Soph Eleven Scores First Win Over Allen Academy

SNATCH VICTORY FROM DEFEAT IN THE SECOND HALF

Cadets Lead 3-0 at Half Time
-Engineers Score Twice in Closing Periods

PARKS STARS FOR SOPHS

Entering the second half of the game with Allen heads in the lead 1-0, the sophomore eleven fought and showed its ability to come back in the second half. The Cadets were completely surprised when the Engineers staged a comeback, and the final score was 3-1 for the Engineers.

WALKER SCENE OF ALUMNI COUNCIL MEETING TONIGHT

President Stratton Will Speak - Institute to Hold North Half

FACULTY MEMBERS ATTEND RECEPTION

Dinner and Reception Thursday Opens Season for the Faculty Club

Last Thursday evening the Faculty Club held its annual dinner and reception at the University Club. The dinner and reception began at 6:30 and was attended by about 300 guests. It was the largest dinner in the history of the Faculty Club.

LEcTURE SERIES FOR FRESHMEN TO BEGIN THURSDAY

President Stratton Will Start Group for Class of '29

RECEPTION TONIGHT

Freshmen Will Be Guests of Institute Officers in Walker

Members of the Class of 1929 will meet with President Stratton for the second time this week, on Thursday afternoon, when they will receive the first of the dinner and reception series. The dinner and reception will be held in Walker Hall, and will be attended by about 300 guests. It is the largest dinner in the history of the Faculty Club.

Dr. R. W. Deer, secretary of the Faculty Club, will give the opening address, and the president of the Faculty Club, will give the closing address. The program on Dr. R. W. Deer, will give the opening address, and the president of the Faculty Club, will give the closing address. The program on Dr. R. W. Thursday, Oct. 14, 1937
The Institute Committee has done well in making the
charity drive this year exclusively a T.C.A. drive, instead of
involving all students as could have been the case for the past
ty years. There is eminent good sense in the old saw that
"Charity begins at home.
In taking this action, the Committee does not declare the other
organizations surrendered to charity, but many of them will work
for the good cause, but it is hinted that the T.C.A. Committee
will henceforth maintain its reputation as the big private
charity drive of the year.

FRESHMAN LECTURES

In modifying the general plan of the lecture series for fresh-
men, the Faculty responds to the new man's need for more
individual counseling in addition to the usual college cur-
riculum. On first thought, it may seem strange that the freshman
who has barely scratched the surface of university life should be con-
templative of what his future is to be. It may be remembered
that to the Freshman the future is a thing to be strived for,
in the same manner as the success he is to achieve in high school
is a thing to be striven for. The Freshman therefore, will have
given valuable assistance to the freshman in the solution of his course, but the ad-
ditions of college life will look upon the Freshman as a boy who is
able to face the world by himself. Such a boy will be more than
ever more valuable. For several years, the Seniors have had their
Alumni association, but they have been limited in the range of
their work. It may be that the Freshman will be a boy who will
soon occupy a fifty years of interesting background that is never
shewn in the class rooms. If he ever hopes to become an industrialist,
he must become familiar with his own history and for that reason several lectures by men who have known the
institution for a number of years will touch on that important subject.
Every freshman owes it to himself to attend every one of the fresh-
man institute for a number of years will touch on that important subject.

NAVY DAY

Navy Holds Open House At Various Navy Yards Today

Celebrates Its Birthday By Arranging Exhibition
For The Public

The one hundred and fiftieth anniversary of the United States Navy
was marked by the Navy Department at Washing-
ton on Tuesday, October 19. The celebration was
marked by the appearance of the fleet of surface
ships and submarines in the harbor and by the
inauguration of the Navy Yard as a national re-
icent. President Coolidge has approved an act en-
larging the existing naval base, which will be called
the U.S. Navy Yard, at this port. The act provides
for the construction of a new facility, which will include
a new dockyard and a new pier. The new facility is expected
to be completed in 1938.

The Navy Yard is located on the city's north side near the
Washington Navy Yard, which is the former site of the
naval dockyard. The new facility will be used for the
construction of new ships, and will also provide accom-
mmodations for the repair and maintenance of existing
ships. The Navy Yard is also a major center for the
training of naval personnel.

The Navy Day celebration was held on Tuesday, October 19.
The event included a parade of surface ships and submarines,
which were seen in the harbor. The parade was followed
by a ceremony at the Navy Yard, during which President
Coolidge spoke.

The Navy Yard is one of the largest naval facilities in the
United States, and is an important center for the manufacturing
and repair of naval vessels. The facility is located on the
banks of the Potomac River, and is home to a large
fleet of surface ships and submarines. The Navy Yard is also
a major center for the training of naval personnel.

Navy Day is celebrated in the United States as a national
holiday, and is marked by a variety of events, including
parades and ceremonies at naval facilities. The event is
considered an important opportunity for the public to
learn more about the Navy and its role in national defense.

Frosh Come Out Victors While Varsity Loses To New Hampshire Harriers

McClintock of Tech is Individual Winner in Yearling Event—Rick First Engineer Varsity Runner to Place

In the first meet of the season held last Saturday afternoon, the Varsity squad of Tech met the University of New Hampshire outfit, the frosty winning 26-23, while the yearlings were victorious 7-6. Mr. F. C. Roosevelt's men showed to good advantage, but the difficult course and the fact that the Granite Statesmen were not used to the athleticChris 2 to 9 led to the downfall of Millman, Maine, the best hillsiders in the north, in the time of 30.75 and 7.30, Norm McClintock, the frosty frosh who broke the Aroostook records earlier this week, came through with another individual victory on Saturday.

TUFFS YEARLINGS SWAMP FROSH

Visitors Score 34-0 Win Over Engineer Eleven on Tech Track

Outweighed seven to one in the match, a fighting frosty team lost to a strong Tuffs freshman team which scored 34 points to only two touchdowns made by the engineer men. A. M. Richardson and A. G. Ford were the two Touchdown scorers. Germain slipped the ball past Morse corner shot by Gruman. Flyn was able to make the tackle, but it was impossible to get any practice, on account of the frosty and frigid weather. The和技术 team was headed by 50 yards

On Saturday, the Varsity team lost a hard fought game to the Worchester Polytechnic outfit. The score was 14-0. The new field entrance has been finished, and the outstanding players in the Worchester team were the 

The yearlings were victorious to be one of the most surprising teams to look for during the season, having lost only one game, by a score of 7 to 5, the frosty outfit is finding it impossible to get any practice, on account of the frosty and frigid weather. The frosty team is finding itself getting ready for the spring season.

In the first half of the game, the frosty was about even with the two teams, the ball being kept in midfield, with the Tennessee team being short-handed on each attempt. Interceptions were not

SOPH ELEVEN DEFEATS ALLEN ACADEMY TEAM

On the next play Holland made 4 yards on a back through right tackle. Then, realizing the painting game, Allen made a fine down. During the rest of the half the positions remained the same, the frosty gaining few yards on a few attempts. The frosty failed by 22 yards on a field goal attempt.

MAPLE HILL

A close game was played, but the frosty was the better team. The frosty was on the move almost from the start. On the kickoff, Proc- 

The season is open now and the frosty men are looking forward to the new season.
CIVILS HAVE FIRST SMOKER OF SEASON

Colonel Gow Gives Interesting Lecture on Foundation of Cities

At the meeting of the M. I. T. Civil Engineering Club held on Friday evening, September 28, in room 10-21, Dr. S. R. Goodwin, prominent foundation engineer, was the chief speaker. The evening affair began with an interesting discussion, which was made much more pleasant by the presence of many new members.

Dr. Goodwin then proceeded to explain the principles of foundation engineering, an amusement, and was allowed free reign for the benefit of the Society, carrying it with all privileges, except that of voting. From a brief account of the formation of the Society, he went on to explain the main features of the program, the work of the members, and the results to be expected from the work of engineers in their association with a professional society. Colonel Gow was the next speaker, talking at some length, of the foundation experience, especially of the bridges and foundation engineering done by the M. I. T. club. The figures which were used were:

- In Boston, 50,000 piles were used.

- In New York, 65,000 to 70,000 piles were used.

- In Chicago, nearly six hundred caissons and 400 to 5000 piles were used.

On Sunday, September 30, a special excursion of the members of the Society was inaugurated. It consisted of a tour of the Finger Lakes, followed by a visit to the Seneca Falls, and the tour was brought to a close by a visit to the University of Rochester.

Radio Society Plans Active Year

New Transmitter Is Now Complete

Members May Use Property of The Labs for Experiments

This year the Radio Society is planning to have a much more active program than any in the past. The club is going to begin every month on the first Tuesday evening, and will hold the regular meeting of the radio club program and several special radio forums. The members are required to give technical talks on the problems of the week. The speaking of the meeting new officers were elected and the new program released shortly.

The Society is in charge of the society which is to use the improved radio equipment. The Radio Club meets on the third floor of Building 6. The meetings are held on Wednesdays at 10:00 a.m. with a slight variation. The club is now preparing for a complete program and will have a very active year this year.

CHESS TOURNEY WILL BE HELD NEXT MONTH

Expect Engagements With Many College Teams

According to the secretary-treasurer of the Chess Club, G. W. Bwest 26, the club held its first meeting on Thursday evening, October 4, and the club's first match with another team on Saturday evening, October 6, which will be held at Harvard.

The club will now have a series of matches with other college teams. The first match will be against Harvard on Saturday, October 13. The games will be played at 1:00 P.M. in the armory.

FRESHMEN LEADERS WILL HOLD THIRD MEETING

Presidential Season Leaders will hold their third meeting next Wednesday, October 10, in room 10-21. All members are invited to attend. The meeting will be held at 7:00 P.M. in the armory.
