

M. I. T. MEETS OLD RIVALS WILL AROUSE ENTHUSIASM AT PEP MEETING TODAY

TECHNOLOGY MEETS CORNELL TEAM ON CINDERS TOMORROW

Ithacans, Indoor Champions Favored in Meet on Tech Field

M. I. T. STRONG ON TRACK

Kirwin, Caruthers, and Wright Outstanding Entries in Annual Classic

Cornell's track and field team will arrive in Boston today for the opening of their dual meet season with Technology on Tech Field tomorrow afternoon. The meet will get under way at 2 o'clock in order to give the fans a chance to see both the meet and the crew race, which will be held directly afterward on the Charles River. The perfect weather conditions of the past few days have not only put the Institute team into top form but also made the track faster than ever.

The Technology team opened the season a week ago with a disappointing meet at the University of Maine. The Engineers' weakness was in the field events, but on their home field tomorrow it is hoped that the men will come out of the slump and give Cornell plenty of fight.

Engineers Have Edge on Cinders

Starting with the century dash and going through to the two-mile run, with the exception of the hurdles, the M. I. T. track men have the edge over their Ithaca rivals. In the hundred and the furlong Technology has a fast and dependable pair in Lud Jandris and Freddy Ladd. Cornell has no real strength in these events.

Captain Cy Meagher and Jack Halahan will uphold quarter-mile honors. The Red and White strength, since the graduation of Werly, has not been too brilliant, so that the Engineers should score heavy in this event. In the half the Cardinal and Gray are sitting pretty, for Marsh Fay, who finished second to his team-mate, K. A. Smith, last year, is in form and eager to move up a notch this year. Dick Berry, a Sophomore, who beat Fay in the Interclass meet, will bear watching.

Kirwin Favored in Mile

After running a 4:30 mile on the Maine indoor track a week ago, Pete Kirwin, who incidentally won the mile in the 1927 Cornell meet, will toe the mark a favorite for the mile tomorrow afternoon. New Mitchell and Chuch Worthen will give the I-

Newly Formed Liberal Club To Elect Officers

Elections for the various officers of the newly formed Liberal Club will take place Tuesday afternoon. The meeting will be held in Room 10-340 at 4 o'clock and Murry Brimberg '29, will preside. Mr. Dean Fuller will be present and will lead a discussion on "America in Nicaragua."

At the first meeting of the Liberal Club held last Tuesday plans for getting under way were made and as soon as the officers of the club are installed these plans will be carried out. The formulating of the club is one of the results of the bull-sessions which were held a few weeks ago. These meetings proved so successful that it was decided to organize a permanent organization.

FUNK WILL HEAD MUSICAL CLUBS

Club Leaders For Coming Year Announced at Banquet Monday Night

In concluding the year's activities of the Technology Combined Musical Clubs, a banquet was held at the Hotel Bellevue in Boston on Monday. A large gathering of members and some of the faculty members were present.

Charles C. Marshall, Jr. '28, the retiring General Manager of the Clubs announced his successor as Donald R. Funk '29. He is to be assisted by the following men: Gilbert H. Hathaway '29, Trip Manager; Thomas A. DeMarco, Jr. '30, Stage Manager; Joseph E. Rehler '30, Treasurer; Carl J. Franz '30, Business Manager; and George E. Kloote '30, Publicity Manager.

Malcolm A. McDuffie '25, of the English Department gave the main speech of the evening. Among other things, he described, in a particularly humorous manner, his recollections of one the Musical Club's trips several years ago. Frequent bursts of laughter accompanied his witticisms.

Each year a loving cup is presented to that organization of the Clubs which has shown the greatest improvement during the season. This year it was presented to the Instrumental Club through its leader, Arthur Campopiano '28. Between the courses of the dinner, the leaders of the various clubs for the next year were announced. Stating the qualifications of

UNDERGRADUATES WILL HOLD MASS MEETING AT 11:45

Coaches and Heads of Athletic Activities Will Speak In Great Court

CLASSES DISMISSED EARLY

For the first time this year a Sports Mass Meeting of the entire undergraduate body will be held in the Great Court today from 11:45 to 12:15, special permission having been given by President Samuel W. Stratton to dismiss the 11 o'clock classes 10 minutes early and begin the 12 o'clocks 10 minutes late. This meeting will give the student body a chance to show the crews and track team that they are backing them to defeat Harvard and Cornell in the dual contests tomorrow.

There will be several short speeches. The list of speakers includes Dr. Allan W. Rowe, '01, and Dr. John A. Rockwell, '96, respectively secretary and chairman of the Advisory Council on Athletics; M. I. T. Crew Coach Bill Haines, Technology Track Coach Os Hedlund, Emil D. Malmquist, '28, crew captain, and Cyril B. Meagher, '28, track captain.

Flyers will be distributed to students this morning as reminders to secure a full attendance; notices will also be posted on the blackboards in the class-rooms. Orville B. Dennison, '11, secretary of the Alumni Association, will be on hand to lead the cheering, and the freshman band will lend volume to the occasion. The meeting is being held under the auspices of the Calumet Club, and will be presided over by Edward A. Yates, '29, president of the Club.

In case of rain the meeting will be held in Room 10-250.

PARADE FOR BENEFIT OF VISITORS TODAY

Arrangement has been made to hold a regular Dress Parade of the Institute Battalion this afternoon, to which visitors are invited. This action is by way of making up for the necessary omission of the parade as part of the program of Open House Day last Saturday. Not only on this afternoon, but on the next two Fridays, May 11th and 18th, visitors will have the opportunity to witness the military organization of the Institute in action, for similar parades have been arranged for these dates. These will all be on the usual drill field.

Transportation Expert Who Will Give Lecture

Mr. George Hannauer

B. & M. PRESIDENT WILL SPEAK TODAY

Entire Student Body May Hear Aldred Lecturer Describe Railroad Life

Taking as his topic, "Deductions From the School of Experience," Mr. George Hannauer, President of the Boston and Maine Railroad Company, will speak at the Aldred Lecture in Room 10-250 at three o'clock this afternoon. It was announced that exercises in fourth-year and graduate subjects will be omitted from three to four o'clock so that men taking these subjects may be able to attend.

About a year ago Mr. Hannauer, in the capacity of advisor, was instrumental in bringing about the revision of the terminal facilities of Boston. Upon becoming president of the Boston and Maine Railroad he introduced a number of improvements. One of these is the car retarder used in modern hump freight yards, of which he is a co-inventor. He is widely known as an authority upon the transportation and handling of freight.

Speaking from thirty-eight years' experience, Mr. Hannauer will relate a number of incidents of his own life from which he will give timely advice. He will explain what constitutes the make-up of a successful man and how the pitfalls, into which the average man stumbles, can be avoided. Mr. Hannauer's lecture will com-

(Continued on page 4)

FOUR CREWS WILL RACE HARVARD IN DUAL REGATTA

Erickson Returns to Place at Number Four in Varsity Boat

FROSH BOAT IMPROVES

First Race Scheduled to Start at Four O'Clock Tomorrow Afternoon

Facing the difficulty of recovering their lost confidence and fight, the Varsity will take their last workout today in preparation for tomorrow's duel with Harvard. The defeat at Princeton seemed to take a lot of life out of the crew, and this week's time trials have not been very satisfactory.

In the Princeton race the freshmen were rowing for the first time in competition with another crew, and consequently their rather poor showing was traced to inexperience. In an effort to remedy this serious fault Coach Haines has taken over the direction of the yearlings, and the result is a fighting boatload of freshmen that has habitually beaten the Junior Varsity in the informal races from Watertown back to the boathouse.

Inability to maintain an even keel have handicapped the Jayvees for a long time, and there seems to be a list to starboard, according to one of the men. The Varsity boat, composed almost wholly of veterans, has been riding the water perfectly, and the regular beatings the Jayvees have been taking in practice are probably due a great deal to this difficulty.

The frosh will keep their regular seatings for tomorrow's race, as will the light varsity, with the exception of one shift, Gibbons and W. MacKusick having been shifted.

No certain dope has been received on the Harvard crews, but from observation of their performances on the river during the past two days the coaching staff is convinced that the Crimson navy is as strong as any they have had in the past. The race will be their first this season.

The first race is scheduled for 4 o'clock, with the freshmen crews rowing one mile and three-quarters. The other races will follow at half-hour intervals, with the hundred-fifties rowing second over the Henley course of one mile and five-sixteenths, followed in order by the Junior Varsity

As We Like It

THE MADCAP

Rather than being the conventional musical comedy, "The Madcap" at the Shubert is as the program states, a comedy with music. The element of comedy is at all times uppermost, but the music, though pleasant, is nothing exceptional.

Although the story is none too new, it has been dressed up extremely well with clever lines and characters so that one forgets completely its age. A woman with a daughter of twenty in order to secure a millionaire husband tells him her daughter is but twelve. To preserve the illusion till the marriage the daughter, played by Mitzi, proceeds to act and dress her supposed age. Of course numerous complications ensue, but at no time do they become so involved as to lose their humor.

Mitzi carries off the lead part extremely well and in a child's clothes in which she "can show her legs without attracting attention" she looks quite youthful. The supporting parts also are for the most part well acted. With an unusually good looking chorus and some clever stepping there is entertainment for the eyes as well as for the ears. It offers excellent proof that a new idea and plot are not necessary to produce an enjoyable musical comedy if the author and cast are sufficiently competent.

THE TECH BOOK LIST

AD THE TECH BOOK LIST PHYSIOLOGY

PHYSIOLOGY, by V. H. Mottram. New York: W. W. Norton & Company. \$3.

Since the World War, there has been a tremendous growth in the avidity with which the popular mind has sought out what was hitherto considered as information within the ken of professional men and women alone. But one subject after another has been popularized for general public consumption.

Physiology is the latest to fall into this category, and V. H. Mottram has done his task passably well, so that this current work represents a comprehensively handled undertaking. The casual reader will find much that is new to him concerning the functioning of his body; while the reader who has background in the subject will find things presented in a popular way, which, while not detracting from its veracity, increases its ability to appeal to the reader's imagination.

EVOLUTION OF MAN

CONCERNING MAN'S ORIGIN, by Sir Arthur Keith. New York, G. P. Putnam's Sons.

In a rather absorbing resume of the various scientific facts pointing to the gradual development of mankind to its present state, Sir Arthur Keith, D.Sc., F.R.C.S., LL.D., F.R.S., has combined a series of addresses he has given at intervals to many of the scientific societies of England.

The first lecture, reviewing man's origin, the presidential address of the writer before the British Association, is quite a simple summary of most

of the common knowledge about the family tree of the human race—far too simple, in our mind, for a great scientist to give to other great scientists. It is however, a very lucid explanation of why the foremost thinkers in the present generation have accepted the theory of evolution.

Other chapters of this book deal at length with further proofs of the origin of the species, involving the various transitional stages passed through by the human embryo from the time of conception to birth. The writer shows in a very concise manner how the unborn child assumes forms that range from that of the most primitive anthropoid young to its final man-like state, drawing from these illustrations the theory that our modern being is still based upon an exceedingly original foundation.

TECHNICAL GAYETY

DO we get too businesslike during our four years at Technology? Is there a danger of our minds becoming deadened to the lighter things of life by our constant delving into higher mathematics, electricity, or chemistry? When we graduate, are we never going to talk or think of anything but that phase of engineering which we may choose?

It is this likelihood which Professor Babcock of the Railway Engineering department warned against in an informal talk to THE TECH staff at their banquet last Wednesday evening. He has found, he said, that engineers have a tendency to surround themselves always with their work, and never to think of anything else. We have to be careful that we don't become walking handbooks. "Gatherings of bankers or lawyers are jolly affairs. The men take the time to put on the 'glad rags', but a note of formal informality prevails, and business does not furnish the main topic of conversation."

"At the engineering functions, however, the men come in their sack suits, being inclined not to bother to change from their business clothes, and what 'dead' affairs they are! Nothing but engineering talk, and while it may be interesting, it's no fun after a full day of the same stuff."

Along this line is a new project sponsored by Boston Business men. Showing that they are not wholly engrossed in their professions, a number of the prominent merchants, financiers, preachers, doctors, architects, and lawyers have formed a Business Men's Art Club, and the premiere exhibit of their work is acclaimed as a distinct success. Anything but the typical atmosphere of the art studio pervades, but the pictures are many of them worthy of a master. These men, all of them amateurs, have found time from their work to indulge their fancies and produce some excellent works of art.

We might well get a big lesson from the experience of these men. Of course, we can't go to the other extreme and let outside activities get us out of school, or lose us our job, as the case may be in future years. However, if we may find some thing in which we are interested, something with which we may profitably use up our spare time, we will be much the better for it. Don't get stale!

TEN PLANKS

RIGHT in step with the rest of the presidential campaigns, Technology's four new presidential candidates have made a gentleman's agreement to condense their platforms into the following general points. Their thoughtful and diligent answers to these questions will appear on the editorial page of Monday's issue of THE TECH.

- QUESTIONNAIRE FOR PRESIDENTIAL PLATFORMS
1. Why didn't you go to Harvard instead of Technology?
2. Do you favor more or less sleep for members of the Institute Committee?
3. How do you plan to improve the contact between Faculty and students?
4. Should Technology be made coeducational?
5. Are you an autonomist?
6. Did you use the dictionary for the last question?
7. Do you think you can break up the tutoring trust? Why not?
8. How soon are you going to see that the Great Court is sodded?
9. Should the dormitories have another representative on the Institute Committee?
10. Should the Interfraternity Conference be represented on the Institute Committee?

That the questionnaire may not be taken as merely a useless series of ridiculous ideas, it must be understood that a President with a sense of humor is often a Godsend, and that it takes a clever man to answer ten questions without getting in hot water or making himself look foolish.

After BARGAIN DAY.. WASH DAY after WASH DAY what?

EVEN a nine-day wonder is longer-lived than many a bargain-day profit. On wash-day the customer's beautiful illusion that she found a bargain fades like a rainbow.

But the merchant's illusion that he made a profit unfortunately continues like the pot of gold to lure him on to still "bigger and better bargains."

The shopper is wiser; she doesn't trust that store's work for color fastness. She won't bother telling him but she'll go out of her way to tell everybody else.

The merchant is sadder though not wiser; he still believes in glib guarantees. Competition gets the blame — and gets his customers. After all, there's no substitute for real value.

Everybody gets more for their money in

ENGINEER GYMNASTS IN NEW YORK MEET

Pearson, Wells and Dolloff to Enter Nationals

Coach Jack Pearson heads the list of Engineer gymnasts who travel down to New York this week-end to compete in the National Gymnastic tournament. The results of this meet will be of great importance since the winners are practically certain of places on the 1928 Olympic team.

David Q. Wells and Norman Dolloff are the other Engineers who will make the trip. Dolloff will try to come back with a place in the tumbling while Dave will concentrate on the horizontal bars. Olympic exercises are required in every event except the tumbling, which is not an Olympic event. Dave can do the Olympic exercises only on the horizontal bars, so this is the only event which he intends to enter.

Pearson is entered in all of the Olympic events and hopes to place in a number of them, but he will meet some stiff competition, especially from Yachim, who is the leading gymnast of the country and is a sure member of this year's Olympic team. Jack hopes to make the Olympic team this year and if he comes through in the Nationals his ambition will be realized.

DORMITORY BASEBALL TEAMS START SEASON

Once more has the "Dorm Goblin" become tired of all the petty undertakings and has inaugurated the dormitory baseball season. Last year's season furnished a nip and tuck battle all the way and finally ended with Holman the victor. Crafts, which was the runner-up only barely missed winning the crown.

This year promises some real fight between the halls and any hall that wishes to be up among the leaders must get up quite early to do it. That is, on account of existing conditions and arrangements made, all games will have to be played between the hours of 6 to 8 a. m. Four games have already been played.

VARSITY NETMEN LOSE TO BROWN

Cleary and Kuki Show Up Well For Institute Team —Score 6-0

Playing against the strong and as yet undefeated Brown University tennis team, Technology went down to a 6-0 defeat Wednesday afternoon at Providence. Cleary and Kuki played best for the Institute team and in spite of their defeats put up a hard fight before bowing to the Bruin netmen.

Kuki showed a beautiful backhand stroke but his aggressive playing was ineffective against the Brown player. Weiss, who opposed him, is a brilliant defensive player and never once scheduled to meet Dartmouth at Hantook the offensive in the match.

The Cardinal and Gray team is over Saturday and will enter the meet a strong favorite. The men making the trip are: Cleary, Kuki, Wigglesworth, Kononoff, and Hagedorn.

Summary of the Brown meet:
Singles—Weiss (B) defeated Kuki (M. I. T.) 6-4, 4-6, 6-2. Eddy (B) defeated Cleary (M. I. T.) 3-6, 6-3, 7-5. Swan (B) defeated Wigglesworth (M. I. T.) 6-2, 3-6, 6-3. Greenleese (B) defeated Kononoff (M. I. T.) 6-4, 8-6.
Doubles—Swan and Greenleese (B) defeated Kuki and Kononoff (M. I. T.) 7-5, 6-4. Weaver and Rich (B) defeated Cleary and Wigglesworth (M. I. T.) 8-6, 8-6, 7-5.

RIFLE TEAM ELECTS LEADERS FOR 1929

At a meeting of the rifle team Friday afternoon, Arthur La Capria '29, manager of the team during the past two seasons, was elected captain for next year, and Richard G. Orleman '30 was elected manager. Medals awarded by the N. R. A. in recognition of the winning of the New England championship, were distributed among the members of the team. R. O. T. C. insignia were also given out at the meeting.

The team will lose three of its best shots by graduation, these being Robert M. Harbeck, one of the outstanding marksmen of intercollegiate ranks and last year's national individual champion; Arthur R. Elliott, this year's captain, who ranked second only to Harbeck on the team, and Walter C. Tobie who has done good work during the past season and ranks well up on the team.

HARVARD GOLF TEAM DEFEATS ENGINEERS

Only the good playing of Captain Ed Yates and Chuck Newhall saved the varsity golf team from a shut-out at the hands of Harvard in the opening game for both teams at the Woodland Golf Club Monday. The Crimson linksmen won all four singles matches and then divided honors in the foursomes to win by a score of 5-1.

Eagle Team Shows Too Much Class For Beaver Nine

Crosby Shines For Technology —Team Shows Improvement In Fielding

Boston College easily defeated the Beaver baseball team, 9 to 1, at University Heights on Wednesday. The game was featured by the fine twirling of the Eagle pitchers, Johnny Mantle and Charlie Murphy. Ted Gannon started for the Beavers and kept the Eagles pretty well in tow during the first few innings, but he began to weaken in the fourth inning, when the Eagles scored the first of a series of runs.

Ralph Crosby did by far the best work for the Beavers, making a one-handed catch of a Pat Creeden hit, and in so doing prevented an otherwise sure home run. Ralph was working out in right field and was the only Beaver to get more than one hit.

Both Teams Score in the First

Bianchi started the Beaver fireworks in the first inning, when he received a pass. Crosby singled. Engler was passed and Cullinan hit into a double play, scoring Bianchi for the only Beaver score. The Eagles came right back in their half after receiving two passes, a fielder's choice and a long sacrifice fly, scoring Pat Creeden.

Neither team could do anything until the fourth inning, when the Eagles got another score. Moncewicz drew a free ticket, Stokinger singled, O'Brien forced Moncewicz at third and Mantle and Creeden walked, forcing Stokinger across. This started the Eagle scoring and in the next few innings they piled up a total of eight runs.

Eagles Score Two in Fifth

Gibson started the scoring for the Eagles in the fifth, when he was passed. A fielder's choice by O'Day, a single by Fred Moncewicz and a sacrifice by Stokinger drove in two runs. In the sixth neither team could do anything, but in the seventh Boston College scored another on two infield hits and fielder's choice.

Four runs were gained by the Eagles in the eighth. An infield hit, two passes and a Texas leaguer brought in the first tally. A passed ball scored another and then Gibson got a free walk. O'Day sent a hot liner to Cullinan, at short, who could not hang on to it, thus letting in another score. A high foul fly which was caught near first base by Burke let Al Weston score from third to end the Eagle rally. In their half of the ninth the Beavers could do nothing.

As a whole this game was much better than the Terrier tragedy. The fielding was fairly good, but the Beavers were weak at the bat. Ralph Crosby and Cullinan are the consistent hitters on the team. Gannon passed 10 men, which was responsible for a large percentage of the runs. However, the team has improved and should do fairly well against the Terriers when they meet again on the eighth. The score:

Boston College

HARDY STARS IN FRESHMAN VICTORY

Cardinal and Gray 1931 Track Team Swamps Tufts Frosh 98-24 Wednesday

Undaunted by the Andover setback, less than two weeks ago, the Engineer freshman track team turned out in full force on Tech Field Wednesday afternoon and swamped the Tufts Frosh, 98 to 24. Phil Hardy won the discus with a heave of 125.6 feet, to break the freshman record made by Fred Glantzberg in 1924 by over 11 feet. Hardy also won the high hurdles and ran a close second to Farquhar of Tufts in the lows, and then topped off the afternoon by placing second in the shot to Bror Grondal. Grondal incidentally has been given credit for his pill toss of 47 feet 2 inches in the Andover meet as a new freshman record. Wednesday he got the iron ball out 45 feet.

Mile Run Feature of the Meet

In the mile John McNiff of Technology took the lead on the second lap, but his team-mate, Dick Baltzer, passed him on the third circuit. McNiff and Semple, also of M. I. T., had one of their characteristic last lap duels, but Mac had the punch and nosed out Semple by inches for second place. The time was 4 minutes 48.2-5 seconds.

In both the dashes Charlie Broder had things pretty much his own way, winning both races handily. Phil Benjamin tied for first in the high jump, with Northrup and Cohen, both of Technology, and won the broad jump. Earl Danforth, in his first pole vault competition, tied for first with Bugden of Tufts.

Herbie Allbright and Wen Currier ran a nice half, the last race of the afternoon, and Currier came through to the tape in a close finish with his team-mate. The meet Wednesday has boosted the freshman chances against Hbly Cross frosh when they meet May 12 at Tech Field. The summary:

120-yard high hurdles—Won by Hardy (M. I. T.). Time—17 2-5s.
220-yard low hurdles—Won by Farquhar (T.); second, Hardy (M. I. T.); third, Baltzer (M. I. T.). Time—27s.
100-yard dash—Won by Broder (M. I. T.); second, Lappin (M. I. T.); third, O'Sullivan (M. I. T.). Time—10 3-5s.
220-yard dash—Won by Broder (M. I. T.); second, Ayres (M. I. T.); third, O'Sullivan (M. I. T.). Time—23 3-5s.
440-yard run—Won by Meuse (T.); second, Wood (M. I. T.); third, Burrows (M. I. T.). Time—55 4-5s.
880-yard run—Won by Currier (M. I. T.); second, Allbright (M. I. T.); third, Baltzer (M. I. T.). Time—2 m. 12s.
One-mile run—Won by Baltzer (M. I. T.); second, McNiff (M. I. T.); third, Semple (M. I. T.). Time—4 m. 48 2-5s.
Discus throw—Won by Hardy (M. I. T.); second, Grondal (M. I. T.); third, Ahlberg (M. I. T.). Distance—125 ft. 6 in.
High jump—Tie between Benjamin, Northrup and Cohen of M. I. T. Height—5 ft. 3 in.
Broad jump—Won by Benjamin (M. I. T.); second, Spears (T.); third, Reed (T.). Distance—19 ft. 1/2 inch.
Hammer throw—Won by Champlain (M. I. T.); second, Demars (M. I. T.); third, Hardy (M. I. T.). Distance 101 ft. 9 in.
Pole vault—Tie between Danforth (M. I. T.) and Bugden (T.); third, Davis (M. I. T.). Height—9 ft.

INDIVIDUAL BOWLING TOURNAMENT CLOSSES

Carl Bernhardt Defeats George Brodsky in Finals

For four weeks the bowling alleys in the basement of Walker Memorial have been the scene of many a close battle, with the pins as targets and the balls as ammunition. But at last the struggle has ended. Last night Carl Bernhardt of Runkle defeated George Brodsky of Atkinson for the Individual championship of the dormitories, by a score of 473-460.

It was a close battle throughout, with Bernhardt leading at first, then being overtaken and led by his opponent. The first string ended with Bernhardt having 102 and Brodsky 99. In the second string Brodsky led with a score of 99 to 90. The third went to Bernhardt 101 to 84. In the fourth string these scores were reversed. The fifth string held the solution and it was a nip and tuck battle all the way. It finally ended with Carl getting 94 to the 77 made by George. Carl Bernhardt was then declared the winner.

In the four weeks that the tournament has been under way a number of high scores have been rolled up. Floyd Buck had the highest individual score with a five string total of 514. The next highest was a 513 rolled up by George Brodsky, with Carl Bernhardt 3rd with 508.

DR. TYRON DESCRIBES M. I. T. TO STUDENTS

Will Represent Technology At Inauguration In New York

Dr. James L. Tryon spent last week away from the Institute visiting preparatory schools and colleges and speaking at many of them.

He ended the week by attending the Congress on International Law. Among other things he found that the Institute had one of the largest enrollments in the course in International Law of the colleges offering the course.

Dr. Tryon is to represent the Institute at the inauguration of Frederick Bertrand Robinson as President of the College of the City of New York on Monday evening.

Dramashop Will Present Second Play In Rogers Tonight and Tomorrow Night

Setting of Comedy of Beggars Laid in Old Town Square Of Mediaeval Europe

"At the Sign of the Greedy Pig," the Dramashop's latest production will be presented in the Commons Room at Rogers Building tonight and tomorrow night at 8:15 o'clock.

In the order of their appearance, the cast is:

- First Old Man Loudon C. Page '31
Second Old Man Owen W. Burrows '30
Tapster John A. Johnston '30
Watchman Elliot C. Graham '31
Bell Ringer Charles F. Edlund '30
Twist Frank W. Horn '29
Squeak Richard B. Ogden '30
Blat Paul V. Keyser '29
Whimp Frederick Wolf '28
Apple Woman Willard F. McCornack '28
Ballad Monger Cyril R. Harding '29
Young Girl Roberta B. Lovely '28
Mistress Trencher Mary E. Betts '30
Surgeon Theodore E. Bridge '30
Student Frank B. Stratton '29
Syndic Allen L. Tarr '28
Bombastes Willard F. McCornack '28
Jules Robert P. Parker '31
First Old Woman Helen May '29
Second Old Woman Roberta B. Lovely '28
Third Old Woman Chauncy W. Raycroft '31
Yank Louis P. Evans '31

There are several musical numbers in the play, the accompaniment for which is played by Warren H. Martell '30.

In this play the Stage Department has shown its ingenuity by several novel stage effects, such as a sunrise and sunset, and a comet passing across the sky.

All the music and lyrics for the play, such as the various ballads and ditties have been written by the author, with the exception of the "Watchman's Song" the music for which was written by Frank B. Stratton '29.

This play is of an entirely different type than the "Hairy Ape" the Dramashop's first production, which was somewhat heavy and melodramatic.

Tickets will be sold in the Main Lobby today from nine until four o'clock, or may be obtained from any of the members of the cast or management, or in Room 2-178.

CREWS MEET HARVARD TOMORROW AT 3 P. M.

Varsity's Chances Improved by Return of Erickson

(Continued from page 1)

and Varsity crews, rowing one mile and three-quarters.

The Technology boatings:

Varsity Bow, Capt. Malmquist; 2, Holt; 3, Kelsey; 4, Erickson; 5, Tittman; 6, Dolben; 7, Knight; stroke, Zurwelle; cox, Karas.

Junior Varsity Bow, S. Wells; 2, Latham; 3, Landen; 4, Byrne; 5, Godfrey; 6, N. Wells; 7, Bennett; stroke, Jackson; cox, Booth.

150-Pound Varsity Bow, Carr; 2, W. MacKusick; 3, Weaver; 4, Gibbons; 5, Capt. Nichols; 6, Nason; 7, B. MacKusick; stroke, Harris; cox, Bullock.

Freshmen Bow, Birdsall; 2, Morris; 3, Bennett; 4, Evans; 5, MacLeod; 6, Capt. Otis; 7, Hall; stroke, Richardson; cox, Whitaker.

OPPER ELECTED HEAD OF CHEMICAL SOCIETY

At a recent election of the Chemical Society the following officers were elected for the coming year: Richard K. Opper '29, president; Laurence T. Tufts '29, vice-president; Stanley C. Wells '30, secretary; Carlton E. Vanderwarker '30, treasurer, and Gregory Smith '30, trip-manager.

In outlining the plans for next year the officers have decided to have seven smokers, six trips, and a banquet. A drive for new members will be made during the month of October.

Seniors!

Sign-ups for Senior Week will be on sale in the Main Lobby the rest of this week. The sign-ups are \$4.99 and may be redeemed after May 15 for \$12.50.

HARDING MANAGER OF THE 1928 BENCHMARK

Cyril B. Harding '29 was elected General Manager of the 1928 Benchmark, the annual publication of the Civil Engineering Summer Camp.

Lawrence Gonzalez '30 was elected Editor-in-Chief, Stuart C. Westerfield '31 Associate Editor, Wilfred P. Eaton '30 Treasurer, and Sears Hallett '29 Advertising Manager.

FINAL PLANS MADE FOR FRESHMAN PROM

Tickets Selling Rapidly For Dance on May 11

Interest in the freshman prom, to be held at the Copley-Plaza on May 11, is gradually being aroused and the sale of tickets is rapidly increasing.

Final plans for running the affair were made at a meeting of the dance committee held Wednesday evening. It was announced that the contract had been signed and the Swiss Room of the Copley-Plaza definitely secured.

MUSICAL CLUBS END YEAR'S ACTIVITIES

(Continued from page 1)

each, the retiring leaders handed batons to their successors, who then made speeches of acceptance. The new leaders are: Instrumental Club, Henry B. Walker, leader, Warren H. Martell '30, assistant; Glee Club, Frank B. Stratton '29, leader, Ralph W. Murley '30, assistant; Banjo Club, Roy W. Ide '30, leader, George N. Mangurian '28, assistant.

Funk as a freshman and Sophomore Manager and Junior Business Manager gained a wide experience for his new position. He is a member of Baton. He served on the Sophomore Dance Committee and this year on the Junior Prom Committee.

The banquet closed with the singing of the Stein Song and a cheer for the past good work of Marshall.

Those who have not secured their copy of Technique as yet may do so any afternoon this week between 11 and 2 o'clock in the Main Lobby.

NOTICES

Copies of Technique can now be obtained in the office on the third floor of Walker. Those who have not as yet secured their copies of the book may receive their copy by applying at the Technique office.

MECHANICAL ENGINEERING SOCIETY

Election of officers will be held today at 4 o'clock in Room 3-470. All members please attend.

SECTION-LEADERS MEETING

A meeting of the officers and the section-leaders of the freshman class will be held in Room 4-138 this afternoon at 5 o'clock.

TRACK MEN OPPOSE CORNELL TOMORROW

Technology's Team Must Score Most of Points in Track Events

(Continued from page 1)

hacan milers plenty to worry about before the race is over. In the two-mile Lee Thorson, who did 9:46 on the boards this winter, will probably show his heels to Benson, the Cornell threat.

Red and White Strong in Hurdles

Led by Captain Spelman, the Cornell hurdlers have the advantage in the hurdles. Caruthers, who nosed out Hank Stienbrenner over the high sticks in last year's meet, together with Heasley, should dominate the highs, while Spelman will probably break the tape in the low fences.

In the javelin Jim McCarthy, who placed second a year ago, will give Weiss, of the Red and White, plenty of competition for first place. The discus will give Miles Gray a chance to show his Interclass meet form.

Pole Vault Will Be Close

Ray Jack, three weeks ago, did 12 feet 4 inches in the pole vault and will make things interesting for the Cornell high flyers, whom reports credit with consistently getting up over 12 feet.

Cornell's greatest strength will be in the hammer throw, with Wright, who won the Penn Relay event a week ago, Cohen and Worden competing. It was the work of these three weight men that gave the Ithacans the power to win the Indoor Intercollegiate this winter.

Coach Hedlund feels that his men are in shape and, although they may not defeat the Moakley-coached aggregation, looks for a better showing than the Engineers made in 1927 at Ithaca.

STUDENTS TO HEAR HANNAUER LECTURE

(Continued from page 1)

prise some of the runing orders of a railroad executive for the route to success and a number of maxims that have helped in his career.

The following notice, addressed to members of the instructing staff, was released from the Office of the President.—On account of the general interest in this lecture, it has been decided to open this particular lecture of the Aldred Series to the entire student body of the Institute, and you are hence requested to bring the notice of this lecture to the attention of your classes, particularly the third-year students.

OUR YOUNG MEN'S SPRING SUITS

(Young Men's Dept. 2nd Floor)

And here we offer a very exceptional service to students, college men and young business men, who demand the well ordered appearance that bespeaks judgment and ability.

Sack coat models that are straight and semi-straight, two and three-button fronts, notch or pointed lapels, patch or flap pockets, with the six-button vest and the stylish type of wide trousers.

Made in our own work rooms from foreign and domestic materials.

Suits \$45 to \$55
Topcoats \$45 to \$50

Scott & Company LIMITED
336 to 340 Washington St. Boston, Mass.

'THE TECH' MAKES MERRY AT BANQUET

Louis' French Cafe was the scene of the TECH banquet Wednesday night where a large number of the staffs of all departments gathered to eat an excellent dinner, enjoy the speeches and the cabaret acts.

Miss Lillian Brooks, better known as the "personality kid," rendered a number of dance acts with Mr. Benj. Macomber, late of "Gay Paree" in New York, at the piano. Miss Brooks' dancing and singing, especially the former, delighted everyone present.

Lawrence C. Hamlin '29, General Manager of the TECH, next introduced Professor John B. Babcock 3rd '10, the head of the new Railroad Engineering Option. Mr. Babcock remarked upon the benefits derived from working on a publication, and delightfully told of a number of newspaper stories which were humorous in their inaccuracy.

Students at University of Chicago can at least be sure of a position after graduation. The Chief of Police has given them an open invitation to join the city force after graduation.
