Interest in this year's Senior Prom, which is to be held in the Grand Ball Room of the Plaza Hotel, Hibbert '27 said, "Every freshman has his ideas as to how he will arrive at the Prom, but there is one rule that has been originated and revised by the Freshman Council. The council has decided that President Stratton will arrive at the Prom the evening of June 8, and that he will be greeted by a "hula" tune and by some students who will be wearing leis, shells and other appropriate costumes."

At the present time, the students of the class of 1927 are occupied with the arrangements for the Prom, which will be held on Saturday evening, June 8, in the Grand Ball Room of the Plaza Hotel. The Prom will begin at 7:15, and it is expected that the President will arrive at the Prom at 7:30. The music will be provided by the orchestra of the Boston University Symphony, which will be conducted by Dr. Samuel W. Stratton, President of the University.

In making the presentation of the diplomas, President Stratton will be assisted by the members of the class of 1927, who have been delegated to a Freshman Council to regulate the proceedings of the Prom.

Elaborate Program For 1927 Alumni Convention

The program of the 1927 Alumni Convention, which will be held in New York on June 10 and 11, has been originated and revised by the President of the Senior Class, who received the class honor from the representatives of the alumni body.

Mr. Whitney, who has been associated with the University in various capacities for many years, is expected to be present at the Prom, and it is expected that he will give Benny Levinson and two others ducking in the pool, in keeping with the rules as follows:

1. All freshmen should wear regular winter street shoes.
2. Freshmen are expected to speak to all members of the faculty and their guests.

This afternoon your Class of 1927 passes from undergraduates to graduates. This is a day of business and industry as a new alumnus of Technology. You have now achieved the aim for which you have labored for four years. The first step in the study of Physics, Chemistry, Mathematics and English is completed. We who still remain students will try to see to it that your accomplishment is not in vain.

Next year we shall miss your familiar faces in the corridors and in the activity offices. Your places have been hard to fill, and we want you to realize that we, as juniors, appreciate the work you have done—In a scholastic way and for the advancement of Technology.

You are going out on a new voyage and it is not going to be an easy one. The degree which you receive today and which you have struggled toward for four years may not mean a great deal on this voyage of yours. We want you to depend on that you are Technology men, that you have studied the scientific method of thinking and working, because we feel that you are fine engineers, but they are especially valuable after they have been out of school about two years, for by that time they could be grown men.

There is one thing about the voyage of yours. We want you to be an easy one. The degree which you receive today and in the activity offices. Your places have been hard to fill, and we want you to realize that we, as juniors, appreciate the work you have done—In a scholastic way and for the advancement of Technology.

Your parents who have made possible the commencement of his class. The class president was called upon to make a speech to the alumni unit of Technology.

IN ANY group of regular fellows, you'll find Prince Albert. It belongs. It speaks the language. You get what you want the minute you tamp a load of this wonderful tobacco into the bowl of your jimmy-pipe and make fire with a match.

Cool as a northeast bedroom. Sweet as a flower. The tho of bite and parch removed by Prince Albert's special process. The nicotine and tar content are lowered to the lowest possible point.

A tobacco the great smokers of the world have been waiting for. A tobacco that will change the idea of pipe smoking for you. A tobacco that will make you recognize pipe smoking for what it really is.

Buy a tidy red tin of P. A. today. Throw back the hinged lid and breathe deeply of that real tobacco aroma. Then . . . take a neat pull into the business-end of your jimmy-pipe and light up. Now you have it . . . that taste! That's Prince Albert, Fellows!
