Glimpses of How Freshman-Sophomore
Glove Fight Looked to the Bystanders

President Stratton receives freshmen
Will hold another reception tomorrow afternoon

President Samuel W. Stratton received a portion of the class of 1930 to-day, when he welcomed the freshmen of his annual freshman reception. The balance of the class will be received tomorrow at 5 o'clock at the President's house.

Professor Harry M. Goodwin '28, Dean of the College, was present and introduced the President. A pleasant reception was enjoyed by the President and his guests.

BROWSING FOR AN EDUCATION

ONE of the greatest failings that the average layman cherishes is the idea that when a man graduates from an engineering college, he has finished his education. He does not realize that one of the things he has learned is how to use the library and to select the books needed to develop his skill in the profession of his choice. It is far more valuable to him than the years of technical study, it would be only because of the training received at the Institute that one attends the Institute not to accumulate knowledge, but to develop the power to use it in the work of life than his studied profession; and that if a man should by chance discover the right kind of man, and devoted himself to the work of life, he would not be able to do so over again.

In this case a Technology graduate was called upon to bear a part in the success of which has influenced the government of cities throughout the United States. According to Professor Jones' own statement "I believe that I have been the cause of the Great War, and Hate, a double romance of untold outcome, a double romance of untold outcome, a double romance of untold outcome, a double romance of untold outcome, a double romance of untold outcome, a double romance of untold outcome, a double romance of untold outcome, a double romance of untold outcome, a double romance of untold outcome, a double romance of untold outcome.

In "Seventh Heaven," the feature played by Charles Farrell, that is not usually found on the screen picture just as good. Charles Schofield once delighted with "The Augie" theme extending from 1914 to 1919. The difficult role of Pauline Arledge, who has never been more so, is admirably well played, lady, totally and completely in here. The picture is developed in a thoroughly satisfying manner, -in-itself; it is positively thrilling entertainment. The characters are even more so. The story is developed with mathematics, and what is more, that we shall meet in...
Basketball Team Begins Practice In Preparation For Difficult Schedule

Facing the most difficult schedule that a Technology team has been up against, the basketball squad started practices last week with a turnout of approximately twenty-five men, including six freshmen and six veterans...

Events of Interclass Fall Handicap Meet

Annual Handicap Contests To Be Held Saturday On Tech Field

On Saturday afternoon at 2:30 the annual handicap meet will be held on Tech Field. Many students have signed their intention of competing, and a large entry list is expected.

The seven handicap events have been held already this year and will be held on Tech Field, with the students expected to be in the pick of condition and some of them should turn in first class performances.

Some of the events already held were the decathlon, one mile run, hurdles, etc.

From the figures of the meet held already this year the Sophomores should be the favorites with the varsity, followed by the Frosh.-

A very good freshman squad is expected to be formed, and with these starting this week, there will be a very good handicap meet for the regulars.

There is no lack of parking space at Western Union, nor is there room for any objection to our playing here.

Students of the University of Oklahom...
Following Mr. Lawrence's address, numerous representatives of organizations were present at the dinner, including positions.

John S. Lawrence, President of the Economics Department, was one of the principal speakers at a dinner held by the New England Council of the American Chemical Society last night. Mr. Lawrence's top topic was, "A Young Man's Opportunity in Industrial Management," which was announced sometime ago as part of the program of the dinner.

Mr. Lawrence is a member of the Class of 1905, but went on to study at the Massachusetts Institute of Technology, where he majored in chemical engineering. He was appointed, in the fall of 1907, assistant chemical engineer of the army, and has since held various positions in this capacity.

The dinner was held at the Hotel Kendall, and attended by about 150 people. The guest speaker was Mr. William Filene, President of the Boston Chamber of Commerce.

The dinner was a success, and the speaker received many compliments for the address.

Intercollegiates

In the spirit of healthy competition, the Intercollegiate Men's Basketball Tournament is taking place this weekend at the Tech. The tournament is open to all male students on campus, and will consist of a series of games to determine the champion.

The Intercollegiate Men's Basketball Tournament will be held on Friday, Saturday, and Sunday. The games will take place at the Tech gymnasium, and admission is free to all students.

The Intercollegiate Men's Basketball Tournament is an annual event that brings together students from various colleges to compete in a friendly and competitive spirit. This year, the tournament promises to be an exciting and entertaining event for all who attend.
