From Sign Up Campaign
Lengthened One Day

Sign up sales for the five week period to come up to and including Senior Prom will be held Tuesday and Thursday between 3 and 5 p.m. for the second and third days of Senior Prom. The Cloisters Committee has decided to extend it till Friday. The booth in the dining hall will be kept open today from 5 until 8 o'clock, and next Thursday and Friday from 3 until 5 o'clock. After that, there will be no possible to buy signups from members of the committee. These men are Lee McCamey, Tom Dally, Sid Beckerly, Prentice L. Cole, and Henry G. Bratman.

MERRIMAN SPEAKS TO CIVIL SOCIETY

New Yorker Gives Illustrated Lecture on the Catskill Water System

At a meeting of the Civil Engineering Society at the laboratories of Dr. Karl K. Darrow, Walling last night, Mr. Thaddeus Merri- man, President of the New York Water Supply of New York, described the Catskill Water System of the City of New York. Mr. Merri- man enumerated the difficulties encountered in the construction of the new and high-pressure water system for the City.

Graduating from Elkoh Univer- sity, Mr. Merri- man has had experience in the field of water supply, both in this country and abroad, and recently Lieut. Merri- man has been engaged for two years in the construction of the largest water supply system in the world.

Describes Difficulties

In his presentation, Mr. Merri- man pointed out the geological difficulties encountered in the construction of the project and showed slides of a variety of construction work necessary to bring the water to the City's water tower and the belt of the river.

The Civil Engineering Society of Harvard, Tufts and Northeastern University were present.

MOTION PICTURES TO SHOW PLANT GROWTH

Naturalist Will Lecture And Exhibit

In the sale of "O3 16," Physiology and Botany of Be- neficial Microbes and the Naturalist, will present the results of his motion picture showing animal and plant life this after- noon at 3:30 and 4:30 in North Hall, Walker.

Takes by a slow motion camera driven by a motor of his own inven- tion, these films reproduce the appearance of the plants and animals in their natural environment.

Camera Operates By Clockwork

It required years of study of the natural history of plants and animals who have spent a century in the study of this problem, and the halting of the blossoms. He found that flowers opened every tenth of a second, and that they all opened at the same time. These flowers opened between 45 and 50 percent of the time in daylight, and potassium, and 50 percent of the time in a dark or dimly illuminated room. He also presented a story of the manifold uses of plant life by the chemical industry.

The Chemical Society extends an invitation to its members to bring the stu- dent body to hear those men who are doing the most notable in their respective fields.

How Institute Leaders Feel About A Circus

I am in favor of making the circus an annual affair. There is one circus which has to have a circus this year. Dr. Warren K. Lewis, Head of the Chemical Society.

The Circus would not only be a good medium to spread the word about us, but it would permit us to raise a good deal of money which cannot participate regularly in our income.

Kenneth S. Lord, '26

A circus this year ought to help a great deal in geting the students to come to our school.

President, A. A. A.

AENEA INSURANCE

CHOSEN CLASS WILL BE

DECEMBER WEEK

TECH SHOW WILL BE PRESENTED AT SMITH

This Tech Show will take its usual annual trip to Smith College on April 16, to present its performance. The Stu- dent Finance Committee, composed of O. A. S., M. S. M., W. A. S., and the members of the Executive Committee next week.

After their approval, a mass mail- ing will be made to the university and the details of the policies ex- pected to be sold will be submitted to the Executive Committee.

VOTE TO BE TAKEN SOON

Aetna is Writer of Policies for Several Colleges in Greater Bosten

Aetna Life Insurance Co. has issued a series of policies for insurance companies to adopt as the exclusive policies for insurance for the members of the institutions.

For the third successive year, the Aetna Life Insurance Company of Hartford, a member of the National Association of Life Underwriters, has been selected to write the policies for the members of the Junior Class, which is a part of the annual national convention of the Association in Boston.

President Edgar P. Chandler, President Junior Class.

EXTRACTION LECTURE GIVEN TO TEACHERS

Is Fifth of Series Given By Chemistry Department

Professor Dr. Machin of the Department of Chemistry, who is giving a lecture on colloidal chemistry to a group of teachers next Wednesday afternoon, is the fifth in a series of lectures which is being given to this group of teachers by members of the Chemistry Department.

Dr. Machin discussed the prop- erties of colloids and simplified the dis- tinctive problems from molecular suspensions, on the one hand, and the suspension on the other. The experiments were performed by the use of colloids, particularly of protein colloids, and the solution of the particular colloidal problem.

A motion picture of colloids taken at the University of Wisconsin with the Ultra microscopic microscope, showed the Ultra microscopic result over a distance of one bacterium. All the solutions of colloids, particularly of the effect of proteins, were observed in this way.

A continuation of this lecture will be given by Dr. Machin on March 17.
In the past five years, the Honor System has been on probation in quite a noticeable way. We are told that the College is instituting some changes that will, among other things, strike a blow against the idea of "荣誉系统" in general. We are also informed that the College is considering the possibility of doing away with the "荣誉系统" altogether. In this connection, it should be noted that the College is taking steps to promote a better understanding of the "荣誉系统" among the students. It is hoped that these steps will result in a more just and equitable system of "荣誉系统".

In conclusion, it is to be hoped that the College will continue to make every effort to promote a better understanding of the "荣誉系统" among the students. It is to be hoped that the College will continue to make every effort to promote a better understanding of the "荣誉系统" among the students. It is to be hoped that the College will continue to make every effort to promote a better understanding of the "荣誉系统" among the students. It is to be hoped that the College will continue to make every effort to promote a better understanding of the "荣誉系统" among the students.
FENCING TEAM TO MEET DARTMOUTH DURING WEEK END

Varsity Confident of Victory Over Big Green Team As Hanover

Eager to continue their strike of victories, which has been marred for them this year, but not overcome, as a result of their win, the Technology fencing team will look forward to tomorrow for Hanover, for whom they met the Big Green falloff.

After their victorious trip last week, the Engineers have been holding regular workouts in Walker gym. All members of the team are doing double work, although Captain Cole, the coach, is satisfied that the boys are in condition to win. Although any doubts may still exist, data they have witnessed of winning the Intercollegiates this year. Joe Lavrovsky, Harry Peirce, and Spitz, as well as the men who will make the trip to the New Hampshire college, have been working with the team, the Technology fencing team, and tomorrow, the varsity, the team will begin its tour, leaving nightly. Although Captain Cole's men are in fine fettle, practice tonight, Captain Cole and observe the result of the battle via the radio or other means.

T OF 10

FROSH WRESTLERS IN TRIP TO N. Y.

With the losses of Ross, the 115-pound man, who is out with glandular trouble, the frosh wrestling team left yesterday afternoon on the train for New York. This afternoon the frosh take on Brooklyn Polytechnic, and tomorrow, their third meet of the week will be against Columbia. Ross, the team's top man, will be allowed to compete, so that the team can be very formidable. The event will give the Frosh team an opportunity to show off their abilities. They will stack up alongside of the Columbia team.

COLUMBIA, EATON, HANOVER, MOUNT UNION, RUTGERS, YALE, SHREWSBURY, BRISTOL,

CLASSES WILL HAVE WRESTLING TOURNEY

Interclass Wrestling Meet Is New Idea of Coach

An innovation in wrestling which is expected to be successful is to be introduced this year. The idea is for a single inter class team will be held. Members of the Varsity and freshmen teams will not be allowed to compete, so that men who have not had a chance in the past to compete will have a fine opportunity for action. With the exception of the regulars, all members of the team will be welcome to enter the meet.

In addition, the frosh have offered a cup to the class which scores the most points. The members of the schools will be held, starting on Monday. The actual meet will take place on March 11 and 12. A list will be posted today in Bulletin 13 in order that the entrants for the meet may sign up.

Plans Completed
To Hold A.I.E.E. Convention Here

Plans are being completed for a student A. I. E. E. Convention which is to be held here at the Institute, Friday, May 2.

All electrical engineering students in the College of Engineering at the University of California are invited to participate.

During the convention student papers on various topics of general interest will be read and the afternoon inspection trips will be made to nearby points of interest around Boston. At the banquet in that evening in the Hotel Mtriton, Mr. W. W. K. Lewis, head of the Chem- room 2-1, will be held at 7:30 p.m.

Students desiring to prepare papers for the convention should notify their instructors so that arrangements can be made for their presentation at the meeting. An interesting feature of the convention will be the display of student models and equipment. Arrangements are being made for an exhibit of student projects in this form for 10 a.m. to be given annually by the A. I. E. E.

NOTICES

UNDERGRADUATE

T. C. A.

All men with application cards on file in the student offices will find it to their advantage to fill them out in the second term above shown.

TECH SHOW

Renewal of the Club, Chumkin, and friends will be given at the Dinner Committee in Room 3-1, or at the door, before the performance.

SENIOR WEEK COMMITTEE

Class Day and Monday and members of the Junior Class will meet in the Walker Committee Room at 10 a.m. on Friday, March 25, and on Sunday, March 17, at 10 a.m. at the dinner.

OPEN HOUSE COMMITTEE

There will be a meeting of the Open House Committee in the Commodore Office, Monday, May 5 at 5 o'clock.

ARGENT SHOW

Tickets for the Sargent show 1926, "Two Bluecoats," will be given at the following rates: students 25 cents, faculty and staff members 50 cents, and the general public 75 cents.

CHEMICAL SOCIETY MEETING

There will be a meeting of the Chemical Society in the North Hall, Walker, at 8 o'clock. Dr. "Chemical Engineering Department and Mr. W. F. Calvert, president of the Chemical Society, Inc., will be the speaker. All members of the society will be present.

MUSICAL CLUBS

Members of the Music Club will be held for Wellsberger tomorrow at 9:30. "Black Venice" will be played and various vocal selections will be sung. The last car on the train has been reserved for the Club and extra cars will be provided for all members. Extra coat check will be used to wear his rod and gray ribbon.

Goblin Performs
Engineering Feat On Second Visit

In the two and a half weeks following the last tour of the Sargent show, the students have prepared for the second inspection trip of the show. The show has been moved from the second to the third floor, and the students have had several opportunities to see the show. The students are expected to be present at the meeting, which will be held at 7:30 p.m. on Friday, April 22. Any further instruction will be given at the meeting.

McKernon Talks on Associated Press

Mr. F. B. Goddard, president of the Associated Press, will address the students at the Institute. Mr. Goddard will speak on "The Press," and the meeting will be held in the Walker Cama Room.

The reliability of Cake Box is the result of 30 years of vigilance care and constant improvement. This has resulted in the production of a product that is second to none in the field. A new way of integration to obtain power enables the camera to be used in any number of positions and is easily adjustable to the picture being taken.

Undergraduate

To hold a convention here, students will find it to their advantage to fill their applications for admission to the second term above shown.
