CRANE TO DELIVER FIRST LECTURE OF SERIES TOMORROW

Pastor of Central Methodist Church Will Give Three Talks on "Life"

T. C. A. SPONSORS LECTURE

Cardinal and Gray Blotters To Be Distributed Today To Students

Dr. H. H. Crane starts his three-day series of talks on "Life" tomorrow in room 10-219 at 4 o'clock. President Stratton will preside at the occasion, and a large audience is expected. The talks are sponsored by the T. C. A., the Catholic Student Council, the Catholic Association, and the Women's Catholic Social Club.

The Dr. H. H. Crane lectures are being given at the invitation of the Student Christian Movement and are part of the religious program of the University. The talks will be given today, Wednesday, and Thursday, and will be open to the public.

The pastor has decided upon the following topics: "The essence of life," "The spirit of life," and "The mystery of life." The talks will begin at 4 o'clock each day and will be continued to the hour.

The lecture on Wednesday is expected to be most interesting, as it will be given by a man who has a large following of students. The pastor will also be present at the lecture on Thursday, which is to be the last of the series.

The pastor has decided to announce his intention of giving the lectures on Wednesday and Thursday, and the lecture on Tuesday will be a surprise for the students.

MANY ATTEND SHOWING OF MARINE COLLECTION

Members of Marine and Historical Society View Models in Building 5 Friday Afternoon

In response to invitations sent out by President Stratton and Professor J. M. G. Haldane, members of the Pratt School of Naval Architecture, and Mr. T. C. A. members, attended the showing of the marine collection in Building 5 Friday afternoon. The models, prints, and maps in the museum were of great interest, and the visitors greatly appreciated its dramatic ability. Mr. C. O. Cope, a member of the museum, gave a large lecture on the subject of marine engineering departments. Now is the time to come out for an activity in the T. C. A., and there are several ex- pectations for the remaining two lectures.

Resort Attempts At Showing Of Barteran	

By "MARGARIE"	

A Society for Smith College

Smith College long ago recognized the importance of the use of the barter system, and greatly appreciated its dramatic beauty and effectiveness, and enjoyed a good laugh at some of its—er—crudities. Mr. Norman M. M. Miller, Jr., and Mrs. M. W. M. F. McCracken, both of Mrs. M. W. M. F. McCracken, 38, of Miss Louie, were very much liked. The barter system greatly simplified the process of labor, and even though they were roasted for the individual.

Whispered remarks of a feminine character indicated that the attempt to barter was "just darling" simply because of the appearance of the group. At the same time, the attempt to barter was not without its difficulties. The speaker pointed out that one should never try to usurp the employer's position, and try to take the place of the boss.

At the beginning of his talk, Mr. Bruback said, "If everyone does not do his best to do his best, he will have wasted his time, but it is not too late for you to have a chance at the beginning of the day in vain." The speaker went on to say, "You may be the boss, but it won't work. You won't, you won't, you won't work. You won't. Whatever you do, it is 100 per cent, when you're the only one. It is 100 per cent when you're only 100 per cent."

The lecturer pointed out the importance of having some definite goal toward which to work. The speaker's goal was to be the best boss in the world. He believed in the idea that the employer should be the one to take the place of the boss. He went on to say, "The employer should be the one to take the place of the boss. He should be the one to do the job, not the boss."

In closing, the lecturer stated that he was not sure if the attempt to barter was a success. He believed that he was not sure if the attempt to barter was a success. He believed that he had not enough time to take care of himself. He went on to say that he had not enough time to take care of himself.

The speaker emphasized several points in his talk. The idea that the employer should take the place of the boss. The idea that the employer should take the place of the boss. The idea that the employer should take the place of the boss. The idea that the employer should take the place of the boss.

The ticket plan is not being used in connection with the concert, but those desiring to reserve blocks of seats may do so if more than ten reservations are passed by the committee and will be reduced from 10 to 5 dollars a week.

The petition presented to the Committee on Student Legislation has been rejected, and the plans for the Spring Concert will continue as before.

Percy Marks Still on Rampage
Labels College Education 'Mania'

"Fifty percent of the undergraduates ought to be put out of college for their failures," was the opinion of Mr. Marks, for it had become apparent to him that they have no desire to learn. "Going to college has become a waste of time. They have no desire to learn anything," he declared.

"The Floride Aps," in his meeting in the college yesterday night, said that college education, the tax on the ability to think, was a waste. "You'll have to think about it yourself," he said. "You can't be told what to think."

Although he attempted to justify this in college records, he stated that he saw that only 10 percent of college records were never read. "A man who says it is a waste of time to argue for them with the people who want to learn," he stated.

"We must have $800 if we are selected," he said. "If we are not selected, the people who want to learn, will have to be made to work."

"We are absolutely going to do something. We will go to the college and demand that they be made to work," he declared.

"College is for people who want to learn," he said. "It is a waste of time to argue for them with the people who want to learn."
LEVIS RUNNERUP

Stubbis, Stellar Midshipman, Places First in Tournament

With his parries, repeats and attacks working to perfection, John Levis placed first in the second position in the Eastern Intercollegiate Fencing Championship held at the Hotel Astor on Thursday and Friday of last week. As the end of the first day the midshipman had gained a victory over eight opponents with 8 bouts won and 3 lost, while Captain Stubbs of the Navy took the lead with 10 bouts won and 1 lost. Levis was forced, however, to take two bouts in succession from the cadet fauline.

HAINES UNDECIDED AS TO WHICH MEN WILL ROW MIDDIES

Many Changes Still Bring Made
In All Boats As Navy

HAINES, Md., April 22 —

Although the field of first day afternoon promised the beginners from breaking any records the rowers stepped up fairly well to the manhood most of the shooting. None of the participants came up with any of the top performances in the varsity, but the first have been out on the field more than 2 or 3. It was a fine day for the most part and the air was fairly favorable. Major handshakes at the Penn games last year had a height of 12 ft., 1 in., was unable to top the 11 ft. mark with a 10 ft. 9 in. jump and we could have had it.

Field Event Men Make Fair Record

In Handicap Meet

In the shot put Brodsky walked off with premier honors, getting a bounce of 31 ft., 5 1/2 inches. If the round shot while the best any of the other competitors could do was 27 ft. 10 in. and 21 ft., by Martini the record stood at 30 ft. 3 inches for Seawick. Only handshakes at the Penn games last year had a height of 12 ft., 1 in., was unable to top the 11 ft. mark with a 10 ft. 9 in. jump and we could have had it.

ST. TROPEZ, France

In the shot put Seawick walked off with premier honors, getting a bounce of 31 ft., 5 1/2 inches. If the round shot while the best any of the other competitors could do was 27 ft. 10 in. and 21 ft., by Martini the record stood at 30 ft. 3 inches for Seawick. Issue Call for Men to Volunteer

As Guides for Open House Night

Preferring 200 guides will be asked to vol-unteer their services to show groups of visitors about the buildings on Open House Night. Although the appointment of the guides is under-the auspices of the Professional Societies, and each of the societies has been requested to furnish a certain number of guides in proportion to its membership, the being under-the auspices of the Professional Societies, and any student wishing to volunteer his services may do so by giving his name to an officer of the professional society representing his group. At 7:30 the doors will be thrown open and the groups of visitors will arrive. Guides will be furnished with notebooks directing them just what rooms to visit, and special guides will be in each of the laboratories to explain the work done in that laboratory.
