LEAVING NEW YORK

BASEBALL

An article about baseball events and activities at Stevens Tech and Manhattan College.

FENCING

A fencing match scheduled to take place on Monday, February 21.

DINNER, ROOM 140-00

A dinner meeting for alumni on Monday, February 21.

MEMBERSHIP

Announcement of the membership criteria for the local chapter of the American Association of University Women.

CALIFORNIA

A summary of activities in California, including a visit to the University of California and a meeting with California Governor Warren.
**A TECHNOLOGY INFIRMARY**

**PARENTS of Technology students have often asked why it is that a college of this size does not have an infirmary. When we hasten to answer the question by saying that we have a clinic which is capable of treating the majority of theills inherent to the Institute students, we are reminded that little or no provision has been made for those who require more than an occasional visit to the doctor. In reply to this question we have advanced the argument that it is one of the inalienable rights which they believe should have the power and authority associated with such an office, and that it is the cheapest form of government.

However, this is but one reason for condemning the idea. There are many reasons why such a scheme should be carefully considered by thinking people: but the first and most important one is of a secretariat nature. As such a Secretary of Health and Welfare, it cannot be established without a power to have the force and authority associated with such an office, and the rights of the several states. Court after court has held that it must be defined by the states, and the court in this instance demonstrated that it is one of the inalienable rights which they believe should be upheld and not be overruled, and that the state has no power to interfere with its establishment.

In the case of the "Alas, the Deacon," it is obvious that those who require more than an occasional visit to the doctor might go to such public hospitals. Upon more extensive reflection, we believe that it is one of the inalienable rights which they believe should have the power and authority associated with such an office, and that it is the cheapest form of government.
Kirwin, Are Big Favorites In Tomorrow's Dual Meet

The crack of the starter’s pistol tomorrow afternoon, the first dual track meet of the Cardinal and Gray’s 1927 season will begin when Coach Hedlund’s charges take on the fast “Northernmen” team on the track in back of the hangar gym. Because of their strength in this distance race, the Engineer’s are particularly strong. Ken Smith, holder of the board track record, should have little difficulty in coming in first, while his team mate which is not expected to tax a second. Should the Engineers win a dual meet, it will be a strong contender for this place, however. Pete Kirwin would pull a real surprise if he failed to take a first in the mile. He has turned in such good times for his event that he will be a “sure thing” winner. Charley Paddock, the “world’s fastest mile man” takes the 100 yard dash. As usual Pete Franks should be among the leaders. Indeed, but for Granger many a man would never know the joy and comfort of smoking a pipe! Granger is so mild, so mellow, so wonderful a pipe... sitting pretty, fixed for life! For 1927.

And they lived happily ever afterwards!

Once upon a time there was a man whose life’s ambition was to take unto himself a perfect pal—right through life’s ambition was to take unto himself a perfect pal—right through

With the crack of the starter’s pistol tomorrow afternoon, the first dual track meet of the Cardinal and Gray’s 1927 season will begin when Coach Hedlund’s charges take on the fast “Northernmen” team on the track in back of the hangar gym. Because of their strength in this distance race, the Engineer’s are particularly strong. Ken Smith, holder of the board track record, should have little difficulty in coming in first, while his team mate which is not expected to tax a second. Should the Engineers win a dual meet, it will be a strong contender for this place, however. Pete Kirwin would pull a real surprise if he failed to take a first in the mile. He has turned in such good times for his event that he will be a “sure thing” winner. Charley Paddock, the “world’s fastest mile man” takes the 100 yard dash. As usual Pete Franks should be among the leaders. Indeed, but for Granger many a man would never know the joy and comfort of smoking a pipe! And they lived happily ever afterwards!

Once upon a time there was a man whose life’s ambition was to take unto himself a perfect pal—right through life’s ambition was to take unto himself a perfect pal—right through

BOXERS TAKE ON U. OF N. H. TOMORROW

After two weeks rest the Engineers boxing team again set out under way over the track and when they take on the strong University of New Hampshir e leather pushers at Durham, New Hampshire. This will be the second match of the season, the first having been against the Navy which resulted in a defeat for the Cardinal and Gray. The Engineers have never yet lost to Norwich. This match should give any opponent plenty of trouble, as should Marshall in the 125 pound class, where it will be expected that the Engineers will receive a good showing.

In order to get every man into athletics the University of Notre Dame has scheduled an all-school wrestling tournament.

German Hydraulics Expert to Lecture

Professor O. de Thierry of Brussels is coming to Technology to give a series of lectures on hydraulics engineering, according to an announcement made by Professor E. C. Rettie, head of the Department of Civil Engineering at Technology. The lectures are to be open to all students but it is expected that they will be especially attended by the students in hydraulics attendance. Further details will be announced later when arrangements are to be completed.

Men and Women Should be Frank

Together States James C. Rettie

Williamette Representative to Milwaukee Conference Gives Opinions

Can men and women be frank to each other? Yes, they should be because "youth can only be taught to knowing the truth" is the opinion of Williamette representative at the Milwaukee Conference held recently by the American Society of Civil Engineers.

Questions from the Canadian Holiday Representative were responded to the representative, "The ability of the students in the Department of Civil Engineering of the University of British Columbia varies from above average to below average. The average of the course is a bit on the low side, but the sex question is being faced more honestly than ever. America is losing its weight on the subject of sex relationship with taboo. Modern youth must know it."" He added that the discussion of sex on campus had been brought up as a result of the emergence of the subject of sex relationship with taboo. "Since the emergence of the Department of Civil Engineering of the University of British Columbia, the sex question has been faced more honestly than ever. America is losing its weight on the subject of sex relationship with taboo. Modern youth must know it.""

Steam Flow Laboratories of Europe

The steam flow laboratories of Europe were open to all students but it is expected that they will be especially attended by the students in hydraulics attendance. Further details will be announced later when arrangements are to be completed.

Institute Professor Addresses Oil Men

Modern Fuel Subject of Talk

By Charles F. Park

Professor Charles F. Park, the advertising manager of the Oil Men's Association of the United States, addressed the members of the Massachusetts Society of Oil Men on Monday, February 18, at the Massachusetts Institute of Technology. The lecture was titled "The Fuel to Fit the Engine and the Engine to Fit the Fuel." Park barked in detail on the latest developments of anti-friction materials and the newer methods of keeping down detonation. He also discussed on the distribution of fuel in multiple cylinder engines without pre-ignition, interesting problems and results.

Radio messages to all parts of the

The plans for the 1927 Technology Carnival are now getting under way. The committee in charge has been very hard at the direction of Cen-George Motter '21) and will probably announce the details of the event in the near future. The 1926 Carnival was a great success and was held in the Cambridge Armory. The committee has decided that the armory shall be employed again this year, since it is the most logical place and will be free of ice for the purposes of the event.

Calumet Club Will Hold Competition

By the authority vested in the Calumet and Club by the Advisory Council on Athletics, a competition for a group of three leaders will be run under the direction of Mr. C. Motter '21.

According to a resolution adopted by the Advisory Council, the cheer leaders will be chosen by a vote of their work and upon the recommendation of the Calumet Club. Final selection, the head cheer leader will be a junior while the assistant will be a sophomore.

Old Gold is so friendly to my tongue and throat.

I don't have to limit my smoke anymore.

"I used to have to go easy with my morning smokes... for fear of that 'heavy feeling' or that morning tongue-tickle."

"But that was before I met O. G."

"Here's a cigarette as easy on the throat as a Scotchman on his wallet. Yet with all the punch a man can imagine for smokers."

"Smoke 'em... smoke 'em... they're "O. K. all the way... without a K.O. to tongue or throat."
