

DEDICATION EXERCISES OF NEW INFIRMARY ARE HELD

Dr. Emerson, in Dedication Address, Stresses Need For Personal Participation In Protecting Individual Health

"The modern hospital is the expression of a new ambition, as a center of protection and information, a link in what has been called the chain store system for communal health", declared Dr. Haven Emerson, Professor of Public Health at Columbia University, in his address at the dedication exercises of the Richard M. Homberg Memorial Infirmary yesterday afternoon.

William Rosenwald '24 made the presentation address of the new infirmary which was made possible by a gift of the family of Richard M. Homberg, of the Class of 1923. As a pioneer in safeguarding the health of its students, Technology now has what is said to be unexcelled facilities for remedial and preventive treatment.

Dr. George W. Morse, head of the Department of Hygiene and Medical Director of the Institute explained the operation and work of the infirmary in caring for the health of the students. Lantern slides were shown of the various divisions of the building and after the exercises the guests were given the opportunity to inspect the infirmary.

Rowe Speaks
Dr. Allan W. Rowe '01, a member of the construction committee of the infirmary and the advisory council on athletics, told of the principle adopted at Technology whereby as many as possible are encouraged to participate in athletics in place of limiting the activities to a few stars. Dr. Rowe also explained the cooperation that existed between the various athletic programs and the Department of Hygiene.

Emerson Speaks
In his dedication address on the "Personal Responsibility for Health," Dr. Emerson stressed the need for personal participation in health protection. "With all our gains in security of life," he said, and the greater length and breadth of life, which have been won through the first eras of public health, by authority, sanitation, control and environment, direction of public services, and widespread efforts at general information and protection against the hazards of aggregate and industrial existence, there is an almost unbelievable mass of inertia so far as personal participation is concerned."

Stresses Interest
"Formerly health education dealt with general principles, natural laws, experiences and common practices. Information was given in didactic doses to large groups assembled under compulsion and believing themselves to be the happy possessors of perfect health. The plan of today, whether in college or out, depends for its value on enlistment of the interest of the individual."

"No health, beyond the passive state of the well-fed cow, will prevail among us until we burn, each with an eagerness to become good stewards of this life we hold in temporary trusteeship, to achieve all of the happiness our inheritance permits to us, and to count it humiliation to be ignorant of anything that bears upon the quality and quantity of our days."

FIRST COSTUME BALL AT ROGERS TOMORROW

Representing characters from some well-known piece of literature, the architects will assemble for their first carousal of the term in the Exhibition Room of Rogers tomorrow. The dance is scheduled to start at 9 o'clock.

Music for the affair will be furnished by George Tynes' Negro Syncopators who played at a large number of the fraternity dances last year. Tickets are \$2.50 per couple. The dance is being given under the auspices of the Architectural Society.

COMBINED CLUBS PRESENT CONCERT TOMORROW NIGHT

Filene's Women's Club Will Hear Technology's Musical Organization

Filene's Department Store is to be the next Boston institution to enjoy a program of entertainment by Technology's Combined Musical Clubs. This second concert of the year will be given before the Filene's Women's Club in the Restaurant Hall on the top floor of the department store tomorrow night at 7:30 o'clock. The work of the clubs so far this year has received exceedingly high praise. The concert given at the Franklin Square House on November 6 was accorded a very large attendance. It was considered an improvement in every way over the presentations of last year.

After tomorrow night there will be two more concerts this year. One will be at the Girls' City Club on December 8. The other will be the annual Christmas Concert, which is the outstanding social event of the first school term. This will be on December 14. All the clubs of the organization will have a place on the program for tomorrow night. There will be a novel specialty act in the form of a xylophone solo by Gardner Harvey '32. After the concert there will be dancing for the rest of the evening, music being furnished by the Technonians.

The program for tomorrow night will be as follows:

- | | |
|---------------------------------|---------------------|
| March—The Crusader | Sousa |
| Pomp and Circumstance | Elgar |
| INSTRUMENTAL CLUB | |
| Rise, Sleep No More | Stewart |
| Scandinavian Folk Songs | Brahms |
| GLEE CLUB | |
| Out of the Dawn | |
| Chloe | |
| Ten Little Miles from Town | |
| BANJO CLUB | |
| Specialty Act | Xylophone Solo |
| GARDNER HARVEY '32 | |
| Indian Love Lyrics | Woodford-Finden |
| (a) THE I Wake | Woodford-Finden |
| (b) Less Than the Dust | Securiance |
| By the Waters of the Minnetonka | Securiance |
| INSTRUMENTAL CLUB | |
| Time to Go | Wilfred Sanderson |
| Your Song from Paradise | Sidney Barlow Brown |

CORP XV MAN MAKES \$1500 IN TWO WEEKS

Announcement has been made by the Investment Association of Corporation XV that one member of the Corporation has already made fifteen hundred mythical dollars in the Association since its inauguration a few weeks ago. As there is still a long time to go, it is hoped that other members of the Corporation will not lose hope, since the chances are all in favor of the fortunate one's taking a fall before he has gone much further. The contest is open to all members of Corporation XV.

There is a competition open to any Juniors interested in becoming officers of the Corporation next year. Those who wish to apply for the competition are requested to report to Gordon F. Rogers '29 some time this week.

Attention Freshmen! Class Re-Vote Today

At the election of freshman officers held last Wednesday the of a candidate for the Institute Committee was unintentionally omitted from the ballot. For this reason a re-election of the members will be held today in the main lobby of the Institute from 8:30 to 5:30 o'clock. Comparatively few students voted at the last election and it is hoped that more will go to the polls today.

T. C. A. FINANCIAL DRIVE EXCEEDS QUOTA BY \$800

Most Successful Campaign In Four Years—Many Contributions Of \$25 Are Made By Undergraduates

According to an announcement received from the T. C. A. office, the annual Drive this year was the most successful of four years. A total sum of \$4623.25 was contributed by students at the Institute, averaging over \$1.60 a person.

T.E.N. TO APPEAR WEEK OF NOV. 19

Article on "Holland Vehicular Tunnel" Is Main Feature Of Month's Issue

Announcement was made today that the next issue of the Tech Engineering News will be on sale during the week of Nov. 19. Several interesting articles will feature this issue.

An article on the Holland Tunnel, by J. P. Maxwell, switchboard engineer for the Westinghouse Company, is the main feature. The distribution of electric power, and traffic control in the tunnel are described. "Scandinavian Hydraulic Projects" is the title of an article by John B. Drisko '27. Mr. Drisko is the holder of the John R. Freeman Travelling Fellowship from Technology.

The pictorial section this time is devoted to the evolution of motive power for ships from the old hand-fired boilers to the modern turbo-electric drive.

Mary R. Andrews, a former Technology co-ed, is the author of a treatise on "Emission Cathodes." Miss Andrews is a research engineer for the General Electric Company.

The Mechanical Engineering Department Notes are written for this issue by Professor Miller, head of the department. Interesting editorials, book reviews, and engineering abstracts complete the issue.

LIBERAL CLUB FORUM WILL DISCUSS PEACE

James H. Sheldon Will Preside at Open Forum Thursday

"Methods of Peace" will be the subject of the discussion to be held by the Liberal Club at its next meeting. This open forum will be presided over by James H. Sheldon and will take place Thursday afternoon from 4 to 5 o'clock in Room 10-267.

Mr. James H. Sheldon received his M. A. from Harvard. He is President of the National Students Federation of America and vice-president of the Fellowship of Youth for Peace. He is well known as a student of peace problems.

The last meeting of the Liberal Club was very well attended and more than 200 students heard the discussion of the different political platforms. It is expected that the attendance will increase.

TECHNIQUE SIGNUPS MUST BE IN FRIDAY

It has been announced by "Technique" that all portrait sign-ups for the annual must be made before 5 o'clock on Friday afternoon. A desk for this purpose will be maintained in the Main Lobby of the Institute from 12 to 2 o'clock, every day this week until that time.

Pictures of the fraternity and dormitory groups, the senior class pictures and those of the various athletic advisory, and social groups of the Institute are now being taken in Room 11-004 in the Homberg Memorial Infirmary. The photographer expects to have all the pictures taken by the first of December.

No longer will the wall. Thirty per cent of the money was received in cash and the remaining seventy per cent was pledged through the Bursar's office. These pledges will be deducted from next terms Laboratory accounts credited to the student's account. Although the cards that were signed did not call for payment of the pledges until February 1, 1929, any students who wish to fulfill their obligations may do so at any time previous to that date.

Making the pledges payable through the Bursar's office, "Tech-in-Turkey," and the organization of the men connected with the drive and the cooperation of the students with these men, are believed to be the chief reasons for the success of the Drive.

Many students took advantage of the Bursar's system this year, showing that they would be willing to give larger amounts if they were given a more opportune time to make the payments. Last year approximately 40 per cent of the money was made in pledges, while 70 per cent was pledged this year.

"Tech-in-Turkey" Popular
Large amounts were donated to the "Tech-in-Turkey" project by the students who seem to be desirous of making this project a success. Apparently the undergraduate body is in back of Judson Biehle '27, who is representing Technology in Robert College, Constantinople.

Due to the larger budget, it was necessary for the undergraduates to donate larger amounts in order to appreciably boost the total. Five dollar subscriptions were anything but scarce, and donations over \$25 were fairly numerous. The students realized that they would have to give larger amounts than a dollar in order to make the Drive a success.

Phi Beta Epsilon Ahead
Phi Beta Epsilon fraternity led the other fraternities with a standing of 7.8 on a basis of 10. The Phi Kappa Sigs came second with a score of 7.7, while the Kappa Sigs placed third with a standing of 5.3. Incidentally Judson Biehle '27 is a member of the Kappa Sigma fraternity.

Very few of the men designated the specific amount that they wished to have spent on any definite department of the Technology Christian Association, but left the distribution to the discretion of the T. C. A.

Back debts of the Association will be paid with \$500 of the excess money received from the Drive. These debts were unpaid due to the fact that the Drive last year was not as successful as was desired. The remaining \$300 will be set aside and held in reserve for any unexpected future needs.

Nearly all of the men on the Drive assisted in making it a success. One hundred and eighty eight men aided in the annual affair. Of this number, 110 were free lances, 15 were dormitory workers, 19 were fraternity speakers, 28 were fraternity heads who also assisted in collecting the money, and 16 were speakers in the different classes.

GLEE CLUB TO SING FOR FOX MOVIE TONE

Movietone pictures of the Technology Glee Club are to be taken by the Fox News Company in the Great Court today, at 1 o'clock.

The Club will help advertise the Institute by rendering several of the Technology songs and cheers during the program. It is hoped that all members of the Club will turn out for the performance.

MORE THAN A HOLIDAY

"THANK THE LORD", said most of us on Monday morning as we luxuriously crawled under the covers for three more hours of sleep, "that Massachusetts legislators have at least agreed that war is over and that we may celebrate its end. For now we'll always have one more day of vacation in the year".

Sentiments like those are as close as most of us came to any spirit of reverence on Armistice Day. It furnished us merely an unexpected holiday—an extra long week-end. It meant we could go on a party Sunday evening with not the slightest conscience qualms for Monday nine o'clock quizzes.

Where is the real feeling with which we should regard this day? After there died away the shouting which characterized that first grand celebration in 1918, a feeling of profound thanksgiving filled all of us. The terrors and heartaches of the past four years had at last come to an end. We were at peace with the world after a long period of patricide and fratricide, a period which witnessed atrocities the world had heretofore thought utterly impossible. We were glad—no one cared to admit pacifistic tendencies, but now that it was all over, we were "unfeignedly thankful".

Why should a short ten years so completely wipe out these deep feelings? We have all looked at the big tablet in the lobby of the Institute on which are engraved for posterity the names of those men from Technology who offered their lives for the service of their country. Several years ago we would have gazed at this memorial in awed admiration. Now we pass it by with scarcely a glance. Does it mean nothing to us—have we become so accustomed to the present mode of living that we forget the worries of a short time ago?

In some sections of the country there is observed a practice which we heartily commend. At exactly eleven o'clock on November 11th, everything stops. Business is suspended, traffic remains at a standstill, the crowds halt in their hurried way. For two minutes nothing moves—all faces are turned towards the East—all thoughts are on those tragic days of the Great War. Not merely "two minds" but whole cities "with but a single thought".

We at the Institute have been granted on this day a vacation from our work. Why not in the future regard this as a special holiday—something a little different from the ordinary? Great metropolises stop their headlong rush for two minutes' silent devotion. Our school was most prominent in every phase of the great struggle—it would be most fitting that we incorporate in future Armistice Day observance at least a little show of our reverence of the day.

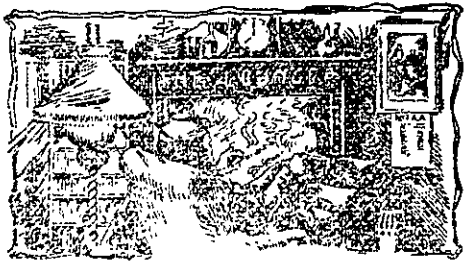

NOTHING NEW?

A DANCE without dancing? Somewhere we have heard that in the way of criticism of the existing order of social affairs, but according to the "McGill Daily", our Canadian brothers have developed quite an innovation in the way of danceless parties. We quote the following, not for the purpose of changing the local order, neither for giving our readers a smile; perhaps there is a lot more in the idea than one might expect.

"The Conversat"

"An event which has no parallel in other colleges, as far as we have heard, takes place tonight in Strathcona Hall when the Conversat starts. Whoever originated the idea of a dance at which there is no dancing done must have been quite a conversationalist. The contemplation of an evening of talk would seem to be enough to scare away many of us ordinary men. Perhaps the women are more in their element. The queer part is, however, that more men generally come than women. Wonder why?"

"The Conversat is, however, a very fine way of starting the social season at the University. It offers a novel way, particularly for freshmen and women of making friends, and that it is appreciated is shown by the large crowd that invariably gathers. It is a good advance guard for the first Union House Informal on Friday, and should play no small part in starting of our round of University Dances successfully."—"McGill Daily"

and their Debutante Daughters
to be held in the Athletic Gardens of Technology
at two thirty on
November Twenty First
Nineteen Hundred and Twenty Eight

Above in all its glory there appears the beautifully lettered formal acceptance speech that either one or the other 'Snique candidate lugged over to the Offices of THE TECH sometime before breakfast yesterday morning. A work of art, the Lounger calls it; he wonders just how much they paid to have it made for them. And the envelope that bore it! Fully a ream of wrapping paper went into its makeup, and outside was the address: "Miss Tillie the Co-ed," and her supposed hang-out at the Business Office. Little did they think that she was still asleep in her tiny cot over on Newbury Street.

It is great relief to the Lounger to think that 'Snique has finally decided to play; from the remarks cast about on Field Day by Hermann Botzow as Tillie was strung up, it sounded as though the twenty-first would bring another scrimmage practice among the Lounger's own men. And by the way the same five men have shown up for every scheduled 'Snique rehearsal, the day won't be much different. Herm has been heard to say several times that if he were betting, it would be on the Mesdames at that; and he blames Tillie's effigy's success on Field Day to the fact that he had a date at the affair. Tst, Tst, Hoimann!

But what a party the Gardens will see a week from today! What a leap year for the debutante daughters! If a girl ever made a boy feel in the wrong place, it will be on the twenty-first. Hey-hey for a short bunch of dates—with a stiff neck for each and every 'Snique.

As We See the Movies

METROPOLITAN

With but two days left to see "The Wedding March," now the feature at the Metropolitan, we strongly advise those who have missed this remarkable production to go by all means. It is stupendous, beautiful to a remarkable degree, comical at times, tragic always, often disgusting in its portrayal of the baseness of the Teutonic character, all perfected to the most minute detail by the peculiar care and vision of von Stroheim.

"Remarkable production" little tells of the labor that was involved in the filming of this picture; from the twenty-six reels now shown under the present title, fully sixteen reels would have been cut, had not the distributors decided to show the remainder as a sequel, to appear soon as "The Honeymoon." Fully two years of constant effort were involved in completing the twenty-six reels, years in which a fortune was spent by hopeful producers; we are entirely of the opinion that their time and wealth were by no means wasted.

The story itself is simple, telling of the misdirected love of a girl from the lower class for an Austrian Prince with a few score irons in the fire. He eventually marries a lame daughter of a corn-plaster king for a paltry million kronen, shedding a slight tear for the apple blossom background of his several meetings with the girl. Slight enough for any plot, but so magnificent are the details of practically every scene that "The Wedding March" lasts a full two hours. A touch of color in several of the sequences, the grandeur of the procession and the cathedral scenes, detailed studies of many minor episodes—all combine to make of this a master film the like of which is seldom seen.

Von Stroheim as Prince Nicki gives a characterization that would be difficult to equal. Himself a typical German militarist, familiar with all the qualities of the race, he

Away from the Grind

Kappa Sigma
The Kappa Sigs held their first dance of the year on Friday night, November ninth. The good music was furnished by Tynes' Orchestra. A novel decorative effect was obtained by myriads of balloons, predominately silver, suspended from the ceiling, and supplemented by decorative silver panels high up on the walls. Red and blue lights provided the color. Additional balloons given out from time to time to the 200 or so guests added not only to the general effect but also to the amusement of the occasion.

Lambda Chi Alpha
The first of a contemplated series of formal dinners took place at the Lambda Chi house on Nov. 2, with twenty couples present. The dinner was a decided success, and was followed by bridge and dancing. The members have decided to hold a similar affair every two weeks throughout the term.

Phi Beta Epsilon
Opening the year's social season, the Phi Beta Epsilon men gave a house party last week end. Eighteen girls were guests of the students at the house. Saturday there was a banquet for 24 couples followed by a dance for a hundred and sixty. The affair was an "open dance," and outside guests were invited to the ball. Music was furnished for those couples who desired to dance by the "Tunesters." According to those present the evening was a complete success.

Sigma Chi
The second of a series of formal dinners was held at the Sigma Chi house last Friday evening. About forty people were present at the dinner. Mr. John B. McPherson, a trustee of the chapter, and his wife, also attended the affair. Six Sigma Chis from the University of Pennsylvania were the guests of the chapter for the week-end of the Harvard-Pennsylvania football game. Bud Newsom, '30, was dealt a hand of cards recently that comes but once in the life-time of a bridge player. He received thirteen hearts in a regularly dealt hand after the bridge game had been in progress for about a half hour. In that particular hand, Bud's opponents bid two clubs and then passed after Bud had over-bid them with two hearts. Whereupon Newsom laid down his hand and began to figure the total number of points his sensational hand was worth.

Theta Chi
The Theta Chi's entertained with a very successful dance at the chapter

lends a convincing touch that would be lacking in our own actors. And he is ably supported by such stars as George Fawcett, Fay Wray, and many others perfectly selected for their roles. Do not miss the Met this week; you'll regret it if you do.

Play Directory

Stage
COPLEY: "Marigold". A Clever London importation.
HOLLIS: "The Bachelor Father". This would be the best show in town, if—
WILBUR: "Coquette". —it weren't for this.
MAJESTIC: "A Connecticut Yankee". You must have seen it by now.
PLYMOUTH: "Straight Thru the Door". Written and acted by William Hodge.
SHUBERT: "The Red Robe". Entertaining operetta.
REPERTORY: "S. S. Incorporated". Fifth and last week.
TREMONT: "Blackbirds". Go and hear "I Can't Give You Anything but Love".
ST. JAMES: "The Rose of Picardy". Pleasant war-time romance.
OPERA HOUSE: "The Ladder". Boston fooled New York and went.

Screen
LOEW'S STATE: "The Woman Disputed". Norma Talmadge acting well.
METROPOLITAN: "The Wedding March". Reviewed in this issue.
OLYMPIA and FENWAY: "The Singing Fool". Still packing them in.
MODERN and BEACON: "The Cavalier". A scream, but unintentionally.
KEITH MEMORIAL: "Take Me Home". Bebe Daniels on the screen, and Ted Lewis on the stage.

house on Friday, November 9. It was their first open dance of the season and invitations were extended to about 150 people, the affair being very well attended.

JANDRIS STAR OF HANDICAP MEET

Doleman Defeats Cleary In Semi-Finals of the Fall Tennis Tournament

In one of the closest matches of the season, Dolman defeated Cleary, with the score of 6-4, 8-6, 4-6, and

12-10. This spectacular fight lasted three and a half hours, both men giving all they had to place in the finals. The match point alone was played sixteen times, which illustrates how closely these stars are matched. It was only through Dolman's left-handed chops, and his steadiness, which prevented Cleary from driving effectively that Dolman was able to win the match. The match lacked sensational plays due to the fact the men were playing a tight game, and every shot had to be made with care. The winning of this match puts Dolman on the final bracket, and makes him candidate for the honor of being star of the tennis team.

Kuki Defeats Bender

With a fore-hand driving stroke Kuki defeated Bender in straight sets of 6-3, and 8-6. Bender, who is a freshman, played an excellent game, but couldn't cope with the experience of Kuki. The match threatened to be much longer, when in the set game Bender was leading Kuki with a score of 4-1, but hopes for a freshman in the finals faded when Kuki won the next three games. By defeating Bender, Kuki will play Wigglesworth for the right to meet Dolman in the finals, which are expected to take place some time next week. With the playing of this match, the tennis season will be over, to be resumed in the Spring for another tournament to determine the team that is to represent Technology in its meets.

SATURDAY'S MEET FULL OF THRILLS AND CLOSE RACES

Jandris Wins Both Dashes from Scratch—Freshman Stars Run Good Races

LADD TRIUMPHS IN 660

Five Lap Race Won by Allbright. Cross Country Men Take Winning Places

Much enthusiasm, especially in the running events, was shown by the track aspirants at the handicap meet which was held on Tech Field last Saturday afternoon. The number of entrants was fairly large, and some of the races were exciting from start to finish. Jandris '30 was the star of the day. Starting at scratch, he managed to close up the gap and break the tape in both the 80-yard and 175-yard sprints. The time for the 80-yard event was exactly nine seconds, which was good, considering the strong wind that the runners had to contend with. Jandris was pushed to the limit by Lynch '32, who also ran from scratch, and Hall, another member of the freshman relay team. In the 175-yard dash, which was won by Jandris in eighteen seconds, Hall and Lynch took second and third places respectively.

Distance Events Close

Freddy Ladd '30 running from scratch won the 660-yard event. The race was close throughout and the time was 1:31 3/5. The 1 1/4-mile run was composed of cross country men almost exclusively, and their superior training was shown by the fact that the first five to finish were members of the Varsity squad. Allbright started with a fair handicap and piled up a lead which he held consistently during the entire five laps. He broke the tape a good 50 yards ahead of DeFazio. The time for this race was 6:01. DeFazio and McNiff staged a thrilling sprint at the finish line, and by a supreme effort the former was able to overtake his opponent and come through a few feet ahead. Berry and Herbert, who were both scratch men, finished in fourth and fifth places. With the exception of Allbright the men were running close all the way. There were several private contests for a leading position which made the race an interesting one to watch.

Five Field Events Held

The field events attracted several new men who showed much ability. There were five of these events and in one case there were not enough contestants to have five winning places.

The summary:
80-yard dash: Won by Jandris; second, Lynch; third, Hall; fourth, Thompson; fifth, Orleman. Time, 9 sec.
175-yard dash: Won by Jandris; second, Hall; third Lynch; fourth, Ayres, fifth, Orleman. Time, 18 sec.

(Continued on Page Four)

Harriers Do Well In Practice Meet

Thorsen Wins Easily in Fine Race Freshman Captain Outruns Ex-Schoolmates

In a practice meet with Northeastern last Friday afternoon the Varsity Cross Country team showed by far the best form of the season, and outclassed their opponents by the score of 19 to 42. Coach Hedlund was very much pleased with the work of his men as it gives him something on which to base some inter-collegiate championship ambitions.

Leon Thorsen, who has become the star of the team and a consistent winner, ran a fine race which he won by a margin of 300 yards. He covered the regular Franklin Park course in 29:50 2/5. This is the fastest time of the present season for that course and it was made without much competition. This man has plenty of reserve strength that has not been fully taxed and he should be one of the leaders in the New England's next Monday.

Thorsen was followed by two other Technology men, Captain Worthen and Johnny McNiff, who finished in a dead heat. Fourth place was taken by Thompson of North-

(Continued on Page four)

Springfield Soccer Team Defeats the Engineers 5-0 In Hard Fought Contest

Continual practice plus the fact that the Springfield Soccer team was playing on their own field resulted in their 5-0 victory over the Engineer's last Saturday. Springfield gained their scores as a result of rushes at the goal. These rushes were so organized that they eventually evaded the Cardinal and Gray's defense and then got the ball past Wyman.

Coach Welch used the same defense that he has used in the previous games, and all of the men played well, but they were not able to stop Springfield's well organized attacks. Hawkins and Riehl were at full back while Kim, Cooper, and Fahey were at half back. All of these men played a good game and drove off many of the Springfield rushes.

Forward Wall Shifted

Again the forward wall was shifted around and as a result the team lacked the passing attack that has been evident in some of the previous games. Kashemsanta was about the only man in his old position. Technology won the toss and Seidel kicked off for Springfield. They carried the ball down the field and attempted to score, but Wyman was on his toes and prevented a goal in the early periods of the game. After this the Cardinal and Gray started the offensive with Delahanty and Milligan making numerous unsuccessful shots at the Springfield goal.

Springfield Scores Late in Period

Springfield was on the defensive during most of the first quarter, but late in the period they decided to take up the offensive. Gillespie got away on the left wing and crossed to Seile who scored as the whistle blew for the end of the period. Taking up the attack at the beginning of the next period Springfield again rushed the Engineer's goal and Wyman managed to stop a shot from Markward, but Seidel placed the rebound into the net. The Cardinal and Gray then rushed the Springfield goal, but poor shooting resulted in loss of the ball.

Springfield Scores Again

As a result of some snappy playing, Buckner worked the ball through

the Engineer's defense to get the third score of the half. For the remainder of the period neither team scored.

Kim was shifted to the forward line at the beginning of the second half, but that did not seem to do much good as Springfield managed to get two more goals during the period.

Engineers Fail to Score

Several times the Cardinal and Gray were in front of the Springfield goal, but due to poor shooting they failed to score. Once Youngson and Kashemsanta carried the ball down the field and then passing

HILL AND DALERS IN PRACTICE MEET

Freshmen Win from Quincy High School in Easy Manner—Gilman Excels

(Continued on Page Three)

eastern and fifth by Dick Baltzer of M. I. T. Herberts and Berry were not able to take part in this meet, otherwise the score might have been even more one-sided.
 In a like manner the freshman team won a sweeping victory from Quincy High School on the three-mile course. The superiority of the more experienced Technology runners was shown by the large score of 19 to 41. Captain Gilman, who is a graduate of Quincy High, won the race in the fast time of 16:29 4/5. He was an easy winner with an advantage of 400 yards at the finish line. Second and third places were taken by Camerlingo and Jewett of M. I. T. and the first Quincy runners to finish were Lantery and Gookin, in fourth and fifth places. Green, Littlefield, Morin, and Conant were the other Technology men who did particularly good work.

ELECTRICALS HEAR OF TELEPHONE WORK

About four hundred were present at the meeting of the Student Branch of the A. I. E. E. last Friday night. Men from the Bell Telephone Company gave the students some ideas about the type of work to be found in the communication field of electrical engineering.
 Mr. O. W. Eshbach, the speaker of the evening was assisted by Mr. G. B. Thomas of the Bell Telephone Laboratories and by Mr. Bigelow of the New York Telephone Company. Mr. Bigelow replaced Mr. Davis who was unable to be present.
 These meetings are arranged particularly to be of assistance to freshmen and Sophomores in helping them decide upon the type of work they would like to go into, so that they may be better able to prepare for it. The meetings will take place every two weeks on Friday evenings and are always arranged so that they may be fitted into the evening without interfering with other plans.

M. I. T. A. A. COMPETITION

All Juniors wishing to compete for the position of treasurer of the M. I. T. A. A. are requested to leave their names at the M. I. T. A. A. office as soon as possible.

 Discus: Won by Fraim; second, Leino; third, O'Neill; fourth, Brashears; fifth, Benjamin. Distance, 103 feet 6 inches.

NEW DIRECTORY MAY BE OBTAINED TODAY

Volume sixty-four of the directory of officers, professors, and students at the Institute may be obtained at the Information office today. Five thousand copies of this year's Directory contains as usual the calendar for the year, the Members of the Corporation, the Officers of Administration, the Officers of Instruction, the Instructing Staff, an alphabetical list of officers, list of Fellows and students taking courses leading to advanced degrees, and the alphabetical list of students.

FRESHMAN TRACK

All freshmen who took cuts in Track last week must report to Coach Hedlund or the Manager of Track as soon as possible. This is necessary of the substitution of Track in place of P. T. is to be continued.

MR. WILSON TO TALK ON CALENDAR CHANGE

Mr. Paul H. Wilson of Worcester will address the next meeting of the Faculty Club on the subject of the thirteen-month calendar, on which, he is an authority on this subject. Mr. Wilson is secretary of the Graton-Knight Co. of Worcester, well-known makers of leather goods. The meeting is to be a luncheon meeting, and will be held on Wednesday, November 21 at 12 o'clock.

HIGH SCHOOL BOYS VISIT TECHNOLOGY

Fifteen boys from the Manchester High School visited Technology yesterday. They were shown through the Institute by Mr. William Jackson of the Information Office. All the boys have intentions of entering Technology when they graduate from high school and were very interested in all that they saw.

PRESSING and CLEANSING

BE REAL!

FEMME: (not looking around) "Who's the bawny white clattering toward the gridiron?"
 HOMME: "How and again, here! Them are not clats. It's only Goefus on his well-known oak-tanned heels!"

Nunn-Bush
Ankle-Fashioned Oxfords

Ankle-Fashioning, the touch-down in shoe making. You'll "cheer" the thought of an oxford that always fits at the ankle and never slips at the heel.

Nunn-Bush Shoe Store
No. 6 School Street Boston

1503—The Hampshire Imported Black Scotch Grain; also Brown.

Don't clump about the campus walks and halls on the old hard heels any longer, indicating to the world at large that you have just registered from out where the tall grass grows.

Join the ranks of the well-turned-out who always insist on Goodyear Wingfoot Heels. They wear, they cushion, and they have that "hossy" style.

You'll need the energy that they jar out of you each day for Lit and Calc and other things. Get on-to rubber, that gives and lifts and helps.

More People Walk on Goodyear Wingfoot Heels Than on Any Other Kind.

Say "Goodyear Wingfoots" to your shoe repairman, today!
