ENGINEER HARRIERS ENTERED IN INTERCOLLEGIATE RUN AT VAN CORTLANDT PARK TODAY

Captain Benim Expected To Give Kirby of Bull Dog Team Sift Battle For First Place In Big Event

By C. E. McCollum

With more than a score of colleges and universities entered, the annual struggle for the national intercollegiate cross country championship is in full swing. Captain Kirby of Van Cortlandt team will be this afternoon over the six mile course at Van Cortlandt Park, New York. At the crack of the starter's gun at 2:00 clock, at least five entrants from each college will be hitting the long trail for the coveted team prizes, and 100 individual entrants is a rather conservative estimate of the pack which will run in the annual event. Although Kirby of Yale is the favorite, there is no guarantee for individual honors, but a safe bet that Benim, with a little assistance from Kirby, will give the Bull Dog team a hard fight for the championship.

NOTED PHYSICIST TO LECTURE HERE

Series of 20 Lectures To Be Given By Dr. Debey, the Second Term

Professor P. Debye, member of the Royal Institution of London and several other European universities including the Academie van Wetenschappen, will give a series of 20 lectures on "Science as a UNION" beginning January 30th, lectures which will be given Tuesdays and Thursdays in room 432 at 4:00 clock. They will be free and available to all students and will be given credit hours of 20 credits.

Dr. Debye, German abstract: "Science in the sense one understands the man after the different firing pieces were tabulated. It is a great pity that some of the authorities it is..."
The entire student body, as well as those connected with crew, are grateful to the friend of the Institute who has generously given the Institute a concrete way. The management and coaching staff at the boat house desire a public expression of their appreciation.

The giving of thanks once a year is not such a terrific performance as would be given freely. They have had no small part in the development of the Institute. A superior boat, but the receipt of this gift means that

"There is only one word worse than the above-described sight of a man in a Triple E long and that is the spectacle of a man throwing away a Troy wallet and making it over to a gawky man for some change."

"He could not decide which of two fantast for-"
HARRIERS ENTERED IN I.C.A.A.A. TODAY
Strong Freshmen Team To Compete In Title Run

Chute Likely Winner of Individual Honors

Kirwin, Bennett and Meagher Expected to Finish Early
In the Freshman Race—Will Run Over a Three Mile Level Course

The strongest freshmen cross-country team that Technology has produced since 1921, when Frank Benish ran for the team, will compete in the annual I.C.A.A.A. meet at Van Cortlandt Park the afternoon of Wednesday, November 24.

Captain Eddie Chute of the first year team who recently carried the flag in a victory over Dartmouth, has not entered a team this year. It is expected that the rest of the team will complete the squad, as indicated by recent training of the men. The course is practically level, and it is expected to be an ideal course for the first year men. Captain Ed Chute, however, will not run.

The first mile will be run over a three mile course at Danvers, Mass., as having lowered the course record last year. This course is clearly marked and the finish line is in view of the starting line. The rest of the team, however, will be quite pleased with the course.

The freshmen race covers a course of two miles and will attract considerable interest. The varsity runners will also attract considerable attention.

Great Interest Being Shown In Handicap Meets

Ray Jack Mines Freshmen Pole Vault Record by One Inch

Last Saturday the second of the ten series of handicap meets was run off by Don Connors. The races are performed very comfortably and "Don was well pleased with the showing." In the pole vault event a freshman jumped just under six feet of the record.

Wrestling Captain

If the spirit of the hockey team keeps up the manner of the boxing team, we may expect a good showing from this year's team. Captain Eddie Chute has received a letter from Tech athletics department saying that he is "very pleased with the showing." In the pole vault event a freshman jumped just under six feet of the record. The wrestling team is expected to do well in the upcoming season.

Hockey

Hockey practice is being held three times a week in the Boston Arena.

WATKINS LUNCH 90 MILE AVE., CAMBRIDGE

The Hockey team has been practicing for the upcoming season. The coach is expecting good results from the team. Practice is being held three times a week in the Boston Arena. The team has received a letter from the athletics department saying they are "very pleased with the showing."
DANGERS OF ETHYL GAS NOW EXAGGERATED

(Continued from Page 1)

Use of ethyl gas is justified because it is not merely another gasoline, but it was discovered by the Research Laboratory of the Motor Car Company that organic compounds of lead were added to gasoline to increase the compression in the motor and increase the efficiency of the exhaust. It is now known that this addition of lead to gasoline is not necessary and harmful effects have been observed in the use of this compound. By the use of ethyl alcohol instead of lead, the motor will run under ordinary driving conditions.

Technological did much of the development work for making ethyl gas on a commercial basis. Work was carried on in the Chemical Engineering Department, which has made a thorough study of the problem. It was found that the new method was turned out in addition to the improvements on the old ones. Mr. Boeing and Mr. G. Gallus, Research Associates in the department worked for some time on the problem for the company.

DOWS WANTS RULE TO BE CHANGED

Ray B. Davis, a former member of the Football Committee, advocates a new rule that would prevent a fumble from being gained as points.

"The feature of football is uninterest in the last ten years," Mr. Davis argues. "The proper disposition of the game would change the rules that the ball be put down for a score by the player at whose end it is. We feel that the running of the ball and not the success of the handling of the ball shall be the yardage at the point which it is gained."  

CONSTRUCTION CORPS WANTS SUMMER COURSE

The office of the Construction Corps of the Freshman Class of 1927 will send a petition to the University to request the opening of a summer course to be held on the campus.

The petition states that the men in the course are initiating correspondence in request to the University for a course of study for its regular students. Believing in the value of the course in Construction Arts, Captain Smith has highly favored the request. The petition states that there is no course to instruct the men in the subject of the department to supply them.

Captain Smith has written a letter to the War Department in which he sets out the purpose of getting a number of additional professors for the Marine Artillery School in Cincinnati. The Marine Artillery School is under the control of the University, and the exhibition hall will be necessary if the school is to continue.

The Navy Department hopes to make a suggestion to the University in the matter and to give the course the same status as a course at either the R. G. T. C. or the C. C. P., however, are not fully formalized.

WRESTLING COMPETITION

Wrestling managerial competition is announced for the second time, and the application letter to A. N., office after 9 o'clock.

M. T. A.

Sophomore, Medical, Publicity Manager, A. N., office any day next week.

SWIMMING

All offices are closed to get together on the swimming team on Monday or Thursday or to 1:30 important and Thursday 11:30-12:30. The office is Mr. D. M. Fuller instructor.

UNDERGRADUATE RIFLE TEAM

Candidates for the varsity rifle team will be selected on Monday between 3 and 5 in the Athletics Room. The time is decided by Mr. E. C. Von Wessel. Thursday

COMBINED MUSICAL CLUBS

Freshman candidates for the business of the combined music clubs interview Meurs. Walker, Haynes, and others. The office is Mr. W. F. Photographs.

M. T. L. COMBINED TRAVEL

Applications are being as soon as possible. They may be paid in, Monday, Tuesday, and Wednesday in the office, Walker.

NEW TYPE OF PUSHIE ON MERCHANTS' LIMITED

We extend our hearty congratulations to Miss Emma Hill, who has been appointed on a new type of pushie. While the car is not yet in service on quite all the rémi, it is in the Merchants' Limited, and we are extremely pleased to have her here. The car is smaller, and we believe it offers a more comfortable trip through the city.

RUGBY BALL

"The Closest to the Institute" is the new name of the Rugby Ball Club. It was issued in the shape of a new sandwich, and it is expected to be a great success.

go to divide into two groups. The division is not natural for any group to divide into two.
