Corporation XV

To Hold Annual
Industrial Tour

Four-Day Trip to Connecticut

A New Feature

Exams

The Corporation XV annual tour will leave the city on Monday, February 12. This year, the exams and continuation committee recommended that the trip be made during the exams to give the Corporation members an opportunity to enjoy some recreation and get a break from school work.

The tour will be directed by Mr. Henry N. Bates, Jr., president of the Corporation Committee, and will depart from the college at 10:30 a.m. and arrive at the train station at 11:00 a.m. The Corporation members will be accompanied by the Corporation Committee and their guests.

The tour will take the Corporation members to various industrial sites in Connecticut, including factories, laboratories, and other places of interest. The trip will be a learning experience as well as a recreational opportunity.

The Corporation Committee has planned a program of events for the Corporation members during the tour. The program will include visits to various industrial sites, lectures, demonstrations, and tours of laboratories. The Corporation Committee has arranged for the Corporation members to have a chance to meet and talk with people in the industrial field.

At the end of the tour, the Corporation members will return to the city and be back in school on Tuesday morning. The Corporation Committee looks forward to a successful and enjoyable tour.
