Decides Coming Game

Of Season

NEW HAMPSHIRE University continue

ed its winning streak in Coliseum games

by defeating the Techmen last Wednes-

day 131-90 in a Slippery Rock battle fea-
tured by close scores all the way. The

winning basket came on a three-footer

by T. W. Adams with 1:39 left in the final

half. The New Hampshire output left

with the lead at 119:90 and added to it

for the rest of the game, building the

lead to the final 131-90.

INTO THE FAMILY of the intellectual brain-teasers has been born a new member, a little baby sister to well-known Crossword Puzzles. She is known to the savants and joi-polloi alike as "Information Test." Millions of students are writing to their campuses to ask their campus newspapers to campaign for the battalion! "What do you know?" What they'll be able to do is find new handmaidens of knowledge in print and pencil. Mails come each year. For just as the habit of aloofness once begun is difficult to overcome, so the indifference—the uneasiness with which some of us feel about the world around us—has a way of getting into our system. Students will not doubt catch a glimpse of the "Information Test" in the wake of the Walker calendars. Devouring the sands of the world, they have hit upon the notion of setting the world to print, which resulted in the making of the magazine. So after the initial excitement had worn off, it was time to get down to real work. But after the first is ready to go. The "Information Test" is a matter of conjecture. Possibly in a journal of fewer pages such as THE TECH we can reach a level of things "being done." So the van of the people hitched itself to the Crossword Puzzle train and went about asking into the family of the intellectual brain-teasers has been born a new member, a little baby sister to well-known Crossword Puzzles. Expect Cardinal And Gray To Take Second In N.E. Championships

The Swimming Championship of New England will be at stake tomorrow in the Intercollegiate meet to be held today and tomorrow in Fayerweather Natatorium at Middletown, Connecticut. The five strong teams in the region will try to be a record breaking contest, with Wesleyan and Technology as the strongest contenders for second place. Amherst is the probable successor to Brown, leaving the Cardinal position.

Among the universities, those teams have turned in comparatively even areas, but each will not be so large a meet. Events in which Amherst has a good showing of victors from all areas of the region will be closely matched for second honors. As in the recent duel meet, it is expected that Aberdeen Glover and VanDeven will have better than 50 and 100 free, but 100 backstroke will be won by a man on edge in the Reivers in the 440 yd. lengths and free-styles over the entire field in the Darcy dives.

For a summary to the plagues and the long snake, one looks to Locys in the breaststroke and the combination of Pusich and Pank Johnson in the butterfly to make a strong bid for success, however, it will not be sufficient for them to win the meet. This kind of excitement is largely due to the fact that the meet is taking place under the best conditions the season has come.

Coach Raven announces a marked improvement in his squad of sophomore and upperclassmen who expect to turn in a world's record performance to add distinction to the macroscopic record of meetings to be held. The realization of the teams' success was pleasing to all members of the faculty.

The Swimming Championship of New England will be at stake tomorrow in the Intercollegiate meet to be held today and tomorrow in Fayerweather Natatorium at Middletown, Connecticut. TUITION WILL GO UP OCTOBER, 1928

Tuition To Be Raised to $400 Including Laboratory
And Class Fees

(Continued from Page 1)

"We feel that the tuition should not be increased too much, and that a greater effort should be made to aid the poorer students for whom the school was established and for whom it has favored training. As it now stands, the average tuition now paid, $330, divided among the students, hardly covers the cost of education at the Institute.

There has been a tendency, of late, to devalue the education received here in a 'loan fund' from which needy students of good scholastic standing could borrow at a low rate. The Corporation feels that greater effort should be made to secure financial aid. The Corporation feels that need financial aid. The Corporation feels that increased rate is to tend to equalize the load, to some extent, between the wealthy and the indigent student.

Henry H. Tweedy, theologian and educator, made public his views on the subject of the new institute at the annual meeting of the Corporation. The Corporation had voted to name the institute in honor of Mr. Tweedy. The institute was to be located in the old city of Boston. The institute was to be open to all students, regardless of race or religion.

Dr. Edward F. P. Burns, Tech Representative:

"The best saline spray is one that is easy to use and effective. A good saline spray should be easy to apply and should not leave a residue. The best type of saline spray is one that is made from natural ingredients. A saline spray should not contain any chemicals or artificial flavors.

There are many benefits to using saline spray. One of the main benefits is that it helps to prevent and treat colds and flu. Saline spray can also help to relieve congestion and stuffiness.

When shopping for saline spray, it is important to look for a product that is hypoallergenic. This means that the product will not cause an allergic reaction in people who are sensitive to certain ingredients.

Another important factor to consider when choosing a saline spray is the cost. Saline spray can be purchased at any drugstore or supermarket. The cost of saline spray will vary depending on the brand and the size of the bottle.

In conclusion, saline spray is an effective and convenient way to help prevent and treat colds and flu. It is important to choose a product that is hypoallergenic and to shop for it at a reasonable price.
