

## Freshmen To Battle Tufts On Tech Field Tomorrow

### IS FIRST GAME ON INSTITUTE FIELD FOR THREE YEARS

Coach Will Enter Practically  
Same Team As Played  
St. John's Academy

### SOPHS HAVE GAME TODAY

For the first time in three years, an intercollegiate football game will be held on Tech Field, when the Institute frosh encounter the Tufts freshmen. Never since the Class of 1926 played Brown seconds has a Technology football team met their opponent on the home field, so a banner crowd is expected to view the battle of giants.

With the experience they gained in the game with St. Johns last Saturday carefully stored away, the frosh are expected to give the strong Jumbo frosh a hard battle for the honors. Coach "Buck" Shotts intends to start the same team against Tufts, with the exception of Hamilton who is on the injured list, that started the game against St. John's. This team showed that they have a strong potential scoring power, stronger perhaps than that possessed by the Sophomore team. Errors and a weakness along the line were the outstanding faults of the frosh last week, so Shotts has been working all week to develop the work of the line.

Last night, he spent considerable time on the work of the ends and tackles, not only in ripping openings for the backfield, but also in breaking through and stopping the opposing backfield. Often last week, the frosh backfield men were stopped in their tracks because the line did not hold long enough to give the backfield men enough time to get started. The work that the frosh coaches have been putting in along this line is expected to give the frosh defensive the same strength that they exhibit on the offense.

(Continued on page 4)

## Section Leaders Will Investigate Sophomore Plans

### Freshmen Will Be Excused From Drill Early to Hold Mass Meeting

Among the committees appointed at the meeting of the freshman section leaders held last Wednesday was one known as the "Investigating Committee" whose purpose and personnel are to remain a "dark and deep secret." However the leaders were willing to admit that the committee would not refrain from investigating the advisability of the freshmen en masse attending the Sophomore Banquet in Walker the night before Field Day.

At the same time a Parade Committee consisting of J. T. Myers, D. R. Funk, L. R. Moses, and H. R. Weeds was appointed as well as a Mascot Committee composed of B. Allen, D. W. Richardson, and A. L. Eigenbrot. Cheer leaders will be A. L. Eigenbrot, L. E. Keene, and T. J. Myers.

It was announced at the meeting that arrangements had been consummated with the Military Science Department so that on the Wednesday before Field Day all freshmen will be excused from drill early and, after returning rifles, will march to room 10-250 where a mass meeting will be held. Men enrolled in the freshmen Field Day teams will be excused from drill on this day. Coaches will give short addresses at the meeting and cheers will be practiced so that "contrary to past custom the freshmen will be audible on Field Day."

Tomorrow it is planned to have the Frosh-Tufts game take the part of a big get-together for the freshmen and arouse the spirit which the men are expected by the section leaders to show on Field Day. Attending tomorrow's game, they claim, will afford an excellent opportunity to learn and practice cheers.

### RUSHING PROBLEM UNDER DISCUSSION

#### Conference Names Committee To Draw Up Rushing Regulations

At a meeting of the Interfraternity Conference held last night at the Alpha Tau Omega house on Bay State Road it was definitely decided to take some action to overcome the evils of the present rushing system. A committee consisting of W. W. Tarr '26, S. H. Baylor '26 and J. W. Norris '27, was appointed to draw up a report of regulations to be submitted at the next meeting.

This committee will meet next Thursday and their report will be presented at the next meeting of the conference to be held a week from Thursday at the Phi Sigma Kappa house. It was the almost unanimous sentiment of the delegates that rushing rules be adopted and that one of them should prohibit rushing between September 15 and registration. This would not only relieve the freshmen of the disturbance during examinations but would obviate the necessity of the fraternity men returning so early in the fall.

Other matters brought before the meeting included a discussion of the advisability of holding an interfraternity tea dance December 4. No definite action was taken on this. It was decided to send two delegates to the Interfraternity Undergraduate Council meeting in New York City, November 27 and 28.

### FIRST BRUCE CURRY MEETING IS TONIGHT

#### T. C. A. Is Sending Letters of Invitation to Many Men

Opening the series of Bible Study meetings being given by Bruce Curry under the auspices of the T. C. A. will be the gathering today in St. Paul's Cathedral on Tremont street at 7:20 o'clock. Other meetings will be held tomorrow at 9:30 o'clock and two assemblies on Sunday, one at 9:00 and one at 2:30 o'clock.

Many New England colleges are sending delegates to the meetings, a partial list of the colleges represented including Dartmouth, Worcester, Tech, University of Maine, University of New Hampshire, and Clark. Local institutions participating are Harvard, Boston University and Technology.

F. W. Schreiner '26, manager of Bible Study, T. C. A., is sending letters of invitation to about 1000 men who, by their activity cards, indicated that they were interested in things of a religious nature. This is the first time that the T. C. A. has secured such a speaker, and the organization hopes that a large number of Institute men will take advantage of the opportunity to hear Mr. Curry. Any men who wish to attend are asked to obtain their registration tickets at the T. C. A. office before 3 o'clock today.

Bruce Curry has visited every college of prominence throughout the country within the last two years, and has met thousands of students. He is a real "man," having been half-back at college and a star tennis player. This year he is teaching at Union Seminary, New York, but he is devoting several week ends to visiting various colleges throughout the country. This is the only time that he will visit New England this year.

### COMBINED SOCIETIES SELL SUBSCRIPTIONS

In co-operation with Tech Engineering News, the Combined Professional Societies is today offering subscriptions for the magazine to members of the professional societies at the reduced price of 75 cents. These subscriptions will be sold at a table in the main lobby, and any man not yet a member of a professional society, but desiring to join one, may do so at the same table.

### FRESHMAN RECEPTION TO BE HELD TUESDAY

President S. W. Stratton with Dean and Mrs. H. P. Talbot will receive the members of the freshman class in Walker from 4 to 6 o'clock Tuesday. Each year this opportunity is given the incoming freshman class to meet the heads of the Institute's executive and administrative departments.

Invitations were mailed to all members of the class, but it is barely possible that some freshman has been omitted from the list. Should this be the case, he should not hesitate to attend the reception. Dean Talbot extended a verbal invitation to all freshmen in the physics lecture yesterday. The affair will be held in the Main Hall of Walker, as is the custom with freshman receptions. Dress is of course informal.

### WELDING SOCIETY HOLDS BANQUET

#### Pretty Demonstrator Attracts Crowds of Students To A. E. F. Exhibit

Today is the last day of the annual fall meeting of the American Welding Society being held in buildings 1 and 3.

From 10 until 12 o'clock this morning in room 5-330 there will be a series of short addresses by several authors on the subject of "Selection of Materials for Welding." The feature of this afternoon's program will be a talk on "Manufacture of All Steel Automobile Bodies," by J. W. Meadowcroft, General Supervisor of Welding for the E. J. Budd Manufacturing Company, which will be given from 2 until 4 o'clock in room 10-250, illustrated by moving pictures.

#### Demonstrations Attract Students

Last evening 250 members of the society attended an informal banquet at the Hotel Somerset. Professor E. H. Miller '36, head of the Mechanical Engineering Department, represented the Institute in the absence of President S. W. Stratton. The other speakers of the evening were Mayor Curley, Professor C. A. Adams, Founder of the Society and director of the American Bureau of Welding; Professor Elihu Thomson of the General Electric Company, and non-resident professor of Electrical Engineering at Technology; and Professor A. S. Kinsey of Stevens Institute. The entire program of music and speeches was broadcast from radio station WNAC. After the banquet a party of 250 attended the "Student Prince" now playing at the Shubert.

The demonstrations of welding machines and equipment on the first floors of Buildings 1 and 3 have attracted large numbers of students between classes during the last two days. One exhibit in particular, namely, that of the American Electric (Continued on Page 4)

### SURVEYING CAMP TO OFFER NEW COURSES

#### Camp Technology to Make Study of Earth Movements

Important projects are at present being planned which will affect the work being carried on at Camp Technology, the M. I. T. summer camp at East Machias, Maine. Professor G. L. Hosmer '97 of the Civil Engineering department, announced that facilities for special and research work would probably be increased.

"Plans are being made for extending the Geodetic work now being carried on in the camp, including the introduction of courses in which students may specialize in Geodesy," said Professor Hosmer. "It is hoped that in the future opportunities may be offered for special students to conduct research work along these lines, and it is planned to install special instruments for the study of earth movements."

Camp Technology is situated in an ideal location for field work. It comprises about 850 acres adjoining Gardner's Lake. The buildings are located on a high bluff, and the immediate vicinity is entirely unsettled. The courses of study that have been offered at the camp are Plane Surveying, Geodetic and Topographic Surveying, Railway Field Work and Hydrographic Surveying.

## INSTITUTE COMMITTEE VOTES TO LIMIT DRIVE THIS YEAR —ALL FUNDS FOR T. C. A.

### FIELD DAY TO BE STUDENT POLICED

#### M. I. T. A. A. Announces List Of Officials Selected To Direct Contest

Announcement of the Field Day Officials has just been made by the M. I. T. A. A. The following men have been picked and although all the men have not as yet replied that they would accept, it is doubtful if the list will be changed very much.

The Marshalls are: S. H. Baylor '26, G. E. Faithful '26, W. C. Sessions '26, J. A. Drain, Jr., '26, G. J. Leness '26, F. E. Walsh '26, R. W. Head '26, W. H. Latham '26, M. M. Greer '26, K. S. Lord '26, A. B. Brand '26, W. A. Forrester, Jr., '26, Cedric Valentine '26, W. P. Lowell, Jr., '26.

Ushers: P. C. Eaton '27, Maurice Davier '27, C. G. Davies '27, R. A. Engle '27, L. K. Gentry '27, W. D. Birch '27, D. C. Arnold '27, W. L. Taggart, Jr., '27, Fordyce Coburn '27, and A. M. Norton '27.

Judges of Tug-of-War: J. C. MacKinnon '13, D. L. Rhind, J. R. Lomberth, H. S. Ford, and Professor H. E. Lobdell '17.

Judges of Relay: H. C. Pierce, of Hornblower and Weeks; H. E. Worcester '97, of Revere Sugar Refining Co.; P. C. Thompson, Boston; F. H. Hunter '02, of West Roxbury.

Referee of Relay Race: Professor G. B. Waterhouse.

Judges of Crew: G. S. Frisbee '26 and D. B. King '26.

Clerk of course: J. O. Collins '27.

Timer of Crew Race: William Haines, Crew coach, D. C. Sayre '25

Timer of Relay Race: Dr. J. A. Rockwell '96, Professor George Owen '94, Henry McCarthy, P. D. Sheehane.

Starter: A. M. McMarron, of Johns Manville, Incorporated.

Inspectors: A. S. Brooks '26, Edgar O'Neil '26, L. W. Cummings '26, Martin Walter, Jr., '26, and C. E. Poore '26.

### E. C. M. A. CONFERENCE HELD THIS WEEK END

#### To Discuss Question of Single Advertising Representative

F. C. Wright, editor of the Engineering News Record will be the principal speaker at the banquet of the Engineering College Magazines Associated convention in Ithica, N. Y., this evening. This organization of engineering publications is the guest of Cornell University engineering magazine for today and tomorrow, six delegates representing Tech Engineering News there.

Most of the discussion at the convention will be devoted to subjects common to all of the 21 magazines of the group, and will probably deal largely with the question of opening up the group—that is, deciding whether or not the group will have a single advertising representative. A similar question was fought out two years ago by the A. M. A., as well as by the Eastern Intercollegiate Newspaper Association. T. E. N. has been leading the fight in this direction for the past three years. Several members of the Cornell Faculty will also speak at the Convention.

Of the six delegates from Technology present at the Convention, five men went to Ithica by automobile, and one by train, leaving yesterday noon. The Sibley Journal of Engineering and the Cornell Civil Engineer, the two Cornell Engineering publications, are the hosts of the convention at its fifth meeting. Professor L. F. Van Hagen of the University of Wisconsin is chairman of the Association.

### REFUSE TO PERMIT OTHER GROUPS TO SHARE IN DRIVE

#### Discuss the Advisability of Increasing Student Dues For Athletics

#### \$4,000 MORE ARE NEEDED

Overturning the Combined Drive Committee report featured the regular meeting of the Institute Committee held in Walker last night. After considerable discussion the Committee voted to endorse a drive for the benefit of the T. C. A. only, and not to include three other charities as recommended in the report.

In its report the committee named three organizations which it recommended to be permitted to combine with the T. C. A. drive. These were the Student Friendship Fund, the Red Cross, and the Cambridge Anti-Tuberculosis Association. It was pointed out by J. H. Wills '26, chairman of the sub-committee, that these organizations were deserving of student support, and that it might be well to include outside charities since the one T. C. A. drive was the only drive allowed by the Institute Committee.

In spite of the report the prevailing sentiment stood in favor of a drive with T. C. A. as the sole beneficiary. It was felt that this sort of a drive would be more popular with the students in general, although in the last few years the T. C. A. has cooperated with other activities in soliciting funds. After considerable discussion the Committee decided that the raising of funds by outside charities should be prohibited except by mail.

Another question brought before the meeting was the matter of increasing the undergraduate dues for the benefit of athletics. K. S. Lord '26, president of the M. I. T. A. A. announced that his organization needed \$4,000 more than is available. A portion of this shortage is due to the decreased registration and if the registration continues to shrink it is expected that the shortage will have a serious effect on athletics. Owing to the lack of funds budgets have been returned to the managers to be further reduced.

An estimate of the cost of redeco- (Continued on Page 4)

### DORMITORY TO HOLD HALLOWE'EN DANCE

Next Friday evening from 8 to 12 the first informal dorm dance of the year will be held in Walker Memorial. Coming the night before Hallowe'en the dance will be in the form of a Hallowe'en party.

Many features have been planned by the committee one of which is the releasing of balloons from the balcony. One of these balloons will be labeled "prize" and the couple receiving this one will be given a special gift. The patronesses are Mrs. R. P. Bigelow, Mrs. H. S. Ford and Mrs. L. M. Passano.

Tickets for the dance are \$2.00 a couple and will be on sale every day next week in the main lobby from 12 to 2 o'clock or they may be obtained from any member of the committee. On account of the crowded condition at last year's Hallowe'en dance the committee has decided to issue no stag tickets and to limit the number of tickets sold. Hackets Hotel Touraine Orchestra which played at last year's dance has been engaged to furnish the music.

### CALENDAR

Friday, October 23  
4:00—Chemical Movies, "The Story of Gasoline," in Room 10-250.  
7:30—Civil Engineering Society Smoker, North Hall, Walker.  
8:00—Tech Show Orchestra Rehearsal, East Balcony, Walker.  
9:00—Catholic Club Dance, St. Cecilia's, Belvedere St.  
Friday, October 30  
8:00—Dorm Dance, Main Hall, Walker.

Proof that the Lounger is the most influential candidate now in the field for Mayor is seen in the fact that while Francis Campbell, even by court action, was unable to restrain Jim Curley from using his name on Jim's straw ballot, Curley did not dare to put down the name of the Lounger.

One thing that should certainly help the Lounger in his campaign is that, while every other candidate is inveighing against all the others, no one has yet ventured to attack the integrity of the Lounger. Moreover, he himself is too much of a gentleman to knock his rivals.

No matter the result of the straw ballot, it has certainly given Teddy Glynn a whole lot more publicity than he deserves. In order to make up for it, the Lounger herewith prints a straw ballot of his own.

The Lounger Any Other P. S. Don't bother to send the ballot in. The Lounger has already decided what the result will be.

The Campfire Girls are about to launch an extensive advertising campaign to discourage the use of the word "flapper." Their impression presumably is that the common designation of the modern girl is derogatory.

As We Like It

A typical Sabatini drama, with all of the merits and most of the faults one connects with the name of Sabatini, is "The Carolinian" at the Hollis Street Theatre this week.

As in all melodramas, the acting is of secondary importance, the plot being the primary consideration. In the main the acting is adequate to the part, but none of it stands out as strikingly above the average.

The plot itself is interesting enough, thrilling in spots, but of course rather artificial as all such plays must be. It centers around a young citizen of Charleston who espouses the Revolutionary cause, but who is married to the daughter of an ardent Tory.

As a source of an evening's entertainment, "The Carolinian" admirably fulfills its purpose. As a literary achievement, it is not, esoterically speaking, quite so successful.

Play Directory

- CASTLE SQUARE: "Abie's Irish Rose." All right if you like this sort of thing. COLONIAL: "Ziegfeld Follies."—There will be many sad hearts when this leaves Saturday night. COPLEY: "The Creaking Chair."—One of the best the Players have done in a long time. HOLLIS: "The Carolinian."—Reviewed in this issue. NEW PARK: "The Show Off."—An excellent play—you should see it. MAJESTIC: "Rose Marie."—We are sorry to see this one leaving. PLYMOUTH: "The Gorilla."—We have used up all our pretty speeches but it is still a darn good show. SHUBERT: "The Student Prince."—Excellent music—including the bridegroom, De Wolf Hopper. TREMONT: "Seventh Heaven."—An unusual thing—a funny Apache story. WILBUR: "What Price Glory."—The sort of thing that makes people appreciate the League of Nations.

Veteran Forgemaster Has Taught Three Generations Here

J. R. Lambirth Has Known Every Institute President Since Rogers

The old saying that a man is only as old as he feels is truly exemplified by our veteran foreman, J. R. Lambirth. Mr. Lambirth has been with the Institute for forty-one years and has seen three generations graduate under his tutelage.

When Mr. Lambirth came to the Institute in 1884, the forge equipment consisted of eight forges. These later were increased to thirty-two in number. He is a graduate of the "school of experience."

It is with great pride that Mr. Lambirth shows his letter of recommendation to anyone. It is the letter that got him his position as instructor in the blacksmith shop of the old Institute across the river.

Mr. Lambirth has a hobby of making presents of pieces of fancy iron work to his former students scattered over the globe. He tells of an incident he experienced with a Chinese student when he was presenting the student with a souvenir, which is generally a fork, the handle of which is embellished with various twists.

This veteran of the classroom and shops has shaken hands with every president of the Institute since President Rogers. He has attended Forty Baccalaureate Services, and until two years ago never missed a lecture or shop meeting.

The old gentleman will be seventy-eight years "young" the fourteenth of November. Despite the number of years which he has weathered, his eye is clear, his voice is steady, and he can still do fine writing with his pen.

Mr. Lambirth has one ambition—to teach for ten years more—or until the last of the third generation has passed through the Institute. When that has been accomplished, he will be ready to enjoy retirement.

Intercollegiates

The annual Christmas trip of the Williams College Musical clubs has been cancelled. In place of the Christmas trip, a week-end trip for Washington's Birthday and a tour during the Easter vacation will be substituted.

Only three men have been exempted

from all activities, while lacrosse is the least popular of the sports with only four men out for practice.

Statement of the Ownership, Management, Circulation, etc., Required by the Act of Congress of August 24, 1912, of THE TECH, published tri-weekly at Cambridge, Mass., for October 1, 1925, State of Massachusetts, County of Middlesex.

Before me, Notary Public in and for the State and county aforesaid, personally appear Theo. A. Mangelsdorf, who, having been duly sworn according to law, deposes and says that he is the Business Manager of THE TECH and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption required by the Act of August 24, 1912, embodied in Section 443, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the General Manager, Editor, Managing Editor, and Business Managers are: General Manager, T. W. Owen; Editor, J. R. Killian; Managing Editor, L. C. Currier; Business Manager, T. A. Mangelsdorf; all of Cambridge, Mass.

2. That the owners are: (Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock.) All equipment owned by THE TECH TRUST FUND, Cambridge, Mass., and rented by the Current Volume.

Officers: Mr. H. E. Lobdell, M. I. T., Cambridge, Mass.; Mr. Winward Prescott, M. I. T., Cambridge, Mass.; Mr. H. D. Peck, 99 State St., Boston, Mass.

3. That the above bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state.) None.

4. That the two paragraphs, next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements and embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustee, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is—(This information is required from the daily publications only.)

Theo. A. Mangelsdorf, Business Manager. Sworn to and subscribed before me this 20th day of October, 1925. William Jackson, Notary Public. (My commission expires October 26, 1928.)

COLLEGIATE

TIME was when the "Collegian" was the son of an old grad, come to College with the distinct idea of not working his way through, with plenty of time to smoke his pipe, give sundry yells, play the mandolin and visit all manner of young ladies in neighboring townships.

Alas, those customs have passed. No more are the rooms pennant bedecked. Instead we see a few staid prints by gentlemen with unpronounceable names and vague ideas of shapelessness. The racks of nicked and blackened pipes are gone. One long, slender Dunhill is hidden in the drawer waiting for the date who likes "masculine" men.

Yes, things are different—culture has hit the colleges, and it has chased the Collegiate things out. It has chased them, alack, to the enemy camp. They are now in the hands of the "Townies," by whom they were held in open scorn.

The old order changeth . . . but Collegiate, the carefree, lives on. It has changed its locale and its personnel, it has become slightly vicious, perhaps, but it is still all there. We wish it luck. When the Pendulum swings we shall have it back. Our descendants will welcome it as did our forefathers. We are the traitors, but even we can wish it well.

MASSACHUSETTS LAXITY IN LEGAL STANDARDS

A FEW years ago the "Commonwealth Quack Scandal" was the murmuring talk in all the academic circles, now again it is the episode of the stolen bar examination papers. As far as the public of Massachusetts is concerned, it should be more important to spend diligent hours investigating the low standards for admission to the bar, rather than doing justice to the fabricated professional men.

Records also show that the existing standards of the state for admission to the bar are lower than those of any other state of the Union, save one; even the Philippine Islands and the State of Oklahoma have been able to require higher standards from their lawyers. A state that makes admission so easy can not fail to produce degeneracy of legal standing.

THE PEACE PARLEY

THE world has viewed with great interest the most recent developments at Locarno in the form of the new treaty. From all appearances it is a movement in the right direction, and if it accomplishes all the things to which it aspires it will certainly take its place among the great accomplishments of the world. Whether it succeeds or not is a matter which time alone will decide. We in America, however, are faced with its immediate effects on us. It has been rumored that the United States will be asked to subscribe to the treaty in the role of co-guarantor. Such a procedure may appeal to many, who might be blinded by the idealism of the entire situation.

# FROSH HARRIER RECORD BROKEN

## Arlington Noses Out Frosh In Closely Contested Meet

Although the final score in the Arlington High-Tech freshman cross-country meet which was held Wednesday afternoon read Arlington 23, Technology 42, Norm McClintock, a member of the yearling outfit raced to victory and a new record over the Arlington course. After running a neck and neck race over the entire course against Eldridge the Arlington star, 300 yards from the tape McClintock uncorked a heartbreaking sprint and breasted the worsted a full 15 yards ahead of his opponent.

By lowering the course record to 14 minutes 58 and 2-5 seconds, the freshman hill and daler clipped exactly 58 seconds from the former mark of 15 minutes 53 and 2-5 seconds. To eclipse a record by 58 seconds even in a cross country race is a feat which deserves much credit, but to break the mark when running against such a strong team as the Arlingtonians, prophecies a bright future in Technology track for the record breaker.

### McClintock Leads by 10 Yards

At the start of the race McClintock and Eldridge battled back and forth for the lead and for the first 300 yards scarcely an inch separated the two flyers. After the initial spurt had spent itself and the men settled down for the long grind, McClintock had a scant 10 yards over his scholastic rival. He held this until they struck the first hill, when experience with the course gave the schoolboy the lead.

He held this position until they reached the top of the hill where the Tech yearling challenged him once more. Neck and neck they fought it out over the hill and through the rocky pathway in the woods. Coming out onto the main road again McClintock was leading by about 10 yards.

### Arlington Man Gains

When the downhill part of the course was reached, the freshman's long stride forced Eldridge to the limit, but the Arlington man would not give up. The frosh had 30 yards on his opponent as they reached the path by the river's shore on the return trip. McClintock was loping along at an easy pace with the Arlington man fighting to regain his lost ground. But the battle was yet to come.

A small hill about 25 yards long leads up to the Arlington field which marks the finish of the course. Eldridge by supreme efforts closed the distance which separated him from the leader to about a yard, when they came into view at the top of the little knoll.

### Varsity Meet Saturday

To outward appearances the Tech harrier appeared to be tiring and the Arlington rooters took on a new lease of life for their star, but 300 yards from the finish McClintock let go in the sprint that carried him to victory. At this stage of the meet prospects for a Tech victory seemed bright but unfortunately the final result was not dependent alone on the first two men. Two Arlington runners crossed the line before Olcott the next Tech man to finish, had breasted the worsted. Woods, Everett and O'Neil of the Arlington then

finished in close order, giving the victory to the home team.

Varsity cross-country opens up Saturday afternoon when the engineers match spikes with the strong University of New Hampshire outfit at Durham. The freshman run at the same meet against the frosh from the Granite State College. A win over the New Hampshire team would be a big feather in the Varsity cap.

## FAVORITES ADVANCE IN FALL TOURNAMENT

With the large entry list weeded down to eight men, the Fall tournament can now move along at a fairly rapid pace, and be completed before the real cold weather sets in. So far in the tournament, there have been no major upsets, all the favorites still being in the fight. There is only one freshman left in the tournament, he having worked his way through a fairly strong quarter.

Of the men left in the tournament, Ernie Hinck still appears to be the outstanding star, although he is not in the best of condition, due to basketball practice. He meets the lone frosh, Kononoff, in the next round, which will give a fairly good estimation of the underclassman's skill and the possibilities Hinck has of coming through a winner.

One man, Day, has reached the semifinals by a win over Davier. Peterson and Eddy are still to be considered in the final reckoning, since both of them have had Varsity experience. The other men that are fighting for a place in the semifinals are Hope and Dame.

## Sports Desk

Holding one of the strongest prep schools in New England to a single touchdown will give the Soph football team worlds of confidence when they stack up against the frosh in their annual battle on November 6. The frosh, in losing to St. Johns seconds, showed that they have considerable strength that may be sufficiently developed by Field Day to cause the Sophs considerable trouble, but as yet needs a great deal of practice. Needless to say, the battle of the pigskin warriors on Field Day will be quite as exciting and thrilling to the student body as any of the Big Three games.

Field Day crews are always an uncertain quantity, with the frosh always having the advantage of greater numbers. Hordes of freshmen have been flocking to the boathouse in the last few years, since Bill Haines has brought crew to such prominent heights in the Institute, and always give promise of turning out a cracker-jack crew. The Sophs are always handicapped by the fact that their best men are on the Varsity and ineligible to row on Field Day. Last year, the consensus of opinion was that the frosh would win because of this fact, but in the end the Sophs came through and captured the annual classic. Whether this year's Sophs can repeat is a toss-up until the race is over on November 6.

It would be a fine thing if the Soph football team could get a game with one of the local high schools on Tech Field for next Saturday afternoon. That afternoon is open on the 1928 schedule, and if the management could find a local high school that has an open date, it would in all probability draw a fair sized crowd, who would be interested in looking over the Soph team before Field Day. The battle that they put up against St. James showed that they can pull off a good game.

The trackhouse is drawing a fairly good sized crowd of men, although not enough to satisfy Os Hedlund, who is priming the boys for the succession of 220's. Both the track coaches, Os Hedlund and Doc Connors work on the same principle that Bill Haines does at the boathouse: the more men that they can get out for their sport, the better team they can turn out to represent the Cardinal and Gray. The Field Day relay teams are the best opportunity the frosh and the Sophs have to get in training for the regular track season.

## FIELD DAY CREWS TRYING HARD FOR NOVEMBER FIGHT

### Sophomore Eight Outweighed But Have Advantage Of Experience

With Field Day but two weeks from the present date, contestants in the Crew race have been going through their paces with regularity. Four frosh and one upperclass crew are monopolizing the limelight at the boathouse with the Varsity men reposing in the shadows for the present.

The spirit of both classes can be evidenced in their desire to work. Early morning visitors to the Charles will find the five shells cruising up and down the river. It is no pleasure to be rudely awakened at 6 in the morning to take a "boat ride," but the men are casting aside their precious hours of sleep to get into the best possible condition for the November water contest.

Coach Bill Haines has been coaching both class contestants in preparation for the event. The Sophomore crew, of course, is well advanced toward perfection, while the yearlings are still a bit crude. Haines has been drilling the frosh mostly on fundamental lines, and it will be several days before they will be allowed to try for speed records. The Sophomore eight will be outweighed, but it is apparent that their superior experience will hold them in good stead.

### 150 lb. Crew Intact

The Varsity is still working industriously for the spring season. There are three full eights on the water with some men held in reserve for extra places on the eights. With the Varsity crew of last year practically intact, it may prove a difficult matter for candidates to squeeze their way into the first shell. The Winter and early Spring however, will afford ample time for the final choices to be made.

Last year's 150 lb. crew, that made an excellent impression in rowing circles by their defeat of the Orange and Black jerseyed eight at Princeton, has not lost a man by graduation. Practically the entire crew is trying for places on the Varsity.

## MANY FROSH REPORT TO TUG OF WAR TEAM

The frosh have also shown considerable promise on the track and at the Boathouse, so there is a good chance that they will win either one or both of these events. With these opportunities to win, a decision in the tug of war would be of vital importance. And yet with 21 men out for the sport there is not enough men to constitute a team. It takes 25 men to make up a tug of war team, and as yet neither the frosh or Sophs have had this number out in any afternoon. At least there is sign of improvement among the frosh while there is none among the Sophs.

Now, Phideas Krinkle, early in his college course, would have nofrills, either as regards scholarship and studies, or equipment. Hence, we found him (that is, some one did) buying a pen for \$1.37 — today only — and putting the difference between that and the price of a Parker Duofold in books—good books, too, let it be understood. And passing charitably over some profane lapses, he got along with it till graduation, and then some. We're liberal—it would make a mark when you pressed it, frequently. But Krinkle, with this penny-grasping trait, went bankrupt three years after graduation. And he never did amount to much after.  
Jack Free, on the other hand, had an eye to quality, beauty, and—oh yes—quality. His second week in college found him with a Parker Duofold. Makes no difference if he did steal it—he knew what sort to steal, and the victim bought another Parker, anyway. Well, to coin a phrase, that was just like Jack, and he graduated and signed his first check with a flourish and a Parker. And, due, it must be admitted in fairness by all, to this belief and insistence on quality at all costs, he went stony broke in two years.  
So there really was little advantage in the Parker Duofold over the orphan-pen, except having something decent to write with during the period mentioned.

rating North Hall prepared by Bursar H. S. Ford was submitted by H. W. Jones '26. It totals \$750, but \$50 of this amount has already been spent in the installation of improved lighting fixtures. The rest of the money is divided up as follows: \$200 for the re-surfacing of the floor; \$300 for re-decorating the walls, according to the ideas of Professor H. W. Gardner '94 of the Architectural Department, \$500 for new draperies and suitable pictures. These improvements are favored by the Walker Memorial Alumni Advisory Committee and will be considered by the Alumni Council at the meeting on Monday night.

Several elections were approved by the Committee, subject to the approval of the Point System Committee. The men involved were W. P. Hinckley '26 as treasurer of the T.C.A. and the newly elected officers of the Catholic Club. H. B. Dean '28 was the only absentee.

**WELDERS BANQUET AT  
THE HOTEL SOMERSET**  
(Continued from Page 1)

tric Fusion Company, has drawn such large crowds of students that the Boston papers have taken occasion to say that students of Technology caused a "near riot" Wednesday afternoon in their efforts to see Mrs. M. H. Henke, the only woman demonstrator of welding in this country.

Mrs. Henke in an interview with a reporter of THE TECH wished to correct the impression given by the Boston papers that the students had been riotous in their attentions at her exhibit. "I think you have a wonderful school here and the students are really very courteous. I appreciate their interest but some of the fellows in uniform whom I suspect are freshmen have asked me some very foolish questions," she remarked. When questioned, she admitted that she did not know that many of the Juniors also wear uniforms.

According to the Journal of the American Welding Society the meeting that has been in session at the Institute for the last two days is "the greatest exposition in the history of welding to date." Twenty-five manufacturers of welding machinery and equipment have arranged demonstrations of their products which are being given by skilled factory representatives.

**SHOW BROADCAST IS  
FAVORABLY RECEIVED**

According to letters received from the radio audience a favorable reception was given to the broadcast version of the 1924 Tech show, "The Hidden Idol," which was written by W. T. Cook '24, now connected with the General Electric Co. in Schenectady. The radio presentation was rendered by the WGY players last Friday.

"Everyone here at the studio was greatly pleased with it as well as the radio audience, from whom we received to date approximately 400 letters," states a letter received by H. M. Boardman '26, General Manager of Tech Show 1926. "The question of a repeat performance of the 'Hidden Idol' has just been decided. It will broadcast again in about six weeks time."

Because of the receptive attitude after the broadcasting of the play it is possible that other Tech Shows may be presented in the future.

The data compiled by Harvard's Department of Physical Training show tennis to be the most popular of the fall sports among the Freshman class. Football and crew follow in order. If single sculling may be included under the title of crew, tennis and football are surpassed in popularity by rowing.

**FRESHMAN ELEVEN  
MEET TUFTS FROSH**  
(Continued from Page 1)

This afternoon the Sophs travel to West Newton to meet a fairly strong Allan-Chalmers Military Academy team. After the showing that the Sophs made against St. James last Saturday, the dope figures them to come out with a victory over the military school. The Institute team outweighs the team from the Newtons which should give them a big advantage from the outset. This game will be a fine opportunity to find out if the Sophs offense has improved any since the St. James game last week. In that game the line proved to be the strongest that the Danville boys had encountered all season, but there was a noticeable weakness on the offense.

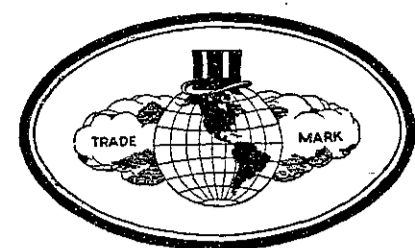

The lineups for the frosh game:

Frosh	Tufts
McKenna, le	Appiani, le
Glass, lt	Austin, lt
Logan, lg	Horton, lg
Newhouse, c	Breant, c
Bow, rg	Grady, rg
Punk, rt	Pittgerald, rt

**OFFICIAL**

**MECHANICAL ENGINEERING DEPARTMENT**

A class in Valve Gears will be formed for the benefit of those taking Mechanism X201 and others, whose schedules do not permit them to take Valve Gears in one of the regular Heat Engineering classes. Those desiring to enter this class should see Mr. Dole in room 1-123 at once.

**FRESHMAN TRACK**

All freshmen who wish to substitute track for Physical Training must sign up before Saturday Oct. 24, 1925. Freshmen must see H. P. McCarthy in Walker Memorial.

**UNDERGRADUATE**

**FRESHMAN BASKETBALL**

Men going out for freshman basketball must sign up in the Physical Director's office before 12 o'clock, Saturday, October 24. Men out for assistant manager report in the Hangar any afternoon between 4 and 6 o'clock.

**TECH SHOW ORCHESTRA**

Rehearsal will be held today at 8 on the East Balcony, Walker. All men who play cornets, clarinets, saxo-

phones, banjos, and french horns should attend.

**NUTRITION CLASS**

The Nutrition Class will meet Monday, November 2, in room 1-150 from 5 to 6. Men who wish to enroll will see Dr. Sibley at the Clinic any day between 8:30 and 9:30. Every member must be present.

**BRUCE CURRY MEETINGS**

All men interested in Bible Study at the Institute this year are asked to attend the Bruce Curry Meetings at St. Paul's Cathedral tonight at 7:20, tomorrow at 9:30 and 7:30, and Sunday at 9 a. m. and 2:30. Registration tickets may be obtained either at the T. C. A. office or at the Cathedral.

**MILITARY ENGINEERS**

A smoker, open to all members of advanced R. O. T. C. units, will be held on Wednesday, October 28, at 7:30 in North Hall. Major Drollinger of B. U. will give an illustrated lecture on South America.

**SENIOR PICTURES**

All Seniors wishing to have their pictures in Technique must make appointments at once, either at Norton's Studio, Cambridge, or in the Main Lobby any day from 12-2. A fee of 1.00 is due at the time of taking the picture.

**MINING SOCIETY**

There will be a meeting of the Mining Society Wednesday, October 28, at 8:00 in the West Lounge, Walker. Professor Lindgren will speak. All interested should attend.

**TECHTONIANS**

The Techtonians still need a bass player. Anyone playing sousaphone, bass viol, or bass saxophone report at the regular practice for try-out. Rehearsal is in North Hall, Walker, every Wednesday at 5.00 P. M., or Saturday afternoon at 2 P. M.

**MUSICAL CLUBS**

The regular hours for the rehearsals of the clubs are as follows: Glee Club, Mondays and Thursdays at 5 in 10-250; Mandolin Club, Wednesdays and Fridays at 5 in 10-250; Banjo Club, Tuesdays and Thursdays at 5 in 2-190; the Techtonians, Wednesdays at 5 and Saturdays at 2, both in North Hall, Walker.

**TUG-OF-WAR**

Candidates report every night at 5.00 P. M. Freshmen report in back of track house and Sophomores by rifle range. More men are needed.

**DANCES**

The T. C. A. Social Division has received tickets for the weekly informal dances of the Girls City Club of Boston. Tickets for these dances, which come every Friday from 8:30 to 11, may be obtained at the T. C. A. office at the price of 40 cents each.

**FRESHMAN FOOTBALL**

There will be freshman football practice every afternoon at 4 on Tech Field. On your toes, frosh.

**FRESHMEN, SOPHOMORES, JUNIORS, SENIORS, ATHLETES**

**Do You Know?  
"HOW TO STUDY"**

The Students' Hand-Book of Practical Hints on the Technique of Effective Study

by WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy, and fatigue.

ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curricular activities and for average and honor students who are working for high scholastic achievement.

**Some of the Topics covered**

- Scientific Shortcuts in Effective Study.
- Preparing for Examinations.
- Writing Good Examinations.
- Brain and Digestion in Relation to Study.
- How to Take Lecture and Reading Notes.
- Advantages and Disadvantages of Cramming.
- The Athlete and His Studies.
- Diet During Athletic Training.
- How to Study Modern Languages.
- How to Study Science, Literature, etc.
- Why Go to College?
- After College, What?
- Developing Concentration and Efficiency.
- etc., etc., etc., etc., etc., etc., etc.

**Why You Need This Guide**

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes, are overworked." Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned, may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M.I.T.

"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.

"HOW TO STUDY" will show you how to avoid all misdirected effort. Get a good start and make this year a highly successful one by sending for this hand-book and guide NOW.

**THE COLLEGIATE SHOP  
THANKS YOU!**

When we opened our exclusive men's furnishings shop a short time ago it was with the expectation of doing a fair business. We knew that we would grow—our merchandise and our methods assured this. And our now famous coupon plan seemed to be a sure winner.

Frankly we're astounded at the volume of business that has resulted—a regular avalanche. The coupon plan especially has gone like wildfire. Our shops have been thronged with eager students—keen young chaps who grasped the real opportunity that this coupon plan presented—and the COLLEGIATE SHOP has, so to speak, gone over with a bang!

So we wish to express our heartiest thanks to those who have favored us, and to promise them—and our future customers—that we will continue to show for their approval, the choice and unusual things in men's haberdashery, sold at a sensible price.

Again—THANK YOU.
