TECHNOLOGY TEAM LOSES TO BOSTON COLLEGE DEBATES

Proposal to Enter World Court Overcome by Negative Vote

RENDER 2 TO 1 DECISION
Technology Debaters Present Strong Case Against Opponents

OPEN CAMPAIGN FOR INFORMAL SNAPSHOT SHOTS
Photography sometimes has a way of taking us back to the happy days of our youth. It can capture a moment in time, a moment that may have been long forgotten. The camera has the power to bring back memories, to allow us to see the world from a different perspective. It can be a tool for self-expression, a way to connect with others, to share our experiences with the world.

Coach McCarthy's Men Defeat New Bedford Team by 12 Points

VISITOR'S OFFENSE POOR

New Men and Substitutes Show Up Well in First Game On Varisty

With a stonewall defense, and an offense that would do credit to any team in its first game of the season, the Engineers basketball team managed to squeak over the New Bedford Textile boys, 45 to 12. The Engineers' defense was in excellent form for a fair share of the game, and the offense, after getting a good start, did not reach the regulation length. The red norms were not running at their best, and the Engineers' defense was sharp. The red norms were not running at their best, and the Engineers' defense was sharp. The Engineers' defense was sharp. The Engineers' defense was sharp.

Matter-of-Fact
Voo Doo Bright

Lenger and bolder Voo Doo. The December number is at last bigger and bolder than before, and I have much to say about it. Besides, it is nowwt a month later, so I am really behind the curve. If we were to pick the month out of a calendar at random, it would be exactly 22 months, which, I believe, is the usual date for such a document to be issued. This month, Pooh offers us a special feature on the subject of "The Voo Doo Bright: A Study of the Psychology of Popular Fashion." I must admit this is a subject that I have been curious about for some time, and I am looking forward to reading it very much.

One of the most interesting aspects of the Voo Doo Bright is the way in which it presents its information. The articles are written in a very entertaining and informative style, and they are easy to read. I particularly enjoyed the article on the psychology of popular fashion, which is well-written and thought-provoking. The author does an excellent job of explaining the various factors that influence people's fashion choices, and he provides some very interesting insights into the psychology behind these choices.

I also found the section on the history of fashion to be very informative. The author does a great job of tracing the evolution of fashion over the years, and he provides some fascinating insights into the cultural and social forces that have shaped it. The section on the future of fashion was also very interesting, as it predicts some of the trends that will shape the fashion industry in the years to come.

Overall, I would definitely recommend the Voo Doo Bright to anyone interested in the psychology of popular fashion. It is well-written, informative, and entertaining, and it provides a great deal of insight into the psychology behind fashion choices. If you are interested in this topic, I would definitely give it a read.
HOCKEY TEAM LOSES TO TERRIERS 5-1

Engineers Unable to Pass Martin, Terrier Goalie--B.U. Has Better Teamwork.

Playing a sensational passing game, Boston University defeated a strong Harvard and a strong technology hockey team on Friday evening by the score of 5-1. The team was unable to score for the first twenty minutes but was only stopped by the Harvard goalie and by the Harvard defense, which were unable to prevent a shot of 30 feet or less, except for the first twenty minutes. The team was not able to score for the first twenty minutes, but was only stopped by the Harvard goalie and by the Harvard defense, which were unable to prevent a shot of 30 feet or less, except for the first twenty minutes.

The Boston University players had the advantage of having a first class goalie and the Harvard players did not have any because the Harvard goalie was injured in the first twenty minutes.

On the opening game of the series the two teams played the Harvard forwards against the Beaver forwards, but was stopped by Captain Reed who shot the puck into the goal. Before the end of the first period the Harvard forwards had scored the first goal of the game, which was scored by the Harvard goalie.

The Boston University players had the advantage of having a first class goalie and the Harvard players did not have any because the Harvard goalie was injured in the first twenty minutes.
