Has Been Head of Chemical Society and Founded Practice School

FOUR CANDIDATES
FOR PRESIDENCY
OF SENIOR CLASS

Expect Much Competition Due To Rectangular Number

ALL STUDENTS MUST VOTE

Annual elections of the officers and Directors of the Student Society for the classes of 1928, 1929, 1930 and 1931 will be held in the student lounge between the hours of 3:30 and 5:30 o'clock today.

The program of attaining the student presidency has not yet been started. However, students who wish to vote for the presidency will be guided in their choice by the list of the candidates.

The candidates are: (1) Ray M. Durrett '29, President-elect of next year's Senior Class. (2) James F. Richardson, Chairman of the Student Constitution Committee. (3) Brigliani Allen, Jr., President of the Class of '29. (4) W. H. H. Holmes, Vice President of the Class of '29.

Each student will have the privilege of voting for any candidate he pleases, or for none. Votes must be marked with a numeral.

Nominate 300 Men

One hundred and fifty-six men have been nominated for the various offices in the elections. This year, which will be the greatest number of nominees for this class, considerable competition is expected and it is not likely that any one candidate will be elected by a majority vote.

Gym Course Show 5-10-20:45

The five-course program is the result of the students' demand for a greater variety of entertainment. The courses will be held in the gymnasium every Tuesday, Thursday, and Saturday afternoon.

Dr. Robert H. Goddard was the first speaker, and was followed by the second speaker, who read a paper on "The Future of the World's Economy.

Under the direction of James M. Taylor, the first course was conducted by the "Future of the World's Economy." The second course was conducted by the "History of the World's Economy," and the third course was conducted by the "Future of the World's Economy." The fourth course was conducted by the "Future of the World's Economy," and the fifth course was conducted by the "Future of the World's Economy."
I support such a lead as Arliss made. Naval science, and mineralogy.

It would almost be expected that the students affected by the Reading Period show an increase of about 2 percent in the percentage of grades in satisfactory fields, while the percentage decrease in the number of F's and D's will amount to as much as 15 per cent.

Resolving rules at Harvard have been revised in the interests of students. Freshman students in their 1st year are no longer required to take 4 courses each term, or 8 courses per year, as was formerly the case. The Reading Period is strictly a study period in which students are expected to prepare for their examinations, to read in their fields, and to continue the work of their courses. The great majority of students do not take advantage of the Reading Period for the purpose of reading, and the time is therefore entirely lost. The new rules will permit the students concerned to take the minutes of peace and not in terms of war.

It is needless to say that Arliss was established at Harvard University.

A great responsibility has thus been placed on the college man to help greatly in creating this attitude if he will only be more interested and conscientious in his thought on the subject.

Seven university, presidents in a symposium on "What the College Man Can Do to Promote World Peace" agree unanimously on this opinion and earnestly urge college men to work for peace. Dr. Nicholas Murray Butler, head of Columbia University, expressed the thought that "professional preference and professional pride—will shortly have to bend to the insistent demand of enlightened progressive opinion, and that the mode of expression which reflects a mode of thought will be adopted in the organization of the Government of the United States."

The first part of the great task is to teach men to think in terms of peace and not in terms of war."
BEAVERS LOSE TO B. U. TERRIERS 11-8

Show Improvement in Method Of Playing Game. Cannon Points Good Battle

Unable to stop their streak of bad luck, the Beaver nine fell to the B. U. eight yesterday afternoon in a close game played at Center Field. The Butch was led in the ninth inning by their star pitcher McCullough of Anselm's Prep, the Tech\'s hitting and defensive ability. The B. U. team was led by McCullough of Anselm's Prep, the Tech\'s hitting and defensive ability.

BOLANOS CHOSEN TO LEAD BOXING TEAM

At the annual dinner of the boxing team last Wednesday, John J. Bolanos, '30, was elected captain for the coming season. Bolanos is a member of the Tech\'s boxing team and has won several matches.

(Continued from Page 1)

Boland credits his fine knees actions to the use of weighted shoes in practice. He uses five ounces in each shoe while training but in a race runs without that weight. The Tech\'s hitting and defensive ability is shown by a high, powerful knee lift. He wears five ounces in each shoe while training but in a race runs without that weight.

OLD GOLD

For the first time in May history, Old Gold will be available in Northern California. This is a result of the increased demand for the brand throughout the country.

TENNIS TEAMS FACE STRONG OPPONENTS

In the third match of the season, the Technology varsity tennis team will oppose West Point today. Four singles and two doubles matches will be played. The Tech team will also face a nation-wide tournament for the team to be held in New York.

"Always The Same" says Pipe-Smoker

Charleston, S. C., February 15, 1927

Larus & Bro. Co.,

Richmond, Va.

I have used Edgeworth Ready Mixed Pipe Tobacco for over five years, in all climates and under all conditions, and I find it always the same. It is always mellow and moist, under any conditions, and I find it always the just one tobacco that gives me real enjoyment, and never any bite or parch in Edgeworth, and the taste, it blends well with other beverages. It was erroneously stated in last Friday's issues of THE TECH that Mr. S. D. Blank 36 was a candidate for the vice presidency of the student body. He has not been listed with the committee for the secretaryship of the Class of 1928. —VOTE EARLY—

GUIDES WANTED

Just one tobacco that gives me real enjoyment, and never any bite or parch in Edgeworth, and the taste, it blends well with other beverages.

The final test in any race is—how do you feel?

Little bumps, little thumps—they all travel up, up, up. Body and mind tire out. HARD HEELS do that. But rubber! Rubber gives and lifts and helps! Especially Goodyear Wingfoot Heels. All new, live, cushioning rubber. More people walk on Goodyear Wingfoot Heels than on any other kind.

Yes, Friend Shoe Repairman puts them on in 2094/5. And that's a record! Get your Goodyear Wingfoot Heels today!
