To Address Seniors: At Today's Lecture

**Mr. Charles Moore**

**ALDRED LECTURER, TO SPEAK ON ART**

Mr. Charles Moore will present the first Aldred Lecture today on the "Fine Arts of Workmanship." In his talk on Course XV, Professor Davis will give the design of Elmer C. E. Mulhlenberg '27, and honorable mention will be given to the designs of Ingraham '26, both of Course IV and Millett '26, of Course II. The panel of judges for the award will also be present. The lecture will be held in room 16-250 at 7:40 o'clock.

**FINANCIAL BODY IS ABOLISHED BY UNDERGRADUATES**

Important Duties of Body Are Added to Functions of Budget Committee

Retirement of the council to shed the overcoat of the Finance Committee, and to have the important duties included in the charge of the Budget Committee. The Council was given the title "Budget Committee" by the Undergraduate Senate last April, but more recently the Undergraduate Budget Committee in turn reorganized so that the council's position in the budget making process was no longer a well defined one. The Finance Committee, therefore, has been abolished.

**CIRCUS EXPENSE COVERED**

Provision Made for Institute Committee for Freshman Technical Institute

The expenses of the Freshman technical institute have been covered by the provision of a fund. At the request of the Freshman technical institute committee, the council voted to allocate funds to cover the expenses of the institute. This action was taken in order to provide a financial base for the institute.

75 MEMBERS MAKE TRIP

Tech Show 1926, "Too Many Bro-others," will be presented tomorrow at the Front Street School in Northampton. The entire audience of the school will be treated to an evening of entertainment that will include music, drama, and other features.

**ACTIVITIES TODAY**

Three First-Aid Farms Will Be Held Today

The first-aid farms will be held in the morning and afternoon. The morning farm will be held from 9:00 to 11:00 o'clock in the morning, and the afternoon farm will be held from 1:00 to 3:00 o'clock in the afternoon. All members of the Freshman technical institute are invited to attend.

**BRADFORD RECEIVES HONOR IN LONDON**

Boydell receives award for his lecture on the history of science.

Boydell has been awarded the Gold Medal of the Institute for the promotion of Science, which is presented annually by the Royal Society of London. The medal is given to a person who has made a significant contribution to the advancement of science.
Another View On the Prohibition Question Presented By a Supporter

As the writer has been familiar with the study of law for many years, he wished to present a view which was not commonly heard. In this article, he will try to show that the arguments for and against prohibition are not as clear-cut as they may seem.

He begins by stating that the debate on prohibition has been going on for many years, and that there are many different opinions. He believes that the arguments against prohibition are not as convincing as they may seem, and that the arguments for prohibition are not as clear as they may appear.

He goes on to say that the prohibition movement has been successful in many places, and that it has been able to make changes in the laws of many states. He believes that the prohibition movement has been able to make changes in the laws of many states.

He concludes by saying that the prohibition movement has been successful in many places, and that it has been able to make changes in the laws of many states. He believes that the prohibition movement has been able to make changes in the laws of many states.
LEVI'S STAR OF RECORD

LAMBD A CHI ALPHA DEFENDS DORMS TO WIN CHAMPIONSHIP

Fast Floor Play and Accurate Shooting Lead Win of Fraternity

Firing a picked team from the dormitories for the intramural basketball championship, the Lambda Chi Alpha Fraternity won from the dorms in a rather exciting contest of 18 to 16, to take playing place yesterday in the Hangar Gym. The Lambda Chi's team had previously contended for the interfraternity basketball championship by defeating the Petas in the final contest of the series.

From the very start the lead was taken by the fraternity men and they were never headed. The Lambda Chi's were able to handle the basket much more accurately than the dorm men and they also displayed considerable superiority in passing, which was not so true in getting the ball from one player to another. It was quite evident that the dorm men were slightly behind in skill as well as in numbers, and the Lambda Chi's were anxious for their winning victory.

By John O. Sullivan '29

Seven victories and two defeats is the enviable record set up by the Engineers in fencing in their season just closed. By utilizing the comprehensive team work they have done much to further the interest in this sport throughout the Institute. They have gone through the entire season without the services of a coach, although the aid of an instructor was available for a successful fencing team last season when the fencing season was opened and the men went wide of the mark.

Recent members of the Lambda Chi team were the outstanding star of the team. Through the double-elimination round of fencing and floor, in two free losses, Henry, who has been the member of the Lambda Chi during the past year, distinguished himself as the champion, had the scoring eye and quick anticipations to place the floor, and a fine team, under the fraternity's influence, brought in the best results.

Matches won, 7; Matches lost, 3. Individual Foils honors won by Joseph Levi at New York Intercollegiates.

The price range is from $35.00 and up. They are ideal for anyone desiring a coat that will last through many winters. The fabric and tailoring will not only stand close inspection but give to the owner service and long wear.

Our prices are less-quality and quantity assured.

The store for men. A men's and women's apparel store.

Simplex Wire and Cable Co.-
Manufacturers

Simplex Wire and Cable, associated with rubber, paper or varnished cambric and covered with braided, lead or steel armor, are rendering satisfactory service in many of the larger power stations of the country.

GOLFERS PRACTICING FOR SEASON MATCHES

Many Veterans To Be Working Long Hours

This year the Golf Club has arranged a very attractive schedule. In addition to six games that will be played at Worcester, Providence, West Point, Efforts are being made to encourage as many men as possible to try out for the team. Contrary to the general opinion of many men, it is a very good sport and there are still quite a few openings.

Although no freshman team has been announced, the club is aiming to cultivate as many men as possible in order that there may be more than sufficient for the various classes that will be formed.

Entries Wanted For Fraternity Relay

There will be an Interfraternity Relay for the fraternity Track men on Monday. Any fraternity track men may enter this race and should hand in their names at the track house by noon Saturday preceding the meet.

In spite of the inclement weather of the past few days, Manager Art Tacy, who is in charge of all Institute baseball, has formed the first call for candidates for the various class teams. Tacy requests that candidates for all class teams report this evening at 5:30 at his office for the purpose of selecting up and getting a line on the prospects.

Although equipment is very desirable, it is not necessary for the men to have it at this time as the main purpose of the meeting is to get the men out and outline the season. So each team has but one game a week and one practice night, baseball will not be up much time and we hope that all men will be able to make good on the next meeting.

With the intramural season starting Thursday, the fraternities and dormities will get under way soon and space on the diamonds will be at a premium. Just at the present time several men are needed as candidates for freshmen intramurals, all of the others are managerial berths being grabbed up by seniors now.
DOCTOR H. TWEEDY
CONCLUDES TALKS
AT THE INSTITUTE

Spoke In Room 5-330 Yesterday
Day On "Prayer and The

In the last of the series of talks on Intense and Religious topics, Dr. Henry H. Tweedy of the Y. M. H. A. School spoke on "Prayer and The
