

ALL TECHNOLOGY SMOKER COMES TONIGHT

SOPHS TO MEET DEAN, FROSH TO PLAY ST. JOHNS

Two Football Games Tomorrow
For Field Day Squads
Away From Home

SOPH LINEUP ANNOUNCED

Looking over the two underclassmen Field Day football squads before tomorrow's acid test, the Soph gridders look the more promising of the two to come through with a good showing against Dean Academy at Franklin while the frosh look a little too light to buck the hard playing of St. John's prep. As many men as show up for the two trips will be taken along to the contests and from the opinion of the coach everyone will get a chance in the battles.

Luke Bannon put his charges through scrimmage yesterday afternoon that lasted long into the twilight hours as they tore through a pickup defence made up largely of late arrivals and coaches. However, their spirit has shown a marvelous pickup and it looks at present as if the old "frosh spirit" of last year that carried a Soph team to a 6 to 6 tie and in the spring won for the class the Intramural Baseball Cup, was at last going to crash through with a roar. All the spirit, men and backers will be needed tomorrow afternoon at Franklin for the team will be up against a bunch of "fighting fools" in the Dean huskies.

Soph Lineup Announced
Tom Price has developed a fairly good backfield in Estes, Farwell, Dimock, Hartz and Riley. The only trouble is they are light, too light to stand the hard knocks of a four quarter battle. They are fast, however, and may show up brightly if the line will give them a chance to get away and get loose. Farwell will do most of the kicking for 1928 as he is fairly strong in that department if he doesn't lose his head when a tackle smashes through. This condition is apt to be met with as the forward wall is hardly up to par on the defence because of lack of practice and inexperience.

From yesterday's practice the Soph starting lineup stands this way. Ends, Earle and Rhinehart; guards, Richards and Volante; tackles, Small and Peterson; backs, Dyer, Franks, Steele and Cline. Fitzgerald, Sherrill, Stanley, Lobo, Lunden, Innerasky, Innskeep, Ward, Robinson, Doyle and Dahl are all men who will also see action on the gridiron, as Bannon intends to give everybody with spirit enough to try Franklin a chance to show his stuff. Some of last year's regulars are still a little too blasé—"too cocky" is the way

(Continued on Page 4)

SOPHOMORES RECEIVE MOST SMOKER TICKETS

More Distributed This Year
Than At Last Year's Affair

This year's smoker promises to have a larger attendance than those in the past according to statistics shown by the ticket distribution. At noon yesterday over 1800 tickets had been given out and there is still a chance to obtain them. This is an advance of 300 over that of last year, and the attendance at last year's event was fairly large. With the exception of the Sophomore Class the pasted-boards are very evenly distributed among the three remaining classes. The members of the Class of 1926 have taken nearly 100 more than any other class.

For the benefit of those who have not been able to procure one, tickets will be distributed at the door tonight. It will be necessary to show the student registration certificate to procure the entrance card which is free.

Visit THE TECH Booth In Walker Tonight

All men interested in any department of newspaper work are invited to visit THE TECH booth in the trophy room, Walker, during the Smoker tonight. Cigarettes and candy will be distributed free.

ONLY \$600 COLLECTED BY BURSAR IN FINES

Either the men are beginning to exhibit a little more regard for the value of the five dollar bill or else they have been trying to make Uncle Horace smile kindly upon them with the hopes that he will soon take away all fines, for the number of five dollar bills collected for disobedience of registration instructions was much smaller than usual this year. The amount collected this term was approximately \$600, as compared to \$1000, which was last year's figure. Considerable fines for the taking of condition exams were received, however.

It is usually the case that the number of fines taken in after the first term registration is less than that for following terms because the Christmas vacation for one thing is a rather potent temptation to stay away from Boston for an extra day or so.

CLASS OF 1927 IS IMMUNE TO ABUSE

Candidates For All Teams Are
Still Lacking—Crew
Is Worst

The Class of 1927 certainly has presented an invulnerable skull to the many entreaties and expressions of disgust that have been voiced lately in attempts to awaken a little enthusiasm with regard to Field Day, for the number of men that appear daily for practice with the various Field Day teams has not shown any marked increase. Those interested in the Sophomore attitude toward the contest with the frosh hope that their attempts to bring to light a few sparks of interest from the '27 men, will soon be necessary no longer.

There have been eleven uninformed Soph footballers on the gridiron for several practices, but such a number is barely enough to make it possible to go through the plays and not nearly sufficient when it is time to play another aggregation. Substitutes must be on hand to replace men incapacitated in one way or another, and there must be available material among the Sophomores to furnish these substitutes.

Relay Suffering
The 1927 crew is in the worst predicament of any of the Field Day teams. Since several members of last year's freshman crew are rowing on either the varsity or Junior varsity eights, and since several others have not returned to resume their studies at the Institute this year, there are vacancies which must be filled. On Wednesday the Sophs were unable to go out on the river because of the lack of men while on the day previous they were barely able to scrape eight men together.

The relay squad and the tug-of-war outfit are both suffering because of the scarcity of candidates. There may be an excuse in the case of the relay team but in that of the tug-of-war aggregation there is none. Any man with a reasonable amount of weight, the ordinary muscular development, and a good bit of determination can make a tug-of-war team.

FRENCH SCIENTIST TO GIVE LECTURE TODAY

Graduates and Faculty Members
May Hear Dr. Fabry

"Monochromatic Light and the Production of Fringes" is the topic chosen by Dr. Charles Fabry, the noted physicist and authority on Optics for his second lecture which will be given in room 4-231 today. This lecture is one of a series of 12 on "General Interference Phenomena of Optics," two of which are given weekly at 3 o'clock on Tuesdays and Fridays.

Dr. Fabry has spent many years in the study of this subject and his prominence in the world of science was indicated at the time of the war when the French Government chose him to head the French Scientific Military Commission to this country. He holds several important positions abroad aside from his professorship at the Sorbonne.

Much favorable comment has been heard about the first lecture on Tuesday which was well attended, and the Physics Department under whose auspices the series is given invites all graduate students and members of the Faculty to be present.

PROGRAM FOR THE EVENING

MAIN HALL

- 7:10 Flashlight Picture
- 7:15 1. Technology Songs and Cheers.
Direction of O. B. Dennison '11
2. Presentation of Key of Walker Memorial to Undergraduates
T. B. Booth '95
President S. W. Stratton
3. Address of Welcome
Dean H. P. Talbot '85
4. Things Seen from a Dean's Window
P. C. Davidson '25 and R. W. Evans '27
5. Saw Duet
Dr. A. W. Rowe '01
6. Athletics
Bursar H. S. Ford
7. Anything but the \$5 Fine
J. L. Clifford '25
8. Vocal Solos
Austin Cole, Jr. '25
9. Activities
10. Moving Pictures.

GYMNASIUM

Fencing. Cole vs. Blake.
Boxing. Kuhn vs. Smith.
Wrestling. Tuttle vs. Coyle, and Tryon vs. Greer.

ALL WALKER OPEN AS CLASSES MEET AT ANNUAL EVENT

Many Types of Amusement Are
Offered on Program For
This Evening

DR. STRATTON TO SPEAK

Bursar Ford Will Give Talk on
"Everything But the Five
Dollar Fine"

Varied entertainment and plenty of it is planned to be the keynote of the All Technology Smoker to be held in Walker Memorial tonight. The entire building from gymnasium to basement is expected to be a beehive of activity as the undergraduates of Technology hold their annual fall get-together, and, if rumors circulating around the campus are to serve as a criterion, tonight's smoker will surpass its predecessors in numbers present and in the scope of its program.

In order to give the evening the proper start the committee has arranged for the supper to come first of all. The only qualification necessary to obtain a hot supper is the free ticket used for admission. Athletic events in the gymnasium will entertain the men of the classes who are waiting to eat or for the main program of the smoker to open. Those eating will also be entertained by music under the direction of C. W. Maytrott '26.

Novelties in Athletics
The athletic program includes several of the popular indoor sports. Fencing by members of the Institute team is one of the headliners, and boxing and wrestling occupies a considerable portion of the sports of the evening. Aside from the usual wrestling and fencing there is a novelty presented this year in Japanese fencing and an exhibition of jiu jitsu, the Japanese style of wrestling.

After the group assembles in the main hall a flashlight picture of the gathering will be taken, and then as the opening event, several of the favorite songs and cheers will be given with O. B. Dennison '11, the Executive Secretary of the Alumni Association acting as cheer leader. "Take Me Back to Tech," "The Cardinal and Gray," "The Stein Song," and other well-known Technology songs will be sung. With the singing over, the ceremony of presenting of the key of Walker

(Continued on Page 4)

FIVE TECHNIQUES TO BE DISTRIBUTED FREE

Winners Will Be Chosen By
Marked Cigarettes

Five free copies of last year's Technique will be given away at the All-Technology Smoker tonight. Technique usually gives away a few copies of the year book at the Smoker, and the lucky ones are selected by lot in a different way each year. This year Technique will give away a special brand of gold tipped cigarette, one to each man as he gets his meal; and on five of these cigarettes will be a special marking. The nature of the marking will be announced during the evening, and the holders of the winning cigarettes may receive their copies of the year book at the Technique office.

The Gray Book is almost completed, and will go to press next week. The only need of the freshman volume is for informals, of any size and at any age, so long as they represent a member or an organization of the Class of 1928. So far, not a single informal photograph has been turned in.

CALENDAR

- Friday, October 17
6:00—All Technology Smoker, Walker.
- Monday, October 20
2:30—Technology Dames meeting, room 10-300.
- 5:00—Swimming mass meeting, room 1-190.
- Tuesday, October 21
8:00—Mathematics Club, North Hall, Walker.
- Friday, October 21
8:00—Halloween Dorm Dance, main hall, Walker.
- Thursday, October 23
8:00—A.I.E.E. meeting, room 5-330.

COURSE XV JUMPS TO SECOND PLACE IN REGISTRATION

Electrical Engineering Still In
First Place—Course XI
Is Last

MECHANICALS DROP DOWN

Registration figures to date, just announced by the Records office, show that Course VI, still in first place, has gained heavily since last term, and that Course XV has taken second place away from Course II. Sanitary Engineering still boasts the lowest registration, with only twelve men.

The total registration so far is 2922, not much different from the total for the first term of last year. The Class of 1926 is again the largest, with a total of 702 men. The Seniors are in second place with 671 registered; Sophomores have 644; freshmen have 576; and there are 294 Graduate students.

Registration by courses reflects more or less the general demand in industry for men trained in specific lines. The universal growth of electrical communication and transportation, with its consequent increasing demand for highly trained Electrical Engineers, is reflected in the large registration of the three options of Course VI. The growth of Course XV is believed to be the result of the extension of the field of the engineer to purely administrative as well as engineering pursuits. The re-

(Continued on Page 4)

Straw Vote To Be Held At Institute Before Election

Part of Nation-Wide Plan to
Find Mood of Students
in Election

On Monday THE TECH will contain a ballot to be used in ascertaining the attitude of the students towards the presidential candidates and the issues they represent in the coming election. According to the plan which is being fostered by The New Student, a vote will be taken simultaneously in many of the colleges throughout the country. The ballot as printed will contain the names of the three leading candidates, Coolidge Davis, and La Follette together with a blank space where the name of a "sticker" candidate may be written in.

Boxes will be on THE TECH stands on Monday and on Tuesday morning to receive the ballots which will be collected Tuesday noon. After being cut out and checked the ballots must be signed in order to prevent the stuffing of ballot boxes and making the vote of no use in indicating the true choice of the students. As soon as the vote is counted it will be published in THE TECH as will the results of the All-Collegiate vote when they are obtained. That the vote of the student is significant although small is the attitude taken by The New Student in obtaining this information.

WAKE UP, SENIORS!

AMONG the traditions that go along with Field Day is the system by which Juniors are intrusted with the affairs of the freshman class...

The freshmen have gotten off to a good start as far as training and candidates goes. The Sophomores, however, are barely making the grade...

It rests on the Seniors to put sufficient energy and vim in the Sophomores to enable them to make a decent showing against their youthful opponents.

PRE-ELECTION BALLOTING

THE before-election attitude of the people has always been considered an important factor in forecasting the results of a presidential election.

No direct means have ever been taken to include the students in the various colleges in these ballots.

Although at least half of all college men are of voting age, it is true that they are away from their homes nine months of the year and are always away at election time.

The fallacy in this assumption is evident. A straw ballot is primarily an attempt to feel the political pulse of the country, to sound the attitude of the people as regards the coming elections.

Although he does not cast his vote in the national elections, it does not necessary follow that he has put aside all thought on political issues.

THE TECH takes pleasure in announcing the election of R. W. Learoyd '26 as Advertising Manager.

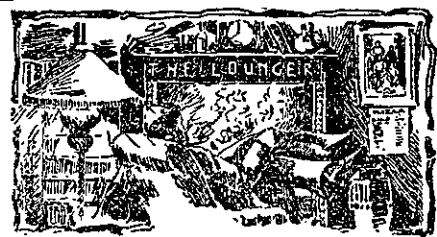

All Technology Smoker An Evolution From Old Tradition of "Courtnyte"

In 1916, when the Institute moved across the river to its new buildings the Seniors felt the necessity of having some sort of get-together meeting at which men of all classes could gather and get to know each other.

The Great Court, in those days, even though it had not yet been as smoothly covered with pebbles as it is now, was quite a show place.

In the early fall of 1916, the great rally was staged. Unfortunately, it literally rained torrents. The planned parade ended in a general rush for the shelter of the Main Lobby.

At the "Courtnyte" of 1917, the plan of substituting Field Day for the old cane rush was explained. Field Day as outlined at that meeting was substantially the same as the contest now held.

Between the Frosh and the upperclassmen, the old 'Stute is taking on quite a military appearance. It does the Lounger's soul good to stroll through the corridors and meet all the upstanding specimens of the U.S.A. Military policy.

To the Lounger's point of view, there is nothing quite so slovenly as a slovenly soldier. One sort of associates neatness with an army gentleman.

However, the Lounger cannot help smiling behind his hand when a real Army Officer stands up on his hind legs in a lecture and berates the frosh for their appearance, and all the while he is talking, his blouse pockets are unbuttoned.

Taken altogether, the Lounger would not blame the dear Mil. Sci. department in the slightest if it passed a ruling knocking so many points off a frosh's mark every time he appears in public with his blouse unbuttoned, or his putts rolled edgewise or anything like that.

The Lounger admits that a certain well-known shaving cream company has been showing portraits of football-players of twenty-five years ago.

activities as a whole, after which the meeting broke up amid loud cheers for Technology.

The War and the presence of the S. A. T. C. and the navy men at the Institute changed things a great deal. The students were under military discipline and had to be in quarters at a definite time.

In 1919, a still larger smoker was held in the S. A. T. C. mess hall, President Maclaurin addressed the men, about to be demobilized. The purpose of the gathering was to instill college spirit and to revive that part of college life that had been lost during the war period.

Starting with All-Technology Smoker of 1920, the gatherings have been held in Walker Memorial and have been of the type familiar to all upper classmen and of the type to which the freshmen will be introduced this evening.

for some of the returning students to wear a cute, dinky, saccharine growth of hair on their upper lip, a la Rowe? Shades of Delilah, what impulses do course through us when we meet these walking ambushes!

But stay, one moustache stops and advances with outstretched hand. Hesitatingly, we acknowledge the greeting and bit by bit recognize what or who is lurking behind the hisute barrier.

MORE MEN WANTED FOR SQUADS

Help!!
The A. A. is going to do its darndest to ruin the constitution, training and stomachs of all the guileful persons who can be snared into their dank dens on the third floor of Walker during the dark and dismal hours tonight. Masked raiding parties will rope unknowing victims in after which they will be subjected to a slow torture of cider and doughnuts to the stirring strains of soulful siren symphony.

SOPH CREW MEN ARE NEEDED FOR FIELD DAY EIGHT

Most of Last Year's Freshmen Crew Unavailable For Class Boat

FROSH HAVE EIGHT BOATS

"Oh, where, oh where, have the Sophomores gone" is the cry of Bill Haines and well he might cry for he has recruited most of last year's frosh for the varsity eights and more men are needed to make up a Field Day crew for 1927. While only a dozen or so Sophs are around the Boathouse the class of 1928 has enough for eight eights, a number which speaks for itself as to the spirit of the freshmen towards the water sport. Even though last year's freshman crew has been disrupted by graduations of its members to the varsity class, still last year there was enough material for four or five more crews, but at present they have disappeared and the Sophomores have defeat staring in the face on the water on November 7 unless the old stagers of last spring turn out in double quick time.

Few of Last Year's Frosh Out

Of last year's frosh, Emery, Kales, Frink, Collins and Blandford are in the varsity shells, and Cohen the coxswain of last year's boat has been shifted to the varsity berth. With Lew Tappan, stroke last year in Florida and not intending to return to school until next fall, the old frosh crew that could give the varsity a run has been broken up. According to Guy Frisbee '26, manager of crew there ought to be about twenty-five out for the Field Day eight if the class is not to be obliterated on the Charles in the big annual race.

Among those trying out for the frosh eight's are many men of previous rowing experience and a strong crew is almost inevitable while the Sophs are up against it for lack of material to boat a shell. P. C. Eaton is at present stroking the crew and D. A. Dearle is coxswain. One or two more veterans are in the boat but they were sadly in need of rowing material and it is up to the men out last year to show up again and put out a crew that will erase the unlucky defeat of last Field Day when with the Sophs trailing two members of the crew caught crabs and ruined their chance for a victory.

FIFTY MEN COME OUT TO WELCOME RAWSON

When Coach Rawson was at the Hangar yesterday from 10 until 4 in the afternoon about 50 men turned out to welcome the new coach of boxing at the Institute. After Field Day practice in boxing will start regularly over in the gym, and for the purpose of meeting the men interested in boxing who were unable to meet him yesterday Coach Rawson will be over in the Hangar on Monday at the same hour. Manager A. S. Brookes '26 has arranged an interesting schedule that calls for meets with the Army, Yale, New Hampshire State, Colgate and McGill University in Montreal. The latter will be one of the best trips of the season. With such a schedule and a coach who has a wealth of experience in the boxing ring the sport ought to draw many men out this year. There are plenty of openings for an aggressive fighter on the squad as only one veteran of last year's squad is back for this year's team.

FEW MEN COME OUT FOR TUG OF WAR PRACTICES

Freshmen Have Only Ten Out for Squad While Sophomores Have Fifteen

TWO PRACTICES HELD

"Three, three, three,—now get down low"—comes the cry of the coaches of the tug-of-war teams from out of the twilight back of the trackhouse where the frosh are training and near the rifle range where the Sophomores' hempen are attempting to pull a telephone pole out of the ground. But the sturdy pole doesn't come out, neither does the fence stake that the frosh are trying to extract from the earth's bosom,—furthermore they don't even quiver; the answer is not enough men. Ten men out for the 1928 squad and only about fifteen for the upperclassmen; some husky, while others, lacking weight have it all over the big boys for pep and strength.

A. S. Ford '26 was attempting to show the frosh the rudiments of the game and acting as counter and coach at the same time he whipped the frosh to a high pitch of spirit in their war on the fence stake. With Elmer Dean as anchor man and Bob Harbeck, Berny Bernhardt, Bob Carder, Bob Wise, Ben Draper, Ted Holmes, Charley Taylor, Jake Kelly, and N. M. Case taking care of the rest of the long rope, they sadly showed the need of some more beef in the shape of 15 freshmen in order to bring the squad to full strength.

Counters Are Needed
The Sophs are more numerous than 1928 perhaps because they are out to avenge the defeat of last fall when the champion Sophs pulled them over the white line in straight pulls. The squad averages about 165 pounds with quite a few men tipping the scales around 180 but they all show the need of pulling together as yesterday afternoon they tended to waver in curves in their practice pulls.

All one needs for tug-of-war is a little weight and a lot of grit. If you are not heavy, tryout for counter, as a man with a lot of spirit and cheer leading personality is needed very badly. Three men now out for this position... the Sophs team lack the necessary something to make the men do the impossible,—to pull the post out of the ground and the one out for the frosh is afraid to jump up and down, preferring only to wave a handkerchief and whisper. This position is the most important of any as a good counter will get the men together when no one can and if it isn't to pull a homely stick of wood out of position, perhaps he may entuse them to pull a class's numerals into the dust.

Swimmers Hold Mass Meeting On Coming Monday

The swimming team is looking forward to the biggest turnout in years at the mass meeting coming next Monday at five o'clock in room 1-190. This is their first attempt at a large scale affair of this kind and manager Lord expects it to go over in fine style. Coach Dean, Captain Walsworth and Ken Lord will all give short talks which will adequately cover all branches of the team. Everybody who is the least interested in swimming is invited to come and the more the merrier. There is an especially good opportunity for frosh managers this year as up to now there are six Soph managers and not a single freshman. The competition will run for two terms and will not be such that the men will have difficulty in being both a manager and keeping up with their studies.

There have been three practices a week arranged with the Y. M. C. A. similar to last year; Monday from 5:00 to 6:00, Tuesday from 4:30 to 5:30, and Thursday from 5:00 to 6:00. The varsity starts practice on Tuesday the 21st and any freshman who wants to swim and are not busy with Field Day should come out at the same time. The regular call for freshman swimmers, however, will not be made until a week or two after Field Day.

Notices and Announcements

UNDERGRADUATE

NEW STUDENTS

Men desiring copies of the Stranger's Directory of Greater Boston and the pamphlet "Our Neighbors At Kendall Square" may obtain the same from the Information table in the T. C. A. Office.

R. O. T. C. SENIORS

R. O. T. C. Seniors report to room 3-310 to ascertain whether their names are on this year's payroll. The Military Science Department also has a few pay checks from the third term of last year ready for distribution.

CHORAL SINGING

Stephen Townsend, in charge of Choral Singing (GS58) was prevented from meeting the class last Friday, but will be present tonight at 4 in room 5-330.

SWIMMING

A call for freshmen managerial candidates has been issued by the swimming management. There is to be a mass meeting Monday, October 20, which all interested in swimming are urged to attend. Varsity and ineligible practice is to start Tuesday, October 21; regular freshmen practice will not start until after field day.

FOOTBALL EQUIPMENT

Anybody willing to loan football equipment to the freshmen please call R. P. Price at B. B. 1369 or R. W. Rogers at B. B. 7197 or call at the A. A. office. Shoulder Guards, Headgear and Pants are needed most.

A. I. E. E.

Dr. Vannevar Bush '16, will speak to M. I. T. Branch of the American Institute of Electrical Engineers at their first meeting of the year in room 5-330, Thursday, October 23, at 8. His subject will be "The 'S' Tube and Gaseous Conduction." All electrical students are invited.

VOO DOO

The October issue of Voo Doo will be on sale today.

MATH CLUB

Dr. P. Franklin will speak at the first meeting of the Math. Club next Tuesday, at 8, in North hall, Walker. All interested are invited to attend.

TECHNOLOGY DAMES

Wives, mothers, and sisters of Technology students are invited to attend the opening meeting of the Technology Dames, next Monday at 2.30 in the Emma Rogers Room, room 10-300. All members are urged to attend. Dean Talbot will speak and Miss Owen will sing.

Last Chance To Get Tickets For Smoker

Men who have not yet secured their tickets for the All Technology Smoker may do so at the door tonight on presentation of the registration certificate. Tickets are free and are necessary to obtain supper.

COURSE XV NOW SECOND LARGEST AT INSTITUTE

(Continued from Page 1)

placing of steam and gas power in many industries by electricity has led to a drop in the enrollment of Course II. Thus the entire story of industrial demand is reflected in the registration fluctuations.

One item of the registration, the small enrollment in the freshman class, is a feature peculiar to Technology. It is caused by the great number of men who enter each year from other colleges, credited with advanced standing. Some of these men have taken a year or two of academic study, and some who fear the rigor of the first year at Technology go first to some other technical school.

The registration by courses in order of their size is as follows: VI-674, XV-419, II-406, I-324, X-311, IV-191, V-123, IX-116, III-96, XIII-69, XIV-61, VII-34, VIII-19, XII-19, Aero Engineering-13, XI-12.

DIRECTORY CARDS

About 800 students have failed to return Directory Cards to the Publications Office, Room 3-106. These cards should be returned at once.

DEAN TALBOT SPEAKS ABOUT COLLEGE LIFE

Addressing more than 125 members of the Technology Catholic Club last Wednesday evening, Dean H. P. Talbot '85 spoke of the various phases of college life as he has met with them in his career as an educator. Illustrating the points he brought out with excerpts from "The Plastic Age," he scathingly denounced the too epicurean type of college man.

In his talk he also expressed his regret that such a zealous worker as Father O'Connor had to sever his connection with the Catholic Club due to the pressing duties of his office as Director of the Catholic Charitable Bureau, and welcomed the new Spiritual Director of the club, Rev. Fr. R. J. Quinlan of St. Cecilia's Church, Boston. Both priests gave short addresses.

At a business meeting which followed the speaking it was announced that a joint "acquaintance dance" would be held with Emerson and Simmons Colleges' Catholic Clubs in St. Cecilia's Hall on Belvidere Street, Boston, Friday evening, October 24. The admission will be fifty cents. Announcement was also made that plans were under way for the big fall dance of the club which will be held in Main Hall of Walker sometime in November.

DUAL FOOTBALL MEET TO BE HELD TOMORROW

(Continued from Page 1)

Luke expresses it, to show up regularly at practice. Too bad as the team is in need of everybody not only to give the frosh a severe drubbing November 7, but more to show the outside opponents a scrap that comes of hard practice and an iron spirit. "Hit them hard and keep on hitting" is the coaches motto and the name of Technology will suffer if this is not the case.

Entirely different is the attitude of this year's Soph team as the turnout is remarkable for Sophomores, perhaps it is Luke Bannon, the victorious baseball coach of last spring,—whatever it is, this fall's turnout is writing Sophomore football history.

Everyone ought to go to these games who can and give Harvard a rest. Although a better exhibition of football may be had at the big stadium still one can't get the thrill out of cheering "do try Harvard" when you can go see your own class mates on the gridiron and have a chance to sound the old war-cry of "We are happy, Tech is Hell" over the gridiron of another school. All out for Dean and St. John's tomorrow.

WALKER OPENS DOORS FOR GUESTS TONIGHT

(Continued from Page 1)

Memorial to the undergraduates will be gone through by President T. B. Booth '95, of the Alumni Association. Mr. Booth represents the Alumni as donors of the building. President S. W. Stratton will give the address of welcome to the assembly. This is the first year that Dr. Stratton has been present at an All Technology Smoker.

Other bright spots on the list of events are addresses by Dean H. P. Talbot '85, Dr. A. W. Rowe '01, and by Bursar H. S. Ford. Mr. Ford has promised to talk on everything but the five dollar fine and mostly on athletics. The final talk of the evening is on "Activities" by Austin Cole, Jr., '25, who represents all the different activities at the Institute and will endeavor to show their advantages to prospective candidates.

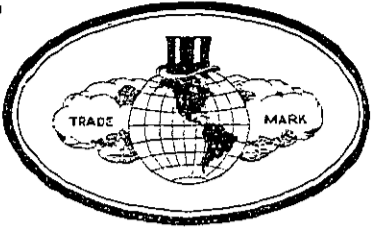

Speaking does not fill the entire evening, however, for there are to be both specialty acts and moving pictures, interspersed between the speeches. The moving pictures, which are new to the student body, show some of Technology's traditions and events. Last year's Field Day, Technique Rush and Senior Picnic are to be thrown on the screen as well as informal snaps of representative men around the Institute and a comedy.

Activity offices and booths are expected to hum with business as a determined drive for candidates will be made by most of them. In addition to this phase of their participation in the smoker, most activities are donating some of the supplies used. Programs are being supplied by Voo Doo, paper caps, different for each class are the contribution of the Tech Engineering News and Technique, cider and doughnuts are being distributed by the M. I. T. A. A. while THE TECH is supplying the cigarettes.

In case any man has failed to get a ticket at the allotted time there will be an opportunity to obtain them at the door on presentation of the registration certificate.

DORM MEN TO SPONSOR HALLOWE'EN HOP SOON

The Entertainment Committee of the Technology Dormitories announces the first of the annual series of dormitory dances on Friday evening, October 31, in the main hall of Walker from 8 until 12. The dance will be entirely informal although it is a Hallowe'en affair. Music is to be furnished by the Copley Plaza Hotel Orchestra. The plans for the occasion are not quite completed but the committee expects to have a novelty number of one sort or another during the intermission for the sake of variety and interest.
