TECHNOLOGY WILL HAVE 1926 CIRCUS

BASKETBALL TEAM MEETS HOLY CROSS IN FINAL CONTEST

Game Will Be Held in Hanger Gym. An Preliminary to Tournament

FORESTERR'S LAST GAME

Team Anxious to Close Season With Victory Over Purple

Tomorrow night in the Barney gym Coach Montgomery will have his Gray basketball team will wind up their season with the Holy Cross quintet, the result of the game will be the final entry of the inter-scholastic basketball season for Eastern Massachusetts. This marks the first time in Eastern Mass. history that an institute in several years, it is also their last game in the Crusaders this season.

Opening the game will be the T7 of Dartmouth, consisting of the usual varsity and sophomore units. The second unit will consist of the remaining varsity units in the lineup and the third unit will consist of the remaining seniors in the lineup. The second unit will have the advantage of having the majority of the players being seniors in the lineup.

TAX INCREASE IS FORMALLY RATIFIED

Institute Committee To Send in Definite Approval To Corporation

It was decided at the regular meeting of the Institute Committee last Monday night to send in the following resolution:

To the Corporation: We, the undersigned, being members of the Institute Committee, do hereby formally approve of the increase of the subscription of the Student Tax, and this that all efforts be made to further increase the Institute's income. The request of the Institute Committee was authorized to appoint a committee to draft the resolution.

It was announced that the first time the Faculty of the Connecticut Institute will have the opportunity to see the Parade of the Institute Committee in the Institute.

The following members were elected to the committee:

L. S. Lord, Chairman; and Frederick Whalen.

PRESCOTT WILL GIVE GRAND CIRCUS ON FOOD SUPPLY

Professor Samuel C. Prescott, in charge of the Department of Biology and Public Health, will give the fourth and last lecture of the course in the year of the Industrial Lecture. The session will be "The World's Food Supply and the Sources and Preservation." Food technology will be the principal topic to be discussed under this heading. The lecture will be illustrated by slides, specimens, and motion pictures. The lecture tickets are available and may be obtained at the Information Bureau.

Disposal of sewage depicted in movies

Under the auspices of the Civil Engineering Department, Professor D. C. Hovden, of the faculty, are preparing a series of movies depicting the new advanced sludge process used at Somerville for the disposal of sewage will be shown at 3:00 p.m. today in room 4389.

This process involves forcing air through the sewage to supply oxygen to the bacteria present. As the oxygen is taken up by the microorganisms, which, according to scale, seek oxygen, the sewage gas is released. This process is used in the treatment of sewage and the sludge is then properly used in the fields of agriculture.

Circus Committee chairman

H. M. Boardman '26

NAMED AS HEAD OF CIRCUS COMMITTEE

Dr. James F. Norris, the manager of the department of Chemistry in the Institute, recently addressed the Harvard students at the Boston City Club.

"What Chemistry is Doing for the Automobile" is the title of the talk which Dr. Norris delivered at the club luncheon. He described the uses of various chemicals in current modern industry and in the future, the chemical engineering departments. The public utility men warned that it would not be possible to give one term of instruction at the General Electric company.

Jonathan K. Pick, briefly reviewed the course structure and the installation of the course tax. In the future, this will be supported by the public utility men. He added that the public utility men would not be able to give one term of instruction at the General Electric company.

DR. JAMES F. NORRIS TALKS ABOUT CHEMISTRY

Dr. Norris is the chairman of the department of Chemistry in the Institute. He was recently appointed to that office and has been at the Institute for the past ten years. He is a member of the American Chemical Society and has been active in many of its committees.

The Annual Convention of the American Chemical Society was held in Boston last year, and Dr. Norris was elected to the council of that body. He has been active in many other scientific organizations and has contributed numerous articles to chemical journals.

Norris is the author of several books dealing with Organic and Inorganic Chemistry.

The Annual Convention of the American Chemical Society was held in Boston last year, and Dr. Norris was elected to the council of that body. He has been active in many other scientific organizations and has contributed numerous articles to chemical journals.

In his lecture, Dr. Norris reviewed the course structure and mentioned the installation of the course tax. He said that in the future, this will be supported by the public utility men. He added that the public utility men would not be able to give one term of instruction at the General Electric company.

The lecture was attended by several hundred students, and Dr. Norris was introduced by Professor E. H. Loomis.

CALANDAR

Wood Stamps, 10:00 A.M., Friday, March 15

Parades and processions are to be held in the Institute, and the proceeds will be used to provide funds for the Armory. The parade will include floats and a march by the student body. The parade will start at 10:00 A.M. and will proceed to the Armory.

Norris is the author of several books dealing with Organic and Inorganic Chemistry.

He added that the public utility men would not be able to give one term of instruction at the General Electric company.

The lecture was attended by several hundred students, and Dr. Norris was introduced by Professor E. H. Loomis.
The OPEN FORUM —

Conclusions in this department are welcome and it is the desire of the Editor to present in this manner the conclusions arrived at by the Editor and others, so that they will be considered for publication. Here you will see a discussion of the present status of Technology, the future of Technology, and the relationship of Technology to other fields of study. This issue is designed to stimulate thought and discussion about the future of Technology.

To the Editor:

A recent discussion with a few nonathletic friends brought the point out that if the proposed schedule of athletic events is granted by the Corporation, it will not only result in the furtherance of Technology's honored policy of athletics for the mass of men, but will also provide trips for the various teams for the various weeks of the year. The idea of a larger group of athletic events would be a great boon to the students of Technology.

I believe in all probability that officials of the Athletic Association could do a lot of good on this subject, as they are the ones who will be able to decide whether the money is to be spent for a combination of ready-made athletic policy or whether it shall go into the hands of the directors.

(Rigged) A Second.

The CIRCUS — IT'S UP TO YOU!

The Leopold has had this idea all along, and the idea of circus stunts in the last circus was excellent; and if those presented this year did not have the same, we will have to blame the idea.

It is this desire of the story of this great leader, for all concerned that much!

Sundays

P R O F E S S I O N A L S

The Editor curies the correspondent for not signing his name, there being no rule about his permission to the "Open Forum." However, the Editor feels that he has made his point, and feels it his duty to pass on the subject of the "Dormitory Gobbling" to the Dean, whoever he, she, or they may be. Any suggestions are welcome. The Editor is working on the "Open Forum."

A certain student who attends will be the same as it was then, "We want to improve not only the standing of the students, but the reputation of the institution, and not least, to make our little institution known in the outside world."

The Editor feels that the publicity is going to be beneficial to the institution.

We wait with confident expectation for the stories that are to come before long. Thus the Faculty will see that the publicity is going to be beneficial to the institution.

SPONSORING ON THE ATHLETIC SITUATION

Speaking on the athletic situation in relation to scholarship, Professor Paul Moody of Middlebury College asserted that when scholarship is put rigorously in its place, it is possible to carry the athletic program, and then to carry the athletic program further.

Speaking on the athletic situation in relation to scholarship, Professor Paul Moody of Middlebury College asserted that when scholarship is put rigorously in its place, it is possible to carry the athletic program, and then to carry the athletic program further. This comes in culminating the yearning for a Ford car in the minds of the thinking men.

The most important part of all is that in doing all this, he has not only the approval of all, but has also obtained their whole-hearted cooperation.

One must review briefly Italian history of the past century. At that time the land we now call Italy was composed of many small and independent states. For years this ideal for national unification of the fact that they were isolated and insignificant. This ideal has now been realized.

Benito Mussolini has saved Italy from national destruction, he has united the people by what they do, not by dictionary definitions. Mussolini has chosen "Il Duce" as a symbol of the idea, and then proceeded to carry them out. That man was one of the most great men in the history of the world. He has set up lawful authority, and inculcated respect for it. And the most important part of it all is that in doing all this, he has not only the approval of all, but has also obtained their whole-hearted cooperation.

What more is possible for a man to do for his native land?

In conclusion, let me emphasize again that the primary purpose for which we are here is to develop along the lines that have been outlined for which.

Theodore H. Dana '28, John Lovejoy '29, W. E. Ruch '28, .... Advertising Manager

W. E. King '28, .... Circulation Manager

F. E. Anderson '27, Managing Editor

The most important part of all is that in doing all this, he has not only the approval of all, but has also obtained their whole-hearted cooperation.

ANONYMOUS MEMBER OF THE CLASS OF '28: To the Editor:—Why cannot the authorities realize the yearning for a Ford car in the hands of the thinking men? They have received Vote 10, and claim to have received 50, but for no reason.

The Editor will realize that游泳池s are those nearly forgotten ideas so that textbooks may be made obsolete more quickly.

The Editor is working on the "Open Forum." He feels that it is his duty to pass on the subject of the "Dormitory Gobbling" to the Dean, whoever he, she, or they may be. Any suggestions are welcome. The Editor is working on the "Open Forum."

I certainly seem to point towards a line up in this unofficial game. Things made by freshmen. Being first year score. The significant part of the University.

ANHEUSER-BUSCH ST. LOUIS

S. S. PIERCE CO.

HUDSON, MASS.

Back in the days of Dobbins... when the college shook (then known as the "docks") gave him a great gift which around the campus on Sunday afternoons, Anheuser-Busch was generally known among good fellows.

And today, when we do sixty miles an hour without hurry... and good mixers are popular everywhere.

BUSCH (A) PALE DRY

is the favored drink of college men because, like the college man, Busch Pale Dry is a good mixer everywhere and every time.

OFFICIAL "XER 52"
A special examination in XER 52 will be given on Monday, March 15, from 12 to 1 in room 1471.

UNDERGRADUATE WRESTLING
Today and tomorrow the wrestling matches will be in the Walker Memorial Gymnasium for the Interclass meet.

CIRCUS COMMITTEE
The entire Circus Committee will meet in the Committee Room of Walker Memorial next Tuesday at 12:00 o'clock.

LUTHERAN STUDENTS
The Lutheran Student Association of Boston will meet at the evening at the Phillips Brooks Home, Harvard. Rev. C. F. Krey, national secretary, will be the speaker. Rev. Mr. Street will preside at the Association service Sunday afternoon. Lutheran students of Tech are cordially invited.

MECHANICALS POSTPONE TRIP
"The Trip to the Workingmen's Steel Forge Plant, which was posted for this afternoon has been postponed until Friday, the 17th.

DEBATING SOCIETY
There will be a meeting of the Debating Society Tuesday at one o'clock in room 330.

PHILADELPHIA WIRE ROPE
"The Importance to Chemical Theorists of a Knowledge of the Physical Properties of Solutions," will be the subject of a paper to be delivered before the Philadelphia Section of the American Chemical Society, by Edward Heessel, Professor of Chemistry, Boston University, on Thursday afternoon, March 11. Copies of the paper may be reserved in advance by the address given in the Advance Notice.

ELIMINATION CONTESTS FOR THE CHAMPIONSHIP OF EASTERN MASSACHUSETTS
This afternoon at 4 o'clock the semi-final matches of the championship tournament to be held in the Hangar Gym marks the opening of the Interclass Elimination Tournament for Eastern Massachusetts. The victorious team will be in the history of the Institute that any thing of the kind has been attempted. Coach Henry P. McCarthy of the"Fighting Engineers" is the head coach of the Institute team, who is expected to produce a team that a competition of this kind is sure to produce. The winning team will be the champion of the semi-final round, and the tournament will be started.

The seating capacity of the Hangar has been increased considerably in order to take care of the overflow crowds, by the setting up of the knock-down bleachers. In addition to this every facility is being provided to accommodate the players and spectators.

Mr. McCarthy announced the opening set of an all-Tech team to be played on Friday. In the opening set the Boston-Bromfield will meet the second set Salem High School and the third set Lowell High School. This will complete the competition in the upper half. The lower half will get under way at 7:30 o'clock tonight when Lowell Tech and Plymouth Tech will compete for the champion of the first round. In both matches the Suehach and Medford will be present.

There will be no competition Saturday morning, the second round of compition not getting under way until 4 o'clock when the winner of the Brockton-Bromfield will meet the winner of the Salem-Lowell match. This will complete the competition in the lower half. The lower half will get under way at 7:30 o'clock tonight when Lowell Tech and Plymouth Tech will compete for the champion of the second round. In both matches the Suehach and Medford will be present.

As a preliminary to the final game that is to be played on Friday, an exhibition match will be played on Thursday afternoon, March 11.

There will be no competition Saturday morning, the second round of compition not getting under way until 4 o'clock when the winner of the Brockton-Bromfield will meet the winner of the Salem-Lowell match.
