

WHITING PRESENTS HIS LAST CONCERT FOR THIS SEASON

Fine Program Contains Russian and Bohemian Music of Last Century

CLOSES POPULAR SERIES
New York String Quartette Is Featured by Whiting in Program

Last night saw the presentation of the fifth and last of the fine programs of chamber music that have been presented at the Institute during the past season by Mr. Arthur Whiting. The audience that gathered in Room 10-250 to hear the last of the programs seemed to enjoy the program immensely and from the way the finish was applauded the folks seemed to express regret at the close of the series.

In his final program Mr. Whiting was ably assisted by the New York String Quartet, a well known and appreciated group of ensemble artists. Following his introductory talk, Mr. Whiting presented the players who proceeded with the first part of the program, a quartet by Smetana, one of the Bohemian composers of the middle nineteenth century.

After the short break in the program Mr. Whiting made a further explanation on the movement of the second selection. The second was from the work of the Bohemian, Dvorak. In this selection Mr. Whiting made up the fifth of the quintet by his assistance, which the first selection did not have, at the pianoforte.

MORGAN GIVES TALK TO CORPORATION XV

Mr. S. St. John Morgan, vice-president of the State Street Trust Company, will address Corporation XV at its regular monthly dinner meeting which will be held tomorrow evening at 6 o'clock in the Walker Grill.

Mr. Morgan has chosen for a topic "The Organization of a Business Enterprise." It is expected that Mr. Morgan will devote the largest part of his talk to relating his personal experiences in business and he will probably tell something of the workings of a bank.

Students interested in Corporation XV are invited to attend the meeting. The tickets will cost 75 cents. Members are requested to procure their tickets at their earliest possible convenience as a large attendance is expected. Tickets may be secured from any of the officers of the Corporation.

Membership blanks and pins of the Society of Industrial Engineers have been received from the national headquarters at Chicago. Those who belong to the society and who have not secured them, can obtain them at the meeting.

List of Freshmen Who Are Not Wearing Ties

Following is a list of some of the freshmen who have shown such a lack of class spirit as to neglect to wear their cardinal-and-gray ties:

- William C. Adelson.
- John H. Arnold.
- Lawrence C. H. Berkwitz.
- Kenneth R. Bolles.
- Joseph R. Brennan.
- Wilbert O. Bussenius.
- Edmund G. Caine.
- Elliot F. Childs.
- Charles J. Cirame.
- John P. Glass.
- Raymond Jacques.
- Edward Jaramillo.
- Max Katz.
- John H. King.
- William W. Lappin.
- John B. Newsom.
- Carlton F. Nicholson.
- William H. Otis.
- Rodney K. Piper.
- George O. Richardson.
- Thomas J. Slattery.
- James T. Snow.
- John E. Spalding.
- Robert W. Vose.

College transfers who are registered as '31 are supposed to wear freshman ties, unless they have received special permission from the Rules Committee.

FROSH UNIFORM TIES TO CHANGE IN COLOR

Black Replaces Cardinal and Gray After April 23

All freshmen taking Military Science will wear black ties with the uniform beginning Monday, April 23, in accordance with an order from the Military Science Department. Black ties will be issued during the first two weeks of April.

Conforming with the policy of the Rules Committee, the Cardinal and Gray tie will be regular uniform for all freshmen up to and including drill on Monday, April 16th.

The policy of the Military Science Department in making the Cardinal and Gray tie uniform during this period has been a great convenience to the freshmen. With the changes made in the uniform this year, it has been possible for a freshman to go to his locker at 4 o'clock and change in time for drill.

VARSITY TEAM TO DEBATE FRESHMEN

Affirmative Side of Topic Is Taken by First Year Men This Afternoon

Technology's Varsity and freshman teams will hold an informal debate in Room 2-190 this afternoon at four o'clock, on the subject "Resolved, that the United States should cease to protect by armed intervention, capital invested in foreign countries, except after formal declaration of war." The Varsity is taking the negative side, while the freshman will attempt to prove that the statement is correct.

So far the Varsity has not lost a single debate this year, winning the six debates they have had, while the freshmen have had but one debate, with Dartmouth freshmen, on Friday night, when a judgeless debate was held on the above subject, in which the audience joined. The debate thus made more interesting for the comments from the audience brought forth several points not used by either side, and added to the spirit of the meeting. In all probability the Varsity team will hold a similar debate before the season ends.

On Friday night the Varsity team will hold a debate with the strong Clark University on the same topic that they have used all year. Should the Institute team win this debate, they will have a clear record for the year, for it is doubtful whether there will be another debate for them, unless it is possibly with the University of Vermont team. The men who will speak in the Clark debate will be announced on Friday.

Musical Clubs to Give Pop Concert Friday in Walker

Program Includes Presentation of Specialty Numbers And Dancing

Technology's annual Pop Concert will be given by the Combined Musical Clubs of the Institute on Friday evening, March 23, at 8 o'clock in the Main Hall of Walker Memorial. This Pop Concert, which is merely a regular Musical Club Concert given at popular prices, so that everyone may have a chance to hear the Clubs, has become a yearly affair.

Although the first Pop Concert was given merely with the intent of seeing how it would go over the success of the first Pop Concert was so apparent, that every year around this time the Clubs hold one. Incidentally this will be the last chance to hear the Musical Clubs around Boston before the Spring Concert. The tickets are a dollar and a half per couple or stag, there being no distinction made between the two. Tables may be reserved in advance at the Musical Clubs office.

Several specialty numbers will be featured on the program, among which will be a saxophone quintette, and a piano duet by Edward J. Mar-nock '29 and George Q. Voight '29. Following the concert which will end at about 9:45, the Technicians will play for the dancing which will end at one o'clock. Tickets may be obtained from members of the Musical Clubs or at the Musical Clubs office.

REST OF DRAMASHOP CAST IS SELECTED

Final Announcement Covers Lacking Co-ed Parts

All parts have been chosen for the Dramashop's next production. "At the Sign of the Greedy Pig." After several weeks of try-outs, Coach Dean Fuller has finally picked the following students for the various parts in the show: Bombastes, MacCormack; Ballad Monger, Harding; Trencher, Betts; Squeak, Ogden; Whimp, Wolf; Blat, Keyser; Twist, Horn; Student, Stratton; Surgeon, Bridge; Syndic, Tarr; Jules, Parker; Yank, Evans; First Old Woman, Ross; Second Old Woman, Lovely; Apple Woman, May; First Old Man, Page; Second Old Man, Graham; Tapster, Johnson; Watchman, Glowa; Bell Ringer, Edmund, and Vegetable Man, Logan.

Rehearsals will be held at 7:30 o'clock every Wednesday and Friday night from now until the time for presentation, in Room 2-178, and all members of the cast are requested to attend every rehearsal.

PRINCETON AND DARTMOUTH LEADING GYM CONTENDERS

Finance Committee Appointments Made

At a recent meeting of the Corporation, two members of the Committee on Finance, W. Cameron Forbes and A. Farwell Bemis '93, resigned from that committee. The vacancies were filled by the appointment of Edwin S. Webster '88 and Francis W. Fabyan '93.

All of these men are life members of the Corporation. Mr. Forbes and Mr. Bemis are also members of other committees of the Corporation.

A. D. LITTLE GIVES LAST ALDRED TALK

"Chemical Industry" Is Title of Address in Room 10-250 On Friday Afternoon

Doctor Arthur D. Little '85, President of the Arthur D. Little Co., of Boston, will deliver the last of the year's Aldred Lectures in Room 10-250 at 3 o'clock on Friday afternoon. He has chosen "Chemical Industry" as his subject.

After receiving his degree from Course V at the Institute, Dr. Little became chemist, and later superintendent, at a paper company in Rhode Island. This company was the first in the United States to use the sulphite process for wood pulp in the manufacture of paper.

Two years later he resigned his position to go into general practice as a consulting chemist in Boston, and since then has been exclusively a consulting chemist and chemical engineer, first as junior partner in Griffin and Little, later as senior partner of Little and Walker, and still later as president of the corporation which bears his name. At present, the A. D. Little Co. is the biggest firm of independent industrial research chemists in the world.

Dr. Little is a life member of the Corporation of the Institute, and he was President of the Alumni Association from 1921-1922. He is also the founder of the Institute's School of Chemical Engineering Practice, Course X-A.

BULL SESSIONS ARE STILL GOING STRONG

"Companionate Marriage" was the subject discussed at the third bull-session held in Room 10-340 yesterday afternoon at 4 o'clock. The discussion of the subject was a continuation of the one started last week. Several students who had previously been asked to present both sides of the question did so and the discussion was thrown open for the whole meeting. Many important questions dealing with companionate marriage, such as birth control, morals and sex were brought up and debated upon.

When the bull-session had lasted an hour and the subject had been thoroughly presented and discussed a vote was taken to see how many were in favor of "Companionate Marriage" and how many were opposed to it. Out of 28 who voted, 15 students were opposed to it and 13 were in favor of it.

AVIATION RESERVE OPENED TO JUNIORS

Juniors who are physically qualified and are American citizens, will be given an opportunity to join the Naval Reserve Aviation Unit. There will be a course in flight training which will be given at Squantum Naval Training Station to those who qualify.

Upon the satisfactory completion of the two training periods, a few of the students will be allowed to remain with the Navy for a period of from one to three years.

In order to take the flight training under the Naval Reserve, it will be necessary for the students to attend a class in Aviation Training. This class will be organized as soon as possible so that certain Naval subjects can be given prior to June 30th.

CHICAGO TEAM IS DARK HORSE ENTRY IN BIG GYM MEET

Technology, Army, and Navy Chances of Placing Men Seem to Be Equal

SADLER PROBABLE STAR

Princeton and Dartmouth are probably the strongest teams entered in the Eastern Intercollegiate Gymnastic Tournament which will be held in Walker Gym on Saturday. Princeton has been undefeated this year and holds the Eastern League championship. The Green has been defeated only by the Tigers and this was by a very small margin. Both of these teams have men who won events in last year's Intercollegiate entered again this year.

Sadler of Dartmouth, last year's Intercollegiate champion on the parallels, will be entered this year in the all-around championship as well as the parallels and the horizontals, which are his two best events. He has been closely pursued by Stewart, his teammate on the parallels, and at times it looks as if the title might go to Stewart this year as he has defeated Sadler in several meets. Sadler is almost as good on the horizontals as he is on the parallels and he should place in both of these events.

Princeton Strong on Rings

Jacque Taylor of Princeton is last year's Intercollegiate champion on the flying rings and he apparently is out to duplicate his record again this year as he has been giving some very good exhibitions. He is closely pursued by Bob Snively, who has won almost as many firsts in this event as Taylor has. Taylor, however, is by far the faster in the rope climb and he has won this event in nearly every meet this year. His time is about a second below that of his nearest competitor and he seems to have the best chance of anyone to take the rope climb this year. Bob Snively is pretty strong on the parallels, but it is doubtful as to how much chance he will have against Sadler or Stewart of Dartmouth.

Chicago University is the dark horse of the meet as very little is known about their strength as they have not competed against any of the Eastern schools. They are known to have one of the strongest gym teams in the Middle West, but whether the Western teams are better than those of the East remains to be seen. They are known to have a good man on the side horse and he threatens to challenge Fairchild's bid on that piece of apparatus.

Navy, Army and Penn Also Entered

Navy, Army, Penn and Bowdoin, as well as M. I. T. are the other teams entered in the meet. The sailors have entered fifteen men, but they have not as good a team as generally is the case. They lost their first meet in eleven years to Dartmouth last Saturday. Adamson, their captain, is their best man and he does very good work on the side horse, but it is doubtful if he can beat out Harold Fairchild of M. I. T. Army, Penn and Bowdoin possess mediocre teams and the best that can be expected from them is one or two places at the most. Penn formerly had a very strong team, but they have lost most of their league meets this year and it is unlikely that they will do anything startling this Saturday.

CALENDAR

- Wednesday, March 21
- 6:00—Corporation XV Meeting, Walker Memorial Grill
- 7:30—Mathematics Club Meeting, North Hall, Walker.
- Thursday, March 22
- 5:00—Banjo Club Rehearsal, East Lounge, Walker.
- 6:00—Class of '30 Dinner Meeting, Faculty Dining Room.
- 7:10—Tau Beta Pi Meeting, West Lounge, Walker.
- Friday, March 23
- 8:00—Pop Concert and Dance, Walker.
- Saturday, March 24
- 10:00 A. M.—Meeting of Intercollegiate Gym League, Faculty Dining Room.
- 2:00—Intercollegiate Gym Meet, Walker Gym.

ACUTE CREDITIS

"EDUCATION suffers in America from a confusion of purposes" is the claim of Dean H. W. Holmes of the Harvard graduate school of education. In his opinion we have altogether paid too much attention to the spread of education rather than to making our system fit for the attainment of specific ends. His diagnosis of the situation is an acute case of "credititis."

In the preparatory school everything is subordinated to obtaining sufficient credits to enter college, and in consequence the student arrives in college "prepared," but he has received hardly the beginnings of an education. Age for age our students are noticeably inferior to those in English and Continental universities. Organization in education means more to us than anything else. Dean Holmes' conclusion from these facts is that the outstanding problem is the unification of secondary education and college education without losing any of the features which have proven advantageous in the past.

He has no definite plan, however, to offer, but "there must be cooperation with the colleges, and one college must take the lead in starting the new system." Probably a large majority of Technology students can remember back to their prep school days when preparation for College Boards were the chief and only object of classroom work. The sole purpose of education seemed to be the passing of those examinations, and probably many a student who desired further enlightenment in some subject was denied on the fact that it would not be asked in the exams. A teacher's success was gauged by the percentage of his students who "got by" the entrance examinations. Is it any wonder that students are as a general rule prepared rather than educated?

The chief difficulty with any plan to better the conditions lies in the fact that parents send their children to the school which has a good record for getting their pupils into college. As long as the colleges can find no satisfactory way of requiring their applicants to be able to do more than pass certain set examinations, there will continue to be schools specializing in getting their pupils "by." The fact that this is so little distinguished in the popular mind from doing creditably will prevent any appreciable improvement in conditions.

—THE TECH BOOK LIST—

BRIGHT AVENUES

BRIGHT AVENUES, by Josephine Bentham. New York: Rae D. Henkle Co. \$2.50.

What use the modern young lady makes of her freedom furnishes the theme for Miss Bentham's new novel, "Bright Avenues." It is indeed a novel of 1928 as the publishers claim, but it is introduced in a period of new novels of this year, and it does not present sufficient difference from its contemporaries to be of great importance. We do not hesitate to say that the book is somewhat above the average of its class, but it is not sufficiently so to achieve distinction.

Christine Merrick is a girl of today. She is no super-woman, but neither is she too ordinary to be interesting. From the death of her mother, when she is forced to earn her own living, her existence is cleverly recorded through the early part of her married life. Her occupations are varied, including periods as a stenographer, as a mannequin, as a social worker, and as a protegee of the idle rich. The people that she meets are of varied types, and they are quite true to life. It is an interesting story that breaks away somewhat from the all too com-

mon sophistications of the present-day novel. Miss Bentham expresses herself well, and many expressions that she uses cleverly linger with the reader. Her characters are well drawn and her analysis of the present-day woman and her new freedom rings quite true. As a first novel it shows considerable promise for the author. H. T. G.

THE PORTRAIT INVISIBLE

THE PORTRAIT INVISIBLE, by Joseph Gollomb. New York: The Macmillan Company. \$2.

Mystery stories had reached their peak, and had lost their appeal for many readers, when new studies brought them back into favor; still other people have never held mystery stories worthy of consideration in the fields of contemporary literature. But with the growing interest in psychology, particularly popular interest, a tremendous new power of appeal has been developed. Thus some of the most thrilling mystery stories have capitalized this growing penchant of the public.

"The Portrait Invisible," by Joseph Gollomb, is just such a book. The principal character of the story is Galt,

As We Like It

BEHOLD THE BRIDEGROOM

Love may come once or many times to the fortunate, but when it finally descends on the many spurning ones, beware the reaction. George Kelly succeeds in presenting and delineating skilfully the characters in such an arrangement in this "Behold, the Bridegroom," now at the Shubert.

The spurning one in this play is an expert lounge lizardess, clever, charmingly bored, and dressed so that none of the bodily contours are hidden when she walks the walk of the young sophisticate. But conditions are altered greatly by the end of the second act, for the serpentine loungeess succumbs to an evolution of thought, her pertness becoming morbidly philosophical. And all this because the stimulus of love evolves a queer response. The lizardess, Antoinette Lyle, played by the capable Judith Anderson, is wealthy and untroubled by the ways of life. She had seen and experienced everything, or so she thought. And in the stratum of society into which she was born, one suffered but little from youthful conditioning. When love came to her in the form of handsome Spencer Train, acted by Richard Gordon, a transvaluation of life occurred following the realization that this man could never love her. The inevitable resulted, making the reborn "Tony" despise her old self, and pine away into a grave illness that knew no cure.

The play is undoubtedly well-acted, Miss Anderson's performance being particularly commendable. But despite its excellent execution "Behold, the Bridegroom," seems to lack the depth and conversational deftness of some of the other present-day dramas.

a coldly analytical person with a hobby for studying people's motives—the curious quirks of character which are revealed by their unconscious selves.

The plot concerns the search for the murderer of Judge Robert Craigin. Bruce, the judge's brother, accepts Galt's offer of assistance in the case; and then things begin to happen.

The author shows considerable skill in handling his plot, carefully balancing his suspense, and ever changing his pace, while never allowing the story to lag. "The Portrait Invisible" is indeed a thrilling tale, and one which will hold the reader's interest to the last page. We recommend it highly for an evening's entertainment. F. M.

NERO

THE BLOODY POET, by Desider Kostolanyi. New York: Macy-Masius. \$2.50.

America is not the only country where "private lives" of historic figures are presented to the public in novel form. "The Bloody Poet," by Desider Kostolanyi, is a recent Hungarian novel in which the tyrant of Rome, Nero, is made far more comprehensible to the modern mind. In spite of the hundreds of years

Re-discovers His Favorite Tobacco

Charleston, W. Va., March 4, 1927

Larus & Bro. Co., Richmond, Va. Gentlemen:

Recently I stopped in a little village that consisted of about nine houses and a small hotel, which I entered.

A little old man wearing a skull cap was seated in a rocking-chair smoking an enormous pipe. I had come to buy a can of Edgeworth, but when I caught a whiff of the tobacco he was smoking I changed my mind. The aroma of that tobacco was so delightful that I made up my mind right then and there that I wanted some of the same brand, regardless of the cost.

I began with: "I beg your pardon, sir, but I came in to buy a can of tobacco, and I would like the same brand you are smoking if you don't mind telling me." He looked at me for a moment, grasped his pipe with one hand and said: "I'm smoking Edgeworth. Would you like some?"

Of course I did, and I secured a supply from the old fellow. The joke, of course, was on me, but I went on my way rejoicing.

Yours very truly, Dr. John R. Koch

Edgeworth Extra High Grade Smoking Tobacco

that have passed since the time of the story, neither the stiffness nor the characters have the stiffness or the unnaturalness which is apt to surround antiquity. Nero, despite the almost inhuman cruelty of the latter part of his life, does not seem out of place in his surroundings. There is a sort of grandeur in the man who wishes to be a poet but lacks the necessary ability. He is too much of a politician to be a good poet, yet he is too much of an artist to be a ruler. In taking Nero from his youthful assumption of power to his early death, the author (Continued on page 4)

OUTDOOR TRACK WILL START MONDAY

RALLY WILL OPEN SPRING TRAINING

Two Handicap Meets Scheduled Before Interclass Meet On April 9

Oscar Hedlund, the head track coach at M. I. T., announces that the outdoor track season will start with a rally at 5 o'clock Monday afternoon in Room 10-250. Coach Hedlund wants all men who have had any previous training in track and field to drop around to the track house any afternoon after 3 o'clock and get in touch with him. The coach wishes to emphasize, too, that he would like to see all men interested in track, regardless of whether they have had previous experience. Some of the Institute's finest runners never had a spiked shoe on in their life until they came to M. I. T.

In order to give every man a chance to show his ability, Oscar has arranged a series of two handicap meets, besides the regular Varsity and freshmen schedules. In these handicap meets an effort is made to put every man on a par with the other fellow. The handicap meets are on April 7 and 14, when on April 19 comes the Spring Interclass meet. The Varsity team makes two trips this year, one to the University of Maine and the other to the New England at Providence. The freshmen also have two trips, going to Andover and meeting the New Hampshire frosh at Durham.

YEARLING FENCERS LOSE BY 6-3 SCORE

Boston English High School defeated the M. I. T. yearling fencers by the score of 6 to 3 in a match in Walker Gym last night. Koretsky, Krutter and Jimenez each scored two points for English, while Hyman scored two and Hamilton one for Technology.

In the feature bout Koretsky, the one-armed English High star, defeated Hyman 5 to 3. Hamilton of the M. I. T. yearling team has had little experience but he defeated his opponent easily by the score of 5 to 2.

RIFLE TEAM ENTERS NATIONAL MATCHES

Harbeck Likely to Beat His Own Record

Technology's rifle team will enter the National Rifle Association Intercollegiate with a clear record. The meet in this section of the country will be held at the Commonwealth Armory, Saturday, March 24th. The New England team making the highest score will receive the New England Championship, while the team making the highest score throughout the country will receive the National Championship. Silver medals will be given to the team obtaining the highest scores in the meet and bronze medals to the second highest.

Robert M. Harbeck '28, who holds the National title as well as the New England title has starred for M. I. T. all this season. His shooting thus far this year is even better than it was last year. In a shoulder to shoulder match, he defeated Lieutenant Wheeler U. S. M. C., an International Team shooter, by a score of 187-184 out of a possible 200. Captain Arthur R. Elliott '28, has placed second only to Harbeck in most of the meets. He has done some good shooting this year and has a good chance to finish among the leaders.

James Reddig '29, who obtained the

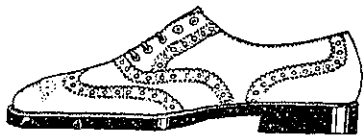

highest individual score on the M. I. T. team in last year's William Randolph Hearst trophy match, has not been very far behind the leaders this season, and should turn in a good score. The other two members of the team who will represent M. I. T. are Richard Orleman '30, and Arthur La Capria '29. Although this is Orleman's first year with the Varsity he has improved rapidly and has turned in some good scores.

La Capria, manager of the team, showed some good ability when he first came out last year, and under the skilful coaching of Lieutenant Moore, has developed into a reliable and cool shot. Robert Loomis '29, will be the alternate shot in the meet. He has shown some fine shooting this year, being beaten by only five points for a position on the team.

This week the rifle team will also fire the first stage of the National R. O. T. C. match. This will consist of ten shots prone and ten shots sitting. At the same time the first stage of the William Randolph Hearst trophy match will be fired. This will consist of only five shots prone.

With victories over Norwich, Boston University, Dartmouth, W. P. I., Williams, Amherst, John Hopkins, Alabama, Massachusetts National Guards, R. P. I. Rifle Club, and the U. S. Marines, the Beaver outfit enters the meets in a fine shape.

MILD?..Yes! **VERY MILD..AND**
YET THEY SATISFY

WE STATE it as our honest belief that the tobaccos used in Chesterfield cigarettes are of finer quality and hence of better taste than in any other cigarette at the price.

CHESTERFIELD CIGARETTES

BATTERY PRACTICE IS HELD IN HANGAR

About twenty battery men reported at the Hangar Monday and yesterday afternoons at the initial call for candidates for this year's Beaver team. Dutch Ayer, former Somerville High coach, and Bill Stewart, Varsity hockey coach took charge of all the candidates, the former instructing the catchers on some of the fine points of the game while the latter took charge of the pitchers. Among the promising candidates for the mound position are Joe Farwell and Brig Ailen.

A. I. E. E. TRIP

There will be an inspection trip of the Edison Lamp Works of the General Electric Company under the auspices of the Technology branch of the A. I. E. E. Those wishing to attend the trip will meet in the Main Lobby at 2 o'clock tomorrow. The details of the trip are posted on the A. I. E. E. bulletin board.

A meeting of the society will be held in Room 5-330 at 3 o'clock today. Motion pictures from the Locke Insulator Company will be shown.

THE TECH BOOK LIST

(Continued from page 2) presents many interesting characters. There are poets and courtesans, relatives in search of power, and the Roman equivalent of gold-diggers.

The author has succeeded in making an interesting story in spite of its bloodiness. The characterizations are good, but are not up to some of Er-

skine's. It has lost little by translation, for its phraseology and clarity are such that one would not suspect it of having been written in a foreign language. Although it is not a great work of literature, it holds its own in comparison with the majority of present-day books. H. T. G.

not a cough in a chapter-ful!
(and of course, "not a cough in a carload")

Another leading tobacconist in Cambridge, Mass., says:

"For some time past . . . OLD GOLDS have been my fastest-growing cigarette. Sales have gone up steadily month after month, and there doesn't seem to be any let-up in this new cigarette's popularity."

The Tech,
86 Massachusetts Avenue

AT LEADING COLLEGES . . . This is an Old Gold year

For a most refreshing change:

"Follow your friends and smoke this smoother and better cigarette"
