WORK AND KEEP HOPING

Explains Factors Responsible For Faculty Machinery and Apparatus

"A research laboratory is a place where you have to use individual muscules in conquering problems. The direct route is the only way to go. Your starting point is your enthusiasm. You have to develop it. If you are not enthusiastic, you are probably doing the wrong thing." - Harry A. Kettering

HALF OF SENIORS SECURE POSITIONS BY SPRING RECESS

Professor Miller Speaker at Lecture to Seniors

MORE JOBS THAN MEN

"Engineering Facts of Coming Century Would Read As Fiction Now"

"Fifty per cent of the graduating seniors will have received offers before Junior week," said Professor E. F. Knight, "and the Junior week will be the culmination of the school year, for that is when the majority of the seniors will have received offers." - E. F. Knight

LIEUTENANT LEIGH WADE, WORLD FLIER, WILL TALK TO SPRING SOCIETY TODAY

VOO DOO DINNER HELD WEDNESDAY AT LOUIS

Phonograph overheard over 50 people at the annual banquet of Technology's Junior and Senior classes on Wednesday evening in Louis. French Resinoid, with a special company of dancers, was presented by Lieutenant Wade. The evening was marked by the presentation of the "Best Dressed" awards and the presentation of a special gift to the Junior class by the Senior class. - E. F. Knight

GREAT PAINS ARE TAKEN TO SECURE FAMOUS AERONAUT

Lieutenant Arnold, Mechanic And Flight Assistant Also Expected

Lieutenant Leigh Wade, pilot of theested 1 during the world flight, has evoked considerable interest here in anticipation of his visit to campus this week. Lieutenant Wade will also be present at the banquet, where he will be presented with the "Best Dressed" award. - E. F. Knight

NEW COMBINATION FOR CAMPUS LIFE

Four plans started from the first floor, one for all students, two for seniors and juniors, and one for seniors. One of these plans, belonging to the campus life committee, was abandoned, and was located a few steps away and modified to suit the needs of the other plans. - E. F. Knight

NOMINATIONS FOR MARSHALS NOW DUE

Election of Senior Class Day Marshal, Committee Comes Wednesday

Between the hours of nine this morning and 4 p.m. this afternoon, nominations for members of the Senior Class Day Marshal committee will be considered. - E. F. Knight

TENANTS TO RECEIVE $4.50 FOR SIGN-UP CAMPAIGN

Artificial Lightning Discharges Of Fifteen Feet Shown In Movies

Twelve and eleven foot artificial lightning discharges were shown in the Student Union yesterday afternoon by Mr. F. B. Blake, 278 E. Main St. Students were required to sign up for the sign-up campaign for the tripod, which will be erected in the Troy Union next year, and will be used to simulate lightning discharges.

The project was undertaken by Mr. Blake, who is a member of the Technical Committee. - E. F. Knight

TICKETS FOR PROM TWELVE DOLLARS

Attendance Limited to 400 Couples Under Confined Conditions

Twelve dollars will be the price for the Junior Prom this year, with a minimum charge of ten dollars for the evening only. The highest prices this year are due to the fact that the attendance is limited to 400 couples. - E. F. Knight

TODAY'S DORM FORMAL DANCE THIS EVENING

Nightingales Nine-piece Band To Render a Program Of Fourteen Dances

Tuneless will be the requis de requis for the Nightingales Nine-piece Band as they render their program of fourteen dances. The program will be initiated by the "Sunshine Special," a piece composed by Mr. Blake, with melody by the "Rosalie Special," a piece composed by Mr. Blake. The band has already purchased their tickets and will be present at the program.

As a result of the committee's charge of dominoes, the Nightingales Nine-piece Band has attempted to simulate dominoes. The committee has also arranged for a refreshment, which will be served as usual during the intermission with the advantage of the music which will be distributed as announced at the same time for both ladies and gentlemen.

M. C. Smith is in charge of the affair and all arrangements regarding the program. - E. F. Knight

G. F. Billman, G. W. Goodwin, E. H. Kinch, Mrs. D. Z. Little, and Mrs. W. W. Brown are members of the committee that has been in charge of the program.

EFFECTS OF HARMONICS ON MOTORS DISCUSSED

Harmonics, their effects on torque, and a method of cancellation of the effects were discussed by P. L. Albert of Massachusetts Institute of Technology, and was read before the Western Electric Company, Inc., at the Western Electric Company, Inc., on "The Effects of Harmonics in the Circuit of a Motor." His talk was given as a free speech, and was read before the Western Electric Company, Inc., on "The Effects of Harmonics in the Circuit of a Motor." The Jones of the vortex. They ed,.until failure.

One of our professors has announced that with a little understanding of the principles of Engineering, he admits. That is a

It is not believed. It is not true. The trouble is that the two classes have not awakened, have not become aware of the fact that it is their responsibility to carry the burden of Institute activities. It is not a question of self-satisfied consciousness, lethargic...
Oarsmen Are Invited To Row At Poughkeepsie Relay Races In K. O. C. MEET TOMORROW

Rowing Association Sends Invitation To Tech Crew
To Row In Famous Regatta

Just how much of an impression that victory over Cornell last spring made on the rowing world was brought home to Manager Gay Frisbie recently when he received a note from the Intercollegiate Rowing Association for the crew to row in the famous Poughkeepsie regatta next June. That famous were of Bill Haines which he whipped into shape in a short time directly pleased Technology in the rowing limelight, for only a few times has the university been invited to row in the big annual regatta.

Every year the crew of the prominent colleges and universities in the eastern colleges enter to the annual regatta held on the Hudson near that city. Here, Cornell, Pennsylvania, and Syracuse are the usual favorites, with Boston, Yale, and Harvard close behind. Last year, however, an exception was made since Columbia, Williams, and Washington and Jefferson were invited as well. The reason for the selection was evident, and Harvard included only top rowers and had no freshmen. This year, however, the Charles will be as well known as to the rowers and Technology is a very promising crew.

More Men are Needed

Although Gay Frisbie has been working hard for quite some time, he found that he needed more men in the crew to row to the best of their ability. His main worry is the fact that an invitation was received to row in the famous regatta. A large crew is necessary to be competitive in the major events.

WALTHAM UNABLE TO GO

Matmen Tackle Army Saturday
At West Point

This year Washington and Wisconsin have already been invited, and also the rowing world by finishing second. The Badgers surprised everyone by finishing second. The rowing season for Technology ends in May, and the Tech crew will then return to campus.

The crew is very excited about the opportunity to compete against some of the best collegiate crews in the country. The rowing season is the most important event of the year for Technology, and the crew is looking forward to the challenge of racing against the best in the nation.

Baton Passers Race Brown on Mechanic Track

Wibas, Miller and Shipe to Run In Special 40 Yard Event

BAILEY ENTERED IN 600

Saturday night the mile relay team has a chance to redeem its two defeats at the hands of the Harvard flyers when they meet the strong Brown men, who have proven themselves to be big winners, through not attracting Joe Maguire, the best man on the Brown team, who will meet a lot of competition in the 600.

There is Frank Hauver, the ex-Stuyvesant High School and a member of the Olympic team to take on all comers in the 220. He can hurdles, but he just can't run straight, so Boston again is a favorite in this event. Bates is another to watch. There is a good chance of repeating the performance of last year.

At Miller, the King Singh at Harvard and Joe Sullivan of Boston College who finished second and third at the Harvard meet in the 100, will be in the 100.

It is very uncertain, however, whether he will be entered in the 220. If he is, he will meet a lot of school boy stars bring the entries up to be quite a meet. It will be interesting to see if they break Kerin's record, he was the only entry in the 220.

As a result of Bill Haines' talks in Orange to keep his height and weight down, the starting line is likely to be moved back to give all competitors a better chance at the shorter distances. The only man who will be able to win with a 100 foot start is likely to be Johnson, Hinirod, Parsons, and Armstrong. These men are the only ones who have broken Kerin's record, but they are not likely to do it again this year.

Diving is a sport in which the participants have to perform a series of flips and spins in the air before landing in the water. The divers must have good hand-eye coordination and timing to execute their dives successfully. The diving board is a raised platform from which the divers jump into the water. It is important for the divers to maintain their balance and control their body movements during the dive.

Some Exceptional Values in Overcoats and Topcoats for Spring

FRATERNITY BASKETBALL
The finals between Delta Phi Eta defeated Delta Phi Eta, 56-54. The Lambda Chi Alpha is in the final against Delta Phi Eta. On Thursday night, Delta Phi Eta defeated Theta Chi, 56-54. Friday night, the Lambda Chi Alpha defeated the Theta Chi.

Three teams have shown strong improvement over the previous round of games. The Fallows brothers, Columbia University, are determined to bring back the regulars and to secure some good outside players. The Fordham team is working on the same lines, and their players are being tutored by the experienced coach. Southern Methodist is working on the same lines, and their players are being tutored by the experienced coach.

This is an exception in values in overcoats and topcoats for the peak of Spring.

The overcoats and topcoats offered are at a special price.

These overcoats and topcoats are designed to keep you warm and protected during the cold spring weather. They are made from high-quality materials and feature stylish designs. The prices are lower than usual due to the season of Spring.

Some of the overcoats and topcoats available are:

- Overcoats: Now $35.00, Was $50.00
- Topcoats: Now $25.00, Was $40.00

These prices are the lowest in the season, so take advantage of this deal while supplies last.

Business Suit:

Historically, the business suit has been a symbol of professionalism and authority. It has been worn by leaders and professionals in various fields for centuries. Today, the business suit remains an essential part of any wardrobe, especially for those who work in corporate settings.

The business suit is a type of clothing that consists of a jacket and trousers, often made of wool or a wool blend. The suit is typically worn for formal occasions and jobs that require a professional appearance. The suit is available in various colors, styles, and materials, and is often customized to fit the wearer's body type.

This business suit is made from high-quality materials and features a classic design. It is perfect for any formal event or professional setting. The price is lower than usual due to the season of Spring.

Here is the business suit price:

- Now $35.00, Was $50.00
