ADVISORY COUNCIL
COMMENDS ACTION OF TITLE HOLDERS

Intercollegiate Titles In Fails And Tumbling Held By Institute Men

STRAIGHT "T's" AWARDED

Propose I. C. A. A. A. and New England Meets Be Named For Rugby

At the monthly meeting of the Advisory Council on Athletics held last evening the council went on record officially commending two members of Institute athletic clubs who in two weeks captured two intercollegiate titles. Last Friday Joseph V. L. Lets '26 won the intercollegiate foil title and on Saturday Arthur R. Bergey '27 secured the intercollegiate tumbling title. Records on both of these contests and results of other Institute contests are on the agenda for next week's meeting.

In most recent approval proposed the council will meet on the same night next week to give consideration to new contests being arranged for this year.

THEORETICAL ASPECTS.

Course XIV holds first meeting of the year in room 10-250 tomorrow at 4 o'clock. Professor E. E. Hageman, who is one of the number of instructors in the school of science, will discuss the theory of waves in a complex sphere of reasoning, and, as a result of this reasoning, how theories can be obtained from the structure, formation and composition of the earth's interior.

CHARLES MOORE TO GIVE ALDRED TALK

In continuation of the Aldred lecture series, Charles Moore, of the Carnegie Library of Washington, will speak in room 100-499 on Friday at 3 o'clock. His lecture will be a continuation of the subject of art which he discussed in his previous talk in the series. Moore is a member of a number of art societies, and is a noted art historian and art educator. He is chairman of the National Capital Art Association, which is a number of art societies, and is a noted art historian and art educator. He is chairman of the National Capital Art Association, which is recognized as the national art body of the United States.

MAD HATTER'S ELVEN PIECE ORCHESTRA WILL PLAY FOR DANCING

The orchestra will be played for dancing by the Mad Hatter's Elven Piece Orchestra. The dance will begin at 7 o'clock and continue until 11 o'clock.

STANDING OF COURSES

Seniors To Close Endowment Fund Campaign Friday

Executive Committee Reports Nearly Half of Seniors Have Subscribed

Meeting Held at Rogers

Members of Three Courses Have Made No Contributions to Fund Date

With but three days remaining of the Senior Endowment Fund Campaign, there are over 175 members of the class who have not signed for their share of the Endowment Endowment, according to the Executive Committee reports received yesterday. The Executive Committee of the Senior Class is composed of the following: 

Dr. Tweedy Gives First of Series of T.C.A. Talks on Religion and Science

"Jazzing Life" To Be Subject Of Talk Tomorrow Noon In East Lounge

"There is absolutely no conflict between the idea of jazz and the world views through science," said Dr. Tweedy in his opening talk of the series. He went on to explain that jazz is "merely transposing the world's work of God" and that the source of the music is the "outside world" and not the "inner world." Dr. Tweedy ended his talk by saying that "the jazz musician is not a composer but rather a transposer of the music of God." His talk was well received and the audience was left with a lasting impression of the music's inner meaning.

SOMAN TO LECTURE ON ELASTIC WAVES

Dr. Robert B. Soman, research geologist with the Carnegie Geological Survey, will give the first of the series of lectures on "Science and Religion" on Wednesday afternoon, June 10, in room 10-250. His lecture will be on the topic of "Science and Religion in the History of Man." The lecture will be open to the public and is expected to be of interest to anyone interested in the relationship between science and religion.

Dr. Tweedy's lecture was well received and the audience was left with a lasting impression of the music's inner meaning. The lecture series is expected to continue throughout the summer, with each lecture focusing on a different aspect of science and religion.

CREWS SHOWING IMPROVED FORM

Changes Made in Varsity Eight Prove Effective—150’s Showing Fine Form

Technology’s four major crews are making rapid strides for-
ward in their rowing techniques. The practice spins on Monday
and Tuesday, has been highly gratifying, and showed marked improvement
over the work previously displayed by the respective eights.

The Tech Eight crew has been working on its individual pieces
out the boat, its return to Harvard for the first time in several years.

Outfitting the men in a highly polished condition, the former
year’s Harvard schedule has shown marked improvement, and the

hotel man, determined to

secure the best possible combination for the next two years, and a
program of shifts and changes. Larry

day, who was shifted in the January
last week, has regained his seat at number four on the Varsity shell, re-
placing Dave Doonan, who went back to his old position on the one
crew on Friday. Albert Latham’s shell was the only one which

in the course of several days. Cobalt

day with Mark Greer’s return to

school last spring, several days’ presence and return has added
of like a fuse to the crew, and the
display of magnificent form on Monday, when the Light Blues rowed
the rainiest weather, yet they were able to row.

Whispering Waves

A recent visit at the boathouse was Coach Ed Stevens of Harvard, Bill and Ed discussed the coming regattas of the present season.

It is an inspiration to watch Bill Latham’s crew in action. Bill Latham’s Red crew had little difficulty in beating Mr. Hayes’ green eight and the fact that the Green team has been troubled with a sore back and was

without Eames as the manager.

The men are all experienced, however, and have passed out at the finish.

M.I.T. T.A.A. ELECTS NEW MANAGERS

Riley, Adler, DEMPWOLF, and Whitney Chosen For New Positions

As the winter sports have been in progress, the instant main
agents have been on edge from the four
teams. The captains of the managers of their particular sport. The M. I. T.
T. A. A. has exactly nine members for the winter sports, including
swimming, soccer, and track teams. The track men have been making

improvements in the Tech Eight boat for the past several weeks and reports
that the men are in splendid condition. At the present,

The Tech Eight crew has

been given a "by and" by several

officers in the few modern busi-

nesses that does just that.
