible should be handed at the commencement exercises. Execution of any part of this instruction is necessary in order to avoid any delay or loss in the presentation of diplomas. No diploma can be issued at the graduation exercises in the absence of the graduate. The candidates must be present to receive their diplomas. The distribution of all diplomas will be made by the registrar at the commencement exercises.

MANY EVENTS PLANNED FOR LAST SENIOR MEET

(Abridged from Page 1)

will present the Class Memorial to President Deutsch. Judging from the number of tickets sold, the Pops Concert, held at Symphony Hall on the evening of Class Day, June 9th, will be very well attended. Most of the seats on the orchestra floor have been reserved and a large number of tickets have been purchased by alumni. The regular Pops orchestra will furnish the music and a special program of songs has been added to the usual program. Following the last senior exercises, on Sunday morning, the Senior Prom will be the first social gathering of the Class of 1924 at Alumni of Technology. Billy Meredith, Carlos and Frank Wise will perform for the dancing which will take place in the main hall of Walker Building. The tickets for this event will be mailed the week after the ceremony and will be of the form of a silver facsimile of a ticket. The guests will be given the air of wearing silver facsimiles of a ticket and will return the same to the center of the dance. The committee wishes to have all seats reserved for this event. This event has already been reserved and a large number of tickets have been sold. The committee wishes to have all seats reserved for this event.
