

## COMBINED CLUBS TO PLAY TONIGHT

### BROWN UNIVERSITY MUSICAL CLUBS TO PRESENT PROGRAM

Dancing Will Follow Combined  
Concert at Somerset With  
Techonians Playing

#### TICKETS ON SALE IN LOBBY

Brown's Combined Musical Clubs will have a chance to show a Boston audience just what their program is like at tonight's Combined Concert with the Technology Clubs at the Hotel Somerset. The concert will be predominately a Brown concert, for the Technology Clubs are well known in this city, while the Brown Clubs seldom come here. Each of the Technology Clubs will, however, appear at least once during the course of the evening's entertainment, and will also present a few specialty acts.

Two numbers, which are not of a musical nature will be included in the program in order to break up the monotony of the entertainment. There will be a reading by Mr. Crull and the popular drama "Little Nell" as interpreted by Ray Hawkesley. Both of these numbers are well known and should certainly provide an entertaining diversion.

Brown's Musical Clubs, which have been contenders for intercollegiate honors for many years, as have the Technology Clubs, will leave shortly  
(Continued on page 4)

### Somerset's Large Room Chosen for Sophomore Dance

Ample Room Provided for  
Crowd At Annual Party  
On March 9th

Hotel Somerset's Louis XIV Ballroom has been hired for the annual Sophomore Dance of March 9 according to the latest announcement of the Class Executive Committee. After considerable deliberation, it was decided that this hall would be the most convenient and thoroughly suitable for the needs of a dance open to all the undergraduates at Technology.

There is ample space for over 400 couples, which means that the space will be increased about twenty per cent over last year in an effort to do away with the crowded conditions which have been prevalent at these parties in the past. In addition to the regular size of the ballroom, there is a fairly large alcove at one end which can easily be opened should the conditions demand such an action.

This hall is already familiar to a large percentage of the students at Technology through the interfraternity dances which are being held there this year.

As the orchestra for the event, the Committee has procured the Barbary Coast Orchestra from Dartmouth, whose reputation is widely established throughout the East. Tickets will be put on sale on or about the twenty-seventh of this month, and will be in the hands of about 25 picked Sophomore salesmen.

#### Technique Signups On Sale at Reduced Rate

Technique signups at the reduced rate will still be available for the remainder of this week. Technique salesmen will be on hand at the Aldred lecture today to sell signups for the 1928 Technique. There are still 230 seniors who have not yet signed up for their year book it was announced last night. If these men do not subscribe today at the lecture they may still do so at the Technique office. This reduced offer is open to all students of the Institute but after Saturday signups will cost \$2.

#### College Editor to Speak At THE TECH Smoker

Mr. Harlan R. Ratcliffe, College Editor of the "Boston Evening Transcript," and one of the most interesting speakers in the newspaper circles of New England will speak at THE TECH smoker on Monday. Mr. Ratcliffe will recount some of his experiences and adventures as an editor and journalist. The informal smoker will be held in the Faculty Dining Room of Walker Memorial on Monday at 5 o'clock. All students are cordially invited to attend, especially those who wish to enter the mid-year competitions for positions on the staff of THE TECH.

#### Expect to Open Railroad Course To Students Soon

Cooperative Arrangement With  
B. and M. Awaits Formal  
Sanction of Faculty

As a result of several months of study by representatives of the Institute and of the Boston & Main Railroad, the five-year co-operative course in Railroad Operation leading to the Master of Science degree has been established and will be placed in operation as soon as the faculty approves its schedule of studies.

Its purpose is to provide an opportunity for students who desire to become railroad operating officers, to receive a thorough training at Technology and practical experience in all branches of the operating department of the B. & M. Railroad. This course is unique as an educational project and offers a chance to learn "railroading" in a more thorough way than has ever been attempted elsewhere.

Although the course will be administered by the Civil Engineering department its scope is not at all limited to Civil Engineering students as the railroad is particularly anxious to develop men for all phases of railroad operation, including positions along civil, mechanical, electrical, transportation and executive lines.

The course will include two years at the Institute followed by three years during which the student alternates between the Institute and the railroad. The student becomes a regular employee of the Boston & Maine  
(Continued on Page 4)

### HOOPSTERS TRIM UNION, BUT LOSE TO WEST POINTERS

Score of 29-19 Result of Union  
Game, While Army Score  
is 38-25 the Other Way

#### SHOW FLASHY OFFENSIVE

The M. I. T. basketball team has just returned home after a successful trip that took them through Schenectady, West Point and New York. This past Tuesday evening saw them in action at Schenectady with Union. The final score of this game was 29-19 in favor of the Engineers. Flashy offensive work at the opening of the second period enabled the Engineers to win the game. At half time Tech was in the lead by one point. At the start of the second half the Engineers with a sudden spurt were able to obtain a lead of seven points. They kept this lead throughout the game. DeLong of Union and Captain Estes of Tech starred for their respective teams. Captain Estes scored ten points while DeLong scored 11 points.

The game on Wednesday afternoon ended a bit differently. The final score of this game showed the Army in the lead by 38-25. The Army got away to a quick start from which the Engineers were not able to recover. At half time the Army was in the lead by ten points. In the second period M. I. T. did better work, being barely outscored by the Cadets. Zimmerman was the outstanding player for the Army, his floor work and passing being particularly good, while Flood was the high scorer of the game. Captain Estes was the outstanding Cardinal and Gray player.

Providence, the next opponent of M. I. T., has a number of star players. Johnny Krieger, who plays left forward, is the high scorer at present with a total of 125 points in 12 games. Larry Wheeler, a flashy center, was all-New England interscholastic center for two years as a member of the championship Rogers High team. The team has won five games out of 12, defeating New Hampshire University and Boston University easily in the last two games.

### DORMITORY MEN ARE PRESIDENT'S GUESTS

About two hundred men from the Dormitories were the guests of President Samuel W. Stratton Wednesday evening at an informal supper at the President's house at 10:30 o'clock. The men left their studies at that time and enjoyed a social hour and a half during which time they were served with refreshments.

Several cheers were given for Dr. Stratton and the get-together was concluded with the singing of the "Stein Song."

### Robert Ridgway Delivers Aldred Talk On Subway Construction at 3 O'clock

Third Lecture of Series Will  
Be Given in Room 10-250  
This Afternoon

Mr. Robert Ridgway, Chief Engineer of the Board of Transportation of New York City, will deliver the third lecture in the series of this year's Aldred Lectures in Room 10-250 tomorrow afternoon at 3 o'clock, taking as his subject, "Subway Construction in New York City." As usual, Senior and Graduate Classes coming at that hour will be omitted.

One of the most colorful parts of Mr. Ridgway's career was his connection with the building of the Ashokan Reservoir, which supplies water for almost all of New York City, bringing it down from the Catskill Mountains. At that time he was department engineer for the Board of Water Supply for New York City and had charge of the location and construction of the water system from the Catskills, including the Storm King crossing of the aqueduct. The source of the water is on the west side of the Hudson River; New York is on the east side; and in order to insure that there would be no possibility of contamination of the city's water supply, the water drops 1200 feet vertically at Storm King, crosses under the Hudson, and then rises in a shaft on the other side.

Mr. Ridgway rose to his present position after devoting most of his life

to water works and subway engineering. Starting as a rodman and leveler on a western railroad, he later took a position with the New York City Aqueduct Commission, and was soon assistant engineer in charge of construction of reservoirs and dams.

In 1900, Mr. Ridgway transferred his activities to rapid transit construction, and was responsible for the South Ferry Loop in the Borough of Manhattan, New York City, and various tunnels under the East River and subways in Brooklyn built for the city.

Since 1912, Mr. Ridgway has devoted himself exclusively to subways, and has been chief engineer for first the Transit Commission and then the Board of Transportation of New York. He was also specially appointed a member of the Chicago Traction and Subway Commission for two years in order to help in solving the transportation problem in that city.

Mr. Ridgway is a member of the American Society of Civil Engineers, of which organization he has held both the presidency and the vice-presidency at various times. Although he received no formal college education, he has received honorary degrees from both New York University and Harvard.

Although the lectures of the Aldred series are given primarily for members of the faculty, Seniors, and Graduate students, the remainder of the student body is admitted up to the capacity of the lecture-room.

### JAMES DONOVAN, CYRIL B. MEAGHER, ELISHA GRAY, CHOSEN SENIOR MARSHALS

#### Wrestling Team Meets Brown In Third Encounter

Engineers' Recent Victory  
Shows Strength at Light  
Weights

Handicapped by a lack of heavy men, the Technology wrestling team engages in its third meet of the season tomorrow night. The team's record includes one victory and one defeat, and the chances are rather poor for a victory over Brown. Last year the "Iron Men" proved to be the downfall of the Engineers, and the prospects are good for the appearance of the beefy football players on the mats in the Hangar. In the lightweight classes Technology was well able to hold its own, as last week's match with Brooklyn Poly will prove. Above the 145-pound class every man is out-weighted considerably, and there is not a single man entered in the unlimited class.

Canter is the Cardinal and Gray entry at 115 pounds and has proved himself a valuable man. He was one of the most consistent winners on last year's frosh team, and has shown well in his two varsity meets. In the 125 event, Captain Jimmy Cullen, wrestling his third year on the varsity, is conceded almost any match he enters. With a long experience at the sport, and more fight than any man Greene has coached for a long time, Cullen is the outstanding man on the team. Another Sophomore is scheduled to wrestle at 135 pounds. Cooper was also a point-winner as a freshman, and he has demonstrated a great deal of promise. DerMarderosian, a veteran of last year, is a good bet in the forty-five.

#### No Entry in Unlimited Class

With nobody on the squad weighing over 160, Coach Greene has picked his best bets to wrestle in the welter and light heavyweight classes. Gentle will take on the Brown 158-pounder, and Pitbladdo is entered at 175. What these two lack in size they can usually compensate for in fight, and regardless of the outcome of their matches, they will be interesting from start to finish. It is likely that there will be no Brown entry in the unlimited bout; if there is, Technology will probably have to forfeit five points.

The frosh meet with the Brown cubs will precede the varsity meet, beginning at about 8 o'clock. Both teams have been whitewashed by Andover, so a good meet is in store. The Tech entries are: 115, Chibas; 125, Cook; 135, Basinger; 145, Elbaum; 158, Snow, and 175, Grozen. The referee will probably be George Myerson.

### PROFESSOR BRAGG IS GUEST OF HONOR

Faculty Club Has Luncheon for  
Winner of Nobel Prize

Professor Bragg, who was born at Adelaide, South Australia, spoke at the Luncheon Meeting of the Faculty Club Wednesday upon the subject of British Provincial Universities.

Professor Bragg received his early education in South Australia. He is the son of Sir William Henry Bragg, Director of the Davy-Faraday Research Laboratory in London, England. Faraday was a Director in this society. In 1915, Professor Bragg, together with his father, received the Nobel prize in Physics for work on X-rays and Crystal Structure.

At the present time, Professor Bragg, who is Langworthy Professor of Physics at Victoria University, at Manchester, England, is visiting lecturer here, on a three months leave of absence. He is conducting a course in Crystal Physics in connection with the Physics Department.

Professor H. W. Tyler, head of the Mathematics Department at the Institute and president of the Faculty Club, presided at the meeting. A table d'hôte luncheon was served.

### CLASS ELECTIONS ARE APPROVED BY INSTITUTE BODY

Committee Recommends That  
Date of Condition Exams  
Be Advanced

#### SENIOR POLLING LIGHT

James Donovan '28 was elected to the office of First Marshal of this year's Senior Class Day as a result of the polling which was done on Wednesday. The elections were duly approved at the Meeting of the Institute Committee yesterday afternoon.

Donovan is now the vice-president of the Institute Committee, being the representative of the Class of 1928 on the student government. In addition, he is the chairman of the Freshman Rules Committee. Previous to this year, he was connected with Tech Show, having been a member of the junior board last year. He is a member of Osiris.

As second marshal, the graduating class elected Cyril B. Meagher '28 who is captaining the Varsity Track Team this year. Meagher is the star quarter-miler of the team and has held the board track record for that distance for some time. Besides that, he holds the office of vice-president of the Senior Class. He is a member of the Beaver Club.

Elisha Gray '28 was chosen to serve as third marshal. He is now serving as Secretary of the Institute Committee, and at the same time is the second representative of the Senior Class on the Committee. This year, Gray is the Chairman of the Interfraternity Conference, and a member of Beaver  
(Continued on Page 4)

### GREGORY ADDRESSES CIVILS ON BIG DAM

John Hopkins Professor Speaks  
At Joint Meeting

John H. Gregory delivered the principal address at the annual joint meeting of the Boston Society of Civil Engineers and the Student Civil Engineering Societies of this vicinity, at Tremont Temple on Wednesday night. His subject was "The O'Shaughnessy Dam and Reservoir," a discussion of the dam and storage reservoir of the City of Columbus, Ohio. The reservoir is eight miles long, has a storage capacity of 5,341,000,000 gallons and cost \$2,220,000.

Prior to the meeting, a buffet luncheon was served by the Social Activities Committee assisted by some Institute men. The 30 piece band of Northeastern University played during the supper which was attended by about 350 men, following which the meeting was held, presided over by Frank A. Marston, President of the Boston Society of Civil Engineers. About 400 were present, sixty of whom were Institute men.

Mr. Gregory, who is a consulting engineer and Professor of Civil and Sanitary Engineering at the Johns Hopkins University at Baltimore, illustrated his lecture with lantern slides of the project, which showed the immense proportions of the dam. His paper was published in the February issue of the proceedings of the American Society of Civil Engineers.

### CALENDAR

- Friday, February 17
- 3:00—Aldred Lecture, Room 10-250.
- 8:00—M. I. T.—Brown Musical Clubs Concert, Hotel Somerset.
- Monday, February 20
- 9:00-5:00—Freshman Section Leader Elections at various rooms.
- 5:00—THE TECH Smoker, Faculty Dining Room, Walker Memorial.
- 8:00—Radio Society Meeting, Room 10-200.
- Friday, March 2
- 3:00-10:00—Prep School Night.
- Friday, March 9
- 9:00—Sophomore Dance, Hotel Somerset.
- Friday, March 23
- 9:00—Freshman Dance, Rogers Building.

OUR NEWEST COURSE

THOUGH traditionally slow in accepting the lighter customs and ideas of the American college world, the Institute has never yet failed to lead the way in the broadest sense in practically every field of engineering instruction.

It is solely from the point of view of progress and improvement in its methods that the Civil Engineering Department is laying the foundations for a similar cooperative course in Railroad Operation, giving their men the same opportunity that is offered to those in Courses VI-A and X-B.

Interest in cooperative courses is well evidenced by the satisfaction and enthusiasm displayed by those who have already benefited by this system. Though spending a large part of the Junior and Senior years away from Technology does not at all tend to develop one's social and activity life, few feel that these play so large a part in one's life that they outbalance the opportunity to begin with certainty a future vocation.

Herein lies the greatest attraction of the cooperative courses. While there is by no means absolute agreement by any of the concerns interested that they will offer the men immediate positions after graduation, there is every chance that with reasonable ability a man's early future is assured.

WHY NOT JOURNALISM

WE have long held that cultural courses at the Institute occupy a very minor position in the schedule of the average student. This is of course the inevitable result of attempting to cram into a period of four years the amount of technical training necessary to a capable engineer, as well as a certain amount of general information which an educated man is expected to possess.

Technology students are particularly fortunate in having such a wide range for their writing, for in "Tech Engineering News," "Technique," "Voo Doo," and THE TECH any student may find the work that is best suited to his ability and interest.

Although the call for candidates for the activities is usually issued at the opening of the school year, opportunity will again be afforded on next Monday to those men who failed to heed the first call. THE TECH is starting a new competition, open to all students, and we would advise those men who appreciate the fact that they are missing a very vital part of their training to come out and learn to write and manage a thriving newspaper.

THE EDITORIAL SPECULUM

The axe of dissension descends once more upon the wavering oak of tradition. With one deep bite of the sharpened weapon, the tree has bared its secret to the brilliance of the spotlight of discussion.

A misunderstanding has arisen among several of the Faculty members of the E. E. department and the Juniors who take the P. E. E. 6.02 course with regard to the editorial on "Arbitrary Lectures."

Is it any wonder that we doubt the value of the subjects of these arbitrary lectures (casting no aspersions on the lecturer) after learning how little an impression the 6.00 lectures have made on the men?

Some upperclassmen of the Louisiana State University clipped the hair of 300 freshmen. As a result three Varsity football men and five other students have been dismissed.

## Finds Tobacco for "Breaking In" a Pipe

Columbus, Ohio  
March 10, 1927

Larus & Bro. Co.  
Richmond, Va.  
Gentlemen:

Two years ago my wife gave me an expensive pipe. I smoked it a great deal for two or three weeks, put it aside, then began smoking it again. This time it was very strong. Veterans told me that it had been smoked too hard for a new pipe and should be put away.

The pipe was laid away again. A short time ago I got it out and smoked one of the common brands of tobacco in it. The results were disappointing. I told the druggist of my experience with it. He asked if I had tried Edgeworth. I told him I never had. I followed his suggestion, and I am honest when I say that it has restored the sweetness to the pipe, and has made me wonder. Was it the pipe or the brand of tobacco that caused me to lay it away for the long period of time?

As a novice, I prefer Edgeworth. I am going to stick to it, as I feel satisfied that there is none better on the market.

Sincerely yours,  
Philip C. Spera

Smoking Tobacco

## FENCERS HAVE TWO MATCHES THIS WEEK

### Bowdoin and Columbia Will be Opponents of Engineers

Technology's varsity foilmen will get into action again this week-end with two home meets scheduled on the program. Both meets will be held in the faculty dining room in Walker. Bowdoin will try its fortune on Friday night at 8 o'clock. Columbia is on the boards for Saturday afternoon at 2:30. Both teams have shown good work this season and the Engineers will have to exert itself if they take a pair of wins.

In the foils the team has an excellent lineup. Harris and Ferre ought to be able to take their bouts. Either Harrison or Kononoff will have to take Lester's place. In the epee and sabres the Beavers are not as sure of a score but they have done good work in those events. If Siller's card goes through the two members of last year's epee team which got into the Intercollegiate will be able to fence. On the whole the two ought to be both good meets, with the Beavers having a reasonably certain chance of defeating Bowdoin and about an even break with the strong Columbia outfit.

## M. I. T. GYMNASTS MEET PRINCETON

### Tigers Have One of Strongest Teams On East Coast

Technology's gymnasts meet Princeton in what will probably be the hardest meet of the season, Saturday in Walker gym at 2:30. Princeton boasts several well known men, among them being Taylor, who placed first on the rings and second on the ropes in last year's intercollegiate. These two events have been conceded to the Tigers and it looks as if they will get several more.

Harold Fairchild and Almer Moore probably have the best chance of anyone to come through with a first or a first and second on the horse. This is the only event in which Princeton is not known to possess unusual strength. According to the dope, the Tigers are slated to walk off with the East Coast Gym championships this year.

Besides Taylor, Princeton has two other men who have been breaking records so far this season. Moroney, who is only a Sophomore, has been giving some wonderful tumbling exhibitions lately and he is slated to be among the first three in this year's intercollegiate. Dolloff and Bauer have been working hard trying to develop several more difficult feats to add to their present series. Dolloff has been handicapped by a sore knee, but it is expected that he will be in shape by the time the meet opens. Bauer has been spending most of his time on the parallels, but he has found time to put some work on tumbling and has already ironed out one or two things that bothered him last week. In the meet last week he landed with one foot off the mat and thus automatically ended his series. He is trying to eliminate this so that he may successfully complete his series.

Slively is the other Princeton man who has been creating news in the intercollegiate gymnast circles. He is a good all around man and it is not

known as to what he will star on. However, he is good enough in many of the events to keep the Engineers stepping. With these three stars, the Tigers ought not to have very much difficulty in taking the meet from the Cardinal and Gray.

Captain Stephenson and Dave Wells have been working hard on the horizontals and both of them have been

doing some very good work. Steve's giant swings are getting better every day and his dismounts are much better executed than they were at the beginning of the year. Although many people do not think that a dismount counts very much, it is often enough to give a victory to a person in a close meet, and it always adds to the appearance of a series.

## TAKE IT EASY

"They say that True Love never runs  
"As smooth and sleek as seals;  
"Oh, yes, it does, when Sweethearts walk  
"On Goodyear Wingfoot Heels."

EVERYWHERE you look, in college and out, you note the growing tendency toward the easy dignity of rubber heels. The noise that hard heels make frequently detracts from an otherwise attractive personality. And the jars and jolts of walking on unyielding heels are a real cause of foot-weariness. Rubber heels—and particularly Goodyear Wingfoot Heels—

absorb the hammer blows of thousands of steps. They cushion firmly, deeply, resiliently. And they have the trimmest style. You'll see them on the smartest shoes of the best manufacture today, and more people walk on Goodyear Wingfoot Heels than on any other kind.

Slip into the repair shop and say "new Goodyear Wingfoot Heels, please!" On in a minute!

**SENIOR CLASS HOLDS COMMITTEE ELECTION**

**Institute Committee Approves Senior Week Elections**

(Continued from Page 1)  
and Osiris. Up till last year Gray was connected actively with Tech Show, being a member of the junior board last year.  
Of the 32 men who were nominated for membership in the Senior Week Committee, the following 25 members of the Class of 1928 were elected: Gilbert J. Ackerman, Carl P. Bernhardt, Homer A. Burnell, Christopher M. Case, Norton M. Case, George I. Chatfield, Morris M. Cohen, Robert Cook, James A. Cullen, Albert S. Dempehoff, Richard S. Goble, Albert J. Garcia, Elliot B. Grover, Ames B. Hettrick, Raymond A. Jack, Robert J. Joyce, Peter H. Kirwin, John C. Melcher, Walter J. Nock, George P. Palo, Alva H. Pearsall, Donald E. Perry, Albert J. Puschin, Paul E. Ruch, Charles H. Topping.

In connection with the plans which the faculty are now discussing to hold the condition examinations for those who fail courses at the Institute earlier than at the end of the following term, the Institute Committee passed a recommendation stating that they were favorable to the plan of holding them on five consecutive Saturdays during the term immediately following the regular examinations.

**ENGINEER SWIMMERS RACE YALE AND ARMY**

**Four Intercollegiate Champions Are Members of Eli Team**

Yale and West Point will be the opponents of the Engineer swimmers on their New York trip this week. The team leaves at one o'clock today and races Yale at New Haven Friday night and Saturday afternoon the swimmers will meet the Army at West Point.

The Elis boast one of the strongest college teams in history and including among its members four intercollegiate champions, so the Cardinal and Gray will probably be beaten by a large score. The Cadets have a team about on a par with M. I. T. and the score should be very close.

Luey and Jarrosh are the men on whom the Institute hopes are pinned for first places. Both men have broken Institute swimming records several times. Luey in particular doing good work this year. He is the best M. I. T. man in the fifty yard dash and the back stroke at present and has scored well in all the meets this year.

**CLASS OF 1914 WILL BANQUET MR. JACKSON**

Mysteries of the life of William Jackson and his long association with Technology will be revealed tomorrow night at the annual banquet of the Class of 1914, it is announced by Harold B. Richmond, class secretary.

This annual winter party will begin at 6 o'clock at the Engineers Club of Boston, and all who were associated with the Class during their undergraduate days at the Institute are invited to attend. Besides the dinner, special features and entertainment are promised.

This dinner will be held as a special tribute to Mr. Jackson, who has been associated with Technology in various capacities for more than 14 years and who is now in charge of the Information Office here. At this time Mr. Jackson is expected to reveal some interesting facts concerning his faithful service to the Institute which have hitherto been hidden in a veil of secrecy.

**SPORTS CALENDAR**

Friday, February 17

Fencing—Varsity vs. Columbia at Walker.

**NEW OPTION WILL BE ADDED TO COURSE I**

(Continued from Page 1)  
Railroad and earns a total of about \$1500 during his co-operative work. There will be four co-operative periods averaging about 18 weeks each. These will include work in the following departments: Maintenance of Way, including signals; Maintenance of Equipment; Conducting Transportation, in both freight and passenger service; and General, including Stores and Accounting. During the fifth year the student will take graduate work along the lines for which he has shown himself best adapted.

As only a limited number can be admitted to this course, those students having clear records will be selected. Sophomores desiring to enter the course should see Professor J. B. Babcock, Room 1-337, at once in order that their second term programs may be arranged to the best advantage. Freshmen who are interested should also consult Professor Babcock at an early date.

**FRESHMEN SWIMMING NOTICE**

The following men are going to swim in the Malden meet and will meet in the lobby of Walker (just inside the front entrance) on Saturday, Feb. 18, at 7:15 p. m.: Allen, Baker, Bensinger, Holst, Lam, Lutz, Lykes, MacKay, McMinn, Moeller and Noyes.

**TECH-BROWN CONCERT TO BE AT SOMERSET**

**Techtonians Will Play After Concert Until 2 o'clock**

(Continued from Page 1)  
on an extended tour through the Middle West, including in their itinerary Philadelphia, Buffalo, Detroit, and many other cities. This should give them excellent practise for their forthcoming struggle for intercollegiate honors.

The concert, which begins at 8:00 o'clock tonight will probably be over by eleven o'clock, when the Techtonians will play until two, for the dancing which will follow. Tickets for the Concert are on sale in the Main Lobby today from twelve until two o'clock, and are \$5 a couple, or \$3 stag. Tickets may also be procured at the door.

Sanction has been given to this affair by the Inter-Fraternity Council, in that they have requested that none of the Fraternities hold a dance tonight.

**Tentative Program Announced**  
A tentative program has been arranged as follows:

1. Jolly Sailor March  
Popular Selections  
Dance of the Moths  
(Brown Banjo Clubs)
2. Winter Song  
The Nightingale  
The Scissors Grinder  
(Tech Glee Club)
3. Reading (Mr. Crull)
4. I'll Always Remember You  
Just a Memory  
Varsity Drag  
(Tech Banjo Club)
5. Specialty Act  
Little Nell  
(Ray Hawkesley)
6. Old King Cole  
Heaven, Heaven  
Who Sails With Drake?  
(Brown Glee Club)
7. Guitar Specialty  
(Whitman—Wells)
8. Poet and Peasant  
Kamenoi Ostrow  
A Selection  
(Tech Instrument Club)
9. Medley of Brown Songs  
(Combined Brown Clubs)
10. Take Me Back to Tech  
Stein Song  
(Tech Glee Club)

**MILD WEATHER K. O.'S TWO HOCKEY GAMES**

Once again the Cardinal and Gray hockey team is unable to play because of poor ice and the games with New Hampshire University and Bates have been called off. The Engineers are scheduled to go up to Maine to meet Bowdoin, but if the weather continues mild that game will also have to be cancelled.

A practice scrimmage was held yesterday between the Varsity and freshmen in which the Varsity did the best work it has done this year. Bill Cullinan, regular right wing last year, has been declared eligible and in his play yesterday he showed that he will be a valuable addition to the team.

**T. E. N. WILL BE PUT OUT ON SALE TODAY**

The February issue of the Tech Engineering News will be on sale in the corridors today, Saturday, and Monday. "Knowledge Plus Wisdom" is a featured article by William E. Nickerson '76.

Three other articles are on the general theme of civil engineering and construction, while another takes up a new test pit for large generators which has recently been put into service.

**RADIO SOCIETY**

There will be a meeting of the Radio Society in Room 10-200 Monday. The results of the station in the International tests will be discussed. Anyone interested in radio is cordially invited to attend the meeting.

**SECTION LEADER ELECTIONS**

On Monday and Tuesday new section leaders for the freshman class will be elected in the various sections. The students are urged to think over their elections and to choose the man who will best represent their section.
