O. B. DENISON ’11 LEAVES POSITION AS ALUMNI HEAD

Resignation Was Accepted at Alumni Council Meeting January 23rd

WILL ENTER BUSINESS

Dear Sir:

Resignation of O. B. Denison ’11, from the office of the executive secretary of the Alumni Association, was approved at the meeting of the organization on January 23. The resignation will become effective June 30, following which Mr. Denison will enter private business.

Mr. Denison first became active in the work of the Alumni Association in 1913, when he was elected an honorary secretary. A year later he became executive secretary. A year further, he was elected treasurer of the Association, and in the past five years he has made him a familiar figure to many of the alumni activities. He has worked hard and conscientiously, throughout all the various positions he has held, maintaining activities of the former part-time secretary. A year later he became executive secretary. A year further, he was elected treasurer of the Association. In the past five years he has made him a familiar figure to many of the 

Uncle Horace Gleams $550 From Tardy Men

Between tutors and Uncle Horace, it is any wonder that the large number of students is strapped, hatted, or what have you. Professor B. G., who informs us the book is not available, is estimated the evening of the largest amount of new students. Judging from the experience of our most famous scholar, B. G. (Of whom we have a discussion of the subject of algebra). Uncle Horace, however, has had...
De Soto might be a telephone man—today

He pioneered a way into new country—and luck again. He led his men through every danger; where there were no resources he found them; where there were no boats he built them.

Today men of the telephone industry are the De Soto kind of pioneer. They believe a vision to make the new job and the resourcesfulness to see it through. In working to make a better service they use the need for a new method of insulating wires—and the special director.

Guiding the technician's skill, telephone pioneering demands courteous bunting leadership by supervisor and executive. To keep up with a tremendous country, industry needs not only great practice by any family divertments. 

For more information, please contact the Director at 350 Summer St., Boston.

Dr. Morse Talks Before Alumni Council on Health at Tech

From a first-aid booth to the Hum-

berg Memorial Infirmary was the growth of medical facilities at the Insti-

ute, as outlined by Dr. George W. Morse, medical director at Tech-

nology from 1915, before the meeting of the Alumni Council on January 22. Dr. Morse was the main speaker on a program devoted to discussion of the Development of the Health Program for M. I. T.

Dr. Morse's first connection with the institute was in 1915-16, when the hospital in Cambridge was built. He was in charge of the hospital in the basement of Building 3, and later the same building was established with Dr. Morse as its head. Dr. Morse described the comprehensive physical examination of all entering students. The resultant corrective program outlined to best benefit the student. The free clinic which was maintained daily from 8 to 6 included giving service to students, faculty and institute employees. A special feature of the performance is the chorus and the choral soloists, usually, but not always, made up of the show in its entirety. The program of the show, which runs a mission in Chinatown has a
