W. E. NICKERSON ‘76 GIVES ALDERED LECTURE

TALKS ON WISDOM VERSUS KNOWLEDGE IN 10-250 TODAY

Is Man Who Donated Money on Wednesday Night to B. U. For Athletics

DIRECTS RAZOR COMPANY

"Wisdom versus Knowledge" has been announced as the subject of Mr. William E. Nickerson '76 in the second Aldred lecture of the year, which will be held in Room 10-250 today at 8 o'clock. Mr. Nickerson, who is a graduate of the Massachusetts Institute of Technology, is the president of the Gillette Safety Razor Company and the secretary of the Gillette Trust Company, of Boston, and is also a trustee of Boston University.

This will be the second lecture of the Aldred series to be delivered by Mr. Nickerson. The first lecture of the series in 1923 was one of the first lectures in the history of Tech Graduates. It is a special assembly of the personal experiences of the speaker, and he is expected to deliver a very interesting talk.

Although he was graduated from Tech in 1923, he has been active in the business world ever since. His experience in the razor industry has given him a unique perspective on the subject of wisdom versus knowledge, and he is expected to deliver an interesting and informative talk.

PROPOSED FLYING CLUB IS REJECTED

In Memoriam

Lewis Major Sanford, 29, one of the most popular men in his class, passed away in his room in Louisville, Ky., Wednesday night, according to a telegram received at the Kappa Sigma Fraternity house. Sanford was a member of the Sigma Nu fraternity and the Alumni Club, and was active in many social and athletic activities.

Sanford died on March 29, 1928, at the age of 29, after a short illness. He had been a member of the class of 1923, graduating from Conger Hall in 1918. He was a member of the Varsity Club and during his sophomore year was the head of the executive committee of the class of 1923.

In his Sophomore year Sanford was a member of the Kappa Sigma Fraternity and the Sigma Nu fraternity. He was a member of the Sigma Nu fraternity and the Alumni Club, and was active in many social and athletic activities.

The following year he was elected to the Varsity Club and the Sigma Nu fraternity, and was the head of the executive committee of the class of 1923.

On May 18, 1928, in his room in Room 10-250, Sanford died after a short illness. He had been a member of the Sigma Nu fraternity and the Alumni Club, and was active in many social and athletic activities.

Donald G. Robbins '07 Will Address Corporation XV on Tuesday

Will Speak on Experiences and "Engineering in Investment Banking"

Corporation XV invites all members of the Class of 1907 to join in this meeting, to be held in Room 10-250 on Tuesday evening, December 11, at 5:00 p.m. Gloucester 

The corporation will be given by members of the graduating class, and will include an address by Mr. Donald G. Robbins '07, who is a director of the Board of Directors of the Massachusetts Institute of Technology.

Corporation XV invites all members of the Class of 1907 to join in this meeting, to be held in Room 10-250 on Tuesday evening, December 11, at 5:00 p.m. Gloucester.

The corporation will be given by members of the graduating class, and will include an address by Mr. Donald G. Robbins '07, who is a director of the Board of Directors of the Massachusetts Institute of Technology.

It will be a great pleasure to hear Mr. Robbins, who has been a member of the Engineering Board of Directors of the Institute for many years, and who has been a leader in the development of the Institute's activities in recent years.

EXPLAINING OUR "TRIVIALITIES"

IN today's Open Forum Column we print a communication which is the type for which we have been waiting almost a year. Its appearance in this volume last fall has been delayed. We believe it is a policy to follow this example. We are convinced of the falsity of our position, knowing that the student body and the University at large are interested in the facts of those to whom the institution of stenography has been delivered.

We have expected long ago that there would be some criticism of our policy, because there are a number of students who feel that we had fallen short of our duty when we stayed within the limits of higher toil. We have often discussed the desirability of expanding our subject to cover the world of business and politics, and many times we have been greatly tempted to express our selves when we became excited over some national disaster or domes, policy, and his type of journalism. Our feeling has been, however, that we are not sufficiently well informed to attempt to express an opinion about anything in the world. We have evolved the opinion that we have the impossible amount of reading and research to produce a higher order of journalism. We have been, however, that the results could only be second rate to that produced by commercial journalists.

If our vocation were college journalism we would certainly believe to be for the best interests of the student body and the university at large. It is inevitable that almost every reform we propose must meet with a certain amount of resistance on the part of those to whom the institution of the reformation can impose a certain amount of responsibility. We have been warned in the past of the effects of policies which were proposed.

This is the last of the Open Forum Column. It has been read by the editors, who have found it satisfactory as an expression of opinion.

The TECH BOOK LIST

FEMININE FREEDOM

THE MESSINGEN OF THE OCEANIC TAMING, New York: George H. Doran Company, $2.50. Philosophically advanced to our younger generation as shaking off the limitations of art, it is not a study of disturbing Maurice, and other apparent purposes. However, in the "Credit and Moral" of women, the substantial advantage, or any other improvement, moral, is merely seeking perfection in mental and moral development.

The only difference between Inn and Borden is the age of their owners. The fact of yesterday is that she is more willing to express her feelings and beliefs in her actions than most. Although she is not quite ready to accept the world's thinking as hers and she has not yet recovered from the shock of those new ideas. She is now aware that her lover is drawn to it in some measure. This person thinks that THE TECH is a good newspaper. It is the only policy of THE TECH to print local articles on such subjects but not before the facts.

As We Like It

THE STUDENT PRINCE

Boston audiences once more are being offered the opportunity of hearing that superb operetta, "The Student Prince," which last appeared on our stage in the 1904 season. The story is too well known to need any exposition. It is the policy of THE TECH to print local articles on such subjects but not before the facts.

With the American College Editors

"The editor of the American College Editors is an individual who is interested in other things outside of the college, and who may be of a different type of college than the one we are discussing. He is interested in the world at large, and in particular in the institution of the reformation that is being proposed.

This is the last of the Open Forum Column. It has been read by the editors, who have found it satisfactory as an expression of opinion.

SWIMMERS CHOOSE BROWN AS CAPTAIN

Take Place Left Vacant By
Resignation of Grover,
Last Year's Star

At a meeting of the letter men yester-
day, Vernon B. Crane '30 of Hamil-
ton, was elected captain of the Beaver's swimming team, and the vacancy left by the resignation of Allister Grover, from duty men for two years, who is forced to give up swimming on the matter of his health, will be filled by the last year's star, all-American heavyweight wrestler, from High School and Worcester Acad-
emy. While at Providence he placed
four sports winning his letter in football, basketball, baseball, and swimming. At Worcester Academy, he made his letter in three sports, football, swimming and track.

He used to play football foot-
ball and also played on the Symo-
ton team and was a member of the freshman track team. He gave up all other things however because of his ill health during many years during his freshman year and has been his main concern for two years. Last year he was on the "T" relay team which broke the Beaver's record and took second in the New England Intercollegiates. To date he has been working on the 120 yard dash and relay on these two events for the past two years.

The Engineers meet Amherst at Am-
herst tomorrow night in double.
Torchio and Cope, Brown, who was swan in the 120 yard dash, Cope, Grover, who has a constant point in the 220 yard dash and Lamb are entered in the 140, but the former may not swim because of a slight but this is offset by his accurate
