THE TECH

THE TECH BOOK LIST—

The following books have been decided upon for the offer of this publication. They have been selected because of their excellence and importance. They are available in the college library. The selection of these books is subject to change without notice.

- "Idiot Man" (Homo stultissimus) by Charles Richet. A book on the human condition, particularly on the limitations of human knowledge.
- "The Miracle" by D.H. Lawrence. A novel that explores the theme of belief and its effects on human behavior.
- "Phosphorus" by William Shakespeare. A play that deals with the themes of love, ambition, and power.

ELECTION METHODS

The other day, one of the Boston municipality candidates was canvassing a couple of blocks, supposedly fixed by partisan of some one of his opponents because he refused to offer him a favor. Such tactics have always been more or less crooked, but even so a mere accident has not herebefore been a common adjunct of political campaigns.

That such an affair is a disfigure to the city of Boston goes without saying. But, there is a chance that such a thing may be of more moment in the next race, the former being set aside by law of those who seek to execute the law, or at least to choose those who shall execute it. The election is a severe issue.

Nowadays the tendency of a candidate for public office is toward making a study of all the factors that might influence the election result. The final vote is usually the result of a combination of various factors, such as the popularity of the candidate, the efforts of the campaign workers, and the effectiveness of the advertising.

Fortunately, in this instance the political fixer was not able to carry out his plan, and it is the duty of the election officials to devote an election campaign to stirring up curiosity, personal views and votes will continue to be a menace at elections.

"Girls Outdo Themselves in This Month's Issue of Voo Doo" Admits Phosphorus

The girls scored on Voo Doo 4th in 19 to last time, at least for Phosphorus. The editorial department's main issue is quite another story. "Girls Outdo Themselves," says the very fact that Miss M. P. J. Parley of Berkeley, California, her work on the cover of this issue, Miss Alice C. Backing of Brooklyn, Miss Mercedes B. Baker of New York, and Miss Letitia M. S. Baker of Brooklyn, are among the contributors, without any regret.

"Weeds."-Opening to-night at the Apollo-Theater, 2nd Avenue and 42nd Street.

"Beautiful."-A new play by Arthur R. Smith.

"The Miracle."-A new play by D.H. Lawrence.

"Phosphorus."-A new play by William Shakespeare.

SOPHOMORES DEFEAT LOWELL 5-0
Freshmen Eleven Holds B. U. to Scoreless Tie on Tech Field Friday

Sophomore Team Outplays Lowell Eleven to Capture Second Win of the Season

Outweighed but not outplayed, the fighting Sophomore machine rolled to the win. This time it was the defense of the Lowell Textiles which fell short. Although the Lowell forwards were a dangerous bunch, the Senior line was able to neutralize them. This line which consisted of Earl Shad, Proctor, Bartlett, and Peterson was able to stop any team on the field. Shad was an ideal center and Proctor made one of the long punts which was good for 30 yards. Walsh kicked off 3 times and every kick was good for 30 yards.

The Sophomore line had the upper hand throughout the game and the final score of 5 was the result of a well-played game.

SOPHOS AND FROSH HOLD FIRST TIME TRIALS IN RELAY

Freshmen Have Edge on Seconds in Time and Numbers

FINAL TRIALS TUESDAY

800 and 1600 yard races were run Tuesday afternoon at the beginning of the first week of the new season. The 800 yard race was run in 2:20, the 1600 yard race in 5:30. The 800 yard race was run in 2:20, the 1600 yard race in 5:30. The 800 yard race was won by Dore, the 1600 yard race by Moore. The freshman line which consisted of Proctor, Bartlett, and Peterson was able to stop any team on the field. Shad was an ideal center and Proctor made one of the long punts which was good for 30 yards. Walsh kicked off 3 times and every kick was good for 30 yards.

The Sophomore line had the upper hand throughout the game and the final score of 5 was the result of a well-played game.
Men on the Field Day teams who desire eligibility cards for positions on the Sports Department of THE TECH are requested to report at the Sports office. Walter has- tened, any day this week or next. A special competition will be conducted so that all men who come out at this time will be put on an equal basis with those who started an interest in the beginning of the school year.

Hotel Lenox, Tuesday, November 3

Field Day Teams are Preparing for Battle

(Continued from page 1)

Hainest. On the other hand the fresh- men have a hoops crew and have more men out than the Sophomores.

Both crews have practiced consistently

and the race on Field Day should be a close contest with the odds slightly in favor of the Sophomores due to their experiences. There will be a first and second Sophomore crew and as usual no punters for the Sophomores and freshmen relay teams.

Only 18 backs started as of yet for the while the freshmen had 39. The men turned in times around 25 and 24 seconds. Today on Field Day the men are given the chance to be timed which will be given between 2 and 4 o'clock. All men should show up as soon as possible in order that the Field Day Team may be chosen and given special work during the week.

Both tug-of-war teams have more men out as the time is drawing near. The two classes may be seen every night after 8 o'clock at Tech Field pulling on the rope. This event is a hard one to give advance dates on as one is never sure until after the battles which is held this season. It is principally a matter of weight al- though the tests practices are put together in order to accomplish re- sults.

Due to the fact that the Sophomores have been turning out in larger numbers the freshmen are now a little favored.

"DOUBTING THOMAS?"

Since the Collegiate Shop opened a few weeks ago the volume of business has steadily increased. Par- ticularly has our remarkable coupon plan—ten dol- lars worth of high grade gent's furnishings for one dollar—brought in and purchased.

A great number of students came—saw the really high grade line of exclusive haberdashery we feature and purchased. Many of them grew interested in the coupon plan—tried it with success and returned for more. The doubling ones were soon self-con- vinced—results did it.

This plan of ours is absolutely sane. If you have friends—or chums—or buddies—a brief explanation of

Tips, nices--etc. and at once. Thanks and Good Night.

" Everybody Learns to Dance at Lerner's."

—The Cambridge Echo, September 25, 1926.

P. T. Classes will begin on November 9th.

The regular meeting of the Anchors will be 5 P. M. on the third Thursday. The Brownie Installation will be 5 P. M. on the third Thursday. The Brownie Installation will be 5 P. M. on the third Thursday. The Brownie Installation will be 5 P. M. on the third Thursday. The Brownie Installation will be 5 P. M. on the third Thursday. The Brownie Installation will be 5 P. M. on the third Thursday.

ENGINEER FROSH HOLD B. U. WITHOUT SCORE

(Continued from Page 2)
