

TENNIS PLAYERS DEFEAT B.C. AND BROWN EASILY

Engineers Stretch String of
Victories To Five In As
Many Matches

BROWN WHITWASHED 9-0

Eagles Offer Little Opposition
To Victorious March of
Tech Netmen

Continuing their unbroken string of victories, the Varsity tennis team defeated Boston College on Friday 5 to 1, and Brown on Saturday 9 to 0. Their whitewash of the Brown team was the worst defeat the Brunonians have tasted since tennis was started at the Providence college. Brown was able to capture only two sets from the Tech players, most of the sets being taken with the loss of a game or two.

Since the Brown match was played with a six man team, two new faces were seen on the Tech team. Eddy and Peterson, the new comers, both gave a very excellent account of themselves in the singles and doubles. Eddy played in several of the matches last season, while Peterson is a newcomer to the squad. Eddy defeated Marten 6-2, 8-6, and Peterson won his singles 6-2, 6-0.

The remainder of the matches were captured easily by the Engineers. Captain Russell started slowly against Marinsky, and lost the first set 7-5. He steadied in the last two sets and walked away with them easily, Marinsky being helpless before his clever placements. Broadhurst, playing in the second singles chased Wright of the Brunonians all over the court, and won easily at 6-1, 6-1.

Ernie Hinck, playing third singles for the first time, toyed with Richards, and

INVESTIGATION INTO DORM FRAUD DELAYED

To Sift Charges of Dishonesty
In Dormitory Elections

Investigation of the alleged fraud in the dormitory elections last week has not yet been started by the Executive Committee of the Institute Committee. At the Institute Committee meeting Thursday evening, the Executive Committee was authorized to run down the report that stuffing of the ballot box and other irregularities took place.

A man from each hall of the dormitories was elected as Hall Chairman after nominations for that office had been made by resident Seniors. All elections were satisfactory with the exception of the Class of 1893 dormitory. The committee in charge of elections announced that G. S. Killam '26 would be the next Hall Chairman from that hall, but several dormitory men felt that W. H. Latham '26 had received the larger number of votes. Accordingly, they requested an investigation.

Those making the charges point to the fact that the committee in charge had not made public the numerical results of the election, and they interpret this as irregular. Until the Executive Committee sifts the charges of fraud, it will be impossible to tell just how much of the current rumor is based upon fact.

Schedule Many Events For Senior Week

- Thursday, June 11
Class Dinner, main hall of Walker, evening.
- Friday, June 12
Pops Concert at Symphony Hall, evening.
- Saturday, June 13
Class Picnic at Pemberton, all day.
- Sunday, June 14
Commencement Sermon, afternoon.
- Monday, June 15
Day and tea dance, Walker, afternoon.
- Tuesday, June 16
Commencement Exercises, Walker, evening.
- Promenade, Walker, evening.

CORPORATION XV WILL PAY DIVIDENDS TODAY

Corporation XV's Board of Directors meeting last Friday, voted to declare a dividend of 25 cents per share to all stockholders in good standing as recorded on May 1, 1925. Payment will be made by the Treasurer, W. L. Nye, in 1-180 today from 12 to 5.

According to the Publicity Manager, members and their friends are assured of a very pleasant evening at the Annual Stockholders' Banquet to be held at Riverbank Court tonight. The speaker, J. P. Munroe, Secretary of the Corporation, "has a treat in store" for those who are privileged to hear him. Tickets for the banquet, which is to be informal, may be obtained from the officers of the Corporation at \$2.00 a piece.

A. A. TO HOLD ITS ANNUAL BANQUET

Principle Speaker of Evening
Will Be Captain Creed,
B.S.L. President

Captain P. C. Creed, president of the Boston Sportsmanship League, will be the principle speaker at the next annual banquet of the Athletic Association which will take place on Wednesday, May 13, at 6:30 in North Hall, Walker. Dr. J. A. Rockwell, chairman of the advisory council of the Association, will preside. There will be one other speaker to take the place of Mr. Prout, president of the Amateur Athletic Union, who is unable to attend.

Several members of the Faculty, including President Stratton and Dean Talbot '85, are expected to be present. At this time the winners of the various athletic contests and members of the athletic teams of the Institute, except the spring sports teams, will be presented with the letters and numerals which they have won. There will also be the awarding of 10 cups to the high point winners of the various events in the handicap track meets which have been held this spring, and cups to the winners of the interclass track meet and of the interfraternity relay race. Men who have broken track records will be presented with cups and medals and the high score man of boxing will receive an award.

Dr. Rowe '01, secretary of the advisory council of the Athletic Association, will present the awards and cups and K. S. Lord '26, president of the Association, will present the numerals. Any student at the Institute may attend the banquet. A fine menu and an interesting program is being prepared. The dinner will cost \$1.50 per plate. L. K. Gentry '27 is in charge of the tickets which may be secured from any sports manager or at the A. A. office.

Describes Institute as "A Factory Attempting Roman in a Derby Hat"

Technology Buildings Severely
Criticized by "The
New Student"

"A factory attempting the Roman in a derby hat." Such is the description of the architecture of the educational buildings of Technology as given in an article written for "The New Student" of Saturday April 25, and entitled "The Art of Technology: Ossified at Birth."

The article reads as follows:—
"As will be seen by a comparison of the pictures above, The Massachusetts Institute of Technology in character is most like a factory, with the facade of a bank, as these facades exist by the thousands in front of branch banks everywhere. And the perfectly standardized concrete factory, as this cousin clearly shows, though it be a cube compound of monotypical cells, can stand in decent dignity: the dignity of Technology, just below the point of fusion with joy and art through the full imaginative powers of man.

"What, then, of the Institute building to the left? Here is a factory also, with its long monotonous row of windows and—no doubt its interior efficiency, ventilation, light, and all of that. But this is a pretentious factory, which, so the books says, is "classical Roman, laid out in the French manner. Observe the result. A factory attempting the Roman in a derby hat. A picket-fence palace. A hair-

ANNOUNCE PLANS FOR SENIOR WEEK EVENTS IN JUNE

Many Festivities Will Crowd
The Six Days of the
Celebration

PICNIC TO BE BIG EVENT

Plans for Senior Week have been virtually completed and only a few minor points remain to be settled. Coincident with this comes the announcement that the sign-ups campaign for blanket tickets will open on Monday May 11, to continue throughout the week.

The ticket booth in the main lobby will be open every day during the week from 11 to 2 for the sale of the sign-ups. They may also be purchased from members of the committee in the different courses. The price of the sign-up is set at \$4 with the redemption price \$12, this including the ticket to the Senior Prom, and in case a ticket to the Prom is not desired the redemption price will be \$4. Signups will be redeemed during the week of May 30-June 5.

Class Dinner Held in Walker

Blanket tickets admit the holder to all of the exercises of Senior Week without an additional payment of any sort. They will be issued with or without the Prom ticket but no other combination is possible. The blanket ticket will save the purchaser either \$2.50 or \$4.50 depending upon whether he goes to the Prom or not, since tickets for the various exercises purchased separately will be higher than if bought on the blanket ticket form.

The various committees in charge of the exercises have announced the plans for their particular events. The Class Dinner will be held in Walker and promises to be an excellent affair. The speeches will be made short and to the point, and there will be several forms of entertainment during the dinner.

Pops will be held in conjunction with the Alumni Association. All but two hundred separate seats on the main floor are reserved for the alumni. Ladies and their escorts will be allowed on the first balcony where seats are reserved for the Seniors and their friends, the rest of the house being open to all others.

The picnic appears to exert the greatest appeal. The committee in charge of this event has planned a full day beginning with the assembling in the Great Court at 8.30, followed by the trip to the wharf in the oldest cars the Boston Elevated can secure. Although a permit for a parade has not as yet been secured, there will, in all probability, be one of some nature. Departure from Rows Wharf is at 10.15. At Pemberton there will be numerous events to pass away the time, including

HARVARD ROWS TO VICTORY IN VARSITY RACE AS PENN SNAPS OARLOCK-TECH THIRD

Crew Rally Attracts
Large Crowd Saturday

More than 300 students at the Institute assembled on the steps of Building 10 Saturday morning at a mass meeting to give an exhibition of spirit and support for the engineer crews before they faced the visiting eights in the quadrangular meet on the Charles in the afternoon. The meeting was held under the auspices of the Calumet Club.

Short talks were given by K. S. Lord '26, President of the M. I. T. A. A.; Dean H. P. Talbot '85; and the captains of the Varsity, Junior Varsity, and freshman crews. Coach Bill Haines, although scheduled to appear, was delayed and did not arrive in time for the rally.

SCENARIO WRITERS TO MEET THURSDAY

Tech Show 1926 Issues Call for
All Book, Music, and
Lyric Writers

Tech Show management has announced that there will be an informal meeting of all men interested in writing the book, music, or lyrics of Tech Show 1926, in the Alumni Room, Walker, on Thursday at 5 o'clock. The coming production will be the twenty-eighth annual Tech Show, and the present managing board is anxious to start work on the book and music at once, in order that there be adequate time in the fall to make the show "the best ever."

Among the speakers who will address prospective writers at this meeting are Professor R. E. Rogers, of the Department of English, E. F. Hodgins '24, Managing Editor of the Technology Review, and H. B. Huntoon '26, one of the music and lyric writers of Tech Show 1925.

Professor Rogers who is considered an authority on drama and the stage, has always been interested in the show ever since he became associated with the Institute. Hodgins was the author of the 1922 Tech Show, "The Wrong Steer." These men will speak to those at the meeting on the type of scenario desirable for a Tech Show, give points on the writing of the book, and answer any questions pertaining to the book.

According to the management, no previous experience in scenario writing is necessary, provided one has original ideas for a plot and the ability to put these in writing. Professor Rogers and Mr. Hodgins will always be at the service of men seeking any advice on writing. In previous years, the former has read all books submitted, offered criticism on possible improvement, and selected the best and most adaptable three, after which the managing board has chosen the winning play. It is expected that all books will be called for during the first week of next term.

ALL STUDENTS INVITED TO ORDINANCE SMOKER

All students at Technology are invited to attend the Army Ordnance Canteen, which will be held in the Main Hall at Walker tomorrow evening at 8 o'clock. No admission will be charged, the entire program, which will include movies, refreshments, and stunts, being entirely free of charge.

Among the features scheduled for the evening will be a talk by Lieutenant Van Giesson, Ordnance Officer at the Institute, who will deliver a short talk on tanks. The films will include a Charlie Chaplin Comedy and moving pictures of the Army Ordnance Camp. "Shoulder Arms," a specialty act, will be among the stunts as well as exhibitions of sleight of hand. Election of officers for the following year will also take place. Refreshments will be served during the evening.

QUAKERS SUPREME IN FRESHMAN AND JUNIOR CONTESTS

Pennsylvania and Harvard Crews
Stage Real Battle in
Every Race

TECH THIRD IN ALL EVENTS

Determined efforts of seven University of Pennsylvania oarsmen to pull victory out of the fire after their number six had broke an oar, failed when an equally determined Harvard eight swept to victory in the banner race of Saturday's regatta. The Crimson, by a furious spurt in the last eighth mile of the 1 3/4 mile event, rocketed over the line a winner by three lengths, with Tech a close third and the Cornell shell bringing up in the ruck. Penn swept the field in the freshman and Junior Varsity events, with Harvard a good second, Tech third and Cornell finishing many lengths behind in both events.

Thrills and a splendid fighting spirit stood out in the Varsity encounter. A pall hung over the course as dusk fell for the opening scene. The lights flickered merrily in the inky waters of the Charles as the heavy crews shot off in to the race. All four shells went into the stretch on even terms, with a straight line joining the prows of the shells at the first flag. For fully an eighth mile more, there was little advantage for any

COLLOIDAL CHEMISTRY EXPERT SPEAKS AGAIN

In his second lecture, last Friday afternoon, Professor Herbert Freundlich of the Kaiser Wilhelm Institute of Berlin, took up the subject of "The Rate of Coagulation" before a large assemblage of faculty and students. The lecturer is considered one of the world's foremost authorities on colloidal chemistry, and spoke at a meeting of the Northeastern Section of the American Chemical Society last Friday evening.

Professor Freundlich first took up the rates of quick coagulation and developed formulae in connection with them. The theory of Smoluchowski was explained and its agreement with experiment discussed. The lecturer now went on to the subject of slow coagulation, which he asserted was more complex, and pointed out the effects of concentration and stirring on the rate. Equations were presented and formulae derived for this slower rate of coagulation. The influence of electric potential and of an electrolyte on the rate was also mentioned.

MEMBERS OF CHEMICAL SOCIETY VOTE FRIDAY

Election of officers of the Chemical Society for the coming year will be held next Friday. Nominations are due in the Combined Professional Society's office by 5 o'clock tomorrow. The elections will be announced at the society's annual banquet which will be held the latter part of next week, the exact date not having been decided as yet.

CALENDAR

- Monday, May 11
3:00—Ship operating lecture in room 3-270.
4:00-5:00—Recital on Duo-Art piano by Mr. Roberts in room 2-270.
- Tuesday, May 12
6:30—Corporation XV banquet in River Bank Court Hotel.
8:00—Army ordinance canteen in main hall, Walker.
- Wednesday, May 13
9:00-5:00—Elections of Catholic Club. Ballot box in main lobby.
2:00—E.E. Society trip to Weymouth. Busses leave in front of Great Court.
6:30—Annual Insignia Award Dinner of M.I.T.A.A. in north hall, Walker.

ANOTHER SUGGESTION TO THE A. A.

"SAY, what is the score?" "I was there, but I can't tell you. Sorry." The above remarks are typical of athletic events around Technology, that is, the obtaining of immediate information concerning the outcome of these events.

Score boards are vital to track, baseball, and similar sports. Without them the spectator who is not in the field or who is not closely acquainted with the competitors has no opportunity to get into the spirit of the contests.

The crew regatta Saturday was an illustration of this point. The signal letters on Harvard bridge and the raising of pennants in the referee's boat were of great value to the spectators and a consideration that is due them in other races.

This improper attention to the publicity of results is one of the items that is responsible for the listless attitude of onlookers at the contests held here. The necessity of obtaining a crowd and giving that crowd the proper amount of consideration has been to an extent ignored.

DAWN IN RUSSIA

THE news has come from Russia that the Soviet government has decided to return industry and business to the private owners. This is without a doubt the most hopeful situation for Russia which has come to light in many years.

INTERNATIONAL CONFIDENCE

IT is the incessant bickering due to mutual mistrust between nations that causes war, according to Aloysius B. Houghton, United States Ambassador to England, and formerly ambassador to Germany, in a speech made in England the other day before diplomatic representatives of most of the larger nations.

His speech condenses into a nutshell the one outstanding fault in the world today, the lack of faith of nations in each other. Unless mutual confidence can be increased, the world is on the downward path.

In these days, national boundaries are in many ways losing much of their significance. The great internationalizing influence of money, which goes where it can get the best returns, makes it absolutely essential that the discord which causes war be eliminated.

Most Popular Confectionery and Tobaccos Among Technology Men

Strange as it may seem a highly complex group of engineers having the greatest variety of diverse ideas, likes, and dislikes, have very similar tastes in smokes and sweets. In a recent survey at Technology in which the stands at Eddie Pung's and other nearby caterers to the tastes of Technology men were used as a base, it was found that Lucky Strike cigarettes were smoked by the majority of the engineers.

Mechanical engineers may be brilliant but at least one of them should go back to his kindergarten days. Hark ye: The other day in the machine tool lab, one misled chap found that he had miscalculated in making a gear, and had more than enough space left for the final tooth.

Remember that little story about the fewer and better co-eds or whatever that petition was? One of our up-to-the-minute female students has just come to, and denied emphatically to the Lounge that she did not start said petition for publicity! Speedy reaction!

The other day the Lounge came across a picture that very much resembled the Institute save that the Great Court was a beautiful expanse of water surrounded by glorious foliage.

THE OPEN FORUM

To the Editor of THE TECH: Dear Sir:—

A friend has called my attention to a grievous breach of manners on my part and I beg to apologize to you accordingly. It was unpardonable for me to write you a long letter of criticism with no word of appreciation for your interest in affairs national and international.

My objection to your editorial "Pacifists and Ostriches" you will remember was that it spoke dogmatically where knowledge does not warrant dogmatism. As I believe that the American institutions that we rightly prize are menaced above all by the dangers of prejudice and intolerance I was moved to protest.

"Our ancestors have bred pugnacity into our bone and marrow, and thousands of years of peace won't breed it out of us—the fatalistic view of the war function is to me nonsense, for I know that war making is due to definite motives and subject to prudential checks and reasonable criticisms just like any other form of enterprise."

"The emulative impulse tends to assert itself in an ever widening sphere of social life, encroaching more and more upon the sphere of the combative impulse and supplanting it more and more as a prime mover of both individuals and societies.—There are unmistakable signs that the pugnacity of nations is being supplanted by emulation, that warfare is being replaced by industrial and intellectual rivalry."

"Men have always fought and always will fight for the same reason; jealousy, pride, anger, love, hate—all the primordial instincts have stood unchanged through the ages."—THE TECH Editorial of May 1, "Pacifists and Ostriches." (Signed) Hale Sutherland '11.

The report on the use of cigars seemed to show that the slipstick and a cigar would not agree in the same pocket, or probably that the "sweet weed" would not be smoked with ease in the short time between classes, for a cigar is very seldom sold to a Tech man. As to pipe tobacco Edgeworth seems to be the most popular with no other rival close on its heels.

When confections came into consideration, "Hoodsies" took first place without doubt. When one considers all the "Hoodsie" containers that were melted out of the snow last spring this must be an established fact without much deliberation.

When confections came into consideration, "Hoodsies" took first place without doubt. When one considers all the "Hoodsie" containers that were melted out of the snow last spring this must be an established fact without much deliberation.

Shepard's Father Held Presidency Of His Own Class

Class of 1926 President's Father Was President of the Class of 1887

When D. A. Shepard '26 was unanimously elected president of next year's Senior class he attained an honor which had been given his father just thirty-nine years before.

F. E. Shepard, while he held the office of president of his class, was also Major of the Cadet Battalion which was an important feature of the older Technology. When he graduated from Course II he first worked for the Baldwin Locomotive Works as a lathe operator, after which he became a government ship-boiler inspector in Boston Harbor.

Shepard has always kept in close touch with the Institute. While out West, he was on the Executive Committee of the Rocky Mountain Tech Club, and he helped raise the four million dollar fund from which the Institute was built.

INTERCOLLEGIATE NEWS

Rensselaer Polytechnic Institute is contemplating a change in its present Alma Mater. The present song is essentially a toast to R. P. I. and the engineers cannot conceive of such an Alma Mater under the present conditions.

President J. C. Buchanan of the University of Oklahoma declares that the majority of cases of poor scholarship and unsatisfactory conduct at college are due to too much money in the student's hands and their access to automobiles.

The tender toes of the Rutgers students have been trodden upon by the faculty and they have responded with a mass meeting which adopted a resolution to petition the College Board of Trustees to relieve Professor H. N. Lendall, as dean, because he is not in sympathy with the students.

The entire misunderstanding between the two parties was originated by the action of the dean to penalize the students for holding an Easter dance which was supposed to be against the ruling of the faculty.

Play Directory

COLONIAL: "Topsy and Eva." Starring the Duncan sisters. Excellent show. COPLEY: "Seven Keys to Baldpate." A most entertaining play. PLYMOUTH: "Badges." A fine travesty on mystery plays. See it. ST. JAMES: "Full House." A comedy of exchanged jewels and letters. SELWYN: "The Privateer." Comic Opera of Albany in bygone days. SHUBERT: "Rose Marie." See it if you can manage to get tickets. TREMONT: "No. No, Nanette." Makes one cry with laughter. WILBUR: "Baby Blue." A pretty and clever little show.

The faculties of many colleges are already being convinced that good scholastic standing in class work should be given proper respect. Thus in the University of North Carolina fifty Juniors and Seniors were given the privilege of optional class attendance during the spring term because they maintained an average of 85 per cent during the fall term.

PRIZES OFFERED FOR WORKING EXPERIENCE

"The Nation," a current news magazine, is offering a prize of \$125 for the best essay describing a student's actual experience with labor and capital. The contest is open to all undergraduates who are at present enrolled at some college; contestants must have worked at least two months of the summer of 1925, the manuscripts cannot be over 4000 words long, and must be handed in before October 15, 1925.

HARVARD SWAMPS TECH IN TRACK MEET SATURDAY

Beavers Defeat Newton A. C. and Lose to Providence in Week End Games

Harvard Men Lower Three Records—Take Thirteen of Fifteen First Places

Leness Runs Great Race Against Watters in Half Mile Event—Sanford Takes First in Pole Vault

Winning 13 of the 15 first places and cleaning up more than two thirds of the points in every event, the Harvard track team overwhelmingly defeated the Technology squad in their annual dual meet on Soldiers Field by the lop-sided score of 168 9-10 to 56 1-10. Hank Steinbrenner was the high point scorer for Tech, winning a first in the low hurdles and a second over the high barriers for a total of nine points.

880 Record Broken
By far the best contest of the day was in the 880 when George Leness barely lost out to John N. Watters, Harvard's Olympic star, by one foot. It started out to be George's race but Watters' experience, more than any other factor, caused the victory to be literally snatched out of the hands of the Engineer. At the start of the gun Leness took the lead with Watters right at his heels, allowing the broad shouldered Engineer to act as his "wind-shield." At the end of the first quarter Leness was clocked in 56 flat which proved that the runners were making good time in the face of a stiff breeze that was blowing diagonally across the stadium.

On the back stretch Watters passed Leness after a brief duel and the latter then endeavored to pass the Crimson runner around the curve, running very wide while doing this and wasting much energy which decidedly influenced the outcome. It was a tight race. A heart-breaking fight down the homestretch with Leness greatly weakened by his attempts to pass the Harvard man around the bend. Almost shoulder to shoulder they fought until Watters broke the tape about a foot in front of the Cardinal and Gray runner, smashing the dual record of Im. 57 4-5s. by four fifths of a second—a true testimonial of the struggle that took place between the two champions.

Henry Steinbrenner was supreme in winning the low hurdles in the exceptional time of 26s. flat. He was opposed by Harvard's best in this event, including J. Fletcher, F. Kane and L. Robb, who got second, third and fourth places respectively. His performance was very creditable in the high hurdles in which he won second place to J. Fletcher who is reputed to be one of the finest hurdlers to represent the Crimson in recent years.

The Harvard sprinters were successful in cleaning out all the Tech 100-yard runners in the trials, excepting L. B. Copley, who whirled through in a remarkable finish in the final heat to snatch third place from Chase of the Crimson forces.

Sweep Distance Runs
Al Kauzman and Doug Jeppe were the Tech representatives in the final heat of the furlong, opposed by four Harvard runners. Lundell led the field down the stretch with Kauzman a close second and Bob Allen of Harvard running third. Kauzman ran very powerfully but was nosed out of second position by Allan, with Broome of Harvard fourth and Jeppe of Tech fifth.

The first three places in both the one mile and two mile runs were easily taken by Harvard with no competition from the Engineers. Bemis came in third in the longer run followed closely by his team-mate Bragg, while in the one mile K. A. Smith and R. Butler finished fourth and fifth respectively for Tech.

Drew Loses Hammer Throw
Major Sanford in winning the pole vault tied the dual record for this event when he cleared the bar at 11ft. 6in. Although he won with no competition from the Crimson vaulters, four Harvard men were successful in cleaning up the rest of the places.

All expectations were overthrown when Captain Chink Drew fouled four of his six trials in the hammer throw and was only able to save a third place from the wreck, with a distance of 129 feet. First place was conceded to him by all the dopsters and it was very surprising to the spectators when his final distance was announced. Glantzberg in winning fourth place did well with a heave of 127ft. 8in.

Captain Drew redeemed himself in the high jump when he tied for second place with H. Secrist at 5ft. 8 1-2 in. Blackie Jones of Harvard broke the dual record with a leap of 5 ft. 10 1-2 in., that was formerly held by R. S. Greenough of Tech.

Saul Brodsky outdid all his previous

CRIMSON FROSH BURY TECH '28

Chute Breaks Freshman Mile Record in Thrilling Contest

The Technology freshman track team was easily defeated by the Harvard yearlings by the score of 95 1-2 to 30 1-2 in a dual meet held on Soldiers Field inconjunction with the Varsity meet.

Both sprints were won very handily by Howard Burns of Harvard, while G. V. Miller of the Tech frosh could noly get a third in these dashes.

Cy Meagher was more successful in the quarter-mile though he was thrown off his stride several times by Harvard runners. Dick of M. I. T. was beaten out for third place by Peet of the Crimson. Kirwin trailed Al O'Neil of Harvard the whole distance in the 880, and was defeated by 10 yards. The winners time of 2 min. 1 2-5 sec., was an unusual performance for a freshman.

The victory of Captain Eddie Chute featured the mile run. Chute followed closely behind Luttmann of Harvard until the homestretch was reached, and in a very brilliant finish he defeated his rival by 15 yards. Chute's time of 4 min., 36 1-5 sec., officially breaks the existing Institute freshman record held by G. H. Reynolds '26 by one-fifth of a second.

V. Farwell came within 1-3 of an inch of the freshman record when he leaped 5 ft., 8 in., to win first place for Tech.

The outstanding star of the meet was C. A. Pratt of the Harvard first year men, as he won a total of four first places in the field events cleaning up in the shotput, discus, hammer, and javelin.

The summary:
One hundred-yard dash—Won by H. Burns (H); second, J. Crosby (H); third, G. Miller (T). Time 10 2-5s.

Two hundred and twenty-yard dash—Won by H. Burns (H); second, L. Brayton (H); third, G. Miller (T). Time—23 1-5s.

Four hundred and forty-yard run—Won by C. Meagher (T); second, R. Dunn (H); third, W. Peet (H). Time—2m. 1 2-5s.

Eight hundred and eighty-yard run—Won by A. O'Neil (H); second, P. Kirwin (T); third, R. Ryan (H). Time—2m. 1 2-5s.

Mile run—Won by E. Chute (T); second, R. Luttmann (H); third, Bennett (T). Time—4m. 36 1-5s.

GOLF TEAM HAS EASY WIN FROM BROWN 6-0

Playing its third match of the year, the Technology golf team whitewashed Brown University on the Hatherly course at Scituate last Saturday by the score of 6-0.

Ralph W. Head, Captain of the Tech team, made the best individual score of the day while defeating Oxnard of Brown 6 up. Horton was the only player to give the Engineers any reasonable competition, drawing out his match with Johnson of M. I. T. to the nineteenth hole, but there he lost out.

The golf team has already defeated B. U., but in their match with Harvard they lost 6-0. They play Holy Cross Wednesday and journey to Amherst next Saturday. Easy victories are expected in both matches.

Summary:
Head (M. I. T.) defeated Oxnard (Brown) 6-4.

Edmonds (M.I.T.), defeated Heall (Brown) 4-3.

Johnson (M.I.T.) defeated Horton (Brown) One up nineteen.

Elkins (M. I. T.) defeated Guyler (Brown), 4-3.

Head and Edmonds defeated Oxnard and Heall, 4-3.

Johnson and Elkins defeated Guyler and Horton, 2-1.

HARVARD VICTORS IN VARSITY RACE

Penn Takes Frosh Event with Ease—Tech Yearlings Finish Third

(Continued from Page 1)

of the crews, but driving power began to assert its superiority over grim fighting spirit and the giants of Harvard and Penn left the lighter Tech and Cornell eights in the van.

A merry tussle waged between the two pairs of crews, Harvard fighting it out with Penn for the lead, while several lengths back Tech and Cornell stroked along on eve terms. At the mile mark fate intervened to turn the tide against the Red and Black cohorts. In pulling back on a long stroke, Reeves, number 6 in the shell, snapped an oarlock, putting him out of the race as an active member. Reeves threw the oar into the sea and swayed back and forth with the pacings of the coxswain in order to keep the motion of the skiff.

Seven valiant teammates increased their vigor, but it was without avail.

Eight powerful Crimson oars were more than a match for the crippled Penn crew and at the last stage of the race sprinted furiously. Fully three lengths of shimmering water separated the two shells as they drifted across the finish. The Engineers, who had made a splendid fight for second place were forced to accept third honors. There was less than a boat length between the shell of the Pennsylvanians and that of the game Tech eight. Cornell was hopelessly out of the running and finished a length to the rear of the Cardinal and Gray boat. It was a heart breaking race for the Penn crew to lose as they had made a wonderful showing in the three events. Tech was handicapped by light crews, but made their presence known during the entire regatta.

After three hours of postponements, due to the numerous squalls that churned the waters of the Charles into a turbulent sea, the wind died down enough to allow the running of the first race. The frosh pushed off at 7 o'clock, the engineer yearlings jumping to a slight lead at the gun. The first half mile was a close affair with little to choose between the contestants. At this point, however, the stalwarts of Pennsylvania pulled away to a good length lead with Harvard tagging on their heels.

Team Shows Up Well Against Former College Stars Friday

Beavers Hit Well on Friday But Lose Eye Against Providence

Beavers Hit Well on Friday But Lose Eye Against Providence

A close and fast game was staged between the Beavers and the Newton A. C. at Newton on Friday afternoon, with the Beavers coming out victors by a 6-4 score. The Newton team was made up of former college and prep school stars, headed by George Owen, Harvard '23. They played a fine brand of ball, but Ingram held the game well in hand, and the Tech players found Lyon often enough to pull out a victory. Lyon is a former Dartmouth player, '23, and pitched good ball, but the Beavers seemed to have their batting eyes with them, and got a number of hits. Captain Merewether crashed a three bagger into the garden, in the sixth inning, and came in a minute later, breaking the tie which had held from the fourth inning. Bill Robinson tallied soon after, making the final score 6-4.

PROVIDENCE

A wild and error-filled first inning wrecked the Beaver's chances of a comeback against Providence college in revenge for the 5 inning defeat of the previous Saturday. Frank Rhinehart, who was again on the mound as in the previous games, was taken out at the end of the first inning after four runs had passed the plate. Two more were added to these before the end of the game, while the Beavers failed to advance a man past second base. Canfield replaced Rhinehart in the second, and pitched a fine game, but the damage was done.

The first man up for Providence got on base on a fielder's error. The next man

hit safely, and the man on first passed second and was on his way down to third when the fielder let loose a wild throw which went over Bill Robinson's head. The runner rounded third and came in with the first tally. Rhinehart went to work on the next man and struck him out quickly. The next man doubled, and was brought in when the next batter singled and went down to second on a

LAST DAY IN ENDOWMENT CAMPAIGN

NUMBER HAVING SUBSCRIBED LESS THAN 45 PERCENT

Committee Chairman Declares Results Show Poor Class Spirit

ONLY 280 POLICIES TAKEN

It has been decided by the Senior Endowment Fund Committee to extend the subscription drive through today because of the very disappointing results. Two hundred and eighty men have signed their policies out of a class of about 630, amounting to only a little over 44 per cent.

Last year the Class of 1924 signed up 440 policies, totaling \$115,000 with more than three-quarters of the class subscribing to the fund, and the year before 65 per cent of the Class of 1923 took out policies insuring to the Institute a gift of approximately \$110,000. However, the 280 policies taken out so far during this campaign amount to only \$70,000.

R. A. Mitchell '25, chairman of the Endowment Fund Committee, declares himself thoroughly dissatisfied with the way the Seniors have responded to the Endowment Fund. He declares, "It is evident that the Class of 1925 is showing an unprecedented lack of interest in the drive. In view of the fact that the Endowment Fund plan was approved by the class by a vote of more than two to one, the class cannot afford to be conspicuous among the other classes by the small size of its fund."

A Question of Class Spirit

"There are very few men who actually have any conscientious arguments against the insurance policy plan, as evidenced by the men we have interviewed, and by the vote at the recent referendum. Although only one-quarter of the class voted in the latter, the overwhelming sentiment in favor of the plan shows that there was no real opposition to it."

"It is, obviously, a question of class spirit. That the Class of 1925 should be so far behind the other classes that have established endowment funds, is certainly no record to be proud of. At the class reunion 25 years hence it will be a great regret to those who did not subscribe, when they see a few men carrying through a duty that should be borne by all."

May Pay All at Once

The headquarters of the committee and the Aetna representatives in the Hexalpha Room, 10-203, will be open from 9 to 5 today, and possibly tomorrow morning. Mr. H. U. Camp '18, of the Aetna Company will be glad to answer fully any question regarding the insurance policies.

Any man who desires to dispose of the matter of paying the yearly premiums may entirely discharge the obligation immediately by paying down approximately \$127 as the first and only premium. The regular policy calls for a first payment of \$10 and then annual payments for 24 years of \$8.88, plus or minus a few cents depending on the age of the applicant. The first premium of \$10 may be subtracted from the laboratory deposit by signing a draft on the Bursar enclosed with each policy blank.

Men who entered the Institute with the Class of 1925 are expected to subscribe to the 1925 Fund, instead of to next year's fund. A considerable number of these men have already taken out policies with the present Senior Class.

(Continued from Page 3)

pitcher's error. The batter also scored on a single, making four runs for Providence in the brief space of an inning. The Beavers didn't make very much noise in their turn at bat, going out in order. Cotter was thrown out at first, Robinson struck out, and Merewether hit a pop fly to the catcher.

Cannfield started off well, striking out the first man to face him. The next went out on an infield hit, and the third struck out. The Tech team still could not find the ball, and failed to get on base in their half.

ANNOUNCE PLANS FOR SENIOR WEEK IN JUNE

(Continued from Page 1)

the usual greased pig not to mention water sports and obstacle races of various natures. Appropriate prizes will be awarded the winners in the various events as well as to the King of the Carnival, the Best Dressed Man, and others. A good luncheon has been arranged for and this day promises to be the best of the week.

Class Day exercises will consist of a short address by Professor Miller, the presentation of the Endowment Fund to the Institute, followed by an entertainment, the nature of which the committee does not care to divulge at present inasmuch as it won its own prize for the only suggestion. The Tea Dance will follow as soon as the Main Hall can be cleared of the chairs.

On Tuesday the entire class will assemble in the main hall, Walker, for the distribution of degrees and the awarding of commissions. Invitations will be distributed at a date to be announced later and the number per man will be limited. The Senior Prom will be held in the evening, and supper will be served on the outside balconies which will be covered by awnings. Tickets for the Prom will be \$8 if bought on the blanket ticket and \$10 if bought separately.

The chairman in charge of the various committees are:—Senior Week Committee, G. C. Caine; General Committee, Scott Emerson; Pops Concert, J. F. McIndoe; Picnic, D. H. Keck; Baccalaureate Sermon, F. W. Greer; Class Day, W. W. Northrup; Tea Dance, J. H. Hooks; Prom, H. C. Hoar.

TENNIS TEAM BLANKS BROWN SATURDAY, 9-0

(Continued from Page 1)

went through the match quickly without dropping a game. His forehand swooping across the net gave Richards no time to steady himself for a return, causing error after error. Peck also had no trouble in winning his match against Nelson, winning with the loss of only three games.

Against the Eagles on Friday, the team had little trouble, winning their matches with comparative ease. A shift in the B. C. order, putting Peck against one of their best men gave them the only score of the day. Russell had no trouble in disposing of O'Neil 6-2, 6-1. Lyons' defeat of Peck was the only notable feature of the afternoon. Lyons, ranking much higher than the position he played defeated Peck in a hard, closely fought three set match, for the Eagles only win of the afternoon.

WIN FOR HARVARD AS PENN OARLOCK SNAPS

(Continued from Page 3)

A stretch of open water separated the leading crews from the shells of Tech and Cornell at the mile mark. The Red and Black oarsmen were shooting their way to the fore, while Harvard took their spray at every stroke. The finish found the Quakers sprinting with fervor, fully a length intervening between their shell and the skiff of the Crimson. Tech pulled up into third place, two lengths to the rear of the Harvard shell, leaving Cornell to drift across the line five lengths behind.

The Junior Varsity race was little more than a repetition of the opening affair as cloudy skies and a slight wind marked the opening of this event. White caps were breaking on the far side of the course when the four shells left their posts. Again the engineers jumped ahead to a slight lead, followed closely by the eight of the Ithacans. Penn was content to follow the Crimson shell during the early stages of the affair, but at the quarter mile station opened up their offensive. The Philadelphians forged to the front at this point in the race, Harvard pacing their shell and Tech leading Cornell by a small margin.

The mile mark was the scene of a fresh spurt on the part of the Pennsylvania huskies. With each stroke, their shell pulled away from the pack, leaving Harvard behind by a full length and Tech in the rear two lengths behind the Crimson. The end of the race was the climax to a repeated performance, Penn slipping in a winner by two lengths, Harvard coasting into second place, and the Tech Jayvees finishing several lengths ahead of the spent Ithaca oarsmen. The superiority of the Penn crews in the first races was a marked one, there being little doubt at any stage of the races as to their power.

"Class Inertia Cause of Poor Results in Drive"

Bursar H. S. Ford, in a statement last Saturday concerning the poor success of the Senior Endowment Fund campaign declared, "The money factor does not seem to be the disturbing factor since men may have even if their laboratory deposit is less than the \$10, not have to reimburse me till a few hours before graduation."

"There is no general disapproval of the plan among the members of the class, and the insurance policy plan seems to have worked well with the two previous graduating classes. The only thing that remains to be considered is a general inertia on the part of the class itself, an inertia with which this office has not come in actual contact, but which has been referred to by prominent members of the class in connection with the carrying out of several projects during the year."

"Class activities and spirit are something like bond cycles; there are good years and lean years. This year seems to be definitely of the latter kind."

INSTITUTE TO ENTER ORATORIAL CONTEST

Technology will be represented by W. C. Asbury '25 in the New England finals of the National Intercollegiate Oratorical contest which will be held at New Haven on the evening of May 12. Six colleges are entered in the competition and include besides Technology, Yale, Wesleyan, Boston College, St. Michael's College, and Boston University.

One of the six men entered will be chosen to represent New England in the national finals to be held at Los Angeles on June 5, when prizes totaling \$500 will be awarded by the Better America Federation of California, which is sponsoring the contests.

Notices and Announcements

OFFICIAL

PHYSICS SEMINAR

The next meeting of the Physics Seminar will be held in room 4-231 tomorrow at 3. Dr. G. H. Lemaitre will continue his talk on "The Constitution and Equilibrium of Stars."

R. O. T. C. EXAMS

R. O. T. C. Students going to summer camp who have not yet been examined physically must get their doctors to examine them on the War Department form which may be obtained from the Department of Military Science. This must be done at once.

THESES TO BE BLUE PRINTED

All plots and tracings should be drawn on transparent paper or tracing cloth in India ink and anything typewritten should be done with carbon paper placed in back of sheet.

UNDERGRADUATES

ELECTRICAL SOCIETY

The Electrical Engineering Society will take a trip to the Weymouth Station Wednesday afternoon. The trip will be made by buses leaving from in front of the Great Court at 2. Tickets must be secured ahead of time from Stuart John '26 or Joel Tompkins '26, and will cost \$1 round trip. Number taking trip is limited to 40.

MENORAH SOCIETY

The annual elections of officers for the coming year will be held in room 10-275, tomorrow at 5. All members are urged to attend and cast their ballots.

CORPORATION XV DIVIDENDS

Dividends will be paid by the treasurer, W. L. Nye, in room 1-180 from 12 to 5 today.

COULD YOU WRITE A TECH SHOW?

Scenario, music, and lyric writers who would like to attempt a Tech Show are asked to attend a meeting on Thursday, May 14, at 5, in the Alumni Room, Walker. Pointers will be given by Prof. Rogers, Eric Hodgins, and Homer Huntoon.

CHEMICAL SOCIETY

Elections for next year's officers will be held Friday, May 15. All nominations must be in the Combined Professional Society's office by 5, Tuesday, May 12.

TRACK TEAM DEFEATED BY HARVARD SATURDAY

(Continued from Page 3)

performances in both discus and shot put when he earned third in the former with a heave of 116 feet and a similar position in the shot put with a mark of 41 ft. 4 in. Glantzberg scored fourth in the discus and fifth in the shot put, making a total of three events in which he placed.

The summary:

One hundred and twenty-yard high hurdles—Won by J. Fletcher (H); second, H. Steinbrenner (T); third, S. Clarke (H); fourth, K. Smith (H); fifth, H. Ware (T). Time—16s.

One hundred-yard dash—Won by H. B. Peck (H); second, C. Lundell (H); third, L. Copley (T); fourth, W. Chase (H); fifth, G. Barker (H). Time—10 2-5s.

Two hundred and twenty-yard dash—Won by C. Lundell (H); second, R. Allen (H); third, A. Kauzman (T); fourth, J. Broome (H); fifth, D. Jeppe (T). Time—23 1-5s.

Four hundred and forty-yard run—Won by R. Allen (H); second, F. Kane (H); third, J. Maliek (H); fourth, K. Rogers (H); fifth, D. Jeppe (T). Time—51 2-5s.

Eight hundred and eighty-yard run—Won by J. Watters (H); second, G. Leness (T); third, H. Kobes (H); fourth, R. Barker (H); fifth, A. Mercer (T). Time—im. 57s. (new record).

One mile run—Won by E. Haggerty (H); second, W. Chapin (H); third, J. Perkins (H); fourth, K. Smith (T); fifth, H. Butler (T). Time—4m. 30s.

Two-mile run—Won by W. Tibbetts (H); second, B. Cutcheon (H); third, L. Ryan (H); fourth, F. Bemis (T); fifth, L. Bragg (T). Time—9min. 56 3-5s.

Two hundred and twenty-yard low hurdles—Won by H. Steinbrenner (T); second, J. Fletcher (H); third, F. Kane (H); fourth, L. Robb (H); fifth, K. Smith (H). Time—26s.

Shot put—Won by H. Dunker (H); distance 43ft. 5in.; second, J. Potter (H), distance 41ft. 6in.; third, S. Brodsky (T), distance 41ft. 4 1-2in.; fourth, R. Hallowell (H), distance 39ft. 1in.; fifth, R. Glantzberg (T), distance 38ft. 2in.

Pole vault—Won by L. Sanford (H), height 11ft. 6in. (equals record); second, L. Coombs (H), height 11ft.; third, tie between B. Wood (H) and W. Reidy (H), height 10ft. 6in.; fifth,

tie among M. Atwater (H), J. Bunting (H) and E. Gamache (H), height 10ft.

Discus throw—Won by G. Laimbeer (H), distance 125ft. 5in.; second, R. Hallowell (H), distance 123ft.; third, S. Brodsky (T), distance 116ft. 7in.; fourth, F. Glantzberg (T), distance 109ft. 7in.; fifth, H. Dunker (H), distance 100ft. 2in.

High jump—Won by S. JoJnes (H), height 5ft. 10 1-2in. (new record); second, tie between Drew (T) and H. Secrist (H), height 5ft. 8 1-2in.; fourth, tie among J. Durgin (H), J. Greeley (H), C. Jenney (H), D. Moyer (H), and M. Fort (T), height 5ft. 6 1-2in.

Hammer throw—Won by P. Berglund (H), 143ft. 4 1-2in.; second, E. Burks (H), 137ft. 4 1-2in.; second, E. Burks (H), 137ft. 1 1-2in.; third, G. Drew (T), 129ft. 3 1-2in.; fourth, F. Glantzberg (T), 127ft. 8 in.; fifth, B. Kilgour (H), 120 ft. 6 1-4in.

Broad jump—Won by J. Broome (H), 21ft. 5in.; second, H. Secrist (H), 21ft. 3 1-2in.; third, T. Hull (H), 21ft. 1in.; fourth, R. Ballentine (T), 20ft. 9 1-2in.; fifth, E. Holmes (T), 20ft. 6 1-4in.
