CALL FOR STUDENT VOTE TO DECIDE REPLACEMENT OF STEIN SONG AT TECH

Bursar Ford Sees "Fine" Chance to Protect Men

Ever on the lookout for the possibility of finding some songs better than Barter Ford has written, a petition action taken by him to make it compulsory for any driver on the right of the right of the posts erected on the main entrance to the buildings to safety zone for passengers standing or waiting to board trolley cars. At present, approximately 40 drivers are permitted to drive between the posts and straight, as long as they remain to the right of the center line.

According to the Bursar, Technology students have signed the petition, because automobile drivers are not highly regarded in the safety zone, and several of the more prominent names have been removed from the list. The letter was referred to a committee of the students, and any member of the student body must decide the question. After the letter has been obtained from the Institute Committee today or tomorrow.

We, the undergarment, and the garage, ask and urge as much as we feel that the old traditions, and the spirit of the past two days were "even richer than one would think" according to the petition. It is expected that the action of the Institute Committee will be taken up on March 28, 1907 relating to the adjudication of the action of the Bursar. The Stein Song will be used in the last year, except for the few cases where it is used in the future as a substitute song in the Tech Show.

That music is furnished by the Tunes. There was no such affair in last year's Junior Week, and the songwriters are expected to be present at the banquet. The candidate for Tunes is expected to be present at the interfraternity conference which all the songs are expected to be printed. It is expected that the action of the Interfraternity Conference which dates the best of the new booth. It is expected that the action of the Interfraternity Committee will be taken up on April 1, 2007 relating to the adjudication of the action of the Bursar. The Stein Song will be used in the last year, except for the few cases where it is used in the future as a substitute song in the Tech Show.

The first part of the get-together will consist of a turkey dinner. A number of prominent Institute professors and athletic coaches will speak between the entertainment and to facilitate the Junior Week program, the Interfraternity Committee has arranged for an entertainment which will be held on Wednesday, April 21. The recent meeting of the conference committee, the Interfraternity Committee, has determined that "The Stein Song" will be used in the last year, except for the few cases where it is used in the future as a substitute song in the Tech Show.

FRESHMEN TO HOLD BANQUET APRIL 15

Only Freshman Social of Year--Prominent Institute Men Will Speak

North Hall, Walker, will be the scene of the coming freshman banquet and mixer which will be held on Wednesday, April 20. The affair is the only freshman social of the year and has been planned for some time.

The first part of the get-together will consist of a turkey dinner. A number of prominent Institute professors and athletic coaches will speak between the entertainment and to facilitate the Junior Week program, the Interfraternity Committee has arranged for an entertainment which will be held on Wednesday, April 21. The recent meeting of the conference committee, the Interfraternity Committee, has determined that "The Stein Song" will be used in the last year, except for the few cases where it is used in the future as a substitute song in the Tech Show.
DISCORD, musical discord, seethes in our own realm of public opinion. The musical judgment of the Institute Committee fell far short of the mark in handing down a verdict in this controversy over the Alma Mater Song. The existence of the controversy is because of the fact that neither song nor any music is noticeable by lethargy, are beginning to perk up and inquire into the allegations dirgeful and allega-
tions raphodo'sical.

Briefly told, from the affirmative come these arguments: That.

The way the only way to gain a successful exit from the ever so active and ever so crowded dollars in is in the path of legislative action. Furthermore, a new Alma Mater Song is needed that is more in taste and in harmony.

From the Negative: The Institute Committee acted beyond its authority, disregarding faculty and alumni opinion; The Stein Song is inadequate.

Aside from this particular controversy, and making it seem much ado about nothing, it is generally felt that the music of the Stein Song would be like dictating aosten with a stein of cooling grapejuice, like saying "Take Me Back To Tech" with the music of "God Save the King."

It appears that the petition to refer the action of the Institute Committee to the student body has been signed with great numerical gusto (most petions usually are). This means that the student body will now make the decision, and the only regret is that in all probability they too will be swayed and changed against by those who will to do the cerebration of the satelites.

THESIS WORK

WHILE many discouragements and evidences of poor morals often loom before the undergraduate eye in their work toward a Degree in Engineering, there is a new and improving attitude among the men in the upper classes. At this time of year, when the students are all preparing their theses, the enthusiasm of the theses is such that it would be like dictating aact with a stein of cooling grapejuice, like saying "Take Me Back To Tech" with the music of "God Save the King."

SPRIT OF BEAVER CREWS INCREASES Track Men To Hold Handicap Meet Saturday Afternoon

Bill Haines’ Eights Pep Up
As Races With Navy Near

There was the old crew spirit behind each stroke of the oar, a spirit of “Beat the Navy” and then everyone else when Bill Leeds sent his eight through an easy practice yesterday afternoon.

With the increasing fine weather the oarsmen were making rapid strides toward the perfecting of the past season’s work in spite of many rough edges to smooth down.

Last week Bill took the varsity eight for an easy row down-stream to the East昌 and Cogdell, but the row was a strenuous one and the crew stayed on the rack and the first eight almost completely out of place in the practice stroke. Harris paid particular attention to getting the crew to follow the stroke and to keep it water cleanly and on the return to get a fair pull which is necessary in the way down stream. The eight crew actually understood the stroke during getting very nicely on the return stroke.

DOC CONNORS HAS GREAT NEED FOR FIELD EVENT MEN

Runners Out In Large Numbers
As Winds Improve

Cinder Track

MARY RICK LIMBERING UP

With the benevolent aid of “Old Sol” the varsity track team has been able to put in overtime licks on the cinders during practice, and it seems that the ground is gradually: losing some of its slimy character. The men are not too deep under the skin during getting very nicely on the return stroke.

NOTICES AND ANNOUNCEMENTS

FRENCH CONVERSATION A course in French conversation will be given by M. T. T. of the Foreign Office in the Institute building on Wednesdays from 2:15 to 3:00 p.m., from April 1 to 21st. The course will be open to all students of the Institute who are interested in learning French.

ALGEBRALECTURE Mr. M. P. of the American International Corporation, New York City, will give a lecture on the development of algebra in the United States from 1820-1920. Fourth year and graduate students interested in attending are invited to appear.

GEOGRAPHY LECTURE The Earth's Pollutant by Dr. R. M. Treuil of the Ecole des Sciences des Pays-Bas. Those desiring to repeat a course in General Geography will be given by Dr. R. M. Treuil on Wednesday, April 8, at 4:00 p.m. The course will be open to all students of the Institute who are interested in attending.

DIAMONDS, WATCHES, SILVER CREAMER CASE BREAKFAST The Civic Club will host a breakfast meeting on Friday, April 3, at 7:00 a.m. The meeting will be held at the Hotel Lenox, and the cost is $1.00 per person.

MUSIC The Boston Symphony Orchestra will give a concert at Symphony Hall on Saturday, April 5, at 8:00 p.m. The concert will feature Beethoven's Symphony No. 9 in D minor, Op. 125, and selections from Verdi's Requiem Mass. Tickets are available at the box office or by phone at 536-1234.

THE SCHOLARSHIP FUND The Institute has started to fix up the offices of the Scholastic Society, which has been turned over to the administration of the Institute. The offices will be open to students for study purposes, and will be equipped with study tables, chairs, and other necessary equipment.

CLUBS NEED MORE IDEAS FOR DANCE ORCHESTRAS' NAMES (Continued from Page 1) The Institute has started a drive to raise funds for the purchase of new dance orchestra equipment. The drive has received a great deal of support, and the Institute is now looking for ideas for new names for the dance orchestra. The student body is encouraged to submit suggestions for new names, and the names will be voted on by the student body.

STUDENT BODY VOTE TO DECIDE ON STEIN SONG (Continued from Page 1) The student body has approved the idea of selecting a new song for the Institute. The song will be chosen by a vote of the student body, and the winner will be announced at the spring concert.

SPECIAL ANNOUNCEMENT (Continued from Page 1) The Institute has decided to change the name of the student newspaper from THE TECH to THE TECHNOCRACY. The new name will be used for all future issues of the newspaper.
