Class Battle Results

Three splintered doors and a number of windows broken in the banquet house, the store, the gym, and the railroad yard on one of the first Saturdays in the month. The damage done last Thursday evening has been estimated at over $500. The residents of the town have been expressing their anger and indignation at the act of vandalism.

MUSICAL CLUBS TO PLAY AT FILENE'S

Specialty Acts Consist of Brass Quartette, Violin Soloist, and Piano Duet

Opening the year's program, the Combined Musical Clubs will deliver a series of concerts at the Fileene Building department store, beginning at 7:30 on Friday, November 21. This year, the concerts will feature specialty acts in addition to the selections by the organizations of Boston. There will be representation of Boston Clubs and the Technitones. Before the concert the officers and leaders of the clubs will be present by the Fileene Entertainment Association.

Specially acts for the concert include a brass quartette of the College of Chemistry and two quarters. W. H. Boyce will conduct the College of Chemistry quartette and W. A. Emory, of the Tech, will conduct the Technitones. Another number will be a violin solo by G. W. Bates '26 on the tonalities of music. A piano solo by C. W. Clay '26 will be given.

The Technitones, who are being coached by E. H. Strickler, will deliver a specially arranged orchestration of "The Merry Widow" and "Yes Sir, That's my Baby," to be followed by several other chorus pieces. The last band for playing will be arranged by the Combined Clubs and will continue until 10:30 o'clock.

With the opening of the season, the Banjo Club will play several of the current popular hits and may also give a special number for the benefit of "The Merry Widow," which is dancing crew and minstrel will play at the concert, with tour "Yes Sir, That's my Baby," and "No.

"Solo Solo," "Cuba," "Dancing," and "A Night in Cuba," will be played by the Manhattan Club under the leadership of D. C. Cunningham '26. The Glee Club, coached by Sibley Wright, have not yet announced their program.

FOUR REGULAR MUSICAL CLUBS

Dancing Clubs to Work at Oddfellows

Renew Will Feature Activity to Be Held on Evening of November 20

A dancing girl news, from the stage direction, furnished by the Oddfellows, will attract the attention of the Dormitory Smoke at the Oddfellows. The Oddfellows Company on the corner of Massachusetts Avenue and Federal Street, under the direction of the Committee, have made the arrangements for the Christmas entertainments in charge of the Oddfellows. This will be in the form of a ball, to be held on November 20, by Professor J. M. Reamer of the Boston Medical College, who will also attend the ball in charge of the Oddfellows.

Dancing Girls Will Be a Feature of the Oddfellows Smoking Society. The Oddfellows Company on the corner of Massachusetts Avenue and Federal Street, under the direction of the Committee, have made the arrangements for the Christmas entertainments in charge of the Oddfellows. This will be in the form of a ball, to be held on November 20, by Professor J. M. Reamer of the Boston Medical College, who will also attend the ball in charge of the Oddfellows.

Famous German Physicist to Deliver Lectures Here Beginning Next Monday

Lattice Theory of Rigid Bodies Subject of First Talk by Professor

Professor Max Born of the University of Berlin will deliver two series of lectures in the Deering Building at the Institute of Chemistry Friday, November 21 and from January 30 to January 31. These lectures will cover the topics of "Lattice Theory of Rigid Bodies" and "The Structure of the Atom".

According to Professor Paul H. Rutt "The Structure of the Atom" will be taken up next year, and "Lattice Theory of Rigid Bodies" at the same time. A lecture on the subject of "Lattice Theory of Rigid Bodies" will be given by Professor J. H. H. Newcomb on Friday, November 2 at the same time. In this lecture, the professor will discuss the lattice theory of rigid bodies and its significance in the study of crystal structure.

A HANDICAP track meet will be held this Saturday which will be the first of its kind in each of such meets. The purpose of these meet is to furnish competition without the guilt of long training so indispensable in track meets. Students from different colleges will be able to participate in track meets. Participation is the purpose of these meets to furnish competition without the guilt of long training so indispensable in track meets. Participation is the purpose of these meets.

The traditional track meet will feature a variety of events, including the long jump, high jump, and hurdles. The events will be open to all students, regardless of their athletic ability. Participation is encouraged, and students are welcome to sign up for as many events as they wish.

I. AMERICAN IDEALISM

A few years ago a kindly gentleman who owns a hardware store in this city, paid a visit to the buildings made possible by the financial assistance of his ancestors. During the course of his walk through the corridors of the university, he examined the number of cigarette butts lying about on the floor. He found that the students who have been successful in their studies are those who have not been involved with the Spirit of Scheuer and are not in the habit of smoking in the corridors. He was shocked to find that, in his absence, there had been a terrible increase in the number of cigarette butts lying about on the floor. He was determined to do something about it.

To the Editor:

I was struck by the number of cigarette butts lying about on the floor of the university, and I was shocked to find that, in my absence, there had been a terrible increase in the number of cigarette butts lying about on the floor. I was determined to do something about it.

Soccer

**Greatly Improved Eleven Will Represent Technology In Game at Tech Field This Afternoon**

A greatly improved soccer team will face Harvard this afternoon on Tech Field when the Beginners meet the Crimson in their annual game. This year marks the first season in which the Beginners have played against the varsity team, and this year's team is expected to be a strong one. The Beginners will be coached by their own team manager, and the game promises to be a highly competitive one.

**It's a great aid to scholastic efficiency**

ONE professor makes this remark, and countless others are saying the same thing. They know the value of a typewriter as a time-saving device, how it enables them to produce their work more rapidly and accurately, and how it helps them to present their work in a more professional and polished manner.

The New Hampshire Mill and Parkers have been very much pleased with the simpex equipment, and both are using it to good advantage. Simpex Wires and Cables is the only company that can supply the quality and type of wire that meets their requirements. The simpex equipment is designed to provide the most efficient and effective solution to their specific needs.
