LENNES, CAPTAIN of Track, Wins Technique's Cup

Is Awarded Trophy For High Point Totals in Last Track Season

HOLDS THE “880” RECORD

His 81 Point Total Sets New Record in Technology Track Scoring

George J. Lennes '26, Captain of the Track Team who took the award, was the tech alumnus of the year to the All Technology Smoker Fri.

tday evening. He scored a total of 81 points which is over 10 points higher than the previous highest total of points in this particular meet. The Tech track squad, under the lead of Captain Lennes, is in a regular feature of each All Tech Track meet. The Tech team, consisting of the finest and most prominent track stars of the year, is seated in first place in the half mile. Lennes is a member of the Tech Track Team, which has made a reputation for itself in the past.

In the 880 yards race, the Tech team performed exceptionally well. Lennes, who was on the Tech Track team for three years, ran with the fastest time. He was declared the winner of the race. The team also won the 440 yards race, the 110 yard hurdles, and the 100 yard race. The Tech team is expected to be present at the next meet.

Professor Lindgren to Speak to Miners

The Mining Engineering Society will hold a meeting on October 28, with Dr. W. H. Callahan, Professor of Mining Engineering, as the featured speaker.

Dr. Callahan will discuss the current projects of the Mining Engineering Society, including the geological expedition of the past year. He will also speak on the future plans of the society, which include a trip to the mining areas of South Africa. Dr. Callahan will be accompanied by Professor Whitman, who will give a lecture on the engineering applications of the vegetable kingdom.

T. C. A. is Host at Council Meeting

20 Colleges are Represented - Fundamental University Accommodations

At the annual fall Conference of the New England Field Council, held on Saturday, October 19, at the Masonic Temple, the Technology Christian Association acted as host. The conference was attended by representatives from the University of Vermont, Wesleyan University, Brown, and several other prominent universities.

The conference was held in the Herrick House of Technology on Sunday, October 20, with over 100 students present. The conference was attended by representatives from the University of Vermont, Wesleyan University, Brown, and several other prominent universities.

The Value of the Musical Clubs and Their Activities

The musical clubs at the university are becoming increasingly popular. The university has a number of musical clubs, including the Tech Glee Club and the Tech Band. These clubs provide a great opportunity for students to express their creativity and develop their musical talents.

The Chemical Engineering Society

The Chemical Engineering Society is one of the most active organizations on campus. The society is involved in a number of projects, including the development of new materials for use in the construction of buildings.

Chemical Oil in Natural Gas

The use of chemical oil in natural gas is an important area of research. The chemical oil is used to enhance the flow of natural gas, which is a valuable source of energy. The research is being conducted by the Chemical Engineering Society.

MEET IN WALKER

The Tech Glee Club will perform in Walker Hall on Friday evening. The performance will feature a selection of popular songs and traditional favorites, including "Sweet Adeline," "The Star Spangled Banner," and "On the Road Again." The performance will begin at 8:00 p.m.

FRESHMEN DINNER PRECEDING SMOKER IS WELL ATTENDED

Speakers Try to Show Men That Science is Valuable

Attired in appropriate green hats and ties, members of the Science Club, under the leadership of Mr. M. Greene, delivered an address to the audience. The address was delivered to the group at the All Tech Smoker Friday evening.

\begin{quote}
WITZ

A great deal of satisfaction we have noted the general spirit of the freshman class, and in no sense did we flatter ourselves with an exaggerated estimate.

The new men responded in an excellent manner and made the Smoker one of the most enjoyable of the season. A greater general atmosphere of the school has been developed among undergraduates. Field Day treatments is a matter for celebration.

As for the management of the Smoker we have two things to say. First, that in general it was an excellently planned Smoker. Second, and in exception, the introduction of the vaccination site was unfortunately timed, and more, was totally irrelevant to the occasion. It was useless, charming, a total failure. Following as it did the appearance of the President it was but to a short, uncomfortable change of tape. It is sincerely hoped that no other Smokers will ever have to introduce a program of vaccination.

There are too many appropriate forms of entertainment to bring in material such as the vaccination was.

\end{quote}
MORRIS MEN NEEDED FOR FROSH RELAY TEAM

Sophomores Showing Up Better Than Yearlings

While other Field Day sports are issuing their daily call for more contestants, the Frosh relay team is using every known method for getting the men out for the relay race, which is one of the chief events of the annual Thanksgiving day celebration between the two lower classes.

Up to and including the practices yesterday afternoon, there have been 125 men on the roster. This is a great credit to the Frosh relay team and to the Frosh sportsmen generally.

The Frosh sportsmen are making a decided effort to have at least 200 men on the roster for the Frosh relay race, and they believe that they can do it.

FRESHMEN REPORTING FOR HARRIER OUTFIT

With the rush and excitement of the coming new class beginning to work out, the Frosh relay team has begun to turn out for the cross country meet. It is expected that the Frosh relay team will be ready for the coming meet.

There is no doubt that the Frosh relay team will be ready for the coming meet, and that it will do its best to make a good showing. The Frosh relay team is ready to make a good showing, and it will do its best.

A Custom Tailored Suit per se

The buyer of an Arnold, Pickard or Rees Royse readily appreciates the advantages of a suit, as indicated by appearance, wear and comfort on the road.

There are similar distinctions of value to be considered in one's choice of a suit, based on the best quality standards that our every thought and energy is directed.

A Custom Tailored Suit at a safe economical price as you will see.
