FRESHMAN CLASS TO PLANT TREE AS MEMORIAL TO 1931

First Year Men to Burn Ties Following Ceremony

DR. STRATTON TO SPEAK

Final arrangements for celebrating the ending of the freshman rules enforcement period of the school will take place tonight. The affair will only last about one hour and a half, and will consist of a play, various songs, and the burning of the ties. The empty black ties will not be worn anymore, and during the ceremony the ties will be burned in various ways and places. Freshman men must wear their regular ties to class on this day, and at the end of the day they will form a snake-dance and go to the Great Court for the other part of the ceremony. At the next shot a paddle will be distributed to the lucky person, and the elections to the Managing Board will be held.

When the members of the Class of 1931 have been assembled in the Faculty Dining Room of Walker Memorial, a baseball diamond between Walker and Jumbo Halls will be laid out with the help of the C. C. B. head and a driver. The tie planters will plant the reason, which is the very first step in the building up of the future.

Last week, contributions were taken up on the Class of 1931 in order to raise money for the dinner committee. The students who were interested in helping the Class of 1931 in any way should contribute a dollar. This money will be divided equally among the three fraternity dinners, a part of the money being given to the Medical Society in order to help them in their future activities.

Immediately after the singing of the second song, the Class of 1931 will gather in the Great Court, they will address the students for a few minutes and then the Class of 1931 will be present for the dance. This is the final part of the Class of 1931's activities. The Class of 1931 will be led by its President, Mr. Ackiss.

CONCERT TO LAST UNTIL 3 O'CLOCK

Program to Include Specialty Acts by Quartette and String Ensemble

As the charter date of the 1928 season, the annual Technique College Concert will be held in the large auditorium of the College and will be sponsored by Student's Association and by Student's Association, Inc., the world's largest student association. The concert will begin exactly at 5 o'clock, and the program will start at exactly 5 o'clock. During the concert, President Samuel W. Stratton will speak to the audience on the topic of the future of the college.

At the concert, the audience will be entertained by various specialty acts, including a quartette and a string ensemble. The quartette will perform a selection from the classics, while the string ensemble will play a selection from the latest music. The audience will be entertained by this combination of music and entertainment for three hours.

At the end of the concert, the audience will be treated to a special fire at the center of the auditorium. The fire will be lit, and the audience will be entertained by the spectacle. The fire will burn for three hours, and the audience will be entertained by the dancing flames.

CONCERT TO END AT 7:30 P.M.

Program to Include Selections from Famous Operas

This concert is the last of the season, and it is the final opportunity for the students to enjoy the music of the season. This concert is also the last opportunity for the students to hear the famous quartette and string ensemble.

The concert will begin with a selection from the classics, and it will end with a selection from the latest music. The audience will be entertained by this combination of music and entertainment for three hours.

JEAN INERWOOD TO SPEAK

As the principal speaker at the Faculty Club meeting of the Technique, Jean Inerwood will speak to the audience on the topic of the future of the college. Jean Inerwood will speak to the audience on the topic of the future of the college.

The concert will begin with a selection from the classics, and it will end with a selection from the latest music. The audience will be entertained by this combination of music and entertainment for three hours.

foundations to keep scientific film:

the university film foundation has been conceived to collect and preserve films and photographs of activities connected with the study of science.

the foundation will cooperate with the faculty and members of the staff in acquiring and preserving pictures. these subjects will deal mainly with technical and scientific education. the foundation has made a $20,000 grant to the motion picture foundation of the Filmmakers with a Follower by which it will be permitted to acquire the archives of the movie cameraman at the college. these pictures will be processed and reproduced for the foundation, which will be in
data with the pictures of scientific activities which are preserved by the university.

Kirwin, Hardy, Fay, and Benjamin Star in Final Handicap Meet of Season

Despite the wind, cold, and rain, the final handicap track meet was run off at Tech Field Saturday afternoon and the four event handicap meet was started on the same course. The three mile handicap meet was won by Paul Kirwin in the 3:4 mile run, Phil Benjamin in the high jump, Phil Hardy in the 1200 yard run, and Phil Fay in the pole vault. These four long distance runners were the outstanding performers of the afternoon. The handicap meet, which started out-door appearance, ran a creditable race in the 8:50 yard run.

Conditions were poor for the track, which was still muddy and the short practice before the meet had been limited to two long sessions. As a result of the poor weather, they were the outstanding performers of the afternoon. The handicap meet, which started out-door appearance, ran a creditable race in the 8:50 yard run.
