

FRAMED PICTURE PRESENTED M. I. T. BY JAPAN'S NAVY

Gift Is Given As Tribute To
What The Institute Has
Done for Japan

NOW HANGING IN LOBBY

Fifty Japanese Midshipmen To
Make Inspection Tour
This Morning

Rear-Admiral Osami Nagano, Commanding the Japanese Training Squadron, now in the Boston Harbor, presented a framed picture, the gift of the Imperial Japanese Navy to the newly erected dormitory group with the following message from Captain Komachi of the Imperial Japanese Navy, A. D. C. to the Minister of the Navy.

Imperial Navy Department, Tokio.
August 30th, 1927.

Mr. O. B. Denison
Mass. Inst. Technology
Cambridge A, Mass., U. S. A.

Dear Sir:
In token of appreciation of the Imperial Japanese Navy for what the Technology has, through the Technology men in the service, done for the Navy, a framed picture, as a present to the newly-erected dormitory, has been entrusted to Rear-Admiral Osami Nagano, commanding the Training Squadron, which is expected to visit the Boston Harbor sometime in the coming September.

The gift, though trivial, will, I hope, serve to voice what our Technology men gratefully cherish in their hearts for the Technology where they were inspired with what the institution stands for.
As to the exact position of the picture, I leave the whole matter to your discretion.

Yours very truly,

(Signed) W. KOMAKI,

Captain of the Imperial Japanese Navy, A. D. C. to the Minister of the Navy.

Admiral Nagano and his Aides visited the Institute Friday morning and in the absence of President Samuel W. Stratton, presented their gift to Orville B. Dennison '11, Alumni Secretary. Fifty or more of the Japanese midshipmen will be the guests of the Institute on a tour of inspection Monday morning.

For the next three days the picture will be on exhibition in the main lobby. It is about three feet by four feet over all and hand made of silk. The setting is that of a wild duck flying in the moonlight. The silk constituting the figure of the duck is so finely worked as to give an exact likeness of feathers.

T. E. N. ON SALE BY OCTOBER FIFTEENTH

Tech Engineering News will be on the stands October 13 or 15. The first issue will contain much very interesting material. Leading articles are on the U. S. Bureau of Standards, the balancing of rotating bodies, the electric drive transmission for motorbuses, and the detection and elimination of engine noises.

Welcome, Ye Scribes! THE TECH Needs You

Wednesday afternoon THE TECH will act as host to all men, especially freshmen and transfers, who are interested in journalistic work. At a meeting at 5 o'clock in Walker Memorial the work of the various departments of the paper will be explained and speakers will point out the advantages to be derived from activity participation. The meeting is open to all and those attending are under no obligation to join the organization. Besides training in actual writing, the paper has departments for those interested in business practises. Smokes will be provided.

Picture Which Japan Presented to M. I. T.

WELCOME FRESHMEN AT MEETING TODAY

All members of the Class of 1931 and transfer students will assemble in Room 10-250 today at 3 o'clock where they will be officially welcomed by Dr. Harry M. Goodwin '90, Dean of Graduate Students, Professor Charles L. Norton '93, Chairman of the Faculty, and Professor Harold E. Lobdell '17, Assistant Dean.

The talks will be brief and will serve to inform the new students what their attitude toward Technology should be and wherein the Institute differs from other schools.

Two Hundred Men To Be Housed In New Dorm Units

\$900,000 Building Program May Be Completed By Spring of Next Year

Four new buildings approximating a cost of a million dollars and now in the process of construction, will soon adorn the grounds of Technology. They include two dormitory units being built adjacent to the '93 dorm, the Homberg infirmary immediately in the rear of the medical offices, and the Guggenheim Aeronautical Laboratory facing Massachusetts Avenue.

With the two dormitory units expected to be completed within the next few months, a pressing need of Technology gradually disappears. Two hundred students will be housed in the new units, while an additional five hundred men will be accommodated by the buildings to be erected in the near future and which will complete the proposed quadrangle.

Dormitory Units

The dormitory project is being financed almost wholly by alumni and alumni classes. The move to provide more housing facilities for students was begun by the hundred thousand dollar gift of Charles Hayden '90, a prominent New York banker, and followed by a like contribution from the Class of 1901. Dean Alfred E. Burton, chairman of the Dormitory Fund Committee, has been instrumental in raising more than half a million dollars for the proposed quadrangle, the construction of the two units being the immediate result of his successful efforts. The new units, which are now three stories high, are of fireproof reinforced concrete with gray brick walls and limestone trimmings similar to the design of the Class of 1893 building.

Richard Homberg Infirmary

A framework directly back of the medical offices will soon take form in the next two months as a four story structure at a cost of \$150,000 and will be known as the Richard Homberg Memorial Infirmary. Plans of the completed building call for four examination rooms, eight dressing rooms, a physician's office, a waiting and recording room, a first-aid room, X-ray, dental and dark rooms, several wards, an emergency operating room, a kitchen and sterilizing room, and a partially enclosed solarium for convalescent treatment. The infirmary will be in no sense a hospital but a building for the care of student health at Technology.

Guggenheim Aeronautical Building

Approximately a quarter of a million dollars will be spent on the new aeronautical structure, funds for which
(Continued on Page 4)

FRESHMEN MUST WEAR TIES OF CARDINAL AND GRAY TOMORROW ON PAIN OF BEING REPORTED

A Complimentary Issue

THE first, second, and third issues of THE TECH will be distributed free to the undergraduates so that they may have an opportunity to see what the paper has to offer them. The paper is crammed full of "live wire" News, Sports, and Intercollegiate News. It is through the undergraduate Notice Column that all the Official and Activity notices are given out. By reading THE TECH you are informed of everything that is happening around the Institute and always on time.

Subscriptions will be on sale in the main lobby and at the business office, room 302 Walker Memorial, beginning Monday and continuing through all of next week. The rate is \$2.50. As single copies sell for five cents each and there will be 92 issues throughout the year you will save \$2.10 by subscribing NOW. SUBSCRIBE AT ONCE.

FRESHMEN THROW SOPHS IN WATER

Discussions At Freshman Camp Help New Men Become Assimilated

With the cold water of Lost Lake as their invitation the Class of 1931 drew first blood in Technology's annual Sophomore-Freshman feud yesterday morning when they aroused the four Sophomores who are attending Camp Massapoag by completely submerging them until bubbles were seen floating on the top.

Robert J. Joyce '28, business manager of the Musical Clubs, was the freshmen's first objective but he persuaded them that the Sophomores should be the recipients of their deviltry. Consequently the four attending Sophomores, D. Tullis Houston, president of the Class of 1930, Theodore A. Riehl, manager of Freshman Advisors, Howard S. Gardner, Jr., president of the Quadrangle Club, and Theodore Lewenberg, photographer for THE TECH.

Denny Talks on Fraternities

Arriving at the camp about 4:45 o'clock Friday afternoon, the 150 men refreshed themselves by a dip in the cool lake. After supper the upper-
(Continued on Page 4)

New Uniforms Are Now on Hand For Freshman Cadets

Include Leather Puttees and Belt, Overseas Cap and M. I. T. Shield

Technology's freshman cadet corps will present an entirely new and up-to-date appearance this year, for the Department of Military Science and Tactics has announced the arrival of new uniforms for officers and men. Distribution will begin today in readiness for the first drill Wednesday afternoon.

The new freshman uniform is featured by white shirt and black tie, khaki blouse with roll collar in place of the former tight-collared coat, leather belt instead of the former web belt, leather puttees and regulation overseas hat. Buttons and insignia will be of gilt instead of the former dull bronze. On the right lapel of the blouse will be worn the torch emblem of the R. O. T. C. together with a cardinal and gray metal shield bearing the M. I. T. insignia.

This innovation comes as the result of persistent work on the part of Colonel Harold E. Cloke, head of the Military Science Department at the Institute.

FRESHMEN ARE TO BUY STRIPED TIES AS THEY REGISTER

All Men Registered In Class of 1931 Are Subject to New Rules

WILL COST ONE DOLLAR

"Hey frosh! Where's your tie?" will be the warcy of the upperclassmen as the new freshman rules go into effect tomorrow. The ties will be sold to the freshmen today as they file out of the laboratories after obtaining their registration material. The price of the ties, which are cardinal and gray diagonally striped, will be one dollar.

All men registered as of the Class of 1931 are subject to those new freshman rules. The rules were adopted for the purpose of bringing about a more congenial spirit at the Institute, and of fostering interest in Technology among the entering class. Consequently, the rules do not include measures which are merely for the purpose of humiliating the first year men. The rules are as follows:

Must Wear Regulation Ties

1. All freshmen should wear regulation ties, four-in-hand, with cardinal and gray stripes. These should be worn when on the Institute grounds from the day classes begin until the beginning of Junior Week. These ties are to be sold on registration day by the Freshman Rules Committee, and after that by the Coop.

2. Freshmen are expected to speak to all members of the faculty and to tip their hats to the President of the Institute and the Dean.

3. Freshmen are expected to say "Hello" to all students they meet on the Institute grounds.

4. Freshmen should not loiter around the Main Lobby, or sit on the benches in the Lobby. If the freshmen win Field Day, this restriction shall be abandoned.

Rules Committee Formed

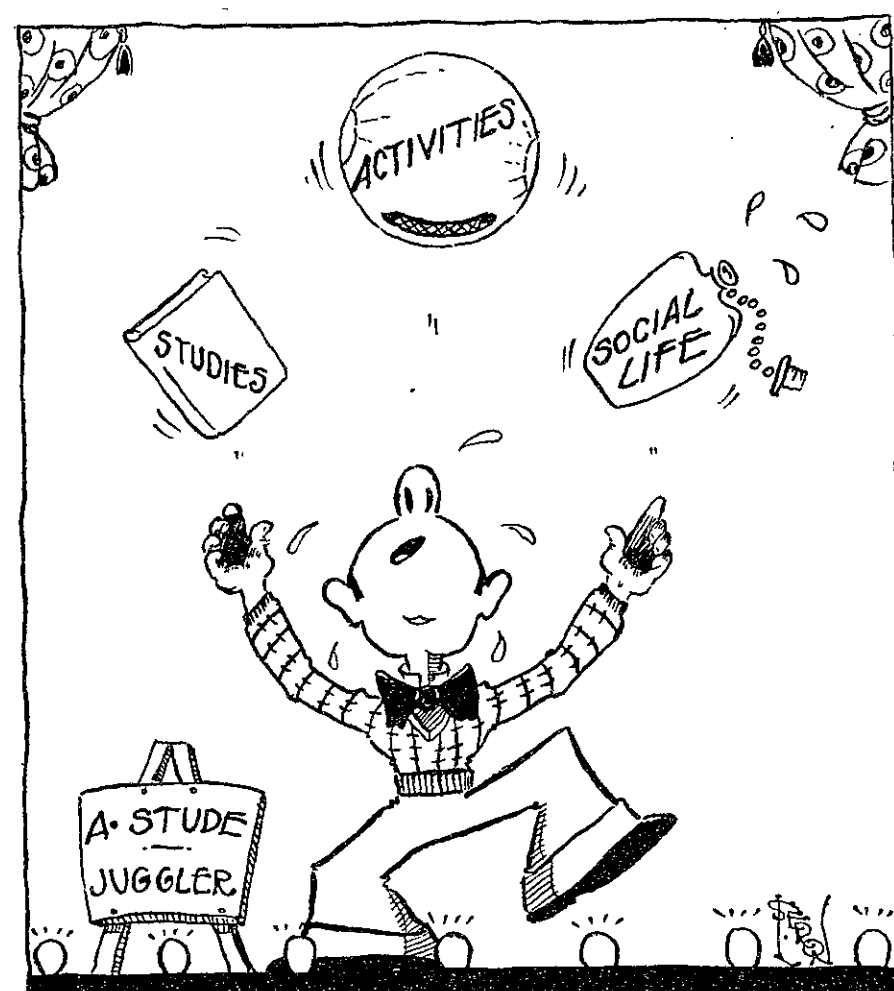

5. Administration of the above rules shall be delegated to a Freshman Rules Committee which shall consist of the vice-president of the Institute Committee as ex-officio chairman; two Juniors, one of whom shall be the president of the Junior Class; four Sophomores one of whom shall be the president of the Sophomore Class; two freshman section leaders. The Junior and three Sophomores shall be appointed by the vice-president of the Institute Committee, the presidents of the Sophomore and Junior Classes subject to the ratification of the Institute Committee.

6. When an upper-classman or a freshman sees another freshman violate the above rules, he shall immediately inform the Freshman Rules Committee by dropping a card or a slip of paper in an Institute mail box, stating the rule violated, and the date of violation. When four violations have been reported against one freshman, he shall be sent a summons to appear before the Committee.

7. Enforcement of the rules is at the discretion of the Freshman Rules Committee.

CALENDAR

Monday, Sept. 26
Registration Day.
3:00—Meeting of freshman class, Room 10-250.
Tuesday, Sept. 27
9:00—New freshman rules go into effect.
4:00—Meeting of freshman football candidates on Tech Field.
Wednesday, Sept. 28
5:00—THE TECH mass meeting, Walker Memorial.
5:00—Crew mass meeting, Room 3-370.

FRESHMAN RULES

WE HAVE heard a great deal of favorable comment from both freshman and upperclassmen relative to the new freshman rules which go into effect tomorrow. A number of new men have expressed the sincere opinion that such rules are just what we need here at the Institute to pep things up a little and help to remove the "big white factory" idea which has often been expressed in the past.

It would be too much to expect that the rules would be completely successful in their first year, but at the same time we can lay a very good foundation this year for years to come. If the rules work out as planned, there is no question that they will be of very definite value. The prime purpose of the rules is to improve that well-discussed something which we call school spirit. Technology has suffered often in the past because of the fact that too many of its students have looked upon their undergraduate years with a sort of bargain counter attitude, and during those years, which should have been the best four years of their lives, they have been satisfied to exchange time, money and hours of study for only a diploma and the knowledge of certain scientific facts. True, this is our prime purpose for being here and our vocation for the present, but there is a very noticeable lack of interest in the undergraduate activities which we have.

The freshman rules were formulated with these things paramount in the minds of the committee. They tried to draw up the regulations in such a way as to increase undergraduate spirit, especially in the entering class, without imposing upon the first year men in a humiliating manner. Their plan may require improvement, but the biggest thing it needs now is a strong backing by the upperclassmen in order that its merits may be tried out. We believe that the Classes of 1928, 1929, and 1930 have a big opportunity to enliven the undergraduate atmosphere around the Institute.

THE LIGHT OF PROGRESS

THAT a university's understanding of progress may be judged accurately by its building program has long been a recognized fact. Without expansion and development a school will soon become a relic of past generations, useless in such a period of advance as now exists, for it is only with constant change that an institution of higher learning can keep pace with the times.

M. I. T. has for years been recognized as the best the country can offer in the way of technical education, and it is through such progress that the Institute continues to hold its own. This fall returning students are greeted with three large projects already well under way, with good promise of being ready for use by the first of the next school year.

The two new dormitory sections are but a part of the final quadrangle that will take care of eight hundred students, thus eliminating eventually one of Technology's long-felt needs. Men will no longer be required to room in various parts of Cambridge and Boston, and "brown-bag" back and forth to school each day, but will have instead a greater opportunity to mingle with their classmates.

In the Guggenheim Aeronautical building Technology is developing one of the first laboratories in the country to be devoted solely to this latest of engineering sciences. The interest already shown in Course XVI promises well for the future of aviation study at M. I. T., and the hundreds of thousands of dollars needed to build and equip the laboratories will by no means have been spent in vain.

As for the new Homberg Infirmary, its completion will not only put the Institute on a par with the most modern of present-day colleges, but will give students away from home the best of attention during serious illness that the medical world can offer. It is through such improvements as this that Technology proves its intense interest in the physical as well as the mental welfare of its student body, and puts a human touch to its effort to produce the highest type of technical graduate.

THE TECH BOOK LIST

KNIGHTS OF THE DESERT, by W. D. Hoffman. A. C. McClure and Co. 381 pages. \$2.00.

Mystery, romance and adventure simply pack Mr. Hoffman's latest novel of the West. It is a fast-moving yarn of a "sheik" cowpuncher fresh from college, who wins first prize in a rodeo, falls in love with the half owner of an eastern "dude" ranch, and succeeds in becoming involved in a wholesale rustling outfit. Like all Wild West novels, the heroine, Jane Edgeworth, is oppressed by some ruffians who act as ranch cowboys on the dude ranch to cover up their operations in stealing horses. They procure a terrible beast who kills at one stroke for the purpose of annihilating their enemies; the identity of this death-dealing machine, which is not disclosed till the latter part of the story, furnishes the mystery element.

Ross Joyce, the hero, like all western heroes, is the big, powerful, smooth-shaven variety, dresses himself in the height of fashion, and simply breaks all the female hearts in his proximity. His fellow punchers, "Slick-ear" Akers, Marty, and "Ha-ha," furnish the comedy with their awkward movements in the presence of the fair sex.

With mystery, romance and adventure packing the pages of "Knights of the Desert," it turns out to be a lively, blase novel of the desert, somewhat better written than a great deal of this so-called "western stuff." It is a novel of light reading, which we highly recommend to anyone who has the blood of adventure surging through his veins, or the spirit of romance in his heart.

R. H. B.

AS WE SEE THE MOVIES

FENWAY

"Soft Cushions" with Douglas MacLean.
 "We're All Gamblers" with Thomas Meighan.

The program for the first three days at this theatre is headed by "Soft Cushions," a rather humorous and exciting production, one which has proved good entertainment to many quite some time ago. Douglas MacLean, playing the part of a "Douglas Fairbanks," seems to draw most attention. As a highwayman in old Turkey this youngster can give a few pointers to New York's best. Later his clever mind is turned to romance, he buys a beautiful slave girl, and through his slyness saves her from the Sultan's harem; finally after many difficulties his love belongs to the Great Allah and himself. Although the production was probably meant to be a side-splitter, its point was not entirely reached. "We're All Gamblers," with Thomas Meighan, is a rather exciting production and short enough to be well appreciated.

Play Directory

STAGE
 COLONIAL: "Pardon Me."—With Clarence Nordstrom.
 COPLEY: "Murray Hill."—A fine comedy.
 HOLLIS: "The Barker."—A big success.
 MAJESTIC: "Is He Guilty."—Enters its last week.
 PLYMOUTH: "Broadway."—New York nightlife; excellent play.
 SHUBERT: "My Princess."—Fair opera.
 ST. JAMES: "What Is Your Husband Doing."—An amusing farce.
 TREMONT: "Honeymoon Lane."—Good musical comedy.
 WILBUR: "What a Man."—With Lynne Overmann.

SCREEN
 FENWAY: "Soft Cushions" and "We're All Gamblers."—Douglas MacLean.
 METROPOLITAN: "One Woman To Another," also Paul Whiteman.
 STATE: "The Road to Romance."—Ramon Novarro.

The residents of a dormitory at Columbia University have posted signs over all gas jets in the building asking students to turn off the gas when they have finished committing suicide, as the fumes are very obnoxious to the men who are trying to die by drinking poison. In another college, students are required to check all their guns at the registrar's office because the shooting at night disturbs those who may want to sleep.

Horseback riding has been added to the women's physical education curriculum at Ohio State University.

DRIVE STARTS FOR VARSITY OARSMEN AS SEASON OPENS

Technology's rowing season breaks away to a real start today with the opening of the annual fall campaign for crew candidates. The crew drive will reach its high peak on Wednesday when a monster mass meeting will be held in Room 3-370 at five o'clock. Coach Bill Haines, Captain Malmquist, of the Varsity, last season's second captain, Ernie Knight and Manager Thomas will head the list of speakers for the midweek pep-up meeting. A booth will be maintained in the Main Lobby on Tuesday, Wednesday, and Thursday of this week, and all experienced oarsmen and likely looking newcomers will be singled out and urged to report to the boathouse for Fall practice.

Prospects Good
Prospects for the coming Spring season are brighter than at any other time since Technology boasted of a crew. Of last year's Varsity eight which defeated Princeton and Penn, Tittman, Kelsey, Malmquist, Dolben, Knight, Zurwelle, and coxswain Karas are back to take their old seats in this year's boat. Coach Bill Haines will

have experienced men to draw from to fill out his Varsity boat as only Joe Hammond and Lew Tappan of the Jay Vees are not returning this Fall, besides there are several promising men from last year's Freshman crew.

If experience means anything, the light Varsity crew should repeat its performance of two seasons ago of winning the theoretical intercollegiate championship as only George Copeland will be missing, leaving Straat, Newman, Jamison, Jackson, MacKusick, Captain Nichols, Gibbons, and Coxswain Bullock from which Coach Cedric Valentine can pick his 150-lb. crew. Denny Dearle, Tech's premier 150-lb. coxswain of two seasons ago, will be back at the boathouse and eligible for this year's crew. The Frosh 150-lb. eight of last season is returning intact and will be out fighting for places in the Varsity 150-lb. boat.

More Men Eligible
Men from the ineligible crew which rowed for a month during the Spring will be eligible this year for Varsity competition and Coach Haines expects to make Varsity material out of most of them.

Coach Haines and his assistants will devote their personal attention this week to new and inexperienced oarsmen, and the latter will have a splendid opportunity to place on one of the varsity or class eights by turning out to the boathouse in answer to this week's crew call.

BRIGHT OUTLOOK FOR THIS YEAR'S HILL AND DALERS

Many Varsity Veterans and All of Last Fall's Frosh Team Are Returning

TO PRACTICE THIS WEEK

With Oscar Hedlund, track and cross country coach due back at the Institute today, it is expected that things will begin to liven up at the track house very soon. Cross country running is the first major sport of the season to get under way and as a result all candidates for either the freshman or Varsity team will be expected to report on Tech Field early this week.

This season the Cardinal and Gray have an unusually strong squad of hill and dalers. There will be at least seven veterans returning from last year's team. Pete Kirwin, captain of the team, will have real support in aiding him to lead a championship Technology team. Norm McClintock, one of the best distance men to come to the Institute in recent years, should be one of the mainstays of the squad. Others who will help complete the team are Worthen, Mitchell, Robinson, DeFazio, and Bennet, together with some very promising prospects from last year's frosh outfit such as Herberts, Adams, Berry, and Dunlap.

Last Fall the varsity harriers annexed third place in the New England meet but this will certainly be bettered this year. With Allison Wills of Bates and Taylor of Maine both graduated there appears at the present time to be no other runner strong enough to displace Norm McClintock. Kirwin, one of the first finishers in last year's meet will also be a hard man to defeat.

Of course in the National cross country run at Van Cortland Park, New York, there will be a much stronger field, but here again the team is expected to considerably better their position of last year which was tenth.

CABOT MEDALS FOR LAST YEAR AWARDED

Given Yearly to Men Improving The Most Physically

The Cabot Medal awards for the year 1926-1927 have gone to the following men in the class of 1930: Frederick G. Suhr, Russell Fanning, Maxim W. Firth, Irving F. Delahanty and Reuben Roseman. Honorable mention was made as follows: H. G. Friedman, Hugh Ressler, Joseph Goodwin, A. B. Deyarmand and Ralph E. Maw.

Each year bronze medals, the gift of the late Samuel Cabot '70, are given to the five members of the freshman class who show the greatest physical improvement as indicated by the physical examinations and as shown by class work in Physical Training.

Accurate measurements are taken of the men entering Physical Training at the first of the year. At the close of the year, measurements are taken and a comparison made with those taken at the beginning of the year.

JOIN TECHNOLOGY BRANCH FIRST

To get the best results every Tech man should become a member of the "Coop" before he begins to buy any of his supplies. It costs one dollar to join for one college year. You get a membership ticket with a number. Tell the salesman your number every time you buy anything that costs 25c or more at Technology Branch, the Barber Shop or the Main Store at Harvard Square. The total credited to your number on June 30 is the amount on which you get your dividend. The profits are divided among the customers who join. Dividend Checks for last year's purchases will be ready for distribution October 13, 1927. The dividend paid on last year's business is 10% on cash purchases and 8% on charge purchases

Checks are cashed } for "COOP" members only.
Charge accounts are opened }

The "COOP" is the official source of required textbooks and supplies in every course.

TECHNOLOGY BRANCH

Harvard Co-operative Society

76 Massachusetts Avenue, Cambridge, Mass.

Sports Desk

Last fall the Junior class not content with having had their fun on previous Field Days decided to organize a football team themselves. In their spare time this group of fourteen or fifteen fellows worked themselves into excellent condition and put a team on the field that was a credit to the Institute. This season there is a good chance for some of these same fellows to further show their school spirit by offering their services as coaches to the two lower classes. There is a real need for some sort of directors on the field, more particularly for the frosh than the Sophomores who have already worked together.

We regret to say that there will be no "Buck" Shotts to coach this year's yearling eleven. Last season Shotts had the frosh out every afternoon on Tech Field, putting them through their paces, helping them to improve their game in an all-around manner, and teaching them to be thorough sportsmen. Credit for the good showing of the class of 1930 on the gridiron, should surely go to Buck. This season he is engaged as General Secretary at Colgate University.

From the present appearance of things it would seem that the incoming freshmen will have a real task cut out for themselves if they hope to defeat the Sophomore eleven on Field Day. It will be remembered that this aggregation gave an excellent account of themselves on last November 5, tying the upperclassmen, and having had the benefit of one seasons play together should show to good advantage this fall.

When one looks at the host of veterans returning to the hill and dale team this year he has good reason to be optimistic. Captain Pete Kirwin, one of the hardest workers on last Fall's squad heads the list. Then comes Norm McClintock, that long striding boy from Reading who has already proved himself to be one of the best harriers in the country. Going down the list we have Worthen, Bennett, Mitchell, Robinson, and a score of others. Considerable help will also come from last seasons freshmen outfit.

"Denny" and "Bill" Haines
Sing and Play Series of
Popular Ditties

(Continued from Page 1)

classmen were introduced by Ralph T. Jope '28 and Henry B. Dean '28 gave a short talk on the new freshman rules. The meeting was then turned over to Orville B. Dennison '11, who first gave a talk on fraternities and then sang some of his famous ditties, including "At the Sign of the Three Brass Balls."

Saturday morning members of the Freshman Rules Committee explained the rules in detail answering any questions upon that subject. Ralph T. Jope '27 then gave a short history of Field Day and its significance, after which each of the activity heads present briefly described his activity.

Saturday afternoon was spent in intra-tent ball games. Professors Harold E. Lobdell '17, Henry G. Pearson, and Leicester F. Hamilton '14, and Bursar Horace S. Ford gave general talks about the Institute and activities. William ("Bill") Haines, coach of crew, described the benefits received from rowing and at the end of his talk combined with Orville B. Dennison '11 to sing and play a series of jingles which had seldom been heard before by the upperclassmen of the camp.

Church services were held yesterday morning at 9:45 o'clock, Reverend Sidney Lovett, pastor of Mount Vernon Congregational Church, being in charge. At 11 o'clock discussions were held.

At supper yesterday evening each freshman got up and expressed his opinions of the camp and of Technology's ideals. Vesper services, at which Walter Humphreys '97, Term Member of the Corporation, had charge.

M. I. T. MUSIC CLUBS TO MEET OCTOBER 4

Schedule and Plans for Coming
Season to be Discussed

M. I. T. Musical Clubs will hold a general meeting on October 4 at 5 o'clock in room 10-250. The schedule of the clubs for this year is as yet incomplete, but it will consist of some twenty or more engagements in and around Boston which will include the Franklin Square House, Simmons College, and Sargent.

Graduating members have left many openings, and it is desired that all freshmen who may wish to try out for any of the clubs be present at this time. This meeting is of importance as plans for the coming season will be discussed, and all candidates will be given an opportunity to ask questions about anything that is not entirely clear.

Fraternity Ratings For Last Term and Standing Since 1921

1921 TO DATE	LAST TERM
1. Tau Delta Phi	1. Phi Beta Delta
2. Psi Delta	2. Phi Gamma Delta
3. Sigma Alpha Mu	3. Tau Epsilon Phi
4. Phi Beta Delta	4. Alpha Mu Sigma
5. Alpha Mu Sigma	5. Kappa Sigma
6. Delta Upsilon	6. Sigma Alpha Mu
7. Tau Epsilon Phi	7. Theta Chi
8. Sigma Nu	8. Sigma Nu
9. Theta Chi	9. Psi Delta
10. Phi Gamma Delta	10. Theta Delta Chi
11. Sigma Chi	11. Chi Phi
12. Sigma Alpha Epsilon	12. Tau Delta Phi
13. Lambda Chi Alpha	13. Theta Xi
14. Phi Kappa Sigma	14. Alpha Tau Omega
15. Delta Kappa Epsilon	15. Lambda Chi Alpha
16. Chi Phi	16. Sigma Alpha Epsilon
17. Alpha Tau Omega	17. Sigma Chi
18. Delta Upsilon	18. Delta Kappa Epsilon
19. Kappa Sigma	19. Phi Kappa Sigma
20. Phi Beta Epsilon	20. Beta Theta Pi
21. Beta Theta Pi	21. Delta Upsilon
22. Kappa Eta Kappa	22. Phi Sigma Kappa
23. Theta Delta Chi	23. Phi Kappa
24. Delta Tau Delta	24. Kappa Eta Kappa
25. Phi Mu Delta	25. Delta Tau Delta
26. Phi Sigma Kappa	26. Delta Psi
27. Theta Xi	27. Phi Beta Epsilon
28. Phi Kappa	28. Phi Mu Delta

TO SPEND MILLION ON FOUR BUILDINGS

(Continued from Page 1)

are forthcoming from the Daniel Guggenheim Fund for the Promotion of Aeronautics. So far only the foundation of the edifice has been laid and a steel framework put up. When finished, the building will be of buff brick and limestone and designed to conform to the architecture of the present buildings. It will house two wind tunnels, a working museum, library, drafting room, offices, locker rooms, rigging laboratory, research rooms and a testing of materials laboratory. The building will be 150 feet long 60 feet deep and three stories high, in addition to a high basement.

It is expected that these four structures will be completed before the summer of 1928 and ready for occupancy immediately thereafter.

MAJOR ROBERT EDDY JOINS M. I. T. STAFF

Three replacement appointments and one promotion are announced by the Department of Military Science and Tactics.

Major Robert C. Eddy has been called from his charge of the first corps area coast artillery reserve to take the place of Major Lewis E. Goodier as executive officer in the Department. Major Eddy graduated from West Point Military Academy in 1905 and completed advanced work at the United States War College in 1925. He was in command of the staff school at Fort Leavenworth in 1922.

Staff Sergeant Mark B. Ashley has been appointed to the position of Chief Clerk in the Department in place of Sergeant William W. Robertson, who has been transferred to a similar position at the University of Maine. Staff Sergeant Harold F. McDonnell replaces Sergeant J. Duncan on the instructing staff, the latter having been transferred to the Second Engineers at Fort Logan, Colorado.

The only promotion announced is that of Capt. Harold L. Milan who has recently been promoted to a captaincy from his former office of first lieutenant.

NOTICES UNDERGRADUATE

FRESHMAN FOOTBALL

Candidates for the freshman football team report to Coach Silva on Tech Field tomorrow at 4 o'clock.

Crew

A general mass meeting will be held in Room 3-370 Wednesday at five o'clock.

Freshman Crew Managers

Freshman candidates for the crew management are requested to report this afternoon to Manager William Thomas '29, at the Boat House. The competition is open to all freshmen.

81 drops vs. 38—

"Twice the Ink"

THAT'S the Chilton! Double ink capacity! You can write twice as many words with a Chilton as you can with other self-filling pens because it holds "Twice the Ink," size for size.

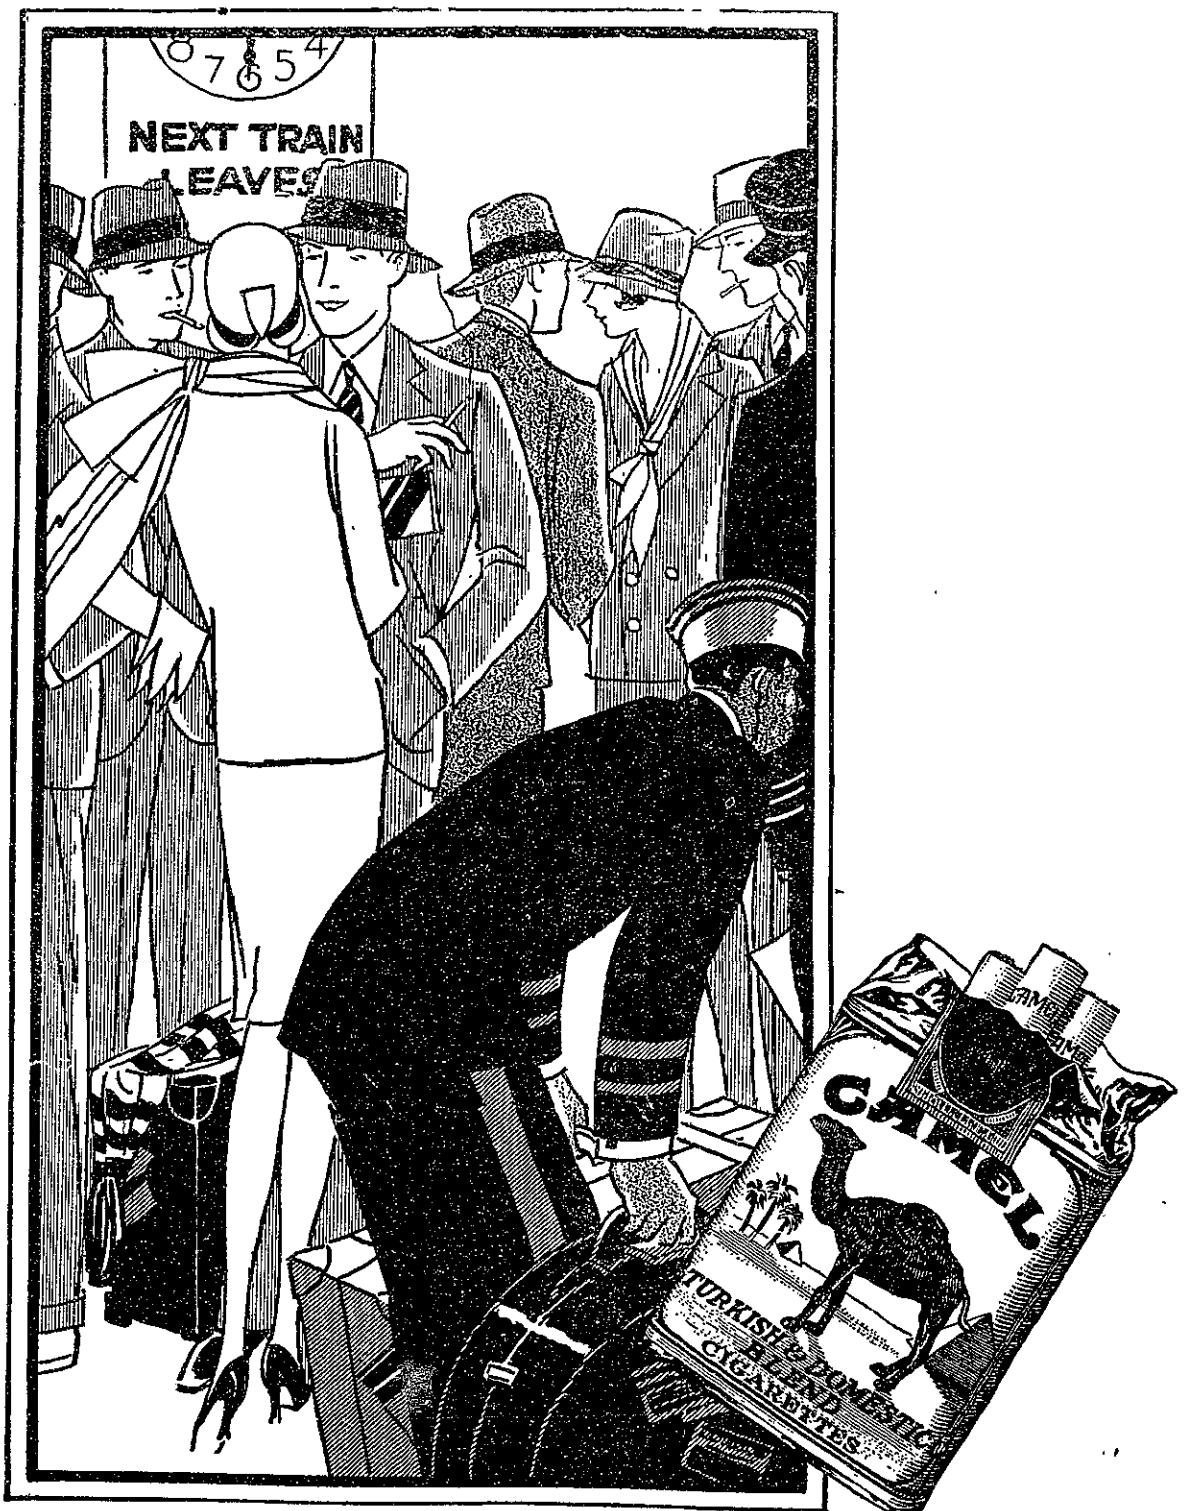

Come in and let us show you this great improvement in fountain pens, perfected by the man who invented the first self-filling pen. You'll be interested in learning "Why." There is a Chilton size and style to fit every hand. Priced \$3.50 to \$7.00, and guaranteed.

Chilton

REG. U.S. PAT. OFF.

Twice the Ink Pen

Five well-known fountain pens, of similar size and price, were compared with the Chilton Pen selling at \$7.00. The average ink capacity of these five pens was 38 drops - while the Chilton held 81 drops.
Certified by Bigelow, Kent & Willard, Consulting Engineers, Boston, Mass.

To smoke wisely and well, choose Camels

THERE'S an irresistible reason for choosing this famous cigarette. Not for its popularity alone, but for that superior quality that produces it.

Camel wins its prestige with modern smokers by forthright value. It is rolled of the choicest tobaccos that money can buy, and its blending is the taste and fragrance triumph of tobacco science.

The Camel smoker is tobacco fit. He has the best, with no scrimping or denial of cost. There are no four-wheel brakes on Camel; no brakes at all. It is full speed ahead, straight for quality.

Select Camel for smoking pleasure, and you'll join distinguished company. Particular, modern smokers have elected it on the principle of superiority.

"Have a Camel!"
