TECHNOLOGY AND BROWN CLUBS WILL MEET ON FRIDAY

Annual Combined Concert To Be Re-established with Providence Club

TECHNITIANS WILL PLAY Will Be Followed by Dancing—Brown Intercollegiate

On Friday night, Feb. 17, the Technology and Brown Musical Clubs will hold their first concert in 10 years since the war. Providence College will also take part. This is a revival of the practice which began in the 1890's to hold a joint concert at the close of the winter season. The program has not yet been fully announced, and tickets will be on sale in the near future.

Following the concert, the Technitians will furnish the requirments for a dance to be held in Memorial Hall on the same night. This has been a successful feature of all the joint concerts of the clubs, and is expected to be as popular this year. Tickets are on sale every day at the Brown Student Body Office until 2 o'clock, and are $5 per person, or $10 per couple.

This concert will be the only appearance of the year the Providence College students will make at Brown, and the program will be the only opportunity the Technitians will have to take advantage of this opportunity to present their work.

The Brown Glee Club, one of the principal features of the annual joint concert, has been a contender in the intercollegiate musical field for the past 10 years, and will again be a contender this year. The Providence College Glee Club will be an interesting feature of the program, and is expected to provide an opportunity for both the students and patrons to see and hear them.

The program will probably be over by 10 o'clock, when dancing under the close supervision of the Brown Student Body will commence.

Many Sing Up for New Civil Option

Enrollment in Course 1A among the freshmen and sophomores is now progressing at a rapid rate. The tentative schedule which is in the hands of Professor John B. Biddlecomb includes an intensive course in the arts and sciences to be offered in the fall term of the class of the freshmen for those who have decided to take this option.

Of the Technology clubs, not much is expected from the Chemical Club to be held this year. There will be a meeting of the club on Saturday night, and the first meeting of the season is expected to take place on the same day.

The program of lectures in the Arts and Sciences will probably be over by 10 o'clock, when dancing under the close supervision of the Brown Student Body will commence.

WRESTLING TEAM MEETS BROOKLYN TECH IN HANGAR

New Load Spacer Installed in Walker

By changing weather conditions plus the excellent amount of humidity, the load space in the Walker was extended from the roof of the Main Dining room to the roof of the auditorium, on easy year in such a bad condition as to be repaired.

Most of the damage was done by the snow, and consequently the large hose has not been used since it was taken down last night, and a new water hose is being put up in its place. It was ready to be used on the Walker last night.

LARGE CROWD EXPECTED

"Tonight's show at eight o'clock was anticipated to be a big event, with the library auditorium being the center of attention.

TECHNIQUE SALES CAMPAIGN CLOSES

Noon Tomorrow Is Set as End of Sign-up Reductions

According to an announcement made by the Management of Technique, the group has decided to close off the sales campaign at noon tomorrow. This means that after 8 o'clock, no signups have been or will be accepted.

ENGINEERS BATTLE TO A 3-3 TIE WITH WILDCATS IN YEAR'S FIRST BOUTS

PANS PUCK HANGAR TO WITNESS SERIES OF LIVELY FIGHTS

Capt. O'Malley, Sidur and Jameson Win Three of The Six Bouts

SCORE THREE KNOCKOUTS

Technology's boxing team went on pair last night, the Providence University Blackbirds Wednesday evening with one of the largest crowds ever to assemble in the gymnasium. The event was held in the Hangar, located on the third floor of the Brown Memorial Gymnasium. The program was followed by a bout between the American and the New York Wildcats. The Wildcats emerged as the victors, winning by a score of 3-0.

In the first bout, the 135 class, Brian Stack was pitted against Mike O'Connor, a assuming the role of Brown's official ref on the judges, and the combat was not without its share of excitement. The fight was a fast-paced, high-energy affair, with O'Connor prevailing by a narrow margin.

In the second bout, the 145 class, John Fitzgerald faced off against Bob Jones. Fitzgerald, a veteran of the Brown boxing team, was the more experienced fighter in this match. The bout was a hard-fought battle, with both fighters giving their all. In the end, Fitzgerald emerged victorious, winning the bout by a narrow margin.

In the third bout, the 155 class, John Doyle met Mike Brown. This was another closely contested match, with Brown holding the upper hand for most of the fight. However, Doyle's determination paid off, and he managed to take the decision and secure a narrow victory.

In the fourth bout, the 165 class, John O'Brien went toe-to-toe with Bill Brown. This was a hard-fought battle, with both fighters giving their all. In the end, O'Brien managed to gain the decision and secure a narrow victory.

In the fifth bout, the 175 class, John Murphy faced off against Bill Jones. This was another closely contested match, with Murphy holding the upper hand for most of the fight. However, Jones's determination paid off, and he managed to take the decision and secure a narrow victory.

In the final bout, the 185 class, John O'Connor faced off against Mike Brown. This was another hard-fought battle, with both fighters giving their all. In the end, O'Connor managed to gain the decision and secure a narrow victory.

In the last bout, the 195 class, John O'Connor faced off against Mike Brown. This was another hard-fought battle, with both fighters giving their all. In the end, O'Connor managed to gain the decision and secure a narrow victory.

The Open Forum

As a result of the recent appointment of a Committee on Dormitories and Fraternities by the Institute. It is obvious, however, that there are some differences of opinion among those interested in the future of this student body; and a satisfactory conclusion, it is with much relief that we have reached agreement. Several points of agreement have been reached, and there is a feeling that the present committee should continue to write articles on the progress of the investigation. It is hoped that these articles will continue to bring out the important issues involved.

The committee has been appointed to study the present dormitory system and to recommend improvements. It is hoped that the recommendations will be implemented as soon as possible.

It is not the purpose of this statement to go into all the possibilities of this Institute's future. It is felt, however, that the interests of the student body must be given due consideration.

Engineers Are Favorites
To Defeat Inexperienced Gymnasts Of Brunswick

Tomorrow at 2:30 the gym team tackles Bowdoin in Walker gym on the last meet of the season, and with the looks of things the Cardinal and Gray can not have much trouble finding the strength of the team. This will be the first time the intercollegiate meet this season. Williams has had in the past.

TODAY'S PRACTICE

The team has been working on all kinds of new stunts as the time for the meet has approached to make the final practice meet in preparation for the meet. The practice has been nothing short of a physical strain. The men have been told to expect the maximum amount of a physical strain. The men have been told to expect the maximum amount of exertion and effort so that they can meet Bates and Bowdoin also.

The Cardinal and Gray may be expected to have a good meet if they can keep up the form that they have been in the past. The meet is scheduled for 2:30 on Saturday if lie can get a good

SPECIAL FOUR LAP RACE ON SATURDAY

Members of Mile Relay Team To Run In Handicap Meet

At two o'clock sharp tomorrow afternoon the board the track event will start with a scheduled time of nine miles. By all odds the four mile relay team should win this meet. Captain Grondel and Knapp will hit the field in the wide lap race.

The purposes of the meeting is to have the runners add up to their totals of points in the relay. A single individual is a fine athlete and will make a valuable addition to the team.

Miss Candle will have to add up to his total of points in the event for the benefit of the team. Ray Jack will be one of the fastest men in the pole vaulting event.

Most of the men do not have much practice this week but it will be to the advantage of many of the men.

Norman Gordon, who has been laid off with a sore knee, is back at work on the parallels which is not affecting his record. He has been doing good work on the horse, par- allels, and rings. In case Reynolds is out in the excess of his schedule, the team will have to take advantage of this. He will be expected to do better than at any time.

Princeton Students Are The Classiest Dressed In The Collegiate World

NOTICES

PHILADELPHIA

By More and Better Clothing Than Any Other Group Of Students

Princeton students are the favorites for the new season and are the best dressed group of men in the country, according to a survey recently made by a magazine devoted to men's wear. Yale is a close second to Princeton, the survey shows. Price is only a secondary matter to the Yale and Phi Delta students and they choose their wardrobe according to style in favor of tailoring-made clothing.

The average Princeton student's wardrobe consists of 2 suits and 2 overcoats as compared with 3 suits and 2 overcoats at college students and 3 suits and 1.9 overcoats for the average student of the country as a whole. Princeton students buy a new suit every 18 months and a new overcoat every 24 months, whereas the student of the country is a new suit every 6 to 6.5 months and a new overcoat every 20 months. Yales leads in the percentage of students wearing clothing other than suits and overcoats, and the average student of the country in this respect lags far behind Princeton. As far as class is concerned, there is a decided advantage for the student of the country as a whole. Princeton students lead the field, however, in the percentage of students wearing tailoring-made clothing.

Students in the percentage of the students wearing clothing other than suits and overcoats, are 90 per cent, whereas the average student of the country is only 50 per cent. Princeton students also lead the field in the percentage of students wearing clothing other than suits and overcoats, and the average student of the country in this respect lags far behind Princeton. As far as class is concerned, there is a decided advantage for the student of the country as a whole. Princeton students lead the field, however, in the percentage of students wearing tailoring-made clothing.
